Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

5 Tasman Avenue, Belmont presents as a unique property within the local market due to its combination of four bedrooms, three bathrooms, approximately 563m² of land and approximately 191m² of internal living space. The property also provides a level of accommodation, functionality and outdoor entertaining that is not commonly represented by recent sales in the immediate area. The combination of four bedrooms and three bathrooms, together with the overall size, layout, condition and additional outdoor entertaining features, makes it difficult to identify three recently sold properties that are genuinely comparable in terms of standard, condition and key property characteristics. As a result, there are limited directly comparable sales available within the prescribed area and timeframe that accurately reflect the overall offering of 5 Tasman Avenue.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
