2. USE OF GREEN ENVELOPES.

A considerable number of abuses of the privelege of the green envelope are occurring at the present time and a number ~~of~~ of personnel do not appear to be aware of their primary use - that is, to permit correspondence of personal and private matters only, in accordance with a declaration that the writer has to sign.

Any discussion on matter which cannot be classified as personal and private (guarded hints as to the Unit's location cannot be classified as such) is considered a breach of censorship regulagitions.

Cases where the writer has deliberately abused the privilege conferred by the Green envelope will be cause of disciplinary action.

Section Commanders will ensure that all ranks are thoroughly conversant with the conditions governing the use of green envelopes.

3. PRE - SELECTION OF OFFICERS.

(I) In order to ensure the exploitation of the best material available to provide officers for the Australian Military Forces the establishment of Officers Pre-Selection Boards has been approved to conduct psychological and other tests of personnel recommended or desirous of appointment to commissioned rank.

(2) As it is a fundamental principle of the scheme that every soldier who considers himself suitable for commissioned rank shall be interviewed by the Selection Board.

(3) Personnel who consider that they possess the necessary qualifications to hold Commissioned Rank will make application to the O.C. for interview by the Pre Selection Board.

4. SMOKING IN OIL COMPANY INSTALLATIONS? ARMY PETROL DUMPS AND OIL STORE

Considerable laxity exists regarding this, not only in petrol dumps, but in Oil Company Terminals, which are the source of Army supplies.

Names of any or all offenders will in future be taken by Officers or NCO's in charge of working parties and reported to Commanding Officers of persons concerned, for dispiplinary action.

Transport drivers will not smoke on or in the vicinity of their own or other vehicles being used for the transportation of petroleum products.

5. VEHICLE LOG BOOKS (AAB20)

The Log Book of a vehicle must accompany the vehicle at all times whether on the road or in the workshops.

2. POSTAL FACILITIES AND CENSORSHIP.

Military post boxes which may be erected in recreation huts in some centres are provided as a facility for troops on leave or in transit. They are NOT intended, and will NOT be used for the posting of letters written in units, which must be despatched through unit channels.

3. ECONOMY IN MANPOWER, MATERIAL AND MONEY.

The attention of all ranks is directed to the following Special Order issued by the Commander-in-Chief, Australian Military Forces, on 8 Apr. 43.

" It is primarily the duty of every member of the Australian Military Forces to ensure that there is no avoidable waste in the use of material provided by the Australian Government for the armed forces.

Severe demands are, of urgent necessity, being made by the Government upon the financial resources of the nation, by both taxation and loan. The people who provide that money are entitled to be fully assured that so far as the Australian Military Forces are concerned, it is used with the greatest possible economy commensurate with the prosecution of the war to ultimate victory.

This economy involves the most careful examination of every item of expenditure and meticulous care in the employment of available man-power.

Any idea which may exist that unlimited funds are available for any and every purpose must be rigorously suppressed. Funds are available for any project that will contribute toward victory. None are available for unwarranted extravagance.

Care must be exercised in the expenditure of small accounts as well as large outlays inseparable from National Defence and the preparation of an offensive campaign.

Man-power must be conserved most carefully. Men should not be employed on duties for which women are suitable, if women can be made available for such duties. Two men must not be employed on any duty which can be fulfilled by one. There is no "over-time" in the AMF; officers and other ranks in non-operational areas must be prepared to complete a task efficiently when circumstances demand it as much, as if the presence of the enemy forces is upon them in the field of active operations.

A particular responsibility devolves upon all officers to ensure facilities provided for war purpose are not diverted to personal comfort and convenience of individuals.

AUSTRALIAN WAR MEMORIAL AWM2019.366.2499

Many inconveniences have been imposed upon the nation in order that resources shall be available to provide the fighting services with the men and materials and munitions necessary to prosecute the war not to enable members of the services to enjoy non-essential facilities denied to civilians.

All members of the AMF must be ready if the necessity arises to adopt the spartan conditions of existence which circumstances have enforced upon the fighting soldier in the areas of actual battle.

It is the special and immediate duty of every soldier and officer to take whatever action is within his authority to prevent wasteful diversion of national resources, to avoid any extravagant condition in the expenditure of public funds, and to establish the Australian Army as a National model in wartime ecomony as well as in the already proved qualities of the service and sacrifice."

4. RELEASE FOR SUGAR SEASON.

A direction has been received from LHQ that NO release of serving personnel will be made to the sugar industry for the forthcoming sugar season

5. OUT OF BOUNDS.

The A.W.A.S. Camp, PARTINGDON, is out of bounds to all ranks at all times.

ROUTINE ORDER NO. 26.

Routine Order No. 26 para. 2 is amended as follows:-

Organised Sports Parade. Delete 1330 hrs. to 1630 hrs. Wednesday and substitute 1330 hrs. till 1630 hrs. Sunday.

3. AMN. MAGAZINES.

Magazines are out of bounds at all times to all ranks except when on duty. They must be kept locked.

4. EXPLOSIVES FISH - PROHIBITION.

Various instances of troops obtaining fish by the use of explosives and grenades have recently been reported. Such practices result in the area in which the explosives are being used becoming devoid of fish and so for lengthy periods, thus interfering with the livelihood of fishermen and preventing others from obtaining fish. Furthermore the use of explosives for obtaining fish is an offence against civil law.

Fish will NOT be obtained by the use of explosives except for the feeding of personnel when other sources of rations have failed and time will not permit of fish being caught by trapping or normal fishing procedure.

Severe disciplinary action will be taken in all cases of disobedience of this order.

5. LEAKAGE OF MILITARY INFORMATION IN PROCEEDINGS BEFORE CIVIL COURTS.

(1) When giving evidence in a civil court, a soldier will merely give his number, rank and name and state that he is a member of the AIF, without mentioning the name of his unit.

(2) In no circumstances will a soldier divulge in open court the location of his unit, unless the bench rules that a full answer is essential to the case, in which event he will offer to write the information on a slip of paper to be handed to the bench.

(3) The danger to security in disclosing the location of units cannot be too strongly impressed on all ranks.

6. DRESS - SAM BROWN BELTS.

Unless otherwise ordered, the following items of dress may be worn at the option of the member:-

(a) The Sam Brown belt (without shoulder strap) may be worn by officers and warrant officers, Class 1.

(b) Other warrant officers may wear the belt, waist, brown leather.

7. ENGINEERING CADETSHIPS.

(1) The provision of engineering cadetships (both Civil Engineering and Electrical and Mechanical Engineering) for a limited number of Cadets who may be drawn either from serving personnel or from civilian sources, is under consideration.

(2) Although the scheme has not yet been finally settled or approved, applications will be invited forthwith for cadetships on the following basis.-

(a) Cadets will be selected only from candidates between the ages of 17 years and 20 years, who are medically Class A1, who are or become members of the AIF, and who have reached Leaving Certificate standard in English, Mathematics and Science or have equivalent qualifications. Parental consent to join the AIF will be required in respect of any cadet who is not already a member of the AIF.

(b) Cadets selected from civilian sources will be enlisted in the AIF and all cadets will, during their cadetships, remain serving soldiers in the ranks of private or sapper with pay and allowances accordingly. Text books will be provided at their own expense.

exempts

(c) Engineering cadetship will cover a course of military training, courses at approved educational establishments and a final course at an OCTU, over a period of approximately 3 years. Successful cadets will receive commissions subject to vacancies existing. Pending appointment to commissioned rank, such cadets will be allotted to RAE or AEME units in the ranks.

(d) Cadetship as such will terminate on the cessation of the war, but it is hoped to make arrangements for the completion of the courses which have been commenced, as part of a Repatriation scheme of vocational training.

(e) Cadets who prove unsatisfactory or become medically unfit or who are unsuccessful may have their cadetships terminated and be returned to normal army service.

3. (i) Applications will be made by serving personnel to their COs, who will forward all applications direct to LHQ (A-in-C), to reach LHQ not later than 5th July 43. (This is essential to allow sufficient time for selection in time for assembly of selected cadets for the first course expected to commence on 1st. September, 1943.)
