3 Aust. A.A.S.L. Bn. R.A.E. Operation of 90cm. S.L. equipment mounted on flat top PURPOSE. To defend a V.A. against low flying attack, with totally mobile equipment, employing a minimum of personnel. A Standard Waygood generating set is or of Hour start. A Stemary sayson generates to be belted to the body of a Ford F.W.D truck just reer of the cabin. A 90cm. Hk.VI projector is bolted to floor of the vehicle by means of specially made fittings which allow the projector to be levelled without delay. A sixty feet lead power 13 is used between generator and projector. The control arm is not used. Six sets of equipment have been mounted in this menner for a mobile Type Y Section. Tests have been carried out with the equipment and the writer's conclusions re practicabilityere found below. MOBILITY. The equipment has travelled from Lytton to Amberley, a distance of approximately 50 miles, approximately 40 miles on deployment exercises around Amberley serodrome and approximately 60 miles during bivouse from Amberley to Lowood Aerodrome. For the most part this movement was done on first class roads. The following points have been observed:-The equipment can move at very short notice, it travels quite well, and is ready for action upon arrivel at site. Some inevitable damage has been caused during (b) travel, viz breaking of electrical leads on lamp and projector, loosening of nuts, demage to taper roller tracks and base retaining bearings, sectors of front glass have been cracked, the supporting ber for the front glass clamping plate has been broken on several projectors. OPERATION. Operation of equipment was tested with sircraft co-operation during recent management to Lowcod serodrome. On the night of 25/25 Feb. 43 a Wirreway was flown at 3000 feet, on 26/27 Feb. at 2500 feet and 27/28 at 5000 feet. Air Force authorities would not permit pilots to fly st altitude below 2500 feet. It was found impossible to locate and pick up the aircraft as the noise of the generator set prevented the crew on . the vehicle from ascertaining sireroft's position. Erratic searching resulted. This difficulty can be reduced by

delay was therefore experienced in corrying out control orders.

(b) Use of S.L.C. equipment. An English 190cm. S.L.C. was employed during the Aircraft co-operations The S.L.C. was esticed so the lateral co-operations The S.L.C. was sticed as the lateral corrections of the 90cm. The proved successful and is considered very mecoscary when using equipment mounted early very mecoscary when using equipment mounted

(a) Telephonic control. It was found that the telephonic had to be at least 30 feet district fronthe equipment in order to hear his Section Commender; at this distribute the orders from the telephonics to the crew were insudible. Some

on a vehicle.
It was found that the target could be held in the beam when picked up.

The projector tracks and fun unit box hindered the movements of the lamp attendant and controller. Several secidents occurred due to members of the area slipping from the truck.

CO-OPERATION WITH LIGHT A.A. (BOFORS).

During the sir co-operation on 25 Feb. 13 two troops of Dotor game of 165 Light A.A. Bty. were deployed on the serodrome.

From observation and subsequent conference with Bty. and 759. Commanders, it is evident that the illustration afforded by two dispersed because in cutte edequate for the use of the predictor and open sites.

The Bty. Commander contends, however, that the flash from the gam will preclude any securate gam leying at night.

6. DEPLOYMENT OF ROUTPURNT.

5.

(s) As decay besses to entile enemy sirecret every from the V.A. Such deployment would require a minimum error. One men, an H.T. driver, could put up a been.
It would be desirable to have at least two men, as guard duties and maintenance of equipment could not possibly be performed by fower than two persons.

(b) on circumference of 2½ wile redime circle for secofroms defence leyout. In this case at least three men would be required to operate the equipment. Two men on the 'c'-cle and one as telephonist and mechine gumner. This deployment would be of little use without the S.L.C. sets provided for mobile sections. The equipment's excellent mobilitywould lend itself to repid change of leyout.

(c) On serodrome. If the target were picked up by the beam on outer ring then this type of equipment on the serodrome could provide illumination for Light A.A. gume and other smaller arms. Some difficulty would be experienced in headling feet low Hying circreft.

APPRECIATION of situation at AMBERLY A RODROMS, at LYTTON by Y.E. Schmidt, Lt. 12 Jan. 43.

Ref. Map - IPSWICH no. 192, Scale 1" to 1 mile.

Sect. 121 H.Q. and report on Roads.

- Proposed site for 121 Sect. H.q. at approx. msp ref. 822674 Gamer of this property is Mr. J.T. Goldsborough, Amberley. This company will require the use of part of this propety, to esteblish a Section H.Q. and use as dispersal area for vehicles. The site was previously occupied by H.S. Armw.
- 2. Classification of Roads.
 - (a) <u>First Class</u> (shown red on Appendix "B"); Bitumen: take two lines of traffic; bridges and culverts good.
 - (b) Second Class (Shown purple on Appendix "B"); Metalled road, not bitumen, takes two lines of traffic; bridges, culverts, and overhead clarences with traffic;
 - (c) Third Class. (shown green on Appendix "B"):- Barth and green! Fords with wooden bridges; single line of treffic, incellity depending on weather conditions.
- Roads, bridges, etc. within area to be covered by units defence layout.
 - (1) Reads from LYTTON to sees are first class.
 (11) Mein road from city of IPSWIGH through GHURCHILL,
 LOANSIDE, FURGA, is first class to map ref. 890692,
 continuing from this point it is seemed class.
 - 111) Main road through IPSWICH, ONE MILE, AMBERLEY to ROSEWOOD is first class.
 - Mein road MMBERLEY WARRILL VIEW is first class.
 Main road from map ref. 892725 through WOODEND to site AG is first class.
 - Bridge across BREMER RIVER at 883741 is in fairly good condition, would only be unusable for short periods in times of floods. However, alternate first class road through North Ipswich could be taken.
 - (vi) Road from 390678 to 894661 is third class, would be trafficable in wet weether, is sandy, has stoned inverts at watercourses. From 894661 to site 02 is through fairly open country.
 - m(vll) Roed from 877667 to 829675 is third class, would not be trafficable in very wet weather, but dries quickly.
 - ERIDGES. Two about 50 yerds apart at Purga Creek 85667. The more Sastewly of the two is wooden, 12' yide, about 12' off normal water level, quite sound, would carry load. The bridge 50 yards west of the above has been damaged by recent floods, repairs are required. Temporary cultwert at side has been constructed. Under these conditions this road would be trefficable in dry westher only.
 - At Warrill Creek 834675, there is a wooden bridge, low level, would carry loads but impassable during floods.
 - (vill) Road from 852672 to 842643 to 876607 is third class, in fairly good condition, untrafficable invery wet weather.
 - (ix) Road from 824,659 to 816662 is third class, this road not shown on map but exists, not trafficable in very wet weather.
 - (x) Road from 829676 to Sect. 121 H.Q. at 822674, third class, but good all weather road.

(xi) Rosd from 878711 to C.H.Q. is third class but all weather rosd.

(x11) Road from C.H.q. to sites C6, E6, A5, and E5 through KARRAFIN is third class, would present difficulties in very wet weather; is third of sandy neture and dries quickly.

Railway gates at KARRABIN, west of this point, there is

Subway under relies et 835745 has about 12' overhead clearance. Culvert et 825751 to 12' wide, would carry

Most sites are very close to roads. In event of very wet westher, equipment can be operated on nearest road, without effecting layout seriously.

Mount of hundly

3. This cottage will provide Coy. Orderly Room. Sections Office, Transport Office, R.A.P. and sleeping accommodation for 8 comprising, 2 officers; 1 W.O. 2 8/8gts, and 3 Sergents.

Wash up benches, grease trap; incenerator, all as per Scale A.

2. PARADE HOURS ETC.

Reveille	-	0600hrs.
Fatigue and Sick Parade		0630-700hr
Breakfast	•	0730hrs.
Inspection		0815hrs.
First Parade	-	0830hrs.
Sick Parade to M.O.	•	1000hrs.
Stand Down	•	1200hrs.
Lunch	-	1230hrs.
Parade	-	1330hrs.
Stand Down	-	1700hrs.
Dinner	•	1730hrs.
Retreet	-	1800hrs.
		000 55

3. IEAVE. Leave will be grented at the discretion of the O.C.

4. MARCHED IN

Personnel marching in from Hospital, or leave will report to C.H.Q. Orderly Room with all papers concerning discharges from Hospital, and will return leave passes.

5. MARCHING OUT.

Personnel marching out to Hospital, Sick leave, or ordinary leave will ensure that they have their pay books with them and if merching out on transfer to another company or to another section will ensume that pay book and other necessary papers are carried.

6. BARRACK CLEANLINESS.

All renks will ensure that the entire camp erea is kept cleen and tidy, and tents kept in inspection order from O815hrs. to 1700hrs.

7. VALUABLES.

All personnel are werned against leaving money or other velumbles in tents. It is suggested to carry all valuables unless able to look them sway.

8. STORES.

All stores drawn for fatigues etc. each day, will be signed for and must be returned when the fatigue is completed, and signatures will be struck off Issue Book.

The following sress are out of bounds to persons unless ordered to be there for duties:-

1. Kitchens.

2. Orderly Room.
3. Tents during Parade Hours.
4. "Q" Store, except to draw and return tools.

6. Officers and Sgts. Quarters.

10. SALUTING & COMPLIMENTS.

Officers will be soluted at all times and invariably addressed as "Str".

Warrent Officers will be addressed as "Sir", but not saluted.

N.C.O's will be addressed by their rank, and not seluted.

11. SECURITY AND INFORMATION.

All outgoing mail be handed to Orderly Sorgeant each morning, either with stemp attached or equivalent inside envelope, and with flap turned inside. The orderly Sergeent will head the mail into the Orderly Boom for Generaling.

Personnel on leeve will refrein from telling enyone where they are quartered and the mame of the Unit to which they belong or any other information concerning the Unit.

Unit Address:-

72 Aust. A.A. Coy. R.A.E.
C/- 3 Aust. A.A.S.L Bn. R.A.E. Donkin St. DOMBUL. BRISBANE.

12 REDRESS.

Any man of Sect. 121 and 122 who feels himself grieved has the right of appeal through the Orderly Sergeant, Section Sergeant, Section Officer, OlC.

Members of the C.H.Q. staff will be paraded to C.S.H.

To wake a frivolous and unjustifiable complaint is, however, an offence and will be dealt with as such.

13. INTOXICATING LIQUOR.

The bringing of intoxicating liquors into the came is strictly forbidden.

It is to be clearly understood that no one will leave the camp ares without permission of Section Officer or C.S.M in case of C.H.C. personnel. Disobedience of this order is a very serious offence.

15. TRANSPORT.

M.T. personnel will attend allparades unless detailed by responsible officer for duty elsewhere.

On completion of days work, drivers will hand in to their Section Sergeont, completed 9 2's and keys of vehicles. Unsuthorized use of vehicles is a very serious offence. Severe disciplinary action will be taken against persons using vehicles

without authority.

Personnel not holding drivers licence will not drive vehicles except in wases of emergency.

Each vehicle will always be parked in position allotted by Section Commander.

When moving vehicles through timbered eres every care will be exercised to ensure that canopies and equipment are clear of overhaming brenches.

16. CLOTHING ETC.

All personnel will exercise the utmost core in maintaining chothing and other issues of personal equipment in good confertion. Reglect in this matter will be dealt with.

clearly maked with name and number. Roots must be worn during hours of duty. Shirts must be worn to mess and also by all fatigue parties whose duty bice the outside the ene area.

17. HYGIRNE.

All personnel will exercise the utmost core to prevent sickness. Beste water from kitchen and abilitions to be put into greene treps, and sumps provided. Sewdust must be used in Sanitary page.

All personnel will be careful not to weste water.

18. DISCIPLINE.
