LIGHT GUN EXERCISE 3/4 APL 44.

An exercise to test the stage of alertness of Light Guns in PENTON LONG Area was conducted during the night 3/4 Apl 44. It was unimpressive.

The following points were noted :-

233 AUST LAA BTY -

The plotting light in LGCR had fused. No attempt had been made to fix the light or to report it.

L.2 - Did NOT answer multiple call for 5 minutes necessitating both delay and trouble to raise independently. The excuse given was that the relief was being changed and that his phone "was crock". This had NOT previously been reported and subsequent tests showed full strength singals both ways with no phone fault.

L.5 Did NOT answer multiple call. Delay necessary to raise this site was 15 minutes 30 seconds. The reason given was "phone unattended during change in telephonist".

The above requires some investigation. Phones in future will NOT be left unattended.

Stand to times of Gun Detachments was satisfactory.

149 AUST LAA BTY -

During multiple call at 0100 hours L.14 and L.19 took over 1 minute 15 seconds to raise. There seemed no excuse for this.

After a pause of 6 minutes a further multiple call was put through. L.19 and L.23 being most unsatisfactory.

L.19 required 4 minutes 30 seconds to answer the call. The excuse was the changing of telephonists required the gun pit to be left unattended.

L.23 - Took 13 minutes 10 seconds to raise. The change over of duties being the excuse. Also, though it had ~~xxxx~~ NOT been reported previously and in spite of the 0100 hrs multiple call being correct, the telephonist said the phone had NOT rung and gave trouble during multiple calls by drop of signal strength. Telephonist told to "stand by". It required another 4 minutes to raise him. He reported NOT hearing the order "stand by". The troop commander investigated and reported a gap during change of duties shows when phone was NOT attended.

A visit to L.23 at 0220 hrs confirmed the fact that phone communication was R.5 both ways and that the only difficulty was slackness and absence of telephonists

Telephonists must be told that they will report all cases where the phone is NOT working; and that they must NOT blame poor phone communicatio for their own inefficiency.

The Stand To times of gun detachments was satisfactory.

Lt-Col,
AADO PENTON LONG AREA.

ACTIVITIES DURING NIGHT 7/8 APL 44

HQ 55 Aust AA Regt, AIF
AUSTRALIA.

1. AIR RAID ALARM.

During the evening of 7/8 April a Yellow Air Raid Warning for FENTON Area was issued from 105 Fighter Sector (RAAF) at 2008 hours.

At no stage was a Red Warning issued for FENTON Area and no Public Alarms should have been sounded. It is appreciated that in mixed areas of American and Australian Forces that alarms can be sounded prematurely; but every endeavour will be made to-day to see that a similar situation will NOT occur again in this Area.

On the sounding of the Alarm a mild Panic broke throughout the district. It reflected little credit on those concerned, and resulted in at least one serious accident. When it is realised that all gun sites are fully manned operationally at all times, and anyone away from the site can therefore be spared; there seems no justification for a wild dash on the sounding of the alarm. All ranks are asked by their calmness to set an example in any future Panic.

2. GUARDING OF EQUIPMENT.

At 0020 an unauthorised person was in the vicinity of H.1 Gun Site and when challenged broke and ran into the bush. He was successful in escaping. All site Commanders are to see that their equipment is adequately guarded at all times, and that this incident is brought to the notice of Sentries.

3. SITE OFFICERS ON DUTY.

During the "Moon Period" hrs of search are being allotted to all RADARS. It is desirable that an Officer should be on duty during the time that RADAR is searching. Will site Commanders please arrange this.

HOURS OF SEARCH 8/9 APL 44:-

The following RADAR searches are to be conducted on the night of 8/9 Apl -

G.4	2300 - 2400
G.3	2400 - 0100
G.2	0100 - 0200
G.1	0200 - 0300
G.4	0300 - 0400
G.3	0400 - 0500

To-night and the next two nights are the most likely nights for action.

58. STUART HIGHWAY

With effect from 3 Apr 44, the Main Road from DARWIN to ALICE SPRINGS will be designated the "Stuart Highway"

59. THEFT OF CRUSHED STONE.

1. The attention is directed NT Force Order 138/43 regarding removal of crushed stone or screenings from stock pits in the vicinity of STUART HIGHWAY, Mt ISA and other roads, aerodromes quarries etc.
2. Recently quantities of screenings have been removed from the side of roads and apparently abandoned bitumen dumps quarries etc.
3. Screenings are produced for specific works by civilian labour Any apparent surplus requirements are left at or near the work in hand, to afford a ready reserve to cope with both normal and emergency repairs.
4. Under present conditions it is not difficult to visualise serious delays to urgent repairs and also to personnel and plant, when expected reserves have disappeared.
5. The practice of removing such material without proper authority will cease forthwith. (NT Force Order Ser 5/39.)

60. CLEANING OF VEHICLES.

Two cases have recently occured of engines catching fire when being cleaned by the use of petrol, in each case due to a spark from the electrical system.

Petrol will NOT be used in future for cleaning engines or other parts of vehicles. Kerosene may be drawn for this purpose. (NT Force Order Ser 5/41)

AUSTRALIAN WAR MEMORIAL AWM2019.366.1910

61. REMITTANCES.

The following arrangements are in force in connection with remittances to remittees in Australia :-

(a) Remittances of Cash - Paid by cheque from District Accounts Office direct to remittee within 24 hours of receipt at that Office. See NT Force Adm Order No.8, para 50, which requires the approval of the C.O. for remittences in excess of £5
(b) Remittances of Undrawn Pay - Paid by District Accounts Office of District of Enlistment. This method involves some delay in receipt of cheque of remittee.

2. In view of the fact that ready means of transmitting funds are available, currency will NOT be sent by mail from any point North of LARRIMAH (inclusive), except in exceptional cases on the approval of Commanding Officers. Sub Unit censors will police this instruction.

3. The practice of sending large sums of postal notes should be discontinued. Not only does this practice impose unnecessary work on Postal Units, but, as the maximum compensation for registered articles posted at Army Post Offices is £2, an avoidable risk of loss is incurred. Amounts greater than £2 should therefore be forwarded through the Pay Office for safety reasons. (NT Force Order Ser 5/47)

62. FIRST VICTORY LOAN :-

Unit Loan Officer :- NX100121 Lieut M.E. COWAN - 136 Aust HAA Bty

The attention of all sub-unit Comdrs is drawn to GROs F111 and F122 of 44, also NT Force Adm Order No.20 (Copy of which has been distributed to Sub-units.)

63. TREATMENT OF DISCHARGED MEMBERS SUFFERING FROM MALARIA.

1. It is possible that malaria may manifest itself for the first time after a member has been discharged.
2 By arrangement with the Repatriation Commission, in such cases, provided the member establishes his identity, e.g. by production of his discharge certificate, medical treatment will be made available forthwith at expense of the Repatriation Department, pending determination of whether the malaria is attributable to the member's war service.
3. To obtain such treatment, the ex-member will -
(a) If he resides in the metropolitan area of a capital city, should contact the local office of the Repatriation Department or apply to the Repatriation General Hospital, or
(b) If he resides outside the metropolitan area of a capital city, should apply to the nearest local repatriation Medical Officer. (GRO A117/44)

65. SHAVING AND HAIR CUTTING.

GRO A.118/44 states - " A male member will keep the hair on his head tidy and short, and will shave his chin, under lip and the cheeks of his face. He may wear a moustache, but will NOT wear side whiskers".

APPRECIATION OF THE A/A DEFENCE

FENTON - LONG AREA

B Y

NX391 LT-COL P.KELSO A/AADO FENTON LONG AREA

AT LONG FIELD 1000 Hrs 13 APRIL 1944

OBJECT To provide as requested 6 only 40 MM AA Gun defence for each of FENTON and LONG Fields.

FACTORS FOR CONSIDERATION

1. FENTON and LONG Fields are the largest and most active Operational Fields in Northern Australia.
2. They are now occupied by 24 Liberater (B24) Bombers organised as 2 squadrons of 12 and Group HQ FENTON and 2 squadrons of 12 each on LONG Field.
3. More Dispersal Bays are bing built at LONG Field as a priority task. It is understood that 24 more Aircraft are due in the near future on each Field.
4. Present number of Dispersal Bays on each Field is approx 38. These are being increased to 80, and additional Bomb dumps are under construction.
5. On present occupation (para 2 above) the adequate defence of each Field requires 12 40 MM AA Guns.
6. The present layout allows only 9 40 MM AA Guns to each Field and this is considered insufficient for adequate light AA Defence of these areas.
7. If only 6 40 MM guns were available to each field the light AA defence would be entirely inadequate. The defence of less than 9 guns is NOT recommended.

PLAN If urgent operational necessity permitted only 6 guns being available, the attached trace shows the layout which should prove the best inadequate defence.

SECRET

REORGANISATION OF AA UNITS

1. This screed is marked Secret. It is not intended for it to be locked up and spoken of in whispers. It is aimed at counteracting "the good drum" and "the good guts" which have been floating around during the last few days and which has NOT been up to the Gunners usual good standard. It is hoped that all ranks will now hear what is about to happen and that the moves will be thoroughly and intelligently discussed within the Regiment. This information must NOT be discussed outside the Regt or in letters.

2. For reasons of efficiency in control, administration and training it has been decided by higher authority and approved by LHQ that AA Units in this Area are concentrated as follows :-

101 Aust AA Regt AIF in FENTON LONG AREA
55 Aust AA Regt AIF in BATCHELOR GOULD AREA
54 Aust AA Regt AIF in HUGHES AREA

3. The moves necessary to impliment this will be of a complicated nature, and a movement order incorperating all details will be produced immediately, the move will commence next MONDAY 24 Apr 44. The main points affecting this Regiment are :-

(a) 136 Aust HAA Bty will move over a period of ten days with all their present Mobile Equipment and MT and take over prepared positions (2 four gun sites) in BATCHELOR GOULD from 54 Aust AA Regt, AIF. Only RADARS, which obviously have to be kept operational, will be transferred. 136 Bty will therefore leave their RADAR here and take over the RADAR in BATCHELOR Area. Cheer up they are good RADAR sites and producing first class results.

(b) 136 Aust HAA Bty HQ will take over the Headquarters of 134 Aust HAA Bty at BATCHELOR. This move will be made on MONDAY 24 Apr 44.

(c) RHQ 55 Aust AA Regt and Sig Section will move to BATCHELOR Area next Tuesday 25 Apr 44 and take over the existing RHQ of 101 Aust AA Regt. For the present there will be no immediate change for 232 Aust LAA Bty pending the re-arrangement of light guns.

(d) Workshops move will be the most difficult one. They will have to pioneer a new site in the BATCHELOR Area. Application has been made to permit them taking their present prefabricated huts.

4. Doubtless the first reaction to these moves is a depressing one that you are the victims of fate and are being "mucked" about by experts. The following points should be kept in mind.

5. You are a Mobile Regt and are expected to move, and a move should NOT be looked upon as a major tragedy.

6. You move with your Mobile Equipment and all your MT, you take over Gun Sites which 54 AA Regt consider are as good, or better than your present sites. You should bear in mind that 54 AA Regt give up their Mobile Guns, most of their MT and take over concrete Static Guns, and have to build a new RHQ and a new Bty HQ. They also have to transfer 50 men to 101 Aust AA Regt. This is NOT going to be pleasant. They will do it with the minimum of moaning because it will be pointed out to them that it is all something to do with winning the war. In comparison our move should be easy.

7. The measure of greatness or otherwise of a Battery or Regiment is accalculated by their reaction to disappointing news and moves to new Areas. There should be no tails down, and no moaning will NOT be encouraged. The co-operation of all ranks to make this hand over and efficient move an exemplary one is expected.
