			TRAINING (CONTD) - Sufficient number of AWAS have now been trained to man the instruments on all heavy A A sites but lack of accommodation at H1 necessitated the retention of male personnel on the instruments at that site. The AWAS on all fire control instruments including G L sets gave satisfaction in the recent firing practices and have a keen interst in their work.	
			ACCOMMODATION - Some move is now under way to provide the necessary accommodation in this area. The most urgent need is accommodation for AWAS at H1 (HQ of 8 Aust A A Bty is also situated at this site).	
			Attention is directed to the statement in this diary as to condition of ~~xxxxxxx~~ roadway into site H4. Before troops are required to man this site it will be necessary to construct a proper roadway as the present road is impassable in wet weather.	
			MORALE OF TROOPS - Troops generally in the area who have volunteered for the AIF are becoming dissatisfied at being left indefinitely in this area and are pressing for transfers to areas where ~~they will see some action. The firing practice has made the job here a little more interesting~~ but return to normal routine will bring forward another batch of applications for transfers North. In this connection it is pointed out that the recent change in WE of Hy and Lt A A Units in this area requires only B Class personnel, AWAS and VDC.

1. MEDICAL ATTENTION.

Attention is directed to Rou. 1 Of C Area RO Part 1 Serial No 13, No 2. of 8 Jul 42 which is republished for information:-

" (i) Considerable difficulties are being caused by military personnel visiting Area Medical Officers whilst on leave.

(ii) In many cases, these soldiers are suffering from minor complaints or were in a sick condition when they left camp on leave.

(iii) All personnel will be advised that the only condition under which medical attention can be given by M.Os is in case of emergency caused by acute illness whilst actually on leave.

(iv) In all other cases normal medical attention will be given on unit Sick Parade, either before or after leave, by M.Os".

2. CIVILIAN TRAFFIC CONTROL.

All personnel will observe signals by P W D Flagmen stationed at the jetties at Port Kembla. Signals will be made a flag by day and a lamp by night.

3. AIRGRAPH LETTERS.

The Airgraph Service is an arrangement under which letters written by senders upon special forms are photographed in miniature in this Country and the negatives thus obtained forwarded by Air to the Overseas country of address where enlarged prints are taken for delivery by post to the addressees.

2. The procedure is as follows:-

(a) The sender writes his letter clearly on a printed form (termed "Airgraph Form") supplied for the purpose.

(b) The sender places the name and address of the addressee in the panel at the top of the form.

(c) The completed form is transmitted by post to the Airgraph Despatching Centre where the letter is photographed in miniature.

(d) The negative of the letter is then forwarded by air to the appropriate overseas Airgraph Receiving Centre, where it is enlarged and a print (approx 5" x 4") is made.

(e) The print is then enclosed in an envelope and despatched by post to the addressee.

2. The Service may be used only for letters to countries with which the necessary arrangements have been made. At present the Service from Australia is available only for communications :-

The countries included in the list above, and:-

4. Forms to be used:- Airgraph Letters MUST be written on the front of the forms provided for the purpose. Supplies of them will be obtained from your Field or Army Post Office or a nearby Civil Post Office.

5. Addressing-- The name and address of the addressee will be written by HAND in prominent BLOCK letters (as large as possible) and must be kept wholly within the panel provided for that purpose. As the letter when delivered will be a photographic print (approx. 5"x4" less than one quarter the size of the Airgraph form, it is most necessary that the address details and the letter itself be clearly written, the address particulars should be accurate and complete and given in the same way as in ordinary correspondence posted to the same addressee.

6. Airgraph letters for members of the Forces overseas will be addressed in the same way as normal correspondence directed to them.

7. The Airgraph Service is available for letters for N.Z.N.F. personnel when such letters in the normal course go forward to a country with which airgraph arrangements are in operation. Airgraph letters for addressees on H.M. ships which are NOT in a locality covered by the Airgraph Service will be despatched from Australia by ordinary mail.

8. Writing the letter.--Only the front of the Airgraph Form may be used for writing the letter. Where two or more forms are used (see para. 15 for the fees due in these circumstances) the name and address of the addressee and of the sender must be inserted on each form used and in such case it is desirable also that senders show the page number immediately above the written text of each form used.

9. The writing should be plain and in black ink. Very small writing is unsuitable and use of pencil is not recommended, but if it used it must be a "B" pencil. Indelible pencil will NOT be used.

10. The full address of the sender and the date of writing must be written at the top of the letter portion of the form, and at the end the text thesenders FULL NAME in BLOCK letters and his SIGNATURE must be inserted.

11. In the case of letters from persons who are naturalized British subjects, the letter "N" must be written by the senders in the small square in the top left-hand corner of the letter portion of the form.

12. Censorship. Normal Unit Censorship arrangements will apply to Airgraph Letters lodged by personnel. The Franking Officer's

signature will appear in the lower left hand corner of the form (above the direction-- "This space should not be used".) The unit CensorStamp will be affixed in the space between the address panel and the single printed line directly thereunder; it will be placed as far to the left as practicable.

13. Method of Lodgment. -- Only Airgraph Letters

(a) Which have been censored.
(b) Upon which the correct fee had been collected; and
(c) Which comply also with other conditions set out herein,

Will be accepted by Postal Orderlies who will hand them in at the appropriate field, army, or civil post offices; if not previously bearing postage stamps, they will have stamps to the necessary value affixed at the post office where presented.

14. Fees payable:- The fee is payable for Airgraph Letters are as follows,-

(a) For Airgraph Letters to members of the Forces of the British Empire.....5d.
(b) For Airgraph Letters to civilians .....10d.

15. When the space available on one Airgraph Form is insufficient and the sender has to utilise two or more forms for the one letter a separate fee at the above rates must be paid in respect of each form making up the letter.

16. When the letter comprises more than one form -- see para. 8 stamps for each separate fee at the above rates will be affixed to each form use

The finding and sentence were duly confirmed on 9/7/43 by Colonel L.E. Vail, General List.

The date for review of sentence was fixed at NO REVIEW

The result of the trial was promulgated to the accused at Holsworthy on 13/7/43.

4. PHOTOGRAPHS OF PERSONNEL

Personnel transferred to the A.I.F. are NOT required to be re-photographed with their new numbers. OC's of Sub-Units will ensure that the new numbers are shown in ink on original photographs and will sign the alteration.

5. APPOINTMENT TO COMMAND

Major D.H. Fraser will administer command to 147 and 155 Lt AA Btys for operations, training and discipline and will be responsible to A.DC Kembla AA Group.

6. PATIENTS IN MILITARY HOSPITALS VISIT BY RELATIVES

It is the natural desire of relatives and friends of injured or sick members of the Forces to visit them in hospital, and such visiting is of course permitted in accordance with the rules of the particular hospital and the state of health of the patient.

2. Through medical necessity in critical cases, or in accordance with the established principle of Army medical administration in less critical cases, military patients are usually treated in hospitals in the areas in which they were serving when they became sick; and in the majority of cases, are at a considerable distance from their homes.

3. Visits by relatives or friends may therefore involve long journeys (frequently interstate), and, if undertaken unnecessarily can only result in placing a still heavier burden on the transport facilities of Australia.

4. Unnecessary journeys have been undertaken in some cases in consequence of advices from medical institutions to relatives regarding the state of a patient's health, even accompanied in some instances by recommendations that relatives should visit the patient.

5. In consequence of such advice or recommendation is that the relative expects special treatment in regard to priority of travel, and another is that the relative makes a claim for reimbursement of travelling and other expenses incurred in visiting the patient.

6. Priority of travel is controlled under National Security (land transport) Regulations, (vide LHQ SM 4906 of 10 Mar 43) while the only financial concession available to relatives is for the provision at public expense in certain cases only of a railway warrant for one return railway journey between the place of residence of the next of kin, and the place where the military patient is receiving treatment, provided that such place of residence is more than 20 miles from the hospital and is in the State where the hospital is situated. Interstate travel is not included, and the concession is only applicable in the case of certain patients returned from outside the mainland of Australia (vide LHQ SM 7340)

7. It is the responsibility of Records Offices to notify next of kin of casulaties, and if a patient is on the dangerously ill or the seriously ill list, it is the practice to advise next of kin weekly of the patient's condition, until he is removed from those lists.

8. The matters to which reference has been made in the preceding paragraphs should be kept in mind by officers who receive enquiries either direct from relatives or through Red Cross channels. It is not desirable and it is not intended to lay down any definite rules, but it is suggested that those officers should refrain from recommending visits by relatives where interstate travel or travel to hospitals situated in other than capital cities is involved, unless senior medical officer believes that such a visit is absolutely necessary for the recovery of the patient.

It is also suggested that it should be made clear that the expenses of and incidental to such a visit (except as indicated in para 6) would have to be borne by the visitor.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2090

7. ELECTIONS AND POLITICAL ACTIVITIES OF MEMBERS OF THE FORCES

1. The Commonwealth Government has made the following decisions relating to the abovementioned subjects:

(a) That canvassing in Service establishments or munitions factories should be prohibited.
(b) That members of the forces on leave should not be prohibited from attending political meetings in uniform, but they should not be allowed to take part in political processions, undertake canvassing on behalf of candidates or the distribution of literature or cards.
(c) That leave of absence should be granted to any member of the forces or munitions employee who is a bona fide candidate.

2. Members of the A.M.F. will not act in a manner contrary to decisions (1) and (11) above. In so far as it relates to Army personnel, decision (111) will be implemented in accordance with the provisions of G.R.O. A.442/1943.

8. MEDICAL OFFICERS SICK PARADES

1. On and after 26 Jul 43 Sick Parades will be held daily, including Sunday, but excluding R.M.O's Rest Day, as under.

2. This time table is drawn up with a view to having all sick parades completed as early as possible each day. It is very desirable that this be maintained.

3. Units requiring R.M.O. for urgent cases at any time will ring H.Q. K.F. for Capt. Harper or 63 Aust Camp Hospital for Capt. Basser.

4. R.M.O. will advise unit orderly room prior to rest dayeach week, and will leave detailed instructions for dealing with the sick during his absence.

5. Regular hygiene, short arm inspections etc., will be held by arrangements between unit commander and R.M.O. at times which will not interfere with the punctual maintenance of the sick parade time table.

6. Any unit, which is not being visited regularly and wishes the R.M.O. to call, will ring H.Q. K.F. or 63 Aust Camp Hospital before 0730 hrs, when possible.

7. In cases of accidents and urgent sickness Unit Commanders shall when they think advisable or when contact cannot be made with R.M.O. evacuate such cases direct to 63 Aust Camp Hospital.

9. SAFETY FIRST IN MT REPAIRS AND MAINTENANCE

1. Serious accidents have occurred recently due to sufficient care not being taken when repair or maintenance is being carried out on M.T. vehicles. This applies particularly to cases where it was necessary for personnel to work underneath a vehicle. Inspecting AEME officers have also sighted and corrected other instances where insufficient safety precautions were being adopted and where serious injury may have resulted.

2. The following are some of the most important points to observe in ensuring safety of personnel carrying out maintenance and repair work:-

Reliance should not be placed on jacks to support the load of vehicles under which personnel are to work but blocks of adequate proportions or stands, Auto, Safety, should be used for the purpose.

Handbrakes are useless when either or both rear wheels are jacked up, and hence wheels must be checked to prevent movement of the vehicle. This applies also if work being carried out on the transmission as the disconnection of the propeller shaft for instance renders the handbrake ineffective.

Whenever repair or maintance work is being carried out, the officer of senior NCO supervising the work must satisfy himself that all necessary safety precautions are being taken.

3. OC's of all Sub-Units will ensure personally that this matter is brought to the notice of all personnel whom it concerns.

5. LEAVE

(1) RECREATION LEAVE

Recreation leave may be granted at the rate of 2 days per calender month of service from 1st July, 1942.

Subject to service requirements, which will in all cases be the governing consideration, the general policy is that recreation leave should be taken regularly at least once every 12 months.

COs will ensure that undue accumulations of leave are not permitted, but, normally, if it does not conflict with service requirements, an accumulation of 24 days' recreation leave may be permitted.

If for service reasons recreation leave cannot be granted at the end of 12 months, it may be accumulated for longer periods.

A member stationed more than 150 miles from his leave destination is obliged to accumulate leave as follows:

Destination	Frequency of leave
Over 150 miles but within the L of C Area	Once in 6 months
Over 150 miles and outside the L of C Area	Once in 12 months

AUSTRALIAN WAR MEMORIAL AWM2019.366.2090

If the formation commander approves, recreation leave may be granted in anticipation of the period of accumulation being completed.

A member may be granted from the recreation leave for which he is eligible, leave to attend a religious festival held locally.

(2) COMPASSIONATE LEAVE

Compassionate leave may be granted in cases of death or serious illness of a member's spouse, child or parent or other near dependent relative, but such leave will not be granted only on account of such death or illness unless there are serious resultant considerations or the presence of the member will materially affect the situation.

Emergency leave may be granted in case of some other serious emergency.

Compassionate or emergency leave will not be granted to enable a member to engage in a civil occupation, and cases of serious prejudice in business, domestic or financial affairs will only be considered as a legitimate ground for granting such leave when the member's presence will materially affect the situation.

Compassionate or emergency leave will not be granted in the case of normal child birth of a member's wife. In such cases, if service requirements permit and the member so desires, he may be permitted to accumulate recreation leave and have his position on the unit leave roster adjusted to meet the circumstances.

Compassionate or emergency leave may be granted with pay up to 7 days, plus all necessary travelling time.

Compassionate or emergency leave in excess of the duration provided in the last preceding paragraph may also be granted. If the member is eligible (by accumulation or permissable anticipation) for recreation leave, the excess may be granted with pay from such recreation leave. If the member is not eligible for recreation leave, the excess will only be granted without pay.

(3) OCCUPATIONAL LEAVE FOR SEASONAL AND OTHER PURPOSES

Occupational leave for the purpose of engaging in seasonal or other civilian employment may be granted to members in accordance with this part.

Occupational leave will not be granted unless recommended by the Deputy Director General of Manpower of the state in which the work is to be performed.

Officers, NCOs and members in receipt of specialist pay may be granted occupational leave only in very exceptional circumstances, and then only if approved by a formation commander.

Occupational leave involving interstate travel will not be granted.

Occupational leave will be without pay and irrespective of any recreation leave already taken or to be taken, provided that the member may be granted accumulated leave with pay concurrently with occupational leave.

The channel of communication regarding occupational leave will be Deputy Director General of Manpower to HQ L of C Area to units, with copy to formation concerned, and vice versa. Units will not correspond direct with Manpower authorities.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2090

(4) EXTENSION OF LEAVE

133. If a member on recreation leave or disembarkation leave is admitted to hospital, his leave may be extended to make up to him any leave lost by his retention in hospital or convalescent home.

If the member has been admitted to a civil hospital, the extension may be granted by the HQ L of C Area in which the hospital is situated.

If a member has been admitted to a military hospital or convalescent home, the extension may be granted by the CO of the hospital or DDMS, L of C Area in which the home is situated.

On completion of leave extended under para 133, the member will be disposed of by the CO who granted the extension, in accordance with GRO A.600/1943.

A member on leave, other than occupational leave exceeding 28 days will be granted an extension of such leave only for compassionate or emergency reasons and in accordance with the following provisions :-

(a) All applications for extensions of leave will be made to the HQ of the L of C Area in which the member then is. A special officer will be detailed by HQ L of C Areas to deal with such applications.

(b) Each case will be investigated and, if an extension is considered essential, the HQ of the L of C Area will communicate direct with the formation under whose command the member belongs, giving particulars and asking for approval for the necessary extension.

(c) Pending a reply from the formation, HQ L of C Area may grant an extension of leave to the extent necessary to enable such reply to be received.

(d) If extended leave is not authorised by the formation immediate action will be taken to instruct the member to report for duty.

(e) Extension of leave under this paragraph will be granted with pay only for the period permitted under Part 111 of this order.

If a member has been granted occupational leave exceeding 28 days, an extension of such leave may, if justified, be granted by the HQ L of C Area in which the leave is spent.

Except for cases for which other provision is made in this part, an extension of leave may be granted only by the CO who authorised the leave originally.

The authority granting any extension of leave will notify, by the quickest available means, the member's CO and the LTD to which the member is to report on the expiration of leave, and will transmit the original application for extension (with a note of the decision endorsed) to the member's CO.

No extension of leave will become operative until it has been endorsed on the member's leave pass by the authority granting the extension.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2090

(5) REST DAYS

Subject to the exigencies of the service, one day, not necessarily Sunday, in each week, will be observed by all members as a rest day.

When Sunday is a rest day, it will be devoted to church parades and other suitable activities.

COs may, at their discretion, grant local leave on rest days.

Local leave granted on rest days will not be counted against other leave for which members are eligible under this order.

Local leave on a rest day will not extend overnight, except in the case of members whose homes are in the vicinity.

Members who, for religious purposes, normally observe some day other than Sunday as a day of rest should, where practicable, be allowed their rest day on such other day.

Rest days will not be accumulated.

1. CHANGE OF COMMAND

During the absence of Capt. E.D.Gosling, Lieut R.J. Lewis is appointed A/OC 8 Aust Hy AA Bty as from 0900 hrs 4 Sep 43.

2. POWERS OF GUARDS & SENTRIES

1. Regulation 8A of the National Security (General) Regulations (Statutory Rules 1942, No. 374) provides that, without derogating from or restricting the existing powers or rights of sentries and guards, a military sentry or guard stationed or posted at, on, in, or in the neighbourhood or vicinity of, any prohibited place, protected area, controlled area, or any premises used by the Commonwealth, or used for defence purposes or for essential services, or any vehicle, vessel or aircraft used by the Commonwealth, or any enclosed wharf or picking-up place, or any merchant vessel lying in port, or any road, pathway or waterway, specified in an order by the Minister, which passes through or near a prohibited place or work of defence, may be armed and may -

(1) use his weapons against, or otherwise attack, any person, who, in disregard of a warning given by a sentry or guard, approaches, enters, leaves, or passes over or in the vicinity or neighbourhood of, or attempts to approach, enter, leave or pass over or in the vicinity or neighbourhood of, that place, area, premises, vehicle, vessel, aircraft, wharf, picking up place, road, pathway, or waterway, or who, after being arrested for so doing, escapes; and

(11) use his weapons against, or otherwise attack, any person attacking him or who is reasonably suspected of being about to attack him.

2. There are, however, certain principles which must guide all sentries and guards in the execution of their duty as such, and in the exercise of the right to resort to arms.

3. These principles are:-

(a) Sentries and guards will be ordered to take any action required to ensure the safety of their posts or to defeat the activities of enemy, or suspected enemy, agents.

(b) If necessary, they will fire upon or otherwise attack any persons threatening the safety of their posts or engaging in hostile acts.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2090

(c) Before firing upon any person, the sentry or guard will, except in an urgent case of self-defence, challenge that person to "Halt". If that person does not halt, the sentry should challenge him again with "Halt or I fire". If he does not halt, and no other means are available for stopping him - as for example, by calling on the rest of the guard - it is the duty of the sentry to shoot.

(d) The sentry will use his intelligence and sense of responsibility in choosing whether he will shoot or not, and must be careful not to allow any suspected person to approach so close that he can be rushed and overpowered.

(e) Guards of enemy prisoners of war. An enemy prisoner of war attempting to escape may be fired upon, but a previous summons to surrender will be given if possible.

(f) Guards of members of the forces in custody

(1) An escort or guard is not justified in using his weapons merely for the purpose of preventing another member from escaping from custody and if he so uses his weapons he may render himself, as well as any officer or NCO under whose orders he acted, liable to be charged with murder, manslaughter or incitement to murder.

(2) If a member in custody attempts to escape, the escort or sentry will immediately raise the alarm and give chase. He may call upon any passer-by to assist him in apprehending the escapee.

(3) An escort or guard may be justified in using his weapons when a member in custody resorts to violence. In such circumstances an escort or guard may meet force with force, but care must be taken to use no more force than is necessary to overcome the violence offered. Hence, even when violence is offered to an escort or guard, it will only be as a last resort that the use of weapons will be justified.

4. Orders for guards and sentries will be framed in conformity with the above and guards and sentries will be suitably instructed as to their powers and duties.

5. GRO A.682/1942 is cancelled.

3. FOOTBALLS - CARE AND PRESERVATION

Wollongong			to Richmond. Unable to carry out 3.7" AA practice shoot owing to clouds.	
	Oct 27		Weather conditions against practice shoot. Co-op with Wirraway at 4000 ft provided for 1½ hrs.	
	GENERAL		Sub-Units are gradually being re-organised to conform to requirements laid down in WEs. Objective cannot be attained until VDC personnel are recruited and trained. Various conferences indicate marked lack of interest on the part of ~~Senior~~ VDC officers in this area which accounts for the falling off in attendance at training parades in recent months. It is now considered that the best results will be achieved by departing from VDC Bns and forming VDC batteries to duplicate AA and S/L role in this area.	
	TRAINING		Training has been impaired by absence of air co-operation due partly to adverse weather conditions and scarcity of co-operation planes. No night air co-operation has been provided for SL practice in this Group during the past 6 months in spite of every endeavour by written application and personal contact with the squadrons in the area.	
	AWAS		AWAS are now performing their duties in a satisfactory manner but all sub-units are finding supply of AWAS personnel inadequate.	
	RADAR EQUIPMENT		Four SLC equipments have been allotted this Group in the past month and tests to date have proved satisfactory. Night air co-op is required in this connection. GL sets of 8 Aust Hy AA Bty are now being manned by AWAS personnel.	
	MOVEMENT OF PERSONNEL		GL detachment provided for northern area by 8 Aust Hy AA Bty. Warning order to hand indicating movement of 147 Aust Lt AA Bty on 1 Nov 43.

Particular care should be exercised to ensure that official correspondence is correctly addressed.

6. USE OF GRENADES, HAND, JAPANESE, TYPE 91

1. This grenade is in common use by the Japanese and quantities have been captured and used by our troops. Tests indicate that the grenade has certain characteristics which may lead to injury in the hands of inexperienced personnel. These characteristics are:-

(a) The delay fuse, marked 4/5 seconds, has been known to burn in much less time. Some tested fuses burned in 3 seconds.

(b) While the delay fuse is burning, a considerable quantity of black smoke is emitted through the escape hole at the base of the fuse tube, and small fragments of the delay fuse are sometimes forced out. At night or even at dusk of dawn, a definite glow from this hole can be seen.

2. The following precautions will be taken if the grenade is used:

(a) it will be thrown immediately after the head has been struck.

(b) When striking the grenade, the hand will be kept well clear of the escape hole at the side of the fuse tube.

7. FRAUDULENT ENLISTMENT - NX96881 GNR LANGE J.B.

By direction of the CO Kembla AA Group the undermentioned board will meet at a time and place appointed by the President for the purpose of stocktaking stores and equipment held by 658 Lt AA Bty prior to change over to ledger accounting. Report and CRVs will be submitted to this HQ not later than 12 Nov 43.

President .. .. Capt Boddy, 63 Aust S/L Bty

Member .. .. Lieut Adamson, 8 Aust Hy AA Bty.

9. DISCIPLINE : PREVALENCE OF THEFT OF MILITARY STORES AND SUPPLIES

1. The offences for stealing and fraudulent misapplication of stores and supplies from Military, depots, installations, transportation services and even from fellow soldiers have increased to an extent which renders immediate and effective remedial action necessary.

2. The use of the terms such as "pilfering", "scrounging" etc to describe such offences tends to obscure their gravity and may cause them to be somewhat lightly regarded. On the contrary, such offences must be viewed very seriously and offenders will render themselves liable to severe punishment.

3. The impression may exist that an isolated instance of theft of military stores and supplies, though a mean and despicable act, does not involve any appreciable weakening of the war effort. Such an impression, if it exists, is completely erroneous. The cumulative effect of such thefts affects seriously the maintenance of the troops in the field, dislocates the supply organisation at all points, involves grave waste of man hours, and is, in fact, equivalent in result to that of directly treasonable activity.

4. These considerations impose an obligation of honour upon all members to do their utmost to prevent theft and to assist in every way in the bringing to justive of offenders.

5. Commanding Officers will ensure that all losses of government property within their units are promptly investigated and, where theft or fraud is suspected, that the APM of DAPM of the formation concerned is promptly advised. Attention is directed to GRO A.392/1943.

6. Whenever the evidence establishes against a member a prima facie case of stealing, fraudulent misapplication or improper possession of government property or the property of a comrade, his commanding officer will apply to superior authority for trial by court martial of the member concerned. Charges will be laid under AA 17 or AA 18(4) or AA 40 whichever is appropriate. A charge under AA 40 of being improperly in possession of public property or the property of a comrade will, whenever, justified by the evidence be laid as an alternative to a charge under AA 17 of AA 18 (4).

AUSTRALIAN WAR MEMORIAL AWM2019.366.2090

7. The attention of all officers appointed as presidents or members of courts-martial trying the offences mentioned in this order is directed to AMR & O 558 (3) and MML (Aust Ed), p.64 para 82 (Sentences in case of unusual prevalence of offences).

8. As a general rule, no suspension or remission is to be made in respect of any award or sentence imposed upon a member for any offence mentioned in this order.

			TRAINING The provision of air co-operation greatly assisted training during the month. Arrangements are in hand to adopt a new system of training VDC personnel. The provision of young soldiers on various gun sites has made up for the shortage of manpower and the lads are being usefully employed, when not undergoing training. Further demands for SL Gunners has almost depleted the supply of DP 1 male personnel. Units are now left with NCOs and AWAS.

ROUTINE ORDER PART 1

by
F.F.MOOY LT-COL
CO KEMBLA AA GROUP

29 DECEMBER 43 K/39/43

1. MOVEMENT BY ROAD

1. The following orders governing "Movement by Road" will come into operation forthwith and will be strictly observed. Paragraph 21 of Second Aust Army Standing Orders for War is modified to the extent ~~of~~ herein contained. Reference is also made to "Standing Orders for Movements within Australia and its Territories" (1942) and to Field Service Pocket Book Part 11 Pamphlet No. 5 Chapter 1, as modified by these instructions:

CONTROL

2. (a) Every convoy will be commanded by an officer who will be responsible for discipline, movement, local protection and security of the convoy.

(b) Wherever practicable an officer will be in charge of each group and will travel in the leading vehicle.

(c) Officers and NCOs will be distributed evenly throughout the convoy. The senior in each vehicle will sit beside the driver. The spare drivers will travel in the rear of the vehicle.

(d) Where practicable, one or more motor cyclists will be detailed to assist the move.

GROUPING

3. Maximum vehicles per group : (20) (NOTE REDUCTION)

Minimum spacing between groups : ½ mile (1 mile to be aimed at wherever possible)

Minimum spacing between units : 1 mile (3 miles to be aimed at wherever possible)

DENSITY

4. Normal maximum : 15 vtn vehicles must maintain regular spacing.

The density may be exceeded :-

(a) when travelling at night. If the convoy is to continue in daylight without dispersing and restarting, then the total road space covered by the entire convoy is to be NOT less than that occupied by the convoy at 15 vtn (i.e. the spaces between groups and units should be increased to allow room for decreased density necessary in daylight).

(b) When, for operational reason, it is necessary for a greater number of Units to pass a point than is possible at normal maximum density.

SPEED IN CONVOY

5. Maximum convoy speeds -

Tracked vehicles :	15 M.P.H.
Wheeled vehicles:	20 M.P.H.
Guns (25pr):	12½ M.P.H.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2090

(SPEED IN CONVOY -CONTD)

Speeds will be reduced below the maximum permissible when -

(a) road conditions (surface,gradients etc) are below first-class standard;

(b) travelling by night;

(c) convoys include vehicles (e.g. hy trailers) which cannot maintain the maximum speed otherwise allowable.

ASSEMBLY BEFORE MOVING OFF IN CONVOY

6. Officers in charge of movement of groups will be responsible that vehicles are ready to move 15 minutes before time laid down for move from assembly area. Officer in charge of group will signal officers and drivers of vehicles forwarde give them detailed orders for move, including speed, density, route, destination, halts and any other details. He will see that they understand such orders before letting the return to their vehicles.

SPEED WHEN MOVING OFF IN CONVOY

7. When starting from a halt, dispersal area, or bivouac site, the officer in charge of the group will proceed at a reduced speed until all vehicles in his group are on the move at their cprrect distances. He will then order his driver to give the signal to increase speed to that ordered for the move; as soon as the signal has been passed down the group the leading vehicle will increase its speed to that required.

HALTS

8. (a) Vehicles will NOT close up at halt.
(b) When halting, vehicles will pull OFF the road; if vehicles cannot get off the road they MUST pull over as far to the left as possible and stop with the side of the vehicle parallel to the side of the road. By DAY vehicles, after moving off the road, should be camouflaged (i.e. "melted into the landscape").

(c) At every halt, at least one man must dismount and stand beside the vehicle so that he can, if necessary, wake the driver as soon as the convoy begins to move.

(d) At every abnormal halt, officers must dismount and go forward to see what is causing the stoppage. If possible, they will assist in getting the convoy moving again. Vehicles will pick up the dismounted officers as they come level with them.

ACTION IN THE EVENT OF AIR ATTACK

9. (a) Even though threatened with air attack, convoys will proceed. Vehicles with AA mountings are responsible for the protection of the convoy and must engage hostile aircraft which are within range. If the convoy halts, vehicles with AA mountings will pull only just clear of the road,halt and engage the enemy immediately. AA gun crews must NOT leave their vehicle, for they must be able to man the guns immediately aircraft come within range. High level bombing may quickly turn into low-level attack, or the fighter escort may come down and machine gun the convoy.

(b) If the road is impassable or vehicles halted in front for some unknown reason, convoys will disperse to a distance NOT greater than 200 yards from the road. As soon as vehicles halt, personnel will debus and engage by fire any enemy aircraft within range. Officers in charge of groups will ensure that their groups proceed again as soon as possible.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2090

OVERTAKING

10. Vehicles or groups will NOT overtake other vehicles (except broken down ones) or groups in the same convoy, whether the latter are moving or halted, and will NOT overtake vehicles or groups of another convoy if they are moving.

If a vehicle or a group belonging to one convoy is approaching a halted group of another convoy, it will go through. The convoy or group being passed will remain halted until it has been cleared.

PICKS, SHOVELS, TOW ROPES, ETC

11. Where road conditions are likely to render it necessary, and always when enemy bombing is probable, each vehicle should carry pick shovel and if available, a tow-rope.

ENGINEER REPAIR GANGS:

12. If enemy bombing is serious, it may be necessary to arrange repair parties for each section of the road.

LIGHTS AT NIGHT

13. Unless forbidden by formation headquarters for reasons of secrecy, all vehicles on the move at night behind forward battalion HQ will use AT LEAST parking or side light. Behind forward brigade HQ, blacked out headlights will be used. Lights will be turned off only when halted or being attacked from ground or air. Columns halted but not being attacked, will show lights on leading and rear vehicles.

2. DISPOSAL OF SURPLUS W & NCOs

Attention of all Units is directed to Second Army RO A405 which calls for above return to be rendered as at 0600 hrs Saturday 1 Jan 44 to Records Office, together with weekly W3009.

3. RECORD OF SERVICE BOOK AAB 83

Units are requested to bear in mind the instructions contained in para 15 of GRO 739, regarding the forwarding of nominal rolls to District Records Office on the 31 December 43, or so soon thereafter as is practicable, showing the Army numbers and names of personnel to whom AAB 83 have been issued.
