

# CITY TO SURF

ON YOUR MARKS: Runners wait for the start of last Sunday's City to Surf race.

CHEERS! A madcap team of runners (c - strollers) head up William Street.

I'VE DONE IT! William Modhurst crosses the finish line.

DRESSED TO THRILL: Two girls on the City to Surf.

## Lucky winners

★ TWO lucky Sydney people, Andrew Messmer of Haberfield and Rita Potter of Willoughby, have won a trip to next year's Bay to Breakers run in San Francisco — just by entering last Sunday's City to Surf.

★ Gabriel Bouris of Melbourne, Carol Horn of Centennial Park and John Thorndike of Kings Langley have won trips to the Tokyo Citizens' Health Run.

★ Mementos of last Sunday's City to Surf — including T-shirts, sloppy joes and sports bags — are still available from Fairfax reader services offices at Broadway, Dee Why, Parramatta and George Street, City.

|              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |                 |              |
