Are your vitamins keeping pace with your lifestyle?

Now there's several high potency vitamin formulations which release nutrients gradually over a several hour period, so your vitamins keep pace with your lifestyle, just as Nature intended. (The same way your body absorbs nutrients from slowly digested food). Blackmores call these new vitamin supplements NATURETIME Sustained Release. They maintain relatively constant blood levels of vitamins throughout the day and prevents wasteful loss of water soluble vitamins through premature excretion.

Blackmores NATURETIME Sustained Release Vitamins are recommended whenever your diet is inadequate. (Blackmores also recommend a program of fresh food, fresh air, exercise and positive thinking for optimum enjoyment of your lifestyle).
