Transport

Only 100% quality products are given the Volkswagen Genuine name.

Laboratory testing:
Corrosion test in saltwater spray systems, UV resistance, environmental compatibility and many additional laboratory tests examine all the relevant material properties. The climate chamber subjects the products to extreme temperatures.

Endurance:
Whether short distances, high-speed or route profiles of varying difficulty – durability under continuous load conditions is tested. The special road endurance test is carried out with a distance of 20,000 km using the maximum permissible load and a variety of different testing profiles.

Test track:
Test drives with maximum acceleration both forwards and to the sides, for instance by weaving around obstacles, emergency braking or over cobblestones subject the accessories to extremely hard tests over and over again.
01 Roof Bars
The genuine roof bars provide the base for all roof attachments and are aerodynamically designed to suit the Polo.
Part no. 2G0071126

02 Surfboard holder
Bringing your surfboard safely to its destination: The rubber-coated surfboard carrier and a special rubber protector for the metal clamps on the tensioning straps provide extra protection during transport.
