

# Consultation process

The purpose of this fact sheet is to provide information about consultation on the summary framework for the State Public Health Plan 2019-2024.

## Background

Recently, a review of the inaugural State Public Health Plan was undertaken. Over 180 individuals and organisations, covering a broad range of stakeholders, were involved in providing feedback on the 2013 Plan. The review explored the achievements of the Plan, content and gaps as well as aspects that needed to be considered in the development of the next Plan. The report of the review findings can be found [here](#) and the findings and recommendations have been considered in the development of the summary framework.

## Purpose of the summary framework for consultation

The purpose is to outline and explain the broad architecture of the State Public Health Plan 2019-2024, including its vision, goals, priorities, deliverable areas and indicators. The summary framework is the base from which the second State Public Health Plan will be developed and will be used to enable consultation with stakeholders. It does not provide all of the detail that will be included in the full Plan, but feedback from this consultation process will be used to inform the development of the full draft Plan.

## Consultation scope and approach

Consultation on the summary framework will occur between April and June 2018. Stakeholders will be approached to provide feedback both individually and through consultation workshops across regional and metropolitan South Australia.

Feedback can also be provided through <https://yoursay.sa.gov.au/decisions> where community members will be encouraged to share their vision for a healthier South Australia and public health stakeholders will be asked to provide feedback on all aspects of the draft framework.

Written submissions providing feedback on the structure and content of the summary framework as well as specific feedback in relation to the vision, priorities and deliverable action areas can be emailed to [PublicHealthAct@sa.gov.au](mailto:PublicHealthAct@sa.gov.au)

Submissions close on Friday 15th June 2018.
