Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

A review of residential sales within five kilometres of 4 Simpson Street, Birchip, over the preceding 18 months identified only one sale sufficiently comparable to the subject property. The available sales evidence did not provide two additional properties of a similar standard and condition to support a meaningful comparison.

26 Sherwood Street, Birchip, sold on 28 January 2026 for \$360,000, has been included as the closest available comparable. It is approximately 0.5 kilometres from the subject property and offers the same recorded bedroom, bathroom and car accommodation counts: three bedrooms, one bathroom and three car spaces. Its land area of approximately 689m² differs from the subject property's approximately 850m², and this difference has been considered

in assessing its relevance.

The assessment considered location, property type, accommodation, land and internal floor area, condition and improvements. No further sales within the prescribed area and period were identified as sufficiently comparable when these characteristics were considered together. Accordingly, one comparable sale has been included, with its differences from the subject property taken into account when determining the estimated selling price.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
