Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

Due to the unique nature, scale and landholding of this property, there have been very few genuinely comparable sales within the immediate pocket over the past 12 months. While a number of quality homes have come to market across South Morang, properties combining this level of accommodation, multiple living zones and approximately 1,462sqm of land are rarely offered.

The closest comparable is the neighbouring property, which sold for approximately \$1,730,000 on around 834sqm of land—almost half the landholding of 356 Gordons Road. Given the limited number of like-for-like transactions, providing three comparable sales would require using properties that differ significantly in land size, accommodation or overall offering and may not provide an accurate representation of this property.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
