

## Quantify Consulting Limited George Street Retail Occupancy Survey

© Copyright Quantify Consulting Limited, E&OE.

### Notes:

The count is of the numbers of retail units in Dunedin's three main retail blocks (the Golden Block, the Farmers Block and the Edinburgh Way) which are occupied or vacant.

Counting method - the count is undertaken on the number of occupied retail units rather than on occupancy per square metre or occupancy on a rental basis. Units with temporary or "pop up" occupancies are not considered to be occupied units. Please contact Quantify Consulting Limited for further details.

The data provided is entirely for information purposes only and shall not be relied on.
