

# SHERIFF CL PLUS

AUSTRALIAN PREMIUM WHITE APW

**NEW**

**ALTERNATIVE TO:**

- ELMORE CL PLUS 
- GRENADE CL PLUS 
- KORD CL PLUS 
- CHIEF CL PLUS 

SOUTHERN ZONE 2019

## Variety Overview

SHERIFF CL PLUS  (IGW6155) is the highest yielding APW Clearfield Plus wheat commercially available. SHERIFF CL PLUS  offers exceptional yield stability as consistently demonstrated within NVT MET yield results. SHERIFF CL PLUS  is a mid-late maturing wheat and is ideally suited to a late April to early May sowing. It can be sown approximately a week earlier than CHIEF CL PLUS . SHERIFF CL PLUS  offers a useful disease resistance package, including good yellow leaf spot resistance. The variety is rated as susceptible to CCN and will need to be managed within the rotation with CCN resistant break crops such as SPARTACUS CL  barley. SHERIFF CL PLUS's  maturity coupled with the Clearfield® Plus trait provides an ideal variety for early sowing as it supports a flexible, post emergent weed control option with the use of label rates of Intervix®. SHERIFF CL PLUS  has a moderate plant height and has good physical grain characteristics, including a good grain size and hectolitre weight.

**SHERIFF CL PLUS  is available for planting in 2019 from local Seedclub members and resellers.**

Meet the new mid-late maturing Clearfield® Plus wheat officer, protecting yield and yield stability.

## Variety at a glance

HIGH YIELD AND YIELD STABILITY

GOOD GRAIN SIZE

YELLOW SPOT (MRMS)

CLEARFIELD® PLUS WHEAT (INTERVIX® TOLERANT)

MID-LATE MATURITY

# CLEARFIELD PLUS PRODUCTION SYSTEM

SHERIFF CL PLUS (♣) possesses two genes which confer tolerance to label rates of the Intervix® herbicide. Intervix® is a member of the Group B – imidazolinone chemical family. Intervix® is a post-emergent herbicide providing control of many major grass and broadleaf weeds present in broadacre cropping systems. These weeds include brome grass, barley grass, wild oats, indian hedge mustard, muskweed, oats, wheat and barley (non-Clearfield®), wild radish, wild turnip and suppression of annual ryegrass.

For full product, plant back and application details please refer to the Intervix® product label available <http://www.agro.basf.com.au/crop-solutions/broadacre/clearfield>

# SEED AVAILABILITY

Seed is available from through your local reseller or Seedclub member.

For more information please contact your local Territory Managers, Josh Reichstein on 0422 235 537 or [jreichstein@intergrain.com](mailto:jreichstein@intergrain.com), and Kynan Jackson on 0427 855 059 or [kjackson@intergrain.com](mailto:kjackson@intergrain.com)
