Comparable property sales

These are the three most comparable properties to the property for sale that were sold **within two kilometres** of the property for sale **in the last six months**.

If there were fewer than three, but one or two, comparable properties, these must be included below.

These properties were used to help determine the estimated selling price.

Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

After reviewing the available sales evidence, I was unable to identify any genuinely comparable properties that could be included in the PPS.

The following two nearby properties were considered; however, they have not been included as comparable properties due to significant differences from the subject property:

780 Station Street, Box Hill North VIC 3129

Although this property is located nearby, it is not a suitable comparable. It is in a different location context, has a smaller land size of approximately 615 sqm, and offers only three bedrooms. The property sold for approximately \$1.3 million, which is substantially below the subject property's fixed price of \$4.1 million. Due to the significant differences in size, accommodation, quality, and market positioning, it does not provide a meaningful comparison.

1-3/4 Barwon Street, Box Hill North VIC 3129

While this property is also located in the broader surrounding area, it is not considered comparable. It has a larger land size of approximately 914 sqm and includes seven bedrooms and three bathrooms; however, it sold for approximately \$1.687 million, which is still significantly below the subject property's fixed price of \$4.1 million. The differences in property type, specifications, presentation, and price range mean it does not accurately reflect the value of the subject property.

For these reasons, neither property has been included in the SOI, as they do not represent comparable evidence for a property positioned in the \$4.1 million market segment. Despite an extensive search, no recent sales with sufficiently similar characteristics and value range have been identified.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
