STANDING ORDERS
by
LT. COL. J.SCOTT YOUNG, COMD. AA GP FREMANTLE

AMENDMENT NO.5

1. Ref. Appendix "A" - para 4 to read 4 (ii).

Immediately preceding para 4 (ii), add new sub para 4 (i) as follows:

4 (i) - "Pilots and Ground or Sea defence personnel should differentiate between friendly and hostile aircraft primarily by their appearance. The appearance of an aircraft may be determined by its silhouette, supplemented if visibility conditions permit, by its colouring and national markings".

2. Ref. Appendix "A" - para 6 (c) will commence:

"If continually illuminated by Searchlights, Aircraft flying in the lane will" - etc.

OP. INSTN. 10

STAGES OF READINESS

Should attack on W.A. be imminent, action will be taken in accordance with the Stages of Readiness set out below, to complete all preparation to make the AA Defences capable of efficiently performing their function.

In addition to the action set out in Stages of Readiness, Bty etc. Comdrs will ensure that their equipment is ready for action and personnel fully acquainted with their operational duties.

2. Stages of Readiness will be implemented on receipt of code words as follows:-

1ST STAGE - Code Word "MORRIS"
2ND STAGE - " " "AUSTIN"
3RD STAGE - " " "NASH"

The signal to implement any Stage will be as follows:-

"MORRIS" (.) ACK

This means that the 1st Stage of Readiness will be adopted forthwith.

3. Action to be Taken.

(A) 1ST STAGE

(i) All personnel on leave will be recalled.
(ii) Signal communications will be tested and fully manned.
(iii) P.A.D. arrangements will be checked. This includes camouflage and dispersal of vehicles.
(iv) Security measures will be checked and fully applied
(v) Deficiencies in war equipment will be made up.

(B) 2ND STAGE

(i) AA Defences will be fully manned.
(ii) V.D.C. will report for duty. (Call-up of VDC will be arranged by WA L of C Area).

(C) 3rd STAGE

(i) Local defensive positions will be checked and arrangements made for manning when necessary.
(ii) All Btys. etc. HQs will be fully manned.
(iii) Correspondence will be limited to that effecting operations only. Other correspondence will be filed for disposal if necessary.
(iv) Measures for destruction of equipment should it be in danger of capture, will be checked.

4. Where applicable, measures for destruction of small boats which cannot be destroyed by Navy, will be taken.

OP. INSTN. 5 ADDENDUM

PROCEDURE FOR ORDERING HY AA STAS
TO ENGAGE IN A COAST DEFENCE ROLE.

1. The following Gun stas are allotted a secondary role of Coast Defence:

Buckland
Park
Scotsmans
South.

2A. F.C. Northern will call for fire by Hy AA gun stas against C.D. through AA Rottnest Exchange to GOR. The call of fire will be in the form of "REQUEST AA SUPPORT TARGET (NATURE) TYPE ..... MOVING ..... SPEED..... BL. SQ.PT.

Coast Defence target (NATURE) TYPE ..... MOVING .... SPEED .... BL.SQ. PT. On receipt of this order, stas allotted a secondary role of Coast Defence will engage targets when in their arcs.

2B. BLOCK SQUARE POINT refers to Coast Defence Grid, but can be applied to any grid of map of the area. For example:-

Arthurs Head - Bl. 73 Sq. 25 Pt. 88.
Coordinates 728 358

3. Types of C.D. targets which AA Guns will be required to engage are:

Destroyers
M.T.Bs.
M.L.Cs.

and the fire control will be:

Ranging by bursts of gun fire.

4. F.C. Northern may order cease firing by AA Guns against C.D.Targets.

OP. INSTN. 11

WITHDRAWAL 3" EQUIPMENT FROM AA DEFENCES, ROTTNEST

1. INTENTION.

417 Hy AA Gun Sta (Type "B") will be withdrawn from ROTTNEST ISLAND and disbanded. -

2. METHOD.

Lt.Ingram, 29 Hy AA Bty will proceed to ROTTNEST ISLAND per s.s. "Zephyr", 0800 hrs 10 Apr 43, and will superintend movement - loading and unloading.

(a) Equipment concerned.

2 Q.F. 3" 20 cwt Ordnance
1 Height & R.F.
1 Ring Sight Telescope
2 Tractors (Marmon Herrington)
1 30 cwt G.S.
1 ton 12 cwt
All stores, tools etc.
Ammunition - 3174 rounds (includes 50 practice)
Camp equipment and tentage.

(b) Embarkation.

Equipment as outlined above will be at Jetty, ROTTNEST ISLAND ready to load at 0900 hrs 13 Apr 43. -
Loading to be carried out by AA personnel - Lieut F.J.Ingram, 1 NCO and 15 OR's with personal gear to travel with equipment by Barge "Molly".
4 Aust Movement Docks Control will arrange necessary slings etc. and use of Gantry.
OC 171 Bty, 116 Aust Lt AA Regt (AIF) will make available vehicular transport.as required.

(c) DEBARKATION.

Barge will berth at "A" wharf.
AA S/L L.O. will make available 10 trucks 3 ton - to report at 1400 hrs 13 Apr 43 for purpose of transporting ammn. to F.A.D. GUILDFORD.
OC 29 Hy AA Bty will supply a party of 1 NCO and 15 OR's to load ammn and accompany convoy to Guildford.
Equipment less ammunition will move ex Wharf to Buckland AA Station and will be issued to 109 Aust AA Tng Bty for training purposes only, but to be maintained in a serviceable condition by that Bty and available for employment is and when required.

3. ADMINISTRATIVE ARRANGEMENTS.

(a) Personnel. Lieut D. Dunn and remaining OR's will report with one days rations on evacuation of present positions to OC 171 Bty, who will arrange messing and quarters.
They will proceed to Mainland per ss "Zephyr" on 14 Apr 43 reporting to OC 29 Hy AA Bty on arrival - 3-3ton trucks to be made available by AA S/L Liaison Offr.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2051

All personnel ex 417 Hy AA Gun Sta will move to GARDEN ISLAND immediately certified as D.P.1 and necessary transport available.
Unconsumed portion of days rations will be carried in all cases.

(b) Rations. Necessary arrangements will be made by Lt. D. Dunn, OC 29 AA Bty consequent on movement.

(c) P.O.L. Petrol will be drained from vehicles prior to embarkation.
OC 29 AA Bty will arrange refuelling on debarkation.

(d) Signal Equipment. All equipment on loan will be returned and accounted for.

(e) Transport. Disposal of vehicles ex 417 Sta will be arranged later.

AMENDMENT No. 3

S/O FOR OPERATION OF AAS/L UNITS.

By Major G.W. Benporath.

A/C.O. AAS/Ls Group HQ's.

Page 2 Line 4 Delete "Stand To" and insert "Take Post".

Page 3 Code Prefix Delete whole paragraph and insert:-

Bonex Where the hexagonal Zone of Responsibility as shown on Computers will be adhered to

Circus Where circular Zone of responsibility as shown on Computers will b e adhered to.

Frego Where the Zone of responsibility will NOT be adhered to and S/L will engage beyond the Zone of responsibility.

Laylo Where the Searchlights will NOT expose but will PLOT the target.

Hellfire Where S/L will illuminate a square or line barrage on a given position.

NOTE:- Searches to be restricted to no more than six beams on any one target.

Page 3 Timing of Plots. Delete "30 Seconds" and insert "10 to 15 Seconds).

APPEND. "A"

Page 3 Homing of Aircraft. Delete whole page and insert page attached.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2051

Homing of Lost Aircraft

When controller F.S. requires S/Ls for homing of friendly A/C the following procedure is to be adopted.

(a) Three S/L Stations will be nominated by CCO and ordered to expose on a bearing and at an elevation obtained from a ground plot and height given from C.O.R.

(b) When Aircraft comes within S/L range, the nearest S/L will expose on the aircraft which will identify itself by giving the recognised signal.

(c) The S/L will then elevate to 90° and at the same time the other two beams will douse. This is the signal for the aircraft to orbit.

(d) When aircraft orbits it will give the recognised signal again.

(e) Then the S/L detachment will depress the beam to 5°~~30°~~ or 10° in the direction of the standard or selected drome as indicated by S.O.R.

(f) In order to catch the pilots eye the beam will be elevated to 90° and depressed again, three times quickly without being extinguished.

(g) It will then be left exposed for a further period of 30 seconds as nearly horizontal as possible pointing in the direction of indicated drome.

(h) Procedures (f) and (g) will then be repeated until the aircraft is flying in the correct direction .

(i) The beam will then remain exposed as nearly horizontal as possible; until sound of aircraft has died away, or for a period of two minutes whichever is the longer.

(j) When an aircraft requires homing beacons without notifying F.S. it will fly into area until challenged by nearest S/L. Then it will give Recognition Signal and fly in a short circle with Navigation lights on if able to do so. Then the S/L elevates to 90° which is signal for A/C to orbit. Procedure then is in accordance with para (d) to (i).

COPY No.7...

S/O PER OPERATION OF AA S/L UNITS

By Major G.W.Benporath.
A/C.O.S/L. AA GP HQ

A. ROLE

1. Vital Area.

To provide AA S/L Defence of V.As for which the A.A. plan is designed:- (a) Fremantle harbour and shipping therein.
(b) Installations at Rottnest.

B. INFORMATION

2. Restricted Area.

Fremantle and Rottnest areas are in a restricted area for aircraft. The restrictions imposed and the conditions for flying in restricted areas are detailed in Appendix "A".

3. Traffic control

Movements of certain aircraft will be notified in C.O.Rs by S.O.R.

4. Methods of attack by air. Methods of attack are as follow:

(a) High level bombing - upwards from 4,000 ft height.
(b) Low level bombing - below 4,000 ft height.
(c) High Dive bombing.
(d) Low flying attack including low dive and mast high attack.
(e) Gas Spray.
(f) Reconnaissance.

A combination of methods may be employed, such as dive bombing and low flying attack developing from what appears to be high level bombing attack. Air Sentries must be fully alert to these possibilities and must inform C.C.O.s immediately these attacks are observed.

5. Warning of attack.

Early warning of attack may normally be expected and will be given to Coy H.Qs., Section H.Qs, and S/L Stations from C.O.R. who will receive it from S.O.R.
This does not however lessen the need for air sentries who must be trained to a high degree of efficiency.

C. METHOD.

6. Air Sentries. Normal conditions.

At S/L Stations the station defence Sentry will be air Sentry during "Yellow alert"; (a) By day, (when notified by C.O.R.), Coy H.Qs will post two air sentries, Section H.Qs one air sentry and S/L Stations will post one additional air sentry.
C.O.R. will be fully manned.
All A.A.L.M.G. Posts will be fully manned
All M.T. in M.T. Park will disperse to dispersal area.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2051

(b) By night - C.O.R. will notify Coy H.Qs. duty Officers and Section Officers, who will see that action is taken as is laid down in their own S/O. S/L Stations will be ordered to "Stand to".

M.T. Personnel will be awakened and will disperse their vehicles areas as for Standing Orders for Air Raids.

During "Red Alert":-

(a) By day. All personnel at Coy H.Qs. and Section H.Q. will carry out orders as laid down by their Section Officers. S/L Stations will man rifle trenches.

(b) By night. All personnel at Coy H.Qs. and Section H.Qs will carry out orders as instructed by the Duty Officer and Section Officers, which will be contained in the respective S/Os. S/L Stations will engage targets as laid down.

7. Recognition and Identification.

When no early warning has been received from S.O.R. and C.O.R's of aircraft entering the area, the procedure will be as laid down in Appendix "A".

Immediately a signal is seen from an aircraft consisting either of:-

(a) Morse code light flashed from the aircraft, or
(b) A two star coloured cartridge fired from the aircraft.

The telephonist at S/L Station will inform C.C.O.

(i) The particular letter flashed if he can read morse.
(ii) The sequence of dots and dashes if he cannot read morse.
(iii) The sequence of coloured stars, if a cartridge signal is fired.

The S/L Station will continue to illuminate the target even though the signals are given, until notified by C.C.O. that the aircraft is definitely identified as being friendly, procedure will then be in accordance with Appendix "A" para 6, sub-para (c) Section (i)

The mere fact of an aircraft signalling, is not proof of its friendliness, unless the correct signal is given. The letter to be flashed and the colour of two Star cartridges are frequently changed and are known only by C.C.O.

8. Co-operation with Allied fighter Aircraft.

Instructions to be issued at later date.

9. Engagement of hostile aircraft with small arms fire.

Aircraft will not be engaged by A.A.L.M.G. and rifle fire unless they descend to a height of 1500 ft or less and attack the defended position, or unless doubt exists as to their friendliness.

10. Communications.

Operational lines are provided from S/L Stations to C.O.R. and A.A.C.R. The lines and equipment installed by Fortress Signals must not be altered and proper care and attention paid to their use.

A telephonist must be on duty at all times at C.O.R. and at S/L Stations. The duty telephonist to be in close proximity to the phone at all times.

Operational communications will be tested at two hourly intervals by the duty telephonist at S/L Stations. Any breakdown or fault in communications must be reported to C.O.R. by quickest possible method of contact. It is essential for efficient operating of the communication system that correct telephone drill is used. This is to be strictly adhered to.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2051

11. Synchronization of watches.

All Watches etc. will be synchronized with C.O.Rs at 0800 hrs, 1600 hrs and 2200 hrs daily.

12. P.A.D.

Slit trenches will be provided in Camps etc., areas for personnel not manning. These will be dispersed and camouflaged. Track discipline will be rigidly observed.

13. (a) SLO at S.O.R. will control all AA S/L in the areas mentioned in A.1.

(b) The C.C.O. will be responsible for tactical control of the Coy Searchlights. He will order detachment [illegible]

13A STATE OF READINESS.

All C.O.Rs and S/L Stas will "take post" ½ hour before sunset and a period of readiness is to exist, until 1 hour after sunset when "Stand Easy" may be given by S.O.R.

At 1 hour before dawn S.O.R. will give "take post" and remain so until dawn when a "stand easy" may be given.

14. Code prefixes.

The C.C.O. will indicate to detachment commanders the system of Beam control to be followed by prefixing the Order "Engage" with the following code words:-

ZAL-CO — This prefix indicates engagement as for Case "B" with C.L. Plotting.

BO-LO — This prefix indicates engagement as for Case "B" with Searchlights exposing beams when target enters their zone of responsibility.

LAYSO — This prefix indicates that Searchlights are to engage by plotting only without exposing their beams.

KULA — This prefix indicates engagement as for Case "C" with Searchlight exposing.

ALLOO — This prefix indicates that uncontrolled engagement is to be employed and detachment commanders will engage targets according to normal "3 beam rule".

15. Timing of Plots.

During operations, C.O.R. will pass plots to Searchlights and Searchlights will pass plots to C.O.R. at intervals of 30 secs. For the efficient operation of the system this time interval must be strictly adhered to.

16. Speed of targets.

Speed setting of 220 m.p.h. will be set on Sound Locator unless otherwise ordered by C.O.R.

17. Reports

(a) Immediately an alternate site is occupied a location report is to be forwarded to C.C.O. who will then inform S.O.R.

(b) S/L Stations will report movements of both friendly and hostile A/c at all times, in the following form:-

AUSTRALIAN WAR MEMORIAL AWM2019.366.2051

11. Synchronization of watches.

All Watches etc. will be synchronized with C.O.Rs at 0800 hrs, 1600 hrs and 2200 hrs daily.

12. P.A.D.

Slit trenches will be provided in Camps etc., areas for personnel not manning. These will be dispersed and camouflaged. Track discipline will be rigidly observed.

13. (a) SLO at S.O.R. will control all AA S/L in the areas mentioned in A.1.

(b) The C.C.O. will be responsible for tactical control of the Coy Searchlights. He will order detachment commanders to engage targets, prefixing the order "Engage" with a code word indicating the system of engagement to be used.

(c) Section Officers will be responsible for Liaison with other Units and for cooperation where possible in ground defence plan. Section Officers will be responsible for collective training and technical efficiency of their Section.

14. Code prefixes.

The C.C.O. will indicate to detachment commanders the system of Beam control to be followed by prefixing the Order "Engage" with the following code words:-

ZAL-CO This prefix indicates engagement as for Case "B" with C.L. Plotting.

BO-LO This prefix indicates engagement as for Case "B" with Searchlights exposing beams when target enters their zone of responsibility.

LAYSO This prefix indicates that Searchlights are to engage by plotting only without exposing their beams.

KULA This prefix indicates engagement as for Case "C" with Searchlight exposing.

ALLOO This prefix indicates that uncontrolled engagement is to be employed and detachment commanders will engage targets according to normal "3 beam rule".

15. Timing of Plots.

During operations, C.O.R. will pass plots to Searchlights and Searchlights will pass plots to C.O.R. at intervals of 30 secs. For the efficient operation of the system this time interval must be strictly adhered to.

16. Speed of targets.

Speed setting of 220 m.p.h. will be set on Sound Locator unless otherwise ordered by C.O.R.

17. Reports

(a) Immediately an alternate site is occupied a location report is to be forwarded to C.C.O. who will then inform S.O.R.

(b) S/L Stations will report movements of both friendly and hostile A/c at all times, in the following form:-

AUSTRALIAN WAR MEMORIAL AWM2019.366.2051

Type of aircraft (if unidentified state prominent features, number of engines, rudders etc.) Number of aircraft and shape of formation if more than one aircraft.
Assumed height
Direction in which the aircraft is flying.
Direction of aircraft from station.

(C) At the conclusion of a hostile attack, a signal in the following code will be sent to C.O.R. by Sta Comdrs and Section H.Q. officers to Unit Adjt who will inform CO AA S/Ls at Group HQ.

A.	Casualties	AA S/L
B.	"	Instruments
C.	"	Personnel
D.	Number of hostile aircraft	
E.	Number of hostile aircraft destroyed.	

18. Ammunition expenditure.

Ammunition expenditure will be reported to C.O.R. on the days when ammunition is expended. These reports will cover expenditure for 24 hours ending 0700 hrs daily. These reports are to be then immediately forwarded to Q.M. AA Group.

19. Local Ground Defence.

Plans for local ground defence of S/L Station sites will be formulated by O.C. & Section Officers. Personnel not manning will be allotted duties in this regard. Liaison will be maintained and plans will be drawn up in cooperation with local detachments of Fremantle Covering Force.

20. In view of accidents which have occurred in the past, the following regulations will be rigidly observed.

(a) Aircraft cooperation will at all times fly above 4000 ft.

(b) All S/L will be doused immediately in the following circumstances:

(i) If an aircraft shows siding lights during an exercise.

(ii) If at any time the aircraft appears to be below 4000 ft and losing height.

(iii) If red very lights are fired.

21. Equipment.

(a) Maintenance to be carried out DAILY
(b) All Power Unit Must be run 20 minutes every 3 hours during hours of darkness.
(c) Diesel Units to be run for 20 minutes every time they are started irrespective of time of day or night
(d) All projectors other than SLC equipped, will be withdrawn from pits, and dispersed and camouflaged during the hours of daylight.
(e) A.A.L.M.G. will be mounted at all times with magazines filled and stored near gun. Guns when not in use to be covered.
(f) Under no circumstances are AA S/L Unit mechanists to adjust any SLC equipment without the authority of O.C. Radio Maintenance Section.
(g) Particular care is to be paid to the care and preservation of all SLC equipment. OC's company are to give this instruction their personal supervision.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2051

AUSTRALIAN WAR MEMORIAL AWM2019.366.2051

APPENDIX "A"

EXAMINATION AND IDENTIFICATION OF AIRCRAFT.

Restricted Areas.

(1) The following area is classified as a "Restricted Area" over which Service, Civil or Private Aircraft shall not fly except in the approved lanes of entry and exit.

(2) Perth, Western Australia. Within Radius of 20 miles Rouse Head.

Approved lane of entry for the restricted area, as it effects this Coy, is as follows:-
(a) Aircraft approaching or departing Maylands Aerodrome preparatory to landing or after taking off shall remain on a constant course within a lane 2000 yards wide on a bearing of 257° (261° Magnetic) from Maylands Aerodrome. This bearing is in approximate direction of Rottnest aerodrome.

(b) Aircraft requiring to land on Rottnest Aerodrome must proceed via the aerodrome at Mahlands on a constant course within a lane 2000 yards wide, the central line of which joins Maylands Aerodrome and Rottnest Aerodrome.

(3) All aircraft shall avoid the restricted area but in the event of aircraft inadvertently encroaching upon the restricted area they may be considered friendly if they comply with One or more of the conditions set out in para 5 (b) provided there is no evidence to indicate hostile character.

(4) Any aircraft clearly recognised by its appearance or actions to be hostile will be engaged.
Should an aircraft establish itself as friendly whilst being engaged, lights will act upon orders received from C.O.R.
Any of the following acts committed by any aircraft will be regarded as a hostile act and the aircraft responsible will be engaged by the defences.

(a) Dropping flares except by direct prior arrangement.
(b) Opening machine gun fire on ground sea or air targets (except when flying over a prescribed air firing range)
(c) Dropping any type of explosive or incendiary missile whether parachute borne or not (except when flying over a prescribed bombing range).
(d) Dropping parachutists except from aircraft obviously out of control. NOTE. Friendly aircraft in distress might be compelled to Jettison its bomb load, drop parachute flares or fly over restricted or prohibited areas.
(e) Power diving on a defended point with undercarriage retracted except when information has been received of friendly aircraft cooperating with our own defences for practice purposes.
(f) The movement of any aircraft in the restricted area except when prior notification has been given to the ground and fighter defences or when the aircraft has been recognised as friendly.

(5) Aids to Establishing friendly Aircraft.

(a) Visual Recognition.

(b) Provided there is no evidence to indicate hostile character and provided one or more of the following conditions are fulfilled, aircraft may be considered as friendly:-

AUSTRALIAN WAR MEMORIAL AWM2019.366.2051

(1) Fly along on approved lane of entry or exit at an altitude be. the cloud base or less than 1500 ft above the average ground level whichever is the lowest.

(2) Fly in line astern on a level course.

(3) Fly with undercarriage lowered.

(c) SIGNALS

Lights and pyrotechnic Signals are provided to assist in the establishment of friendly nature of aircraft. They are to be regarded as evidence but not proof of friendly character. These signals will be issued as directed by AA Group Comdr.

Signals will be used under the following conditions:-

(1) When the aircraft is mistakenly engaged by A.A.Defences.
(2) When an aircraft inadvertently flies in an A.A. gun defended area under conditions which are prejudical to usual recognition.
(3) When entering a lane in a restricted area without prior notification.

Note 1. The two star cartridges should normally only be used during the day, but may be used at night if flashing the letter of theperiod on the downward recognition light is of no avail. The firing of the two star cartridge by night however, is undesirable since the brilliance of the signal may render it visible to the enemy and thus compromise security. (It may be seen up to 20 miles away in good visilibity). Furthermore, in view of the limited number of variations of the two star cartridge it should not be used at night unless necessary for the safety of the aircraft.

Note 2. Training aircraft will not have pyrotechnic signals, but may be recognised by their yellow colouring.

(6) Procedure at Night.

(a) All aircraft which enter the restricted area will be illuminated.

(b) Aircraft which do not fly in the lane are to be treated as hostile unless engaged onpre notified flights, or until they definitely establish themselves as friendly in accordance with para 5 above.

(c) Aircraft flying in the lane will establish their identity by means of the letter of the period. When the aircraft is established as friendly, the following procedure will be adopted. -

(1) The light illuminating the aircraft will immediately switch the beam from the aircraft, and make the following signal which indicates to other lights and gun stations that the aircraft has been identified as friendly:-
Depress the beam to 30° traversing a complete circle anticlockwise and then clockwise then close down. In addition it will notify C.O.R. by telephone of the identification of the aircraft C.O.R. will inform S.A.O.R. and other A.A.S/Ls.

(d) Friendly aircraft must not be illuminated for a longer period than is necessary to establish identification.

(e) It is the responsibility of the aircraft to identify itself by signal if it is illuminated or if it sees AA S/Ls apparently searching for it.

(f) A/C recognition 2 star cartridges may be unreliable owing to possible failure of green to ignite, therefore when a combination of green is in force, air crews will fire Two cartridges in quick succession.
UNKNOWN IDENTIFICATION. Two successive very Stars pending receipt of two star cartridge.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2051

(7) Homing for Lost Aircraft.

When Controller F.S. requires S/Ls for Homing of Friendly A/C, the following procedure is to be adopted. - The S/L Station will be nominated by C.C.O. and ordered to expose on a pre-arranged Bearing - and carry out the following procedure.

(a) The S/L detachment will expose the beam as nearly horizontal as possible for a period of 30 sec. in the direction of the selected drome.

(b) In order to catch the pilots eye, the beam will then be elevated to 45° and depressed again, three times quickly, without being extinguished.

(c) It will then be left exposed for a further period of 30 sec. as nearly horizontal as possible, pointing in the direction of the selected aerodrome.

(d) Procedures (b) and (c) will then be repeated until the aircraft is flying in the correct direction.

(e) The Beam will then remain exposed as nearly horizontal as possible until the sound of the A/c has died away, or for a period of two minutes whichever is the longer.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2051

APPENDIX "C" 55 Aust AA Coy. (H.A.E.) SECRET

IMMOBILIZZTION OF DEFENCES.

PART 1. GENERAL INFORMATION

A. OBJECT

(1) The object of immobilization is to deny to the enemy the use of guns, stores, equipment and facilities as may assist in pressing of his attack.

(2) Immobilization will entail the most complete destruction of practicable equipment.

(3) Complete immobilization of equipment will necessitate destroying all equipment in the sequence laid down, as it has been found that lack of uniformity in methods employed to render vehicles and equipment unserviceable has allowed the enemy to repair one vehicle with parts from another.

(4) Action will be taken for complete disablement. See Schedule "D".

B. AREA

All Fremantle coast and Anti-aircraft defences including Rottnest.

C. THE NATURE OF ATTACK EXPECTED.

The attack will either be in the nature of a raid or a full scale invasion.

Raid. (1) The object of araid will be the destructionof fuel stocks and the disorganization of the Port facilities or attack on shipping.
(2) It may be accomplished by small landing parties to destroy F.O.Ps., guns and searchlights, etc.

Invasion.

(1) The object of an invasion will be the complete capture of the Port and facilities.
(2) It will undoubtedly be preceded and accompanied by air and perhaps sea bombardment.
(3) On invasion Rottnest must be held, a penetration of the defences in any area of the island must necessitate complete destruction of the equipment in that area including bulk drinking water storage.
(4) The mainland areas will form part of the General plan and immobilization will depend on the position of the other forces.

D. CO-ORDINATION WITH OTHER SCHEMES.

Rottnest. Naval authorities will cooperate by immobilisation of their own equipment and navigational aids.

Mainland. (1) Navy, Army and Civil authorities will be responsible for specified immobilization on the mainland.
(2) Naval Authorities will immobilise shipping, small craft, Navigational aids, their own equipment and stores, and blocking of harbour entrances.
(3) Field engineers will be provided to carry out essential immobilization for public utilities and certain civil installations.
(4) Civilian staffs will be allotted specific works and will be assisted where possible by Sections of Field Engineers.

B. RESPONSIBILITY FOR IMMOBILIZATION.

(1) In principle O.C. 55 and 66 Aust A.A. Coys will be responsible for equipment under their charge.

(2) All Section Commanders and NCO i/c of any workshops will be held responsible for all equipment and vehicles under their charge.

(3) S.L.O. at SOR will be responsible to the Controller of F.S. for all orders and actions.

PART III

A. ORDERS

Should it become apparent the enemy will overrun parts of defences, Coy Comdrs and Section Comdrs will either:-

(1) Order evacuation of equipment or part thereof to a more secure area or sector and leave troops behind to take up defensive positions, or,
(2) Order the complete destruction of equipment as contained in these orders.

It is therefore very essential for section Headquarters and S/L Stations that close and continuous contact be maintained between C.HQs and neighbouring detachments in respective Section and S/L Sta areas.

C.HQ is to be informed as soon as is possible for all actions taken.

Special attention is to be paid to Part III para "D" sub-para (1), (2) and (3) of these orders.

B. STORES

Stores to carry out complete disablement will be either:- Axe, Pick, Sledge hammer, Crow bar, or hammer, and for SLC equipment the demolition of radio must be carried out by use of T N T slabs or gelignite.

C. PERSONNEL.

(1) Officers responsible for Section areas will prepare in detail the postings of personnel to carry out immobilization at each Headquarters and Clusters.
(2) Sections will make sure that such personnel are properly trained and understand their duties thoroughly.
(3) Section Commanders are to take immediate steps to prepare equipment and vehicles for immobilization.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2051

D. COMMUNICATIONS.

(1) In order to prevent 5th column activity and when the order to immobilise is given by C.H.Q., it will be preceded by a code word which will be issued from time to time.
(2) All Sections will be notified periodically by phone and confirmed by message formper Don R of the general situation in their area.
(3) In case of breakdown in communication, Section Commanders are to use their own discretion, bearing in mind that premature immobilization of equipment is only less undesirable than abandoning it intact.

E. SECRET AND SECURITY DOCUMENTS.

The destruction of Security and confidential documents will be as is already laid down.
Standing orders for the destruction of Secret and Security documents will be attached to this order.

F. TRANSPORT.

(1) When the tactical situation makes it likely that vehicles may have to be abandoned, Section Commanders will issue orders for immobilization of all transport under their control. Orders will be issued to make it clear whether vehicles are to be permanently or temporarily immobilized in the hope that they will be recovered.
Parts removed from vehicles abandoned are to be handed into the Section Sgt at first opportunity. Section Sgts will be responsible for their safe custody.

(2) When fire is permitted, complete destruction, if ordered will be carried out by fire or demolition.

(3) In all other cases following priorities will be rigidly adhered to, to ensure that enemy cannot repair vehicles from parts obtained from others.

(4) Petrol driven vehicles.

Action that must be taken. Remove distributor and H.T.Leads.

Further action if time permits:- as above, and,

(a) Remove carburettor.
(b) Deflate tyres and destroy by S.A. fire at short range (5 yds) or slashing with bayonet (4 slashes).
(c) Damage further parts in following sequence:-
(i) Radiator at bottom tank.
(ii) Sump, or pour dry sand into oil filler cap and run engine on full throttle until it seizes.
(iii) Perforate bottom of petrol tank.

(5) DIESEL DRIVEN VEHICLES.

Action that must be taken. Remove fuel filter bowls.

Further action if time permits:-

(a) Remove complete fuel filter.
(b) Damage pump and fuel lines.
(c) Remove or damage injectors.
(d) Deflate tyres and destroy by S.A. fire at short range (5 yds) or by slashing with bayonet (4 slashes)

(6) MOTOR CYCLES.

Action that must be taken. Remove magneto and leads.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2051

Further action if time permits.

(a) Remove carburettot.
(b) Deflate tyres and destroy S.A. Fire or slashing with bayonet.
(c) Smash cylinders.
(d) Perforate bottom of petrol tank.

(7) BICYCLES.

To totally immobilize bicycles.

(a) Smash frames.
(b) Deflate and destroy tyres by S.A. Fire or slashing with bayonet.

If temporarily evacuating the position it may be possible to take the bicycles with personnel, to save immobilising.

G. WATER. Coy H.Qs., Sect H.Qs and AA S/L Stations.

Complete destruction of Water tanks, wells and bores is to be carried out by rifle fire, mills grenades, gelignite if available or by physical action by use of axe, pick etc.

H. MEDICAL.

All possible medical supplies will be taken by personnel to the new positions.
All efforts must be made to prevent medical supplies falling into enemy hands.
