APPENDIX "A"

Pt Adel Frt Sig Sec
FORT LARGS
16 June 42

C.S.O.
S Aus L of C Area
KESWICK

REPORT OF W/T EXERCISE WHYALLA - ADELAIDE, 9 to 13 JUNE.
Conducted by O.C. Pt Adel Frt Sig Sec and two W/T personnel

1. INTENTION.
To conduct W/T Field Strength tests between ADELAIDE and WHYALLA withaview to establishing a wireless link. This link would provide an alternate means of communication in the event of a breakdown of the P.M.G. telephone link between ADELAIDE and WHYALLA, and would also be a means whereby cyphered messages could be passed by W/T operated solely by Army personnel.

2. WEATHER CONDITIONS.
Ideal, fine and mild to humid. Atmospheric disturbances, rain with some lightning.

3. STATION LOCATIONS.
One (1) fixed station adjacent to FORT LARGS, one (1) station at WHYALLA tested in four positions (see detailed report) three (3) as truck stations, and one (1) as a grounded station.

4. TYPE OF EQUIPMENT.
109 Sets were used exclusively. 101 Sets were not tested, as it was suspected these would not meet requirements. Results of tests suggest that 101 sets, owing to their higher frequency, and having a wavelength suitable for all periods of the year (as per Signal Training, Pam 11, part 4, Selection of frequencies for medium distance wireless communications, 1941) would fulfil all requirements, irrespective of the watts input being lower.

5. TYPE OF AERIAL.
The End Fed, half wave horizontal aerial recommended in S O in Chief's SM 8365 was used and found to be quite satisfactory, a good stable signal being obtained practically throughout the tests.

6. DISTANCES.
The distance between the stations was approximately 150 miles. The tests were conducted from both hilltops and swamps, the latter giving slightly better results than the former, although the difference was not very appreciable.

7. RESULTS OF TESTS.
The tests proved that a W/T channel could be established between ADELAIDE and WHYALLA with satisfactory results, providing a frequency from 4 to 6.8 m/cs were used. Any frequency of lowere wavelength is not satisfactory owing to interference. Harmonics from 5 C K, 5 P I, 2 U W and 3 W V were very noticeable between 2 and 3.5 megacycles, and never varied. Atmospherics and fading were also very prevalent.
Communications over this link would probably be successful for 24 hours of the day throughout the year under normal atmospheric and ionespheric conditions, and the establishment of same is recommended.
For more reliable results more powerful equipment would be advisable, although type 109 sets, and possibly 101's would fulfil requirements admirably.
At least 1 N.C.O. and three (3) W/T personnel would be required to man a station at WHYALLA for a twenty four hour schedule.
Detailed report attached.

5. TRANSFERS OF PERSONAL EQUIPMENT AND ARMS (G.R.O. O 67)
When inter-unit transfers of personnel occur, personal equipment and arms will also be transferred on A.A.F. F 6 which will be used temporarily until supplies of A.F. G.1033 (Issue and Receipt Voucher Unit) are available.

---

6. CARE " A " VEHICLES AND ORDNANCE EQUIPMENTS(G.R.O. O 68)
(a) In future, all personnel handling "A" vehicles will take precautions against rain entering the vehicles by seeing that the vehicle covers are properly fitted.Where no cover is provided,improvised covering will be used.
(b) Ordnance equipments which have to be stored in the open will also be covered by tarpaulins or improvised covering where tarpaulins are not available.
(c) Breech and muzzle, etc, will of course, be in place.

---

7. CENSUS OF BINOCULARS.(G.R.O.O69)
National Security Regulations No.57 dated 23 Dec 41 provides for all binoculars owned by individuals to be declared.This includes those owned by members of the army whether officers or other ranks.
It has been decided that the army will arrange the Cencus of binoculars owned by Army personnel.It is known that the census of Warlike Stores will reveal the holdings of Army issue binoculars but it is felt that the many who are using their own will not be included in the return as the glasses are not on charge to the Unit.
For purposes of supply, it is necessary to know the total number available in Australia, but it is not at present intended to call up binoculars privately owned by Army personnel.
To enable this information to be collated, each unit will submit the following return:-
(a) i. Unit,formation etc.
ii. Number,name and rank of owner.
iii. Whether the binoculars were shown in the Census of Warlike Stores Return as being "held" by the unit.
iv. Name of manufacturer,(Ziess,Ross etc.) and country of manufacture.
v. Magnification and diameter of object glass (these particulars are engraved on most binoculars e.g. 6x40 etc.)
vi. Are the binoculars used by the owner in lieu of a service issue.
(b) In connection with Para (vi) above the C O of the Unit will endorse each return submitted in accordance with the above order, a certificate, as to whether or not the binoculars are necessary for use by the owner in performance of his official duties.The returns will be submitted by units through normal channels to D O S (083) G H Q.
Returns will be submitted by all units NOT LATER THAN 30JUNE 1942.
Units will publish the above in Unit orders.

---

8. FIRE BUCKETS
Attention is drawn to the fact that fire buckets have been used for other than the purpose for which they were provided.
This practice will cease immediately, and disciplinary action will be taken against offenders.

---

9. MEDICAL RECORDS (G R O A 56)
(a) A A F A 46 will continue in use for normal sick parades within the unit for all troops (A I F and C M F)
(b) Should it be found necessary for a member to be evacuated from his unit, A.A.F. W.3118A are to be used, all relevant A.A.F. A.46 being enclosed with A.A.F. W.3118.
(c) The use of A.A.B.8 will be discontinued forthwith.

5. UNIT CAMOUFLAGE (G.R.O. G71)

A. The construction and maintenance of camouflage works for a Military Unit or installation is primarily the responsibility of that Unit.
B. The Unit should seek engineer advice, if required, from the appropriate Engineer Commander.
C. The Engineer Commander concerned will-
i. Provide necessary engineer stores;
ii. Decide whether engineer assistance is required and, if necessary, provide it.

6. INVENTIONS AND IMPROVEMENTS TO MILITARY EQUIPMENT ETC.-PROCEDURE.

A. INVENTIONS

i. The responsibility for the examination of new proposals and inventions, as regards weapons, ammunition etc. submitted by members of the Public to the Army, and for the keeping of records from which evidence regarding priority can be obtained for settling claims for awards, rests with the Army Inventions Directorate. (G.R.O. 077)

ii. Frequent cases have come to notice where inventors in various parts of the country have given demonstrations to officers in subordinate formations, etc. and these officers have expressed their views on the merits of the invention, but no information has been passed on to the Army Inventions Directorate. In some cases where an inventor has subsequently forwarded his proposals to the Army Inventions Directorate and they have been rejected, trouble has arisen because the views expressed by the officer who first saw the invention had been very favourable and optimistic.

iii. Other cases have occurred where subordinate formations have made direct contracts for items, not on approved army lists, that have included devices which had been considered and rejected by the army.

iv. To obviate the difficulties caused in the past, the following procedure will be adopted in the case of inventions or improvements to Military equipment being brought to the notice of military officers by MEMBERS OF THE PUBLIC.

(a) The proposer or inventor will be informed that he should forward his proposal, or a description of it, at once to the Army Inventions Directorate, Harrison House, 31 Spring St. Melbourne C.1.
(b) If the proposal or invention is considered of sufficient

OVER/

AUSTRALIAN WAR MEMORIAL AWM2019.366.2911

importance,it will be brought to the notice of at least a commanding officer, and, if he considers that it has any appreciable military value or merits development, his opinion, together with-

(1) A brief description of the proposal or invention; and
(2) A record of any opinions which may have been expressed to the proposer or inventor,

will be forwarded direct to the Army Inventions Directorate, and at the same time a duplicate copy will be forwarded through normal Army channels to L H Q.

(c) Army Inventions Directorate will reply direct to the proposer or inventor.

v. Proposals or inventions by SERVING PERSONNEL will be submitted ~~xxxxxx~~ ~~Gx&m~~ by their O C's to the Army Inventions Directorate.If the proposal or invention is considered of sufficient importance and has appreciable military value or merits development, it will be dealt with exactly as in para iv(b) above.The Army Inventions Directorate will reply direct to the proposer or inventor.

B. IDEAS AND REQUIREMENTS

i. The"user" personnel in the army are often the best fitted to think of the requirements in regard to new equipments or developments to existing equipments.
It is the duty of evry soldier to put forward his ideas in this respect.Whilst in many cases the "user" or other soldier can only think of the idea and has not the solution, one of the express purposes of the Army Inventions Directorate is to endeavour to provide the means of development if such idea appears a suitable Army requirement.
Therefore, submissions under this heading are to be made to the Army Inventions Directorate in the same manner as for inventions i.e. direct submission in the case of a member of the public, and through the commanding officer in the case of serving personnel, a brief ~~xxxxx~~ description and record of opinions expressed being added at the commanding officer's discretion.

---

6. BINOCULARS,COMPASSES,prismatic,& WATCHES (G.R.O. 087)

A. Binoculars,Compasses,prismatic, and Watches are Unit stores and must remain so.When personnel to whom these articles are on issue are transferred from~~x~~ the unit for any reason, action will be taken to withdraw the items for re-issue.

B. The unit will keep a record of the registered numbers of these articles on issue to each member.

C. All personnel at present in possession of these articles will report them to the Unit H.Q.
(to be repeated in all Unit Orders)

---

8. ANTI-GAS EQUIPMENT.(G.R.O. 089)

A. Until further notice, the issue of the following items of anti-gas stores will be restricted as follows:-

2. A.T.M.(AUSTRALIA) .

Attention of all officers is drawn to instructions contained in A.T.M. No.1. page 5.
Officers will ensure that they receive a personal issue each month of the above document, and in the event of non receipt the matter is to be reported to O Cs Units for action.

3. Y.M.C.A.

Losses of small articles from the Y M C A Hut have been reported. Whilst these articles, such as paper weights, ink wells, pens, pencils, games etc. may not be of any great monetary value, considerable inconvenience and annoyance is caused to the officerin charge in having to replace them.
The above practice will cease forthwith and personnel are requested to remember that Y M C A Service is free to all and for the comfort of the troops generally, therefore the least that can be given in return is the courtesy and respect for their services.

4. CHURCH PARADE.

A Church Parade will be held at 0915hrs on Sunday 14 June 42.

5. ISSUE OF PETROL.

As from 14 June 42 issue of petrol and oil will be issued and recorded by C.Q.M.S. 58 A A S L Coy, S/Sgt.Bosley.
Supplies will be issued at the following times:-

0815 to 0900 hours
1630 to 1700 hours

6. DAMAGE TO GOVERNMENT PROPERTY.

Damaging Government buildings by writing on walls, doors etc. is a serious offence and this childish practice is to cease forthwith.
It should be realised by responsible personnel that there is more important work to do in the defence of the Country than having to repair and paint damaged property.
Severe disciplinary action will be taken against personnel disobeying this instruction.
