POWERS OF SENTRIES AND GUARDS

1. Regulation 8A of the National Security(General) Regulations (Statutory rules 1942, No. 374) provides that, without derogating from or restricting the existing powers or rights of sentries and guards, a military sentry or guard stationed or posted at, on, in, or in the neighbourhood or vicinity of, any prohibited place, protected area, controled area, or any premises used by the Commonwealth, or used for Defence purposes for essential services, or any vehicle, vessel or aircraft used by the Commonwealth, or any enclosed wharf or picking up place, or any Merchant vessel lying in port, or any road, pathway, or waterway, specified in an order by the Minister, which passes through or near a prohibited place or work of defence, may be armed, and may -

   (1) Use his weapons against, or otherwise attack , any person who, in disregard of a warning given by a sentry or guard, approaches, enters, leaves, or passes over, or in the vicinity, or neighbourhood of, or attempts to approach, enter, leave or, pass over, or in the vicinity or neighbourhood of, that place, area, premises, vehicle, vessel, aircraft,wharf, picking up place, road , pathway or waterway, or who, after being arrested for doing so, escapes; and
   (11) use his weapon against, or otherwise attack, any person attacking him or reasonably suspected of being about to attack him.

2. There are, however, certain principles which must guide all sentries and guards in the execution of their duty as such and in the exercise of the right to resort to arms.
3. These principles are:-
   (a) Sentries and guards will be ordered to take any action required to ensure the safety of their posts or to defeat the activities of the enemy, or suspected enemy agents.
   (b) If necessary, they will fire upon or otherwise attack any persons threating the safety of their posts or engaging in hostile action.
   (c) Before firing upon any person, the sentry or guard will, except in an urgent case of self defence, challenge that person to "Halt". If that person does not halt, the sentry should challenge him again with "Halt or I fire". If he does not halt, and no other means are available for stopping him- as for example, by calling on the rest of the guard- it is the duty of the sentry to shoot.
   (d) The sentry will use his intelligence and sense of responsibility in choosing whether he will shoot or not, and he must be careful not to allow any suspected person to approach so close taht he can be rushed and overpowered.
   (e) Guards of Enemy prisoners of war. An enemy prisoner of war attempting to escape may be fired upon, but previous summons to surrender will be given if possible.
   (f) Guards of members of the forces in custody.
   (1) An escort or guard is not justified in using his weapon merely for the purpose of preventing another member from escaping from custody, and if he so uses his weapons, he may render himself, as well as any officer or N.C.O. under whose orders he acted, liable to be gharged with murder, manslaughter, or incitement to murder.
   (11) If a member in custody attempts to escape, the escort or sentry will immediately raise the alarm and give chase. He may call upon any passer-by to assist him in apprehending the escapee.
   (111) An escort or guard may be justified in using his weapons when a member in custody resorts to violence. In such circumstances an escort or guard may meet force with force, but care must be taken to use no more force thanis necessary yto overcome the violence offered.Hence even when violence is offered to an escort or guard, it will only be as a last resort that the use of weapons will be justified.
4. Orders and guards and sentries will be framed in conformity with the above and guards and sentries will be suitably instructed as to their powers and duties.

5. GRO A682/1942 is cancelled.

3. F.747. REMITTANCES FROM MEMBERS.

1. The attention of all ranks is drawn to the arrangements which exist for a member to send a remittance of cash or undrawn pay to any person resident in Australia or to another member (wherever serving).

2. These arrangements provide that remittances may be made through Army channels by members whp are serving in localities where money order or banking facilities for remittances are not available with reasonable convenience.

3. Remittances through Army channels are effected by the member completing a remittance form(WF 131 or WF 131a) and handing the form to the pay Sergeant or paymaster, together with the cash (in the case of a remittance of cash) or the members paybook (for entry of the debit in the case of a remittance of undrawn pay).

4. A member sending a remittance should take particular care to see that full details are clearly and legibly set out on the remittance form. This applies especially to the name and address of the of the person to whom the remittance is to be sent.

5. The member will ensure that he obtains a receipt from the pay-sergeant or paymaster for any cash handed over.

4. DAMAGE CAUSED BY SHOOTING AT NAVIGATION LIGHTS.

1. Cases have been reported of Navigation Lights on parts of the coast having been damaged by rifle fire. Attention of all personnel will be drawn to the serious consequences which might arise from the failure of such lights.

2. Any similar occurences in the future will be the subject of strict disciplinary action and commanding officers will take steps to ensure that damage to lights is not caused by troops under their command.

5.A734.PrevalanceOF THEFT OF MILITARY STORES AND SUPPLIES.

1. The offences of stealing and fraudulent misapplication of stores and supplies from military depots, installations, transportation services and even from fellow soldiers have increased to an extent which renderes immediate and effective remedial action nesessary; such offences must be viewed very seriously and offenders will render themselves liable to severe punishment.
2. The impression may exist that an isolated instance of theft of military stores and supplies , though a mean and despicable act does not involve any appreciable weakening of the war effort. Such an impression,if it exists, is completely erroneous. The cumulative effect of such thefts affects seriously the maintenance of troops in the field,dislocates the supply orginisationat all points, involves grave waste of man hours,and is, in fact, equivalent in result to that directly tresonable activity.
3. These considerations impose an obligation of honour upon all members to do their utmost to prevent theft and to assist in every way in bringing to justice the offenders.

4. As a general rule, no suspension or remission is to be made in respsct of any award or sentence imposecupon a member for any offence mentioned in this order.

4. USE OF GRENADE HAND JAPANESE TYPE 91 G 724.

1. This Grenade is in common use by the Japanese and quantities have been captured and used by our troops. Tests indicate that the Grenade has certain characteristics which may lead to injury in the hands of inexperienced personnel. These characteristics are:-

(a) The delay fuse marked 4/5 seconds has been known to burn in much less time. Some tested fuses burned in 3 seconds.

(b) While the delay fuse is burning, a conciderable quantity of black smoke is emmitted through the ~~hass~~ escape hole in the base. of the fuse tube, and small fragments of the delay fuse are are somtimes forced out. At night or even at dusk or dawn, a definite glow from this hole can be seen.

2. The following precautions will be taken if the Grenade is used:-

(a) It will be thrown after the head has been struck;

(b) When striking the Grenade, the hand will be kept well clear of the escape hole at the side of the fuse tube.
