Smart Sensor Nav System™ adjusts and adapts cleaning cycle by learning your pool configuration.

Simplified user interface through the intuitiveness of the iAquaLink™ application.

Suction efficiency with patented continuous cyclonic suction power.

Includes convenient storage caddy
Robotic cleaners are fully independent cleaners that relieve the load on skimmer, pump baskets and filter, reducing maintenance and saving water by reducing backwash. The NEW VIRON QT1000 combines ultra-efficiency with intelligence. VIRON QT1000 has Sensor Nav System™ technology, which identifies the configuration of each pool for personalized cleaning. In addition, the iAqualink™ application allows the users to control the cleaner with an in-app remote control to clean the problem areas manually and also allows for 7-Day programming. The Elevate system makes retrieving the cleaner from the pool super easy once the cleaning cycle is complete. The cleaner comes with a 18m swivel cable that reduced tangling.

Viron harnesses the elements of Australia to create pool products that are tough yet considerate of local conditions. They are developed through uncompromising engineering and design – with real world efficiencies – with our surrounding natural environment in mind, for now and the future.

In a world where energy demand continues to grow, Viron products focus on minimising environmental impact. In being the most energy efficient and environmentally friendly pool products on the market, Viron is here to prove that ultimate performance need not cost the Earth.

---

**TRANSPARENT CANISTER WINDOW WITH LED ILLUMINATION**  
The LED light and transparent window make it easy to see inside, even while submerged.

**SUCTION EFFICIENCY**  
Combining the constant power of its patented Cyclonic Suction with an impressive filtration system, the VIRON QT1000 sets the benchmark in debris collection.

**LARGE 5L CAPACITY FILTRATION FILTER**  
With easy access and smart canister design, cleaning and removing debris has never been more simple.

**SPECIFICATIONS**

<table>
<thead>
<tr>
<th>Suitable Pools</th>
<th>For in-ground pools up to 12 x 6 m. All shapes and surfaces</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cleans</td>
<td>Floor, walls and waterline</td>
</tr>
</tbody>
</table>
| Cleaning modes | 1 - Quick clean for floor only  
2 - Smart cycle for floor/walls/waterline  
3 - Deep clean mode for floor/walls/waterline |
| Timer          | 7-Day Programming via iAqualink App                         |
| Remote Control | Yes, via iAqualink™ App                                    |
| Power          | Robot voltage - 30 V DC  
Main power supply - 220-240 VAC, 50 Hz  
Max power - 150 W                                  |
| Weight         | 10 kg                                                       |

**WHAT’S IN THE BOX?**

- VIRON QT1000 Cleaner Body  
- 18m Swivel Cable  
- 100 Micron Filter  
- Trolley  
- Owner Manual  
- Quick Start Guide
