Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

There are no comparables within a 5klms radius of this house and land. No recent sales .
There has been some sales in the last 12 months except they are more than 10 klms away.
It is a farming zone/area, minimum land size areas are 50 acres -500 acres, so finding another 60 acres with a 3 year old massive home is not there. I priced the property off expected land costs, infrastructure costs, solar, tanks , driveway, shedding, separate airbnb sleepout home, that is how I came up with the price.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
