

COMMERCIAL – STRATA – MIXED USE – EDUCATIONAL FACILITIES – LIFESTYLE VILLAGES – HOTELS – HOSPITALS – INDUSTRIAL - RESIDENTIAL

Client: Pro-Active Strata Management

Location: 2 Dynevor Rise, Floreat

Project: Exterior painting

Comments: Perrott Painting were engaged to undertake the first painting maintenance for the relatively new complex. The maintenance item worked on was re-oiling the exposed lapped timber cladding to both the Northern and Southern elevations. The developer was able to supply product information re the original oil used on the timbers. Perrott Painting was then able specify the maintenance product used and a forecast time line with set procedures to keep the timber in tip top shape going forward.

“Pro Active Strata Management have recommended Perrott Painting to our clients for a number of years due to the quality of their work and attention to detail on every job no matter the size. The knowledge and assistance received from Perrott Painting in relation to the oiling requirements for this timber cladding was fantastic and the finished product was, as always, of an exceptionally high standard and quality”
