Reason there are fewer than three comparable properties

☐

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

We could not find any other two-bedroom houses within the 2km radius other than first comparable sale. The significant higher sale price is considered reflective of better market conditions prevailing at the time of sale compared with current market.

The last two properties that we have included in comparable sales are not direct comparable sales to the listing. 10 Vine circuit and 37 Harris Street are both 3-bedroom town houses with larger floor areas and are relatively new compared with the subject property.

Therefore, these properties have superior accommodation and age characteristics.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.

Sale price	\$ _____
