

AWNINGS

Atlas Straight Drop Awning

Atlas Straight Drop Awning

The perfect awning for large open areas where there are no mounting points such as walls or posts. The awning is operated by either manual crank control or can be motorised for ease of operation.

The awning skin drops vertically and is held in place by simple easy to use straps with cleats on the floor. Stainless steel or galvanised brackets available. Up and out of the way with no obstructions or down with full shade.

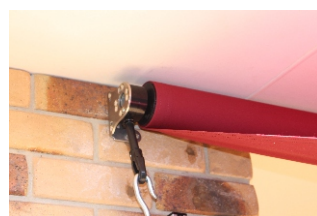

Down Straps

Bottom rail and strap

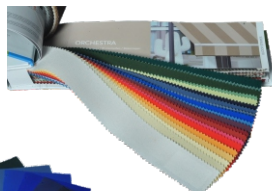

Stainless Steel Fittings

Crank Control No Headbox

Available in many fabrics and colours
