COMD 6 AUST FD AMB (AIF)

APPENDIX A.

COMMUNICATIONS IN WAR.

1. Communication in war is so vital that it is the first duty of enemy paratroops and sabotage agents to cut lines used for the purpose.

2. The majority of communication required is provided by telephone or telegraph wires. The construction of lines involves a major problem in supply and transport of materials as well as in work required to construct the lines and keep them working.

3. If you cut a line, or by your thoughtlessness, allow it to be damaged, then you are as guilty as those who deliberately sabotage communications to help the enemy.

4. Some lines look unimportant because there is not sufficient labour available to construct them in accordance with their importance. All lines of communication are important, otherwise they would not be laid.

5. Compare some of the following possibilities with the importance of having a length of field cable for a clothes line or some similar purpose at the expense of a working line :-

(a) Isolation of a defensive area
(b) Silencing a call for aid.
(c) Holding back a vital warning.
(d) Interrupting important preparations.

These are only a few of the possible consequences of a cut line damaged insulator or a broken pole.

AUSTRALIAN WAR MEMORIAL AWM2018.8.339

COMMUNICATIONS IN WAR (Continued)

6. Testing a line to find out if it is in use is a trained specialists' job - leave it to him.
7. Any type of interference to lines is a serious offence and severe disciplinary action will be taken against all offenders.
8. A little thought and obedience of simple rules will enable you to avoid the serious consequence which may follow interference with lines.

The rules are :-

(a) Don't cut or tamper with lines, poles or insulators.
(b) Before you fell trees, light fires, dig drains, etc, make sure that there are no lines on the ground or in the air which will be damaged by what you are doing.
(c) If lines are likely to hamper your work, notify the nearest signal office; wherever possible signal personnel will shift their lines to let you do your job.
(d) Avoid digging on routes marked "buried cable".
(e) Do what you can to prevent damage (whether intentional, careless or accidental) to lines.
(f) Report promptly to your headquarters any damage to lines which you see or think is likely to happen.

NEXT FOR DUTY	SGT BARCLAY R.P.

228. DRESS - MALARIA CONTROL. (DRO 312)

In view of the fact that medical research has disclosed a malaria carrying mosquito which is active in daylight, it is directed that the following instructions be taken into use immediately and Commanding Officers will be held personally responsible to see that they are implicitly obeyed :-

(a) ALL ranks will wear SHIRTS, SLACKS, BOOTS and ANKLETS WEB, GAITERS or SHORT PUTTEES at ALL times;

(b) Shirt sleeves may be rolled up between the hours of 0630 and 1800 but SHIRTS will ALWAYS be worn and sleeves MUST be buttoned at all other times.

It is emphasised that the permission previously granted to members engaged in manual labour to remove their shirts is CANCELLED. It is the plain duty of EVERY officer, warrant officer and non-commissioned-officer to ensure that these instructions are carried out at all times; whether the troops concerned are directly under his command or not. Any failure in this regard will be treated as an offence.

Provost patrols to police these instructions will be instituted throughout the area by this HQ. Should any breaches be reported, the most severe disciplinary action will be taken NOT only against the members concerned but also against the officer etc, responsible for the conduct of such members.

228. SAFE GUARDING OF PISTOLS (DRO 316)

1. The loss through stealing, of pistols while in the possession of authorised individuals, has increased to grave proportions, necessitating the provision of special measures. These measures are as indicated below and will inflict a certain amount of hardship on individuals, but must be accepted as the best possible solution to meet the circumstances.

2. All individuals who are entitled to have, or be issued with a pistol, and who are in possession of one, will, at all times when absent from their camp, bivouac, or other place of abode, carry such pistol on the person.

3. At all other times pistols will either :-

(a) Be kept at ALL times in the immediate personal possession or control of individuals referred to in para 2 above, either suitably and safely disposed of under lock and key, or otherwise.

AUSTRALIAN WAR MEMORIAL AWM2018.8.339

SAFE GUARDING OF PISTOLS (CONTINUED)

(b) At the discretion of the comd of a unit (or sub-unit, where appropriate) pistols MAY where suitable facilities exist, be withdrawn from individuals and kept under central control in unit armouries or otherwise, under adequate safeguard. Any arrangements made must provide for the carrying of pistols in order to comply with para 2 above, and for receipts to be given as necessary.

4. In the case of loss, responsibility for such loss will, in default of adequate evidence to relieve the individual concerned, be attributed as follows :-

(a) Loss under circumstances covered by para 2 and 3 (a)above:- The individual referred to therein; or

(b) Loss under conditions indicated in para 3 (b) above:- The Comd of the unit or sub-unit authorising withdrawal from the individual.

5. It is imperative that close attention be given in this matter with the object of impressing on all concerned their responsibility if loss is incurred.

6. The gravest view will be taken in regard to all losses of pistols, and action will be taken to bring all cases to the notice of Comd 11 AUST DIV for his directions as to whether Court Martial procedure or summary disposal is requisite.

229. TRAFFIC CONTROL - 11 AUST DIV AREA (A8612)

1. In the consequence of the very rapid deterioration of road surfaces in this area, it is necessary to impose at once special measures to reduce such deterioration to the lowest possible degree.

2. This abnormally rapid deterioration is due to two main factors :

(a) Further damage to already potholed and corrugated surfaces by fast and/or heavy traffic;

(b) Loss of surfacing material in the form of dust clouds raised by fast traffic.

3. Accordingly, the Comd 11 AUST DIV directs the following speed limits be imposed throughout the area forthwith:-

ZONE A : All roads north of the intersection of the BUNA, SOPUTA and ORO BAY roads (BUNA EAST SPECIAL 1 in to 1 mile194148) Maximum permissible speed: 25 MPH all types of vehicles.

ZONE B : All roads north of the intersection of the BUNA, SOPUTA and ORO BAY roads (BUNA EAST SPECIAL 1 in to 1 mile 194148) (This includes main road DOBODURA - SOPUTA).

Type of Vehicle.	Maximum permissible speed.
Trucks ¼ ton 4 x 4 with or without trailers Trucks 15 cwt Staff and Comd cars	25 MPH
All other vehicles incl Bren Carriers)	20 MPH

NOTE So far as possible, Bren carriers will NOT travel on roads at all and will at all times avoid making sharp turns on roads.

ZONE C : The section of the DOBODURA - BUNA road at present under construction (one way traffic). Max. permissible speed -15 MPH.

4. DAPM, 11 AUST DIV, will institute the necessary Provost patrols to police this instruction forthwith and will ensure that any breaches are reported promptly to this HQ. The most severe disciplinary action will be taken against the members responsible for such breaches.

5. 11 AUST DIV Routine Order No 303 of 14 AUG 43 is hereby cancelled.

6. 6 AUST FD AMB (AIF) unit routine order No. 221 of18 AUG 43 is also hereby cancelled.

233. INCOME TAX - SUBMISSION OF RETURNS BY MILITARY PERSONNEL IN NEW GUINEA (NGF A332).

Income tax returns are not required from military personnel in NEW GUINEA provided that such personnel are not on special duty or liable to furnish a return in respect of private income.

Cases in which difficulty is experienced in determining what is special duty will be referred to District Accounts Office, NEW GUINEA for decision.

Income tax return forms may be obtained from Pay Sergeants.

234. NATIVE ADMINISTRATION - UNAUTHORISED SUPPLY OF EXPLOSIVES ETC TO NATIVES. (NGF A335).

The supply without authority of any arms, ammunition or explosives to natives is prohibited. Severe disciplinary action will be taken in all cases of breach of this order.

235. CARE OF MORTAR BOMBS AND FUZES (NGF O 342)

Mortar bomb fuses, under certain conditions, may become armed through rough handling and consequently it is imperative that the greatest care be taken with mortar ammunition. Boxes of bombs should always be carried from place to place. THEY MUST NEVER BE THROWN.

All fuzes that are dropped from aircraft are labelled accordingly and when subsequently examined by technical Ordnance personnel are certified "Safe to Fire".

If a mortar fuze is fired and does not detonate, it will in any case become armed and therefore exceedingly dangerous. No attempt will be made to interfere with or remove a blind bomb. It must on no account be fired from a mortar a second time.

Blind bombs will be destroyed in situ in accordance with the procedure laid down in GRO 407/43.

If doubt is felt regarding the condition of mortar fuzes they should be set aside and reference made to an Inspecting Ordnance Officer or ammunition examiner.

236. PUBLIC STATEMENTS BY MEMBERS OF THE FORCES (GRO A 582)

Members are forbidden to communicate with the press or to give interviews for broadcasting or other media of publicity on military matters whether by correspondence, personal interviews with press representatives or by any other means except in accordance with para 3 hereof.

Members who have been on active service may give interviews on first hand experiences in battle to uniformed accredited war correspondents provided that every proposed statement of the nature referred to in this paragraph will be submitted before publication for the approval of an officer of the Directorate of Public Relations . The publication of names of members above the rank of lieutenant is prohibited unless specifically authorised. No restriction is placed on members in regard to articles, stories or poems for publication in the Press, in periodicals or other publications, provided that these do not deal with military matters and that no indication of the military rank or unit of the contributor is given.

ROUTINE ORDERS (CONTINUED)

237. **LOSS OR DAMAGE TO GOVERNMENT PROPERTY BY FIRE (GRO 0 586)**

1. The number of fires occuring, particularly in tented camps, has resulted in serious losses of equipment and is impending our war effort. Many of these fires could have been prevented.
2. Particular attention will be paid to the following :-
(a) In buildings etc in which smoking is prohibited notices to that effect will be displayed prominently and prohibition will be rigidly enforced
(b) In no circumstances will authority be given for smoking in garages forage barns or dumps, stables, magazines, in the vicinity of petrol or oil stores or in any other building in which inflammable materials are stored.
(c) Grass will be kept short in barrack areas, hutments and camps.
(d) Special arrangements will always be made for the storage of petrol, oil and grease. Tins of sand will be kept available in such places, in addition to tins for oily waste etc..
(e) Naked lights in tents will be kept carefully shielded; candles will be placed in approved holders.

208. TELEPHONE SECURITY. (11/282)

The telephone is most insecure and the greatest care will be taken by all ranks wherever they may be as to what is said over it. (d) To ensure that this is carried out :-

AUSTRALIAN WAR MEMORIAL AWM2018.8.339

1. Every soldier will carry a bottle of repellent in his pocket after dusk. This will be checked at the evening atebrin parade.
2. Every soldier will be inspected on the atebrin parade, to see that he has used the repellent. It can easily be detected on the skin for one half hour after application.
3. Announcement will be made at the commencement of every cinema show and again at the interval, that repellent must be applied. A small stock of repellent will be kept at the operator's box.

214. BLISTERING FROM HANDLING OF PARSNIPS (AMF INT 112).

A number of cases of blistering of the skin has occurred in NEW GUINEA within the past few weeks.

245. PRECAUTIONS TO BE TAKEN WHEN TOWING VEHICLES. (GRO 0 644)

1. Particular care will be exercised, when towing damaged vehicles, to ensure that no additional damage occurs either to the damaged vehicle or to any other vehicles.

2. The precautions to be taken are as follows .-

(1) Towing of vehicles with all wheels on the ground :-

(a) When neither the transfer case nor the transmission on the vehicle to be towed is damaged, shift the transmission control and/or transfer gear lever into neutral.

In this position the gears in the transmission are not in motion. The countershaft gears are revolving in the transfer case and there will be adequate lubrication of the bearings provided by splash.

(b) If the transfer case is damaged, the propellor shafts will be disconnected at the front and rear axles on trucks 4 x 4; at the front axle, the forward rear axle and the front of the pillow block on trucks 6 x 6.

The shafts will be disconnected by dis-mantling the universal joints from the flanges at these points and removing the shafts from the slip joints at the opposite end, after removing the retaining cap.

(2) Towing vehicles with front wheels off the ground :-

Whenever trucks 6 x 6 or 6 x 4 are to be towed with the front wheels off the ground, the vehicle will be supported in such a manner that the wheels of the forward rear axle contact the ground; otherwise, the springs will ride against the spring bumper and there will be no springing action.

248. POWERS OF SENTRIES AND GUARDS (GRO A 648).

1. Regulation 8A of the National Security (General) Regulations (Statutory Rules 1942, No 374) provides that, without derogating from or restricting the existing powers or rights of sentries and guards, a military sentry or guard stationed or posted at, on, in, or in the neighbourhood orvicinity of, any prohibited place, protected area, controlled area, or any premises used by the Commonwealth, or used for defence purposes or for essential services, or any vehicle, vessel or aircraft used by the Commonwealth, or any enclosed wharf or picking-up place, or any merchant vessel lying in port, or any road, pathway or waterway, specified in an order by the Minister, which passes through or near a prohibited place or work of defence, may be armed, and may :

(1) use his weapons against, or otherwise attack, any person who, in disregard of a warning given by a sentry or guard, approaches, enters, leaves, or passes over or in the vicinity or neighbourhood of, or attempts to approach, enter, leave or pass over or in the vicinity or neighbourhood of, that place, area, premises, vehicle, vessel, aircraft, wharf, picking-up place, road, pathway or waterway, or who, after being arrested for so doing, escapes; and

(2) use his weapons against, or otherwise attack, any person attacking him or who is reasonably suspected of being about to attack him.

2. There are, however, certain principles which must guide all sentries and guards in the execution of their duty as such, and the exercise of the right to resort to arms.

3. Thes principles are:-

(a) Sentries and guards will be ordered to take any action required to ensure the safety of their posts or to defeat the activities of enemy or suspected enemy agents.

(b) If necessary, they will fire upon or otherwise attack any persons threatening the safety of their posts or engaging in hostile actions.

(c) Before firing upon any person, the sentry or guard will, except in an urgent case of self defence, challenge that person to "Halt". If that person does not halt, the sentry should challenge hir again with "Halt or I fire". If he does not halt, and no other means are available for stopping him - as for example, by calling on the rest of the guard - it is the duty of the sentry to shoot.

(d) The sentry will use his intelligence and sense of responsibility in choosing whether he will shoot or not, and he must be careful not to allow any suspected person to approach so close that he can be rushed and overpowered.

(e) Guards of enemy prisoners of war. An enemy prisoner of war ettempting to escape may be fired upon, but a previous summons to surrender will be given if possible.

(f) Guards of members of the forces in custody.

(1) An escort or guard is not justified in using his weapons merely for the purpose of preventing another member from escaping from custody and if he so uses his weapons he may render himself, as well as any officer or N.C.O. under whose orders he acted, liable to be charged with murder, man-slaughter or incitement to murder.

AUSTRALIAN WAR MEMORIAL AWM2018.8.339

ROUTINE ORDERS PART 1. NO 71/43. (Continued).
POWERS OF SENTRIES AND GUARDS (Continued).

(11). If a member in custody attempts to escape, the escort or sentry will immediately raise the alarm and give chase. He may call upon any passer-by to assist him in apprehending the escapee.

(111) An escort or guard may be justified in using his weapons when a member in custody resorts to violence. In such circumstances an escort or guard may meet force with force, but care must be taken to use no more force than is necessary to overcome the violence offered. Hence, even when violence is offered to an escort or guard, it will only be as a last resort that the use of weapons will be justified.
