

# Pandemic + Economic Downturn = Customers who need help

**ATL recognises that many Transport, Taxi and Rideshare Operators are facing massive changes to their business and financial difficulties which require extra flexibility with their insurance cover.**

**ATL cares and can offer your customers:**

- 1 Cover for Laid-Up Vehicles whilst they negotiate the challenges that businesses across the country now face.

Laid-up cover is available as an endorsement for specific nominated vehicles and is applicable for:

Trucks and Trailers

Taxi

Rideshare

- 2 We can make changes to the type of goods carried and nominated radius of travel for transport operators to reflect changes in journeys now undertaken to help keep deliveries moving across the country.
- 3 Under pressure and paperwork not quite up to date? Our underwriters will proactively work with you to ensure that policies don't lapse.

**We all have a mission to keep the country moving.**

Real people. Real service. 24/7  
**1300 667 178**
