THANKS A MILLION...

THANK you for your part in making last Sunday one of the happiest and most memorable in my life.

In 1946, while serving at sea in the British Merchant Navy, I suffered an injury to my back which at times caused considerable pain and crippling.

A specialist prescribed a steel-stiffened belt, which I wore for nearly a year. It took ages to enter and leave my car. It was necessary to take at least eight pain-killing tablets daily to enable me to work.

My only sport was golf, which I tried to play in my special belt.

Gradually I found I could do without the belt, then the tablets. In 1970 I began to look longingly at my old road-racing bicycle.

I had it repaired, and tried riding it the sixteen miles to the city and back daily. It was rather painful at first, but after the second week the pain eased and I have been able to keep it up ever since.

To someone who had played, in his time, cricket, soccer, boxing, rugby, union, tennis, squash, swimming and athletics, you can imagine the delight in finding some of the old mobility returning.

This year, at the age of 46, I decided to enter the "Suns' City-to-Surf Race.

I proved to myself, in only two weeks of training, that I was capable of running 91 miles in around 90 minutes, and went to the start line without any "fancy" ideas — just hoping to obtain a time of around 90-95 minutes.

I would like to express my admiration for the first-class organisation by you, and your officials, AAA, ASRV, and the police. Also for the splendid manners and friendly spirit of the competitors I was privileged to race with.

Once again, thank you for a very fine race. I look forward to running again next year and trying to better my time of 70 minutes 30 seconds.

Yes, I was very happy — and may I say proud.
