FEATURES

- The GIOTTO Fabric Tension System awning has been specifically designed to be fitted over Glass Roofs, Conservatories or Pergolas, to assist in heat reduction by shading the glass or the deck.
- Fabric is taut when the system is fully open, closed or somewhere in between.
- Maximum 5 metres wide with a 4 metre projection.
- 78mm Galvanised steel roller tube.
- Deep section front bar encloses the Tension Spring mechanism.
- The Giotto is always motorized – Gear-Box drive is not available
- Standard mounting brackets give 80mm clearance over the mullion. Extra Height brackets giving a 170mm clearance are also available.
- Side fit brackets and Sideways Adjustable brackets are an available option.
- Twin Models are available – each has its own motor and can be operated independently.
