Reason there are fewer than three comparable properties

☐

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

The above listed property has a substantially larger land area however; the building area is smaller than 39 Honeybark and 153 Brookwater It was also constructed in 2008 making it older than the newer comparable. So, the larger building size and newer construction provide factors that can support its higher sale price. 17 Peledora Place has similar building size and small land area but it was sold in the different market condition compare to now.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
