No change of Duty without prior approval
Next for duty is to be next on the list.

No.2.

POWERS OF SENTRIES AND GUARDS. G.R.O. A682.

1. Regulation 8A of the National Security(General) Regulations(Statutory Rules 1942, No.374) provides that, without derogating from or restricting the existing powers rights of sentries and guards, a military sentry or guard stationed or posted at, on, in, or in the neighbourhood of vicinity of, any prohibited place, protected area, controlled area, or any premises used by the Commonwealth, or used for defence purposes or for essential services, or any vehicle, vessel or air-craft used by the Commonwealth, or any enclosed wharf or picking-up place, or any merchant vessel lying in port, or any road, pathway or waterway, specified in an order by the Minister, which passes through or near a prohibited place or work of defence, may be armed, and may-

(i) use his weapons against, or otherwise attack, any person who, in disregard of a warning given by a sentry or guard, approaches, enters leaves, or passes over or in the vicinity or neighbourhood of, or attempts to approach, enter, leave or pass over or in the vicinity or neighbourbood of, that place, area, premises, vehicle, vessel, air-craft, wharf, picking-up place, road, pathway, or waterway, or who after being arrested for so doing, escapes: and

(ii) use his weapons against, or otherwise attack, any person attacking him or who is reasonably suspected of being about to attack him.

2. There are, however, certain principles which must guide all sentries and guards in the execution of their duty as such, and in the exercise of the right to resort to arms.

3. These principles are:-

(a) Sentries and guards will be ordered to take any action required to ensure the safety of their posts or to defeat the activities of enemy, or suspected enemy agents.

(b) If necessary, they will fire upon or otherwise attack any persons threatening the safety of their posts or engaging in hostile actions.

(c) Before firing upon any person, the sentry or guard will, except in an urgent case of self-defence, challange that person to "Halt". If that person does not halt, the sentry should challenge him again with "Halt or I fire". If he does not halt, and no other means are available for stopping him - as for example, by calling on the rest of the guard - it is the duty of the sentry to shoot.

(d) The sentry will use his intelligence and sense of responsibility in choosing whether he will shoot or not, and he must be careful not

AUSTRALIAN WAR MEMORIAL AWM2019.366.2059

to allow any suspected person to approach so close that he can be rushed and overpowered.

(e) Guards of enemy prisoners of War. An enemy prisoner of war attempting to escape may be fired upon, but a previous summons to surrender will be given if possible.

(f) Guards of members of the forces in custody. The use of weapons to prevent the escape of a prisoner (other than an enemy and except as provided in para.1.(i)) is unlawful unless -

(i) the prisoner has committed a felony and cannot otherwise be re-arrested : or

(ii) it is necessary for self-defence, and no more force is used than is reasonable in the circumstances. The offences which constitute a felony are indicated on pages 146-151 of the M.M.L(Australian edition)

(g) If a prisoner resorts to violence, force may be met by force to the extent reasonably necessary, and the escort may call for help from passers-by.

No.3.

Q.687 DANGEROUS ENCLOSURES IN PARCELS FORWARDED BY POST.

1. A fire aboard a ship carrying valuable supplies, including explosives, was caused recently by spontaneous combustion of wax matches included in mails for Army personnel.

2. All members of the forces will be instructed to request their relatives and friends not to forward wax matches or charged petrol lighters to them through the post. The dangers as stated above will be explained to troops.

3. Franking officers will delete any request for wax-matches or charged petrol lighters from letters.

Next for duty will be next on the list.

Officers, N.C.O's detailed for duty must be fully conversant with requirements of such duty and ensure it is correctly carried out.

No.1.

UNAUTHORISED INTERFERENCE WITH EQUIPMENT.

1. Several cases have occurred recently where minor defects in technical equipment have been converted into major defects by unskilled attempts at repair by unauthorised personnel. In particular, clocks and watches which should have been repairable have had to be condemned as unserviceable because unskilled tampering has aggravated the original damage or caused further breakage of sound parts.

2. As spare parts for certain instruments, particularly watches and clocks, are almost unobtainable, such tampering results in the loss of equipment.

3. Previous orders forbidding the repair of technical equipment of all kinds by unauthorised personnel will be strictly enforced.

No. 2.

OUT OF BOUNDS - AMERICAN RED CROSS SERVICE CLUB.

Q'ld L of C. Area Routine Order A.413/42 is amended by the inserting of the following paragraph:-

"Any member of A.M.F. who uses the priviledges of this club will be prepared to produce his leave pass on request by any member of Australian or Allied Provost Corps or any member of the Club Staff. Failure to produce a leave pass on request of the production of a leave pass from a unit within 50 miles of Brisbane will be treated as an offence.

No. 3.

SMOKING - AMMUNITION AND PETROL DUMPS. ETC.

Smoking is forbidden in ammunition dumps, ordnance depots, supply depots, oil company installations, army petrol dumps and oil stores.

Smoking by member on duty at docks, piers and waterside stores and warehouses is prohibited except at special times and then only in

AUSTRALIAN WAR MEMORIAL AWM2019.366.2059

the prescribed areas marked and allotted for this purpose (see Q'ld L of C. Area Routine Order No. 26 of 29 Jan 42 para 2)

No member of the A.M.F. will smoke in any U.S.Army installation in which U.S. personnel are not permitted to smoke.

This instruction will be brought before the notice of all ranks.

No. 4.

ADMINISTRATION.

During the similtaneous absence of C.O. and 2 I/C, the routine administration of A.A.GROUP.H.Q.(NQ) will be carried out by Adjutant.

LT. COL HARDEN-JONES COMMANDING ANTI-AIRCRAFT DEFENCES NTH QLD.

No. 17. 23 Jan 43.

REGIMENTAL DUTIES.

Tour of Duty 1700 hrs to 1700 hrs.

	ORDERLY OFFICER	ORDERLY SERGEANT.
Jan 25.	Lieut Astill	Sgt. Hamnett
26	" Adams	" Binnie
27	" King	" Kemp
28	W.O.II. Burgess	" Green
29	Lieut Erickson	" Potter
30	" Astill	" Hamnett
31	" Adams	" Binnie

Next for Duty to be next on the list.
No change of Duty without prior approval.
Officers, N.C.O's detailed for Duty must be fully conversant with requirements of such duty and ensure it is correctly carried out.

No.1. A.25. PUBLICITY CONCERNING RECAPED PRISONERS OF WAR.

1. Members of the A.M.F. will not, unless authorised by the Commander-in-Chief, publish in any form whatever, or communicate, either directly or indirectly, to the press or radio any account of the escape of any person whatsoever from enemy or enemy-occupied territory or of the experiences of such person prior to repatriation.

2. Experience has shown that publicity of this character furnishes valuable information to the enemy and will jeopardize future escapes of Australian and Allied prisoners of war.

No. 2. A.26. BROADCASTS OVER ENEMY WIRELESS BY AUSTRALIAN PRISONERS OF WAR.

A member of the Military Forces who becomes a prisoner of war will not transit messages over enemy wireless. The enemy's design, in arranging such broadcasts, is to enhance his own propaganda.

No. 3. A.27 CASUALTIES AFFECTING PAY.

No action will be taken to amend pay book rates consequent upon promotions, remissions of fines or remissions of forfeitures until receipt of the relevant Routine Part II Order from Records Office.

No. 4. G.3. MAXIMUM PERMISSIBLE SPEED OF VEHICLES.

1. Training.
(a) The following are the maximum speeds permitted on any surface for the vehicles mentioned. These speeds are not to be exceeded unless absolutely necessary for the purposes of field training, or as ordered by a responsible commissioned officer. In such cases, the work ticket is to be endorsed accordingly.

TYPE OF VEHICLE	MAX SPEED in M. P. H.
Cars, motor cycles and combinations	45
Trucks, 4 x 4, 5-cwt(Jeep)	45
Ambulances(except in emergency)	35
Vans and trucks, 12 to 15 cwt.	35
Vans, 1-ton lorries and trucks up to 3-ton except 6-wheeler	30
Lorries and trucks, stores, 3-ton loaded	25

AUSTRALIAN WAR MEMORIAL AWM2019.366.2059

(c) Army drivers are subject to the traffic regulations of the State authorities, and must observe all the rules of the road and obey orders and signals from traffic police and members of the Provost Corps.

2. Operational.
It is emphasised that the above speeds do not apply in operations against the enemy. When in or near contact with the enemy, vehicles will move at a speed dictated by the tactical situation.

3. Convoys.
Particular attention is directed to the calculation of time tables when preparing operation orders. It must be remembered that the average road speed is necessarily below the maximum permissable.(Reference F.S.R. and Military Training Pamphlet No.47)

4. General.
Armies, Corps and N.G. L of C. Areas are responsible to ensure that traffic is properly policed in their areas and will instruct the Provost to see that traffic laws, both army and civil are observed.
The necessity for prompt disciplinary action in the case of breaches of this instruction is stressed.

No. 5. G. 36 CARE OF HAND TOOLS.

1. Demands for replacement of hand tools indicate that wastage is unduly high.

2. An acute shortage of these tools exists. Many types are not manufactured locally and have to be imported from overseas. It is essential, therefore, that all ranks be impressed with the necessity of ensuring that wastage is reduced to a minimum.

3. Care is to be taken that tools are used only for the purpose for which they are supplied.

4. Unit Commanders and Officers or other ranks in charge of workshops etc. are to take all action necessary to ensure that these instructions are observed by personnel under their control, and that appropriate steps are taken to ensure the safe keeping of hand tools on issue.

No. 6. OFFICE ROUTINE DUTIES.

As from week commenced 18 Jan 1943 it is directed that only personnel doing essential duties, orderly Offr; Orderly Sgt; and Duty Driver will work on Sunday of each week.

Work will be carried out on Saturdays in a similar manner to other week days.

WAR DIARY

A.A. GROUP H. Q. (N.Q.)
7 Paxton St
North Ward.
Townsville.
6/2/43.

T. I. O / G L / N O 1 - 5 JAN 43

G.I. EQUIPMENT RETURNS & LOGS.

1. G. I. RETURNS.

The following Returns will be submitted by G.L. Stations through Bty. H.Q. to Group H.Q. All returns will be marked "SECRET" and the first Returns under this Instruction will cover the period, week ending 2359 hours, Saturday after first becoming operational.

(a) Weekly Return showing hours and nature of operation (as per Pro-Forma No 1)

(b) Weekly fuel and lubricant Returns (as per Pro-Forma No 2)

(c) Bi-Monthly Return of Maintenance (as per Pro-Forma No 3)

(d) Bi-monthly Return showing state of training of Operators Fire Control (as per Pro-Forma No 4)

2. BLANK PRO - FORMA.

Sufficient Blank Pro-Formae are supplied herewith to cover the next three months returns.

3. HISTORY BOOKS OF THE SET.

With Equipment, whose work is so important as that of G.L., no effort should be spared in maintaining the set operational; FURTHER emphasis is laid on this fact by the difficulty in obtaining spares peculiar to G.L. It is for this reason that History Books should be kept. The success of this policy is in direct ratio to the manner in compiling these books.

The above cannot be too strongly emphasised if an inspection it is found that these records are not being kept as required the omission will be received with strong disapproval.
The logs are as follows:-

(i) Operator's Duties Books.

The Operator's Duties Books five (5) in all consist of tabulated task tables. There is a separate book for each operator, wherein he will note by signature that he is satisfied that his duties at examination of equipment have been completed. This is countersigned by the No. 1

(ii) "The G.L. Site Log".

"The G.L. site Log" is in the charge of the F.C.I.A. Enteries there are general items of interest to the G.L. s.s: the result of Co-op the exact cause of breakdowns, experiments carried out, A M T. reports etc. A precis of this information is supplied to the G.P.O.

(iii) "Set Operations Log".

This log is a record of hours of running and nature of work (i.e. whether early warning, training, or Fire Control, etc) of the ~~Units~~ UNITS

(iv) THE 'SUPPLIES RECORD'.

All supplies of fuel, oil, grease and kerosene used in the equipment is noted in the above log.

(v) 'THE RADIO MECHANICS LOG'

The Radio Mechanics log is very important. It is held by the mechanic who inserts the duties performed by his i. e., all relevant matter concerning periodical tasks, breakdowns, etc.,

(vi) RECORD OF A/C FOLLOWING DATA

All data supplied by the Receiver when following A/C, enemy, co-op, or otherwise is noted in this book. This information on which a post mortem is held is of great value in determining the performance of both equipment and operators.

(vii) 'Army Book 20'.

History Books (AB 20) are issued with the equipment and are kept in the book rack in the receiver cabin. All necessary entries regarding particulars and movement of the instrument and summary of maintenance and modifications will be made in this book by the C.O.O. E.M.E. or Unit Commander.

The above are the routine books. It may be found that special records e.g., records of interference, etc., may be required.

The exact form these special records will take, and the period for which they will be kept will be as demanded by the situation. The necessity for keeping these logs will be determined by the F.C.I.A. He will notify the F.C.I. who will investigate the matter.

4. Sample copies of these books accompany this instruction. For any replacement F.C.I.A's should requisition for same from their Bty H.Q's.

5. ACK.

36 (Aust) A. A. Bty

37 (Aust) A. A. Bty

397 Gun Station.

THE EFFECT ON THE A.A. SITUATION ON THE INTRODUCTION OF G. L.

(1) GENERAL

On the introduction into an area of equipments R.C.F. A.A. No.I. Mk.II or more simply G.L. considerable alterations and additions are required in the Fire Discipline and general dispositions of A. A. Sites concerned. It is the purpose of this communication to set out the general picture. No effort is to be made to treat the subject in detail. It is intended at a very early date to give one or two thorough lectures on all operational phases of G.L. to C.F.C.O's and senior T.C.O's. Information may be found on the Fire Discipline modifications in manual of A. A. Volume I - Gunnery Pam. 16.

Further duties of C.F.C. may be found in Pam 13 a copy of which should be in your possession. If such is not the case application for same should be made to this H.Q's.

(2) EQUIPMENT ALLOCATION.

The policy of equipment allocation is not yet definite. The ideal is one (1) per gun site. Even if this is decided upon the paucity of equipment will probably prevent the implementing of this plan for some considerable time. Further, some established gun sites are such that it will be difficult to site and use G.L. on these stations. Siting will be discussed further in para 7.

(3) G.L. PERSONNEL (A. A.)

(a). THE T. C. I.

The T.C.I. is on strength of A. A. GROUP and is the person handling all R. D. F. (A.A) matters within this group. This appointment is made by L.H.Q. after the former has completed an extensive course at the L.H.Q. School of Radiophysics on G.L.

(b) THE T. C. I. A.

Appointed from L.H.Q. and taken on the strength of each battery possessing G.L. sets, and in proportion to the number of sets, are T.C.I.A's. This person, who has completed a course on G.L. at L.H.Q. School of Radiophysics holds the rank of Sergeant. (Appendix 'A' shows in detail the duties of above).

(c) G's T.C.

The H. H. at present provides for twelve (12) Operators Fire Control (O's. F.C's) of which two are Bombardiers No's I, per battery. These may be A.M.L.H. The usual difficulty of obtaining bodies and the lack of training facilities determines number available operators. Schools for O's. F.C. are running continuously in the south; but the number being trained at any one time, and at any one school is limited to a maximum of twenty. The schools last for some four (4) or six (6) weeks. The results of all this is that operators are very scarce and are the limiting factor in most cases in the early operational employment of the equipment. On allotment of sets to an area L.H.Q. attempt to provide a nucleus of operators trained in some degree from the southern schools. It then becomes necessary for the battery concerned to provide and train operators to complete

the establishment. The operators are, on completion of training and after having passed satisfactorily the required trade test, classified as Group II specialists.

(d) ATTACHED PERSONNEL

(i) Engine Room Hands (R.A.E)
Personnel from other units are attached for maintenance purposes to the batteries possessing G.L. equipment Four (4) R. A. E. mechanics carry out care and maintenance of the Lister Generator sets. These men are hard to obtain, but in my opinion there is no call for concern as no where near this number is required for efficient maintenance of the generator. Sufficient care and maintenance is provided by a periodical check, say weekly, by the Battery Workshop personnel.

(ii) A. E. M. E. PERSONNEL.
The authority for all echelon repairs and maintenance is invested in the A.E.M.E. (Army and Mechanical Engineer). Two (2) Radio Mechanics are attached. These men carry out periodical maintenance and make any minor repairs and adjustments required. In the event of any major repair or calibration etc., the work is performed by the E.M.E. (Electrical and Mechanical Engineer). The mechanic is responsible to both the E.M.E. and the F.C.I.A. To the latter in so far as the mechanics actions affect the operational side. Closest co-operation is required between A.E.M.E. and artillery personnel

4. DATA OBTAINED FROM G. I.

This instrument obtains "Bearing", angle of sight and slant range of A/C by electrical method. The degree of accuracy obtainable is good if all requirements are met. Information may be found on this matter in pamphlet 17 of above manual. Care must be taken in reading this pamphlet as this was compiled for the earlier mark, which is not as comprehensive (particularly as regards A/S measurements) as Mk. II. Nevertheless it is strongly recommended that this pamphlet be read.

5. THE EMPLOYMENT OF R. D. F. A. A. EQUIPMENT.

The use of G.I. Mk. II can be subdivided into three roles:-

(a) Role I.
As a means of early warning and accurate height-finding; the latter being computed from visual angle of sight, obtained from the predictor, together with accurate slant-range from the G.I. station.

(b) Role II.
To give more accurate bearings than in role I and some measure of angle of sight from G.I. station this providing sufficient data to enable unseen shooting to be carried out.

(c) Role III.
To give the best possible use of G.I. equipment for unseen firing. This will only be possible under at least semi-static conditions, where a suitable can be found, or a mat can be provided. Calibration facilaties will also be necessary.

6. ANALYSIS OF THE EMPLOYMENT OF G. I.

The equipment is primarily designed as a Fire Control Instrument, Data being passed to the predictor through the height computer mounted on the top of the former. It is unfortunate that the siting requirements of G.I. are rather stringent as a considerably number of A.A. sites do not readily len themselves to accurate working of the set. Consequently unless it is possible to improve the site to the desired degree it becomes necessary to either,

(i) Use the set on the site in Role.
In this instance the siting requirements are not so severe. It will be seldom used solely in this roll as it means a considerable waste of equipment.

or

(ii) Select the most suitable area for the G.I. and supply data solely to G.C.R. Normally sites can be found which are satisfactory and which are situated central to all Gun sites so that information from the G.I. via G.C.R. is of maximum use to all concerned. This is the role of a "Barrage data producer". The main reason for this method is the lack of equipment. The ideal being (with less G.I. sets than stations) to site the apparatus on a suitable gun station.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2059

Information would be going simultaneously to the height computer of this station and to G.C.H. Thus one station could engage independent control and the satellite sites on Barrage data from G.C.H.

The chief disadvantages in using the equipment as a master set for barrage control of satellite sites are:-

(a) The set is designed primarily as a Fire Control instrument. In consequence of this, the dials from which the operators pass information to H.P.L. are such that the same degree of accuracy cannot be obtained as applicable to the information going electrically and independently, to the predictor.

(b) Due to the extra personnel handling the information the possibility of human error increases.

(c) The factor of time lag.

Concerning the relative merits of plotting and predictor control a War Office AAC/S/595/ G/A/(RCN) has to say:-

"Plotting control is a poor second to Prediction control. Already 70% of our H.A.A. sites are equipped for Predictor control and before long we hope that 85% will be so equipped. It is essential that gun sites should so far as possible be left to fight their own independent battles without interference from G.C.H. or the distractions of being called on for plots or information.

With the above in mind every effort is made to site a set on the Gun Station even if the latter is not completely suitable. The set could then fulfil the functions of Role II.

It is fortunate that in the majority of the necessary improvements can be made to a natural site. Under these conditions the maximum results can be expected of the equipment i.e. as in Role III.

7. SITING.

The problems of siting can be divided into two classes:-

(i) The initial siting of both guns and G.L. considered together and

(ii) The problems to be overcome when a G.L. is introduced to a gun site already established.

This is the more serious of the two.

(a) INITIAL SITE SELECTION.

When considering a new gun site the demands of both guns and G.L. station should be considered as one problem in Role III. The G.L. station should have priority and the displacement (distance Ex-predictor) should not exceed 200 yds.

(b) IN THE CASE OF SITES (ii)

When a site has already been established the problems are much more difficult. Unfortunately the best gun site requirements are not commensurate with those of G.L. Where possible new stations appear to be sited on crestscope sheds with G.L. a mound, or bank shaped site is normally required. The greatest disadvantage of these knolls is that the area of level ground is generally comparatively small. The G.L. angle and Bearing accuracy falls is fatal. This disability may be obviated in most cases by the use of an artificial site mat.

8. THE EFFECT ON THE DISPOSITION OF NEW STATIONS IN INSTALLING G.L. SITING REQUIREMENTS.

Most station commanders are naturally concerned when the siting requirements of G.L. are first brought to their notice. Their first thought is the effect on the camouflage of their station. Unfortunately the accuracy and effectiveness of the equipment falls off as the amount of camouflage material brought within proximity to the set increases, very soon, a clear area, i.e. devoid of trees, elevated wires buildings, guns etc, of some 200 yds diameter is required. As the receiver is about one hundred (100) yds(less if possible) from the predictor the presence of this clearing must lower the effect of the station camouflage. The only mean of camouflage if the set is to have a reasonable chance of performing will is the use of special camouflage paint on the equipment. Further the distinctive shadow patterns may be broken up by the application of the above paint to the area around the equipment. To achieve dimension the maximum length of cable is desirable so that it can be laid tactically.

9. ESSENTIAL INFORMATION TO B.P.I.'s.

As laid down in Pg 7 of the duties of P.O.I. (see APPENDIX) Technical instruct will be issued by Brig H.Q's to the various Battery P.I.'s for the edification an action of and by the P.O.I.'s. It is required that these should be made readily

AUSTRALIAN WAR MEMORIAL AWM2019.366.2059

available to this person.

10. THE PRESENT G. I. SITUATION IN THE AREA ADMINISTERED BY THIS H. Q's.

(a) Equipment Position.

At the moment a fair amount of equipment is in the above area; but of these, three are definitely to remain with the destination of a further set undecided. The allocation (from L.H.Q) is as follows:-

(1) Two (2) Townsville.

(2) One (1) Mareeba.

Any sets other than the three (3) detailed above will when instructions are issued be shifted for operational duty to another area.

12. THE POSITION AS POSSIBLE.

(i) SITE RECONNAISSANCE.

An inspection of sites was carried out at approx the same date as the equipment arrived. Of the gun sites visited it was obvious that nothing much could be done with R.I. This left no alternative but to place the equipment at 337 and 394. R.I. and S. S. are very difficult but by alterations etc., they could be patched up to fair sites. By R.I. and S.S. I mean the area within, say a radius of one hundred (100^{yds}) to two (2) hundred (200^{yds}) yds of the predictor. Further means have been found to enable the set to be used with and at some distance from the predictor. The distance allowable is up to 2 five hundred (500^{yds}) yds. Although it should be pointed out that the displacement corrector as it is turned, loses its efficiency with distance and it is not recommended, although it can be used over 500^{yds}.

(ii) THE POSITION WITH REGARD TO THE PRESENT SERVICE OF SUPPLY.

Although an order setting unfortunately has yet been seen of the Displacement Corrector in Australia. Similarly to use the equipment without R. C. by carrying out alterations of stores could be obtained would take the matter of weeks. Position period was considered undesirably long for Townsville May S.A. was simply in the need of some measure of Fire Control against warship A/C. It was therefore decided as a temporary measure to find immediately a suitable site and work the equipment through S.C.H. and because data produced. Although T. S. is itself naturally unsuitable it was found that the area of ground some four hundred (400^{yds}) from the G.P. was better than any and within the vicinity of T. S. Consequently it was decided to go ahead with T.S.

(iii) ARRIVAL OF INSTALLATION

To this end R. A. A.M. personnel have been installing the equipment. Installation difficulties were accentuated by the extremely rocky ground. This work should be completed by the time you receive this communication. R.A.A. have their cut in hand and lines are being put through to the G.P. sites. They should be ready when the equipment is ready to supply data.

(iv) TRAINED PERSONNEL.

Twelve (12) Operators are being supplied by T. H. A. and they should be in this area within the next few days. These operators will work the equipment at R.I. & next or two may elapse before this performance is fully satisfactory as they are as yet semi-trained.

The difficulty of insufficient operators will not be felt until the R.I. set becomes operational. At least twelve (12) new ladies will have to be obtained for this area.

(v) THE DURATION WHICH IT IS INTENDED TO RETAIN R.I.

As already pointed out, the situation is of a temporary nature. It is strongly desired that the equipment will finally work with predictor as will as through S.C.H. But before this can be achieved additional equipment must be obtained. In the case of R.I. the use of the displacement corrector will benefit the equipment to be moved from the present position with the Height corrector. The position of T.I. is similar, although the gun accuracy would not be expected from it as the accuracies at R.I. This is due to the fact that a neighbouring flat area could be found with suitable ground, this was not

will be used in conjunction with the displacement conveyor. Otherwise it will be necessary to erect an artificial wind mat in addition to the D. C. mats. Of the work involved in laying the mat can be seen when it is realised that it is of octagonal shape measuring a diameter of one hundred and thirty (130') yds.

12. THE SITUATION AT MORETON.

The set to be used in this area has just been moved in. It is proposed to use the equipment at ZZZ. The actual siting will not be determined until the P.M.G. visits this station.
This visit was delayed pending the arrival of A.W.A. installation personnel. Further the P.M.G.'s premises are more urgently required in Townsville.
The A.W.A. people are scheduled to arrive in a few days.
The T. D. 1. A at present in Cairns will almost certainly be moved to Moreton.
The major difficulty at this site will be the lack of C's P.C.
Information on this matter will be forwarded immediately something is decided.
Acknowledge.

WEEKLY INTELLIGENCE SUMMARY FOR WEEK ENDING 9/1/43.

Operations in NEW GUINEA over the past week have been mainly confined to bombing and straffing of shipping round RABAUL and in HUON GULF near LAE.

OPERATIONS - LAND.

Australian and American troops are engaged in mopping up operations following the occupatien of BUNA GOVERNMENT STATION.

On 2/1 about 200 Japs. were killed in the Government Statien Area and 450 in the GIROPA Area.

The Capture of BUNA GOVERNMENT STATION was effected by a tank advance followed by A.I.F. Infantry. The attackers used a smaoke screen cover.
The Infantry advanced to the beach 300 yards each side of the Japanese positions and closed in against stiff resistance. Victory flares told the reserve troops that the advance had been successful.
The next Japanese strong point along the north-east coast is at MAMBARE RIVER, 60 miles from BUNA.
It is possible to land almost anywhere on the many beaches between BUNA and MAMBARE RIVER.
The Japanese first landed in the GONA -BUNA area on July 21st/ 1942.

BUNA:- On 1/1 U.S. Troops at BUNA Government Station pushed along the coast and contacted our forces at GIROPA CREEK, cutting off from the sea the small pocket of enemy west of GIROPA ~~XXXXX~~ CREEK. It was in this action that 200 Japs. in Government Station area and 450 Japs. in the GIROPA POINT Area were killed.
At the present time our activity is confined to reorganising and combing the area for individual Japanese hiding in swamps.

NEW GEORGIA:- On 4/1 natives reported that the Japanese were occupying KULUMBANGARA ISLAND in force, and that there are approximately 400 Japs. at VILA.
Construction work is proceeding and plane ramps and A/A positions are reported.
The Japs. have explored inland from MUNDA and KNERALE KINDU (unlocated) and are now concentrated in that area.
Aircraft bombing MUNDA at noon on 3/1 encountered the heaviest A/A fire yet.
There are 300 Japanese with dugouts reported on VANGUNU ISLAND which is South of NEW GEORGIA.

GONA:- On 8/1 enemy troops were reported to be in the vicinity of ½ mile SE of ~~XXXXXXXX~~ GONA, and were engaged by our mortars. Our troops were improving their positions and are now occupying KURENDA VILLAGE at the mouth of the KUMUSI RIVER.
The estimated strength of the enemy in this area is believed to be about 200.

SANANANDA:- On 4/1 enemy activity in the vicinity of TARAKENA (approx. 1½ miles SE of SANANANDA) was increasing. Our troops are carrying out patrols in this area.
In the road block an artillery shoot was carried out on suspected Jap. H.Qs.
On 7/1 our forces were still carrying out active patrolling.
RABAUL natives captured at GARARA (3 miles NW of SANANANDA) state that the Japs. in the SANANANDA Area are short of food and some are unarmed.
13 damaged barges were seen at SANANANDA POINT.
The estimated number of Japs. astride the main track is 300.
Our troops are held up 500 yards from TARAKENA by machine guns covering the track from SIWORI to TARAKENA. A slight advance was made on the left, from the west, of the SOPUTA - SANANANDA track, and known positions were attacked with mortar fire. There is a supply dump and a machine gun position situated 500 yards from the shore lines along the SANANANDA track. There is also a strongly held Japanese position situated on MUROV CREEK, 1500 yards east of AMBOGA RIVER mouth. It is reported that for three miles south of SANANANDA POINT, the track is under water, and the enemy are attempting to repair the road.

On the PAPUAN campaign just ended, a Japanese Army of 15000 men have been annihilated.
Men of the A.I.F. who crossed the OWEN STANLEY RANGE and captured GONA are back in AUSTRALIA on leave.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2059

AIR OPERATIONS.

RABAUL:- Results of attacks on enemy shipping on 6/1 at RABAUL were assessed by MORESBY as hits on 11 ships.

6 - B24s attacking shipping at RABAUL were intercepted and pursued across GAZELLE PENINSULA by 12/15 enemy aircraft, all being ZEKES except 1 or 2. Our aircraft destroyed 3 ZEKES, and also 1 possible and 1 probable. The other 1 or 2 aircraft were probable MIKES and had "Swastikas" on the tops of their wings.
While on their way to the target, B-24s sighted 3 ZEKES in ST.GEORGE'S CHANNEL, which made no attempt to intercept. Other sightings were 10/12 ZEKES on VUNAKANAU at 1200/5/1, 2 U/I bombers airborne, 4 ready to take off, 3 moving into position and a large number in dispersal area. One of these painted in various shades of green with a Swastika on top of each wing, was identified as an ME 109.

LAE:- On 2/1 the airodrome was bombed and straffed by 6 B-26s and 6 A-20s, which started large fires and destroyed dumps. 3 enemy aircraft on the ground were destroyed. The airodrome at HOPOI (approx. 40 miles E of LAE) is considered to be the main Japanese aerodrome, although it is not being used at present.

There were several attacks made by P-38s, p-40s, B-17s and B-26s on the convoy in HUON GULF, on 7/1. It is considered that losses to the enemy convoy were one transport sunk with personnel, one probably sunk and one damaged.

On 9/1 Allied airmen had further success in their attacks on the convoy, which is apparently trying to land reinforcements at LAE. Two large transports were sunk, including a former liner of 14,000 tons.

FINSCHAFEN:-

On 5/1 natives reported that the aerodrome was cleared, but that no aircraft were yet on it.
There is an enemy force of approximately 2,000 troops established in this area, and enemy patrols were very active.

Every house and shelter is occupied and also surrounding villages. It is believed the enemy is planning to occupy SATELBERG (approx. 20 miles N of FINSCHAFEN) next week.

Based on information received up till 9/1/43 the enemy have lost 39 aircraft which were shot down, and 17 others probably destroyed.

The Japanese suffered their biggest air deafeat of the NEW GUINEA campaign when American and Australian squadrons struck for three days at the enemy convoy with its air screen, and taking reinforcements to LAE. The action which lasted from 6/1 to 9/1 has been described as the biggest air battle in the S.W.P.A.

WEEKLY INTELLIGENCE SUMMARY FOR WEEK ENDING 2/1/43.

OPERATIONS

OWN (a) LAND:-

Considerable success has been gained in NEW GUINEA, particularly in the BUNA Strips area. The employment of light tanks in country offering very few opportunities for their use has been the predominating factor contributing to this success.

BUNA: Our co-ordinated attack on the Strips area, which was commenced at first light on 18 Dec., had by 20 Dec. reached a line extending from the coast to SINEMI CREEK approx. two thousand yards west of CAPE ENDAIADERE.

Tanks engaging pill-boxes at point blank range and using battering ram tactics cleared the way for our infantry, who quickly exploited any gaps in the enemy's defence line.

Continuing the attack on the 21 Dec. our troops reached the mouth of the SINEMI CREEK and although mopping up operations were still in progress they were then in possession of the tongue of land bounded on the north by the sea and on the south by the creek. The tactical value of this was quickly apparent.

The numerous enemy strong posts located in the vicinity of the bridge between the two strips had previously defied all Allied attempts to eliminate them. With our troops now able to attack from both the front and rear, these positions had all been captured by the night 21 Dec.

Other troops on the same day crossed the SINEMI CREEK about two hundred yards to the north of the bridge. With their right flank extending to the southern bank of the creek they attacked to the north west along the old aerodrome strip.

By 22 Dec. they had advanced one thousand yards with enemy resistance increasing as they were driven back. A further four hundred yards had been consolidated by 25 Dec. The enemy were then holding strong defensive positions in the vicinity of the dispersal bays and cocoanut groves at the north western end of the strip. With the intention of completing the encirclement of these enemy positions, our troops, on 26 Dec. were making progress through the timbered area along the southern edge of the aerodrome.

Allied artillery was used most successfully during these operations due to the ease with which targets could be located and engaged in the cleared area of the strip. Enemy coastal guns sited at the north western end of the aerodrome were destroyed on 22 Dec.

In the Government Station area two pockets of enemy resistance still remained outside the main defence lines.

One of these was sited at the track junction near the south end of ENTRANCE CREEK whilst the other was located in the apex of two tracks approximately seven hundred yards SSE of SIWORI Village. These were being slowly eliminated by Allied troops detached for this purpose.

Against the main enemy defences in the area Allied troops succeeded by 23 Dec. in crossing ENTRANCE CREEK and establishing themselves on the eastern bank from the mouth of the creek south for a distance of five hundred yards. An attack from here, supported by artillery fire was then carried out against the Government Station area.

By 25 Dec. some Allied troops had reached the track juctions between the STATION and GIROPA POINT, thus splitting the enemy defences in the BUNA area into two sections. At this stage, the enemy strength in the BUNA area was given as 450 to 500.(The reliability of the estimate is not known.)

The enemy positions in the dispersal bays area were still strongly held on 29 Dec. On that day one of our battalions attacked with tanks with the object of taking the Cocoanut Grove and the beach to the north east. An advance was made into the Cocoanut Grove but details of the action are not yet to hand.

Included in the equipment captured in the fighting between the old and the new strips were two 3" naval guns, 1-37 mm gun, 2-13 mm A/A guns, 3 LMGs. 2 H.M.Gs. and 1 Zero in fair condition.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2059

SOFUTA-SANANANDA TRACK: The attacks by Australian mechanised cavalry on 19 Dec. was carried out to the north of the enemy's road block this having been by-passed. On 20 Dec. fierce enemy resistance was encountered during which our troops captured two enemy supply lorries loaded with ammunition. It was thought that an enemy supply dump was in the vicinity. Whilst our tanks remained astride the track infantry patrols exploited the surrounding area. It was reported that on 24 Dec. the enemy were constructing earth-work defences in front of our forward positions which at that time was approximately one thousand nine hundred yards to the north of the original enemy road block.

Meanwhile our troops attacking in the vicinity of the road block continued to be held up. Great difficulty was being found in dislodging strong enemy pockets located in the swamps and covering movement along the track. Slight advances have been made but on 26 Dec. the enemy was still resisting strongly.

In the vicinity of SANANANDA POINT and covering approach along the coast from GIRUWA the enemy have constructed log emplacements and strong points.

On 30 Dec. Allied troops were also attacking east of the track four miles SW of SANANANDA POINT.

AMBOGA: As the result of our activity in this area 200 Japanese have now been buried. Many Rabaul natives have been collected and are working under our control.

On 21 Dec. approximately 200 Japanese were observed carrying stores west along the NW bank of the AMBOGA RIVER indicating the possible evacuation of the area or the removal of H.Q. to a new defensive site.

Our patrols are continuing and reported that the enemy landed small detachments at night, and on the 23 Dec. between KURENDA and DANAWATU, and had been observed at FUFUDA and SENAMI.

MUBO:- At GUADAGASAL two Japanese letters in English were dropped addressed to O.C. New Guinea Force asking our troops to surrender, stating that they would be well looked after and that they also intended capturing WAU.

OWN (c) AIR:-

Increased enemy shipping both to NEW GUINEA and NEW BRITAIN has been the target for the main weight of Allied air activity, but enemy forward troops in NEW GUINEA have been given no rest from daily bombing and straffing attacks.

A large measure of success was achieved in day and night bombing missions against shipping and heavy losses inflicted on enemy fighters which attempted interception.

Enemy airfields at FUILORO, LAE, GASMATA and MUNDA were each attacked on several occasions and grounded aircraft destroyed.

NE. SECTOR:- The enemy has been unable to offer any effective counter to our continual harassing of troops and supplies in the BUNA area. Attempted movement along the coast has been quickly spotted and attacked and many fires started amongst dumps and stores.

Shipping supplied a plentiful number of targets and many attacks were launched. Two transports and a cargo vessel were definitely sunk, two others left burning and direct hits scored on at least three more large vessels. A light cruiser and a destroyer are also considered to have been sunk in a series of heavy attacks on shipping off the coast and in the harbours of NEW GUINEA and NEW BRITAIN. Although a number of vessels which were attacked escaped, further damage is thought to have been done in some instances as a result of near misses.

Heavy losses inflicted by bombers on intercepting enemy fighters has again been an outstanding feature of our activity. Aerodrome installations at CAPE GLOUCESTER, GASMATA, and MADANG were bombed, and LAE received three attacks in one day.

SOLOMONS:- Allied aircraft have been active in frequent heavy raids against MUNDA and have hampered its use and developement. As fighter aircraft have arrived, heavy attacks have been launched on the airfield and very heavy losses inflicted. During one raid it is claimed that 24 aircraft were destroyed on the ground. 13 barges approaching MUNDA with supplies and reinforcements were attacked and only 4 reached the shore.

A native report states that a fire caused by our bombing at BUKA destroyed 10 aircraft which were undergoing repair.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2059

N.W. SECTOR:- Our long range fighters have visited FUILORO on three occasions. Constructional equipment, transport and stores were badly damaged and a fighter destroyed on the ground.

Bombers attacked shipping off TIMOR and a very near miss damaged one transport. Another force demolished a warehouse and destroyed a float plane on the water at DOBO in the AROE ISLANDS.

ENEMY (a) LAND:-

In the KUMUSI - MAMBARE RIVER area it was reported on 19 DEC. that no enemy troops were between the two rivers but on 17 Dec. some men and equipment had been landed from a submarine at the mouth of the MAMBARE RIVER.

On 26 Dec. the KUMUSI RIVER was reported clear of the enemy and our troops were patrolling the area.

From the 22 to 24 Dec. small parties of ill conditioned enemy troops were reported in the vicinity of DUVIRA CREEK. There were indications that they were preparing to evacuate by launch. Our aircraft were watching these movements.

From SALAMAUA it is reported that natives are deserting the Japanese due to Allied bombings and our patrols report that there has been abnormal enemy activity, movemnet of trucks etc. on LAE aerodrome. On 24 Dec. our aircraft straffed a party of 20 Japanese in canoes at KEL KEL (5 miles south SALAMAUA) only two survivors reached the shore.

At MADANG the enemy, after landing on the night 18/19 Dec., occupied NOBANOB, GUM RIVER area and BILI BILI Village.

DUTCH NEW GUINEA:- On 23 Dec. it was reported that four hundred and fifty Japanese were at KAUKENAU and were subsequently observed building huts. There was no sign of a runway.

TIMOR:- The enemy has continued punitive activities against our troops, and use of hostile natives has been exploited by the Japanese in attacks at TURISCIA andATSABE. Our forces inflicted casualties and withdrew.

Further Japanese troops have been landed, four transports being sighted in LAIVAI Harbour on 23 Dec.

SOLOMONS:- The Japanese are carrying further reinforcements to YSABEL ISLAND by nightly trips to REKATA BAY. The number of enemy troops now in the vicinity of REKATA BAY is reported to be 4,000.

A report was received that a Commanding Officer of Japanese troops had said that "A General from SINGAPORE is expected soon on a visit to REKATA BAY. The Japs. plan to fortify PAPATURA ISLAND and after the inspection they may move down and occupy MARINGE LAGOON. Many more Japs. are coming to SUAVANAU, REKATA BAY. and some big fighting will take plave early in the New Year."

ENEMY - AIR:-

With the exception of MERAUKE there has been a marked decrease in enemy air activity and few offensive sorties. Apart from regular night raids on a small scale against MORESBY, the enemy air role has been defensive and confined to protection of shipping movements and interception of our bomber and reconnaissance aircraft.

MERAUKE:- On 30 Dec. 22 Japanese Bombers raided this area. 22 - 1,000lb. HE bombs were dropped from 15,000 feet. Approximately half the township was destroyed but the dock area was not hit. There were no military casualties. Civilian casualties are not known.

On 31 Dec. 18 Type 97 H/Bs again attacked the area, bombing and machine gunning. Approximately 40 HE and AP 500 lb. and 1,000 lb. bombs were dropped. Large fires were started in the township. The dock area was not hit.

A report from another source states that two thirds of MERAUKE is now destroyed. The town was evacuated on 31 Dec.

There is increasing evidence of extensive ~~of extensive~~ aerodrome developement in TIMOR, along the north coast of NEW GUINEA, the south coast of NEW BRITAIN and in the SOLOMONS. This will provide a chain of landing fields extending from TIMOR to the GILBERTS.

Restricted activity seems to be due to policy rather than lack of strength. Energetic developement of ground facilities coupled with the arrival of further air reinforcements and a husbanding of existing forces, suggest further large scale efforts against GUADALCANAL, and show a determination to strengthen and maintain the present defensive line.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2059

NE SECTOR:- Apart from small night raids when bombs have fallen harmlessly in unoccupied areas around BUNA, enemy ground troops in NEW GUINEA have received little air support. There are indications that some supplies may have been dropped by night, but troops in desperate positions have received scant assistance.

Enemy fighters engaged in convoy protection and aerodrome patrols suffered considerable losses in engagements with our bombers and reconnaissance aircraft.

Moonlight raids against MORESBY have been light and have caused neither damage nor casualties.

There have been indications of considerable aerodrome developement. MADANG has been made serviceable, a new strip constructed near FINSCHAFEN and anti-aircraft guns installed at WEWAK.

In NEW BRITAIN troops have occupied the aerodrome at CAPE GLOUCESTER, increased use is being made of GASMATA, and further improvements continued at VUNAKANAU and LAKUNAI.

Further information on the type of aircraft sighted near BOWEN indicates that they were carried by submarine.

SOLOMONS:- No offensive enemy air activity has been reported. Fighter aircraft are stationed at MUNDA and although considerable opposition has been offered to our attacks, very heavy losses have been suffered, especially on the ground. There is no evidence of bombers using this aerodrome as yet. Anit-Aircraft defence is poor, and at the present stage this aerodrome is proving a liability.

Large fighter formations were seen going and returning near RENDOVE ISLAND. These probably came from BUIN FAISI area in an endeavour to intercept our attacks on MUNDA.

Active developement of landing fields at BALLALE (13 miles SE of BUIN) and KAHILI continued, and numerous float planes were seen at REKATA BAY.

NW. Sector:- There has been a decided lull in enemy air operations. No attacks have been reported against our land troops and no raids on DARWIN.

Float planes have made offensive reconnaissance of MERAUKE and bombed Allied shipping in the harbour. These were possibly based on the AROE ISLANDS, but the distance travelled, plus bomb load, would mean use of extreme range from this base.

An enemy aircraft attempting to intercept our long range fighters was hit and possibly destroyed.

Although fighters have been sighted in FUILORO it is not considered to be sufficiently developed for bomber use. There is no sign as yet of aerodrome construction at KAUKENAU.

G.134. DAMAGE TO TIMBER.

1. Members will not, except for operational purposes, cut or authorise or direct the cutting of timber growing on private or public property (including forestry reserves) without first obtaining the consent of a person having power to agree to such cutting.

2. Attention is direct to G.R.Os. A.232/1942 (as amended by A.266/1942) and G.600/1942.

ROUTINE ORDERS PART 1 .

LT. COL. MANDER - JONES COMMANDING ANTI- AIRCRAFT DEFENCES NTH. QLD.

NO. 22. 13 Feb. 43

REGIMENTAL DUTIES.

TOur of Duty 1700 hrs to 1700 hrs.

		ORDERLY OFFICER	ORDERLY SERGEANT.
Feb	15	Lieut. Astill	Sgt. Potter
	16	W.O.II. Burgess	" Kemp
	17	Lieut. Ericksson	" Hammett
	18	" Adams	" Kemp
	19	" Astill	" Coman
	20	W.O.II. Burgess	" Potter
	21	Lieut. Ericksson	" Hammett

Next for Duty to be next on the list.
No change of Duty without prior approval.
Officer's N.C.O's detailed for Duty must be fully conversant with requirements of such Duty and ensure it is correctly carried out.

OFFICE STAFF.

There is too much delay in reading, taking action and passing on of R.O's., received from time to time. Please expedite the circulation.

All personnel, especially cooks and caterers , are to be warned against eating or even tasting any tinned commodities which appear abnormal in appearance or smell, as an apparently perfect tin may have developed a pin hole puncture or other defect which would render the contents unfit for human consumption and perhaps fatally poisonous.
All canned vegetables will be removed from the tins and boiled for 20 minutes prior to consumption.
It is essential that, as far as possible, tinned commodities shall be protected from direct exposure to -
(a) sun and heat
(b) rain and moisture,
and that storage places shall be, as far as possible -
(i) well ventilated.
(ii) dry.

.....LIEUT.
ADJ. A.A.GROUP. H.Q.(N.Q.).

A.46. ABSENCE WITHOUT LEAVE.

1. Attention is directed to the fact that the seriousness of the offence of absence without leave is not properly appreciated and that the commission of this offence has become very prevalent.
2. All officers will ensure that the members under their command are instructed in the reasons for the offence being regarded seriously and will bring to particular notice the facts that absence without leave reflects adversely on the offender's unit, that it throws a heavier burden on his comrades and disrupts leave rosters and that it is not a sign of "toughness" on the offender's part but a betrayal of the national cause by its resulting wastage of transport, manpower and money and impairment of the efficiency and fighting strength of the offender's unit.
3. If it appears to a commanding officer investigating a charge of absence without leave that the accused has been absent without leave for a period in excess of 28 days, he should direct a summary of evidence to be taken and should apply to superior authority for a court-martial. The superior authority should convene a court-martial for the trial of the accused unless it appears to him that special extenuating circumstances exist, in which event he may direct the commanding officer to deal summarily with the charge.
4. The attention of all officers appointed as presidents or members of courts-martial is directed to A.M.R.& O. 558(3).
5. A commanding officer will follow the procedure prescribed in A.M.R.& O 461 in every case of illegal absence from his unit, whether or not the illegal absentee is suspected of desertion, and he will ensure that the descriptive report of the illegal absentee is rendered, whenever possible within twentyfour hours from the time the illegal absence is discovered. The efficient working of the Provost Staff in this regard is largely dependent upon the promptness with which the commanding officers notify cases of illegal absence. There is, however a corresponding duty to notify the Provost Staff promptly when absentees return direct to their

AUSTRALIAN WAR MEMORIAL AWM2019.366.2059

units:
6. Whenever possible, a court of inquiry under A.M.R.& O 445 will be held on an illegal absentee on the twenty-second day of his absence. If a member is declared by such court to be absent without leave or other sufficient cause, a notification of the court's declarations will be sent forthwith to the nearest District Finance Officer.
7. M.B.I. A 169/1941 is cancelled.
(To be republished in unit routine orders)

MISUSE OF ARMY TRANSPORT - THEFT OF PETROL (G.R.O. A.48)

1. Whenever it appears that an officer or soldier has used both a Government motor vehicle and Government petrol for an unauthorized purpose he will be charged with both the unauthorized use of the vehicle and the petrol.

2. The charge of unauthorized use of the vehicle will normally be laid under section 11 of the Army Act with an alternative charge under section 40 of that Act. If, however, it appears from the evidence that the member charged used the vehicle with the intention of stealing it, the charge will be laid under section 18 (4) of the Army Act as one of stealing public property with an alternative charge under section 40 of the Act.

3. The charge of the unauthorized use of the petrol (consumed by the unauthorized use of the vehicle) will be laid under section 18 (4) of the Army Act as stealing public property and an alternative charge under section 40 of the Army Act will always be laid.

4. The charges laid concerning the one incident should all be on the one charge sheet and may be heard together.

Capt. T.M. Garven, Q49808, A/O.C. 36 Aust. A.A. Bty, is appointed Officer Commanding all Aust A.A. Units in this area and will be responsible to A.A.D.C. Nth Q'ld for all matters appertaining to this Command. He will be known as Commander Anti Aircraft Fixed Defences (C.A.A.F.D.) Iron Range. Powers of a Commanding Officer are delegated to Capt. Garven for disciplinary measures.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2059

v. Townsville.

Major. R.K. Mackenzie, QX47054, O.C. 16th Aust. A.A. Bty is appointed Officer commanding all Australian A.A. Units in this area and will be responsible to A.A.D.C. Nth Q'ld for all matters appertaining to his command. He will be known as Commander Anti Aircraft Fixed Defences (C.A.A.F.D.) Townsville.

(3) STANDING ORDERS.

Standing Orders will be compiled by Officers appointed to command as set out in Para. 2 above and General Routine. Administration and discipline will be carried out in accordance with these orders.

(4) DRESS.

Orders for dress are set out in Appendix A.

On Duty	-	Drill order.
On Leave	-	Walking out dress.
During meals	-	Shirts Khaki, shorts and footwear as issued, Trousers K.D., will be worn where issued in place of shorts.

(5) HEALTH AND HYGIENE.

O.C. Units will pay particular attention to health and hygiene and will bring the following points to the notice of all ranks in their command.

(a) Personnel will pay particular attention to abrasions and wounds and will obtain dressings by the Medical Orderly.

(b) Headdress must be worn at all times of the day when out of doors to avoid sunstroke.

(c) Footwear as issued will always be worn out of doors to avoid tinea and cuts.

(d) Latrine covers will always be closed after use and paper must not be allowed to blow about the Latrine.

(e) Water must not be left in ablution dishes after use.

(f) Garbage and rubbish must be placed in receptacles provided.

(6) FIRE.

Orders for procedure in case of fire are contained in Appendix B.

(7) HOUSES.

Units which have houses leased by the Dept. of the Army for accommodation or any other purpose will pay particular attention that the buildings are not damaged in any way, that the houses are always kept clean and orderly, and that no alterations are made to the buildings without prior approval from this H.Q.

(8) EQUIPMENT.

O.C. Units will ensure that all equipment is examined daily and that same is kept in a clean and serviceable condition and is at all times ready for action.

Any irregularities or damage to equipment will be reported to this H.Q. immediately. Units are not permitted to place any equipment out of action for a longer period than six hours without the permission of this H.Q.

Unit Commanders will be held responsible that all personal equipment on charge to members of the Unit is at all times in a clean and serviceable condition

(9) LEAVE.

Leave may be granted in accordance with G.R.O. 1559 dated 18th November, 1942.

(10) INSPECTION OF UNITS BY A.A.D.C. NTH QUEENSLAND.

A.A.D.C. Nth Q'ld will periodically inspect all units in the command. Inspections will vary in form in accordance with desires of A.A.D.C. Nth Q'ld and all O.C. Units will be held responsible that the following procedure is adopted by Units.

Inspection A. All buildings and tents to be in inspection order, all equipment to be ready for action. Instrument personnel and Gun Detachments will be fallen in at Detachment Rear. Dress - Drill Order.

Inspection B. All buildings and tents to be in inspection order. Personnel will be employed on normal duties as authorised by O.C. Unit concerned.

Prior to inspection O.C. units will be advised as to the procedure to be adopted.

(11) FIRE ORDERS.

Officers appointed to command Aust. A.A. Units in each area as per Para. 2 above will ensure that operational plans of the appropriate U.S. A.A. Commander are applied in every way.

(12) AMMUNITION.

O.C. Units will ensure that all magazines and shell recesses are inspected daily and that "Instructions regarding Ammunition" issued by this H.Q. are complied with.

(13) ACCOUNTING OFFICERS.

O.Cs both Heavy and Light A.A. Btys in this command are accounting Officers for all equipment and stores on issue to Units concerned. Ledgers will be kept by Btys and "A.M. Instruction No.1" issued from this H.Q. on 1st February, 1943 will be strictly observed.

APPENDIX "B".

PROCEDURE IN EVENT OF OUTBREAK OF FIRE.

(1) Any person discovering the outbreak of fire will immediately give the alarm.

(2) Immediately the alarm has been sounded the senior Officer present will notify the Civil Fire Brigade who will assume control on arrival.

(3) He will then make every effort to extinguish the fire with equipment provided.

(4) On the fire alarm sounding all personnel not included in Para. 5 below will "Fall In" in front of the mens' mess, the senior will take charge and the party will proceed to extinguish the fire.

(5) The Orderly N.C.O. will ascertain the nature of the outbreak and notify the Orderly Officer who will submit a report to H.Q. concerned at the earliest possible date.

(6) The following will act as indicated and be prepared to move stores and records if endangered.

Telephonist on duty	-	Remain at Telephone
Q. M. Staff	-	Stand by store.
H.Q. Staff	-	Stand by offices.
Canteen Steward	-	Stand by canteen.
Cooks	-	Stand by kitchen.

(7) If outbreak is in combustible liquids SAND will be used, if in grass BEATERS will be used.

(8) Water or Sand in fire buckets will be used for no other purpose than fire.

(9) The attention of all Units is drawn to G.R.O. 2128 dated 26th January, 1942.

(10) When any chemical Fire Extinguishers have been used for fire purposes or if they have been accidently "Set off" it must be immediately re-charged.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2059

AUSTRALIAN MILITARY FORCES.

ROUTINE ORDERS PART I.

LT.-COL MANDER-JONES COMMANDING ANTI-AIRCRAFT DEFENCES NTH. QLD.

No. 28 27 MAR 43

REGIMENTAL DUTIES.

Tour of Duty 1700 hrs. to 1700 hrs.

	ORDERLY OFFICER.	ORDERLY SERJEANTS.
Mar 29	Lieut. Ericksson	Sgt. Hammett
30	" Adams	" Coman
31	" Astill	" Binnie
Apr 1	" Winter	" Cantor
2	W.O.II Burgess	" Kemp
3	Lieut. Ericksson	" Hammett
4	" Adams	" Coman

Next off Duty to be next on the list.
No change of Duty without prior approval.
Officers, N.C.O's detailed for Duty must be fully conversant with requirements of such Duty and ensure it is correctly carried out.

N.Q.R. 100/1/14 The chief provisions of the new Regulations are as follows:-

PEDESTRIANS: No person shall cross Flinders Street between Blackwood Street and Denham Street, except at a foot crossing. White or yellow lines have been placed to indicate the foot crossings and in some places the words "CROSS HERE" have been painted on the kerbing. As a general guide, it is mentioned that those authorised crossing places are at the end of each block and in the centre of the blocks. Crossing at other places has been impeded by the erection of railings between garden plots.

VEHICLES (including motor cycles): Drivers of vehicles and riders of a horse or velocipede are required to stop before entering -

Stokes Street from Ogden Street,
Perkins Street - Southern side - from Morey Street.
Palmer Street from Dean Street.
Sturt Street - North West side - from Stanley Street.
Wickham Street, before entering from the lane from Cleveland Street.

A stop before entry notice has been placed at each of the above mentioned places.

Between 0800 and 2400 hrs daily, no person shall turn a vehicle, horse or velocipede in Flinders Street between Aplin and Wickham Streets, except at the intersection of Flinders Street and other Streets.

No vehicle shall enter Stokes Street on the southern side between the junction of Ogden Street and the junction of Flinders Street. This is the short street which runs past the White Cab Office.

A.97 CHESS DEMONSTRATION. (ARMY EDUCATION SERVICE.)

A chess demonstration has been arranged at 1930 hrs. on Monday 5th April, 43 at Synod Hall, rear of St.James Cathedral, Milton Hill, Townsville.

2. Lieut. Koshnitsky, Australian Champion Chess Player, will play all comers.

3. As it may not be possible to obtain sufficient Chess Sets, intending players should endeavour to bring a set with them.

4. No entrance fee. All ranks cordially invited to attend.

Power to grant compassionate or seasonal leave is reserved to A.A.D.C. Nth. Qld. C.A.F.D's will forward to Group. H.Q. any applications for compassionate or seasonal leave of which they approve for consideration by A.A.D.C.

A.77. MACKAY BY - ELECTION (N.Q.R. 233/1/1)

ABy-Election for the District of Mackay will be held in that District on Saturday 20 MAR 43.

Electors for the District of Mackay who will not be in that District on the above date may attend before a State Electoral Registrar at any time between 12 noon on 19 FEB 43 and 6 p.m. on Friday 19 MAR 43, to record their votes.

Persons qualified to vote at such By-Election may therefore vote at the Office of the State Electoral Registrar. Court House. Townsville up to 6 p.m. on 19 MAR 43.

G.191. SECURITY OF EQUIPMENT R.D.F. AND A.A.

1. The degree of secrecy applicable to equipments R.D.F. A.A.No 1. Mk. 1. I. and II (formerly G.L. Mks. I.1. and II) and A.A. No. 2. Mks. 1 to VII (formerly S.L.C.) has been reviewed.

All documents referring to the abovementioned equipments are removed from the "Secret" list and down graded to the "Not to be Published Category.

The Security precautions for safeguarding the above mentioned equipments will be in no way relaxed.

The degree of secrecy applicable to other R.D.F. equipments is in no way affected and will be strictly maintained.

G. 192. ESCAPES OF PRISONERS OF WAR FROM ENEMY HANDS.

It is the duty of all soldiers if captured by the enemy to effect their escape at the earliest possible moment.

It is equally important that the soldier having completed his escape should not disclose the method by which he or any companions he may have had, evaded the enemy and achieved freedom.

The disclosure of such information:-

(a) prejudice the chances of other escapees:
(b) prevents other members of allied forces from using the same or similar methods of escape.
(c) Endangers the lives of those who may have assisted the escapees at any stage of their escape.

Therefore, escaped prisoners of war will not, without the permission of G.S.I. of a corps or higher formation disclose any details of their experiences in connection with their escape.

(d) Either verbally or in writing to any person or persons including friends and relatives:

AUSTRALIAN WAR MEMORIAL AWM2019.366.2059

(b) Either verbally or in writing to the Press or Broadcast Stations.

5. Full details, however, will be given by escaped prisoners of war at the earliest opportunity to the nearest Allied Military H.Q. from whence it will be transmitted to G.S.I. at L.H.Q. or advanced L.H.Q. direct.

Disclosure of information regarding escapes, by any soldier whether concerned in the escape or not, is expressly forbidden except as provided in para. 5 above.

This order shall be read in conjunction with G.R.O. A.443/1942 re giving parole by officers and other ranks.

G.R.Os A25/1943 and G.43/1943 are cancelled.

War Diary

EXTRACTS FROM Q'LAND L. OF C. AREA INTELLIGENCE.

REPORT No. 45.

B. (d) Let's all keep our mouths shut.

Radio Tokyo states that photographs of the sinking by bombers if the US Aircraft Carrier "HORNET" were displayed in a recent edition of "ASAHI" a newspaper in tokyo. The photographs taken by an American Naval Officer, were printed in the "Illustrated London News." Copies were relayed via wireless photgraphy to Tokyo from Berlin, proof that outside news does reach the Axis Intelligence.

Further proof is gathered from an unexploded bomb which contained a packing of one half inch disc of compressed paper. This paper was an Australian newspaper featuring amongst other items, a Japanese raid on DARWIN.

COMMENT. In a recent issue the Brisbane "Courier-Mail" newspaper printed a photograph of an American Div. in action at BUNA, together with citations to several personnel for gallantry. The number of the Div. was stated in each case. Several months' ago a similiar indiscretion was committed with regard to an AIF Div , the material being lifted from a southern paper.

Similiar mention of Units has been noted in connection with sporting events in country areas.

The Monitor service reveals that most Radio messages from Australia are released again from LISBON, which is a neutral port. Australian newspapers may be sent through this port or may be captured through enemy action, and the instances quoted emphasise the need for greater security in the printed word.

Recently the Federal Government stated that information of troop movements was reaching the Japanese and that special agents had been sent to North Queensland to investigate. It would seem that North Queensland is not the only place to need a check-up.

Constant and repeated efforts have been, and are being made by this and other areas, through media of Int Reps and other sources to hammer and hammer home again and again the absolute necessity for secrecy, therefore, "LET'S ALL KEEP OUR MOUTHS SHUT."

C. (a) Cotton Crop.

The success of the incoming crop is of importance to the National War Effort. The estimate of the Cotton Board was a planting of 37,000 acres for Queensland, including 20,000 acres for Central Queensland.

It is too early to give estimated but in CALLIDE VALLEY, yield is estimated at 300lbs., possible 400lbs. per acre, yielding 6 million to 8 million lbs. of cotton. It is estimated that Labour will need the services of 500 women pickers.

Owing to heavy rain, growth of weeds has been serious. The usual pests are showing, and hot weather has affected growth to some degree.

E. (b) Medical Supplies - QUINSANA.

An extract from a letter from a prominent firm in USA may be of interest:- "In answer to your kind letter of October 29th., we wish to inform you that Quinsana has not yet been released for sale outside of the Continental United States, except of course, for the United States Expeditionary Forces. We would not know if any of the Quinsana shipped for this purpose has reached Australia, as we have no way of knowing from the order we received from the Ordnance Department, but would not doubt that it would be feasible that you could find it in the army bases and post exchange. We thank you for your enquiry and for your interest in our product." This item may interest the Central Medical Co-ordination Committee.

II (b) JAPAN - Comment.

It would seem that Japan is suffering from economic indigestion as far as the New Order in Southern Regions is concerned. It is equally certain that the Policy of equality for all is being subordinated to that of spoils to the victors.

Jap-Soviet - Fishery - Petroleum Negotiations.

Radio Tokyo states that negotiations are proceeding between Japan and the Soviet Union relative to Fishery and Petroleum concessions.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2059

AUSTRALIAN MILITARY FORCES.

ROUTINE ORDERS PART I.

LT-COL MANDER-JONES COMMANDING ANTI-AIRCRAFT DEFENCES NTH QLD.

No 32. 24 APR 43.

1. REGIMENTAL DUTIES.

TOUR OF DUTY 1700 hrs to 1700 hrs.

	ORDERLY OFFICER	ORDERLY SERJEANT.
Apr. 26	Lieut Hall	St. Hammett
27	W.O. II. Burgess.	" James
28	Lieut Ericksson	" Binnie
29	" Astill	Cpl King
30	" Hall	Sjt. Hammett
May 1	W.O.II Burgess.	" Kemp
2	Lieut Ericksson	" James.

Next for Duty to be next on list.
No Changeof Duty without prior approval.
Officers and N.C.Os detailed for duty must be fully conversant with requirements of such duty, and ensure that it is correctly carried out.

---

2. DRESS OF TROOPS AND CONDUCT WHILST RIDING IN VEHICLES.

1. In future, NO troops will ride in vehicles or carry out their duties, without being fully dressed in Shirt, Shorts or Trousers K.D. socks and/or leggings and Boots.
   If the nature of a particular job warrants the removal of a garment the order for such removal will be issued by the officer in charge., and for that specific job.
2. Under no circumstances will troops ride on top of vehicle cabins during movement. This practice is dangerous as instanced by the various accidents of late and it is the personal responsibility of the i/c vehicle to see that this instruction is not infringed. Although the act of riding on vehicle cabins may have been brought about by units desiring to train personnel as Aircraft spotters. this practice will be discontinued forthwith and will not operate until instructions are received from this H.Q. advising that the area is of an operational nature and that such precaution will be observed.
3. Disciplinary action will be taken against personnel standing up in moving vehicles. This practice has been prevalent in the past and it is the duty of all units and in particular i/c of vehicles to see that this instruction is carried out in the future. The fact that a leave vehicle is dirty will be no excuse if there is an infringement of this instruction.
4. Provost Patrol Posts will pay particular attention in futrue to misdemeanours enumerated above.

---

3. STATE OF VICTORIA - LEGISLATIVE ASSEMBLY AND LEGISLATIVE COUNCIL GENERAL ELECTIONS.

1. It is advised that the state of Victoria Legislative Assembly and Legislative Council General Elections are to be held on 12 Jun 43, and at the request of the Victorian Government facilities are to be provided for electors who are members of the Military Forces but serving in other parts of the mainland of Australia and Tasmania to record their votes by post.
2. (a) Electors for the Legislative Assembly are those persons who have reached the age of 21 years, were normally resident in Victoria prior to onlistment in the A.M.F. and who have been enrolled as electors for the Legislative Assembly of the State Of Victoria.
   (b) Electors of the Legislative Assembly (Upper House) are those persons possessing the property qualifications (normally house or other real property owners or occupiers) and who are enrolled as electors for the Legislative Council of the State of Victoria.
   (c) Persons under the age of 21 years are NOT eligible for enrolment as electors for either of the Houses of the Parliament of Victoria.

Preliminary Requirements etc.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2059

3. A notice is to be published forthwith in all L of C Area, Formation and Unit Routine Orders:-
(a) Drawing attention to the holding of the elections for the Victorian Legislative Assembly and Legislative Council on 12 Jun 43 and that members of the Forces duly enrolled as electors for the State of Victoria may claim the right to vote by post at this election and that facilities to that end will be made available.
(b) Directing that each unit will ascertain the number of its members who are electors for each House and will forward a request for the relevant number of forms "Application for a Postal Ballot Paper by Elector on War Service (Form 45 (c) direct to:-

" The Chief Electoral Officer for Victoria,
Old Treasury Building,
Spring Street, Melbourne C.I.
Victoria".

Request will be made as early as possible and must reach the chief Electoral Officer not later than 1 May 43.
(c) the Chief Electoral Officer will despatch the required Forms together with copies of the "List of Polling Places" etc and "List of Returning Officers".

Receipt Completion and Despatch of Applications.

4. (a) On receipt of the Application Forms Units concerned will arrange for their immediate completion by the Electors.
(b) On completion the application forms will be concerned into bundles according to Electoral Districts and each bundle togehter with a covering letter setting out title and address of the Unit, will be sent direct by the unit to the Returning Officer for the Relevant District or Province (NOT to the Chief Electoral Officer).
(c) The returning Officers will prepare the proper forms for recording of Postal Votes and covering envelopes and will send them direct to Units.

Receipt Completion and Despatch of Postal Ballot Papers.

5. On receipt of the Postal Ballot Papers Units will make suitable arrangements whereby electors may complete them and have their signature attested by an Officer. Upon completion and attestation ~~on~~ the soldier will seal the Ballot Paper in its covering envelope and place it in a receptable to be provided by the Unit for the purpose.

6. The sealed envelopes will be arranged into bundles according to Electoral Districts and Provinces and despatched so as to reach the several Returning Officers as early as possible and in any case not later than 2000 hrs on 12 Jun 43. Votes received after that time cannot be admitted.

7. In each unit affected by paras 3,4,5 and 6 above an Officer will be specially detailed to ensure the satisfactory working of these arrangements.

8. It is essential that prompt action be taken by all concerned.

Next for Duty to be next on list.
No change of Duty without prior approval.
Officers and N.C.Os detailed for duty must be fully conversant with requirements of such duty, and ensure that it is correctly carried out.

2. FORMATION OF CORPS OF AUSTRALIAN ELECTRICAL AND MECHANICAL ENGINEERS SECOND PHASE (REF.G.R.O. 0578/1942.

(a) All units are referred to G.R.O.O.290 of Apr 43 and on 1 May 43 will act accordingly.
(b) Casualty returns referred to in Instruction contained in para 2 (b) of G.R.O. O.290 will be forwarded to 1 Aust. A.A.W/Shop Coy A.E.M.E. Townsville.

3. TRANSPORTATION TO AUSTRALIA OF WIVES, WIDOWS, AND CHILDREN OF MEMBERS
A.221 OF THE FORCES WHO MARRIED DURING THE PERIOD OF THEIR ACTIVE SERVICE OUTSIDE AUSTRALIA G.R.O. A.227/43.

1. The Commonwealth Government has decided -
(a) that no further action will be taken by it towards arranging passages for the abovementioned persons until after the conclusion of the war;
(b) that the Repatriation Commission shall continue to have discretionary power to consider applications from any eligible persons who arrive in Australia under their own arrangements and who later claim refunds, and to refund to them the equivalent of the normal third class fare:-
Provided that, if circumstances arise which in the opinion of the Minister for Repatriation render it imperative that this policy should be temporarily waived, the Minister may authorise such action as may be deemed expedient to meet the situation.
2. Commanding Officers will inform all applications for transportation of the above decisions.
3. No authority has been given by the Minister in pursuance of the proviso to paragraph 1 hereof but any such authority that mya be given will be notified in General Routine Orders.

4. INTERFERENCE WITH TELEPHONE COMMUNICATIONS.REF.QLD.L OF C. AREA. R.Os
A.223 A177/42.Q203/43.

1. The seriousness of sets which result in damage to telephone installations and material has apparently not been realised as damage is still occurring with consequent delay to military and civil signal traffic.
2. The following action will be taken when any case of damage to telephone or telegraph installations occurs:-
(a) The senior officer, NCO or soldier available will be responsible for investigationg and reporting any such incidents.
(b) All such offences will, from the date of promulgation of this order be referred to Formation HQ for trial by Court Martial or directions as to summary trial.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2059

(c) In the event of failure to take action as detailed above, the officer responsible will be required to account for lack of action.

A.225.

5. DISCIPLINE - WOMEN'S SERVICES (Q.C.R. 75/1/139 L.H.Q. MEMO 43428 of 20 MAR 43

1. The attention of all units which carry women on their Establishment is directed to the necessity for the exercise of the utmost propriety in the relationship between male and female personnel in the Military Forces. Any failure to observe this propriety may become the subject of a charge.
2. Instructions will be given to all ranks in units containing male and female personnel that they will bring to the notice of C.Os immediately cases where relationship such as husband and wife, fiance and fiancee exists between male and female members of the unit, with the object of effecting appropriate transfers. Attention in this regard is directed to G.R.O.A. 341/42.

---

6. AIR MAIL LETTER CARDS: LIABILITY FOR POSTAGE (Q.C.R.186/1/687). Q.232.

1. Attention is drawn to Routine Order Q.441 dated 15 Dec 42 having regard to the Letter Card Service to members of the Forces.
2. The Postmaster-General's Department has drawn attention to the fact that Airmail Letter Cards are being received in mails without bearing any indication as to Military origin, and in such circumstances, the articles are liable to surcharge on delivery.
3. The Airmail Letter Card was introduced as a concession to members of the Field Forces, and in order to denote eligibility for transmission through the post at the special rate, Letter Cards should bear an impression of the Unit Censorship Stamp and be posted through authorized Army channels only.
4. It is emphasized that a failure by the member to comply with these directions will inflict the penalty of the surcharge on the recipient.

---

8. CONSERVATION OF RUBBER.
The supply situation in regard to rubber is now so serious as to make it imperative that every ounce of rubber in use by the Army should be conserved to the utmost.
The use of vehicles is to be restricted to essential requirements.
When vehicles are in use the following six points are to be rigidly enforced:-
(i) Don't speed. Avoid rapid acceleration, harsh braking and fast cornering.
(ii) Check pressures daily with gauge to protect side walls and save tread wear.
(iii) Keep brakes equalized, wheels true, and watch for misalignment.
(iv) Interchange tyres at prescribed intervals to keep wear even.
(v) Closely inspect tyres daily, remove any stones, and repair minor cuts.
(vi) Report defects immediately.
