Appendix IV.

39. 4 ARMD REGT.

Headquarters,
Home Forces,
Melbourne.

MESSAGE FROM G.O.C.-in-C., HOME FORCES, TO ALL OFFICERS.

Headquarters, Home Forces, having completed its initiatory and transitional stages, is now about to take over the direction of field operations. I take advantage of the opportunity to send this message to all officers and ask that those concerned will ensure that the spirit of it reaches non-commissioned officers and men also.

1. GENERAL.

(i) With the Japanese at our doors we must put into practice all the knowledge and military experience we possess. We must give life and realism to the military machine and make it work as never before in Australia. We may soon be face to face with a real enemy and we must bring out in ourselves and from the troops we lead, every ounce of courage, tenacity and determination.

(ii) There is no time for complacency nor unworthily passing to another what is properly one's own duty.

(iii) There must be no water-tight compartments, but instead the highest degree of co-operation—the same war for everybody.

(iv) Our eyes must be kept open to see new things and to see what has to be righted.

(v) Nothing can be done without trouble and the taking of personal trouble and interest are vital to success.

(vi) Without mobility of mind and action in leaders we cannot expect mobile forces.

(vii) We must expect to meet hardship, difficulty and danger, but these are as nothing compared with the hardships, difficulties and dangers to which we must subject the enemy.

2. COMMANDERS.

On your influence and leadership depends the standard of training and fighting in your command. Make up your mind. Make a plan. Be clear and explicit. See that every part of your command is working, or ready to work, immediately when called upon. Free yourselves and your subordinates from inertia in all its forms. Train your subordinates to be self-reliant and to use to the uttermost all their own resources.

3. STAFF OFFICERS.

(i) To every Staff Officer of whatever degree of training, experience and length of service, I say,

"Are you alive in the work you are doing, or has it become just routine ? Are you pushing and driving and pulling your full weight ?

AUSTRALIAN WAR MEMORIAL AWM2020.71.113

(ii) Every Staff Officer must carry the work entrusted to him to the full limit of his capacity. He must see it right through. No decision which it is within his province to make should be set aside or passed on. Every Staff Officer must appreciate the full meaning of what he is doing. The time for routine outlook has gone. He is now dealing with vital problems and real enemies. He must himself bring real help to the general plan or to those who are requiring it.

(iii) All ''stickiness,'' indecision and other causes of delay must be removed. Wherever things are held up, pressure must be applied from above or below to hurry them through. Our plans against the enemy must not miss because of human frailties in Staff Officers. Each task must be tackled immediately it arises and finished with accuracy, thoroughness and speed.

(iv) There is no greater tonic to hard pressed troops than to know that their interests are watched over by well trained, helpful and enthusiastic Staff Officers.

(v) There may be many branches of staff work, but there is only one Staff, the Officers of which must work as a team.

4. REGIMENTAL OFFICERS AND OFFICERS OF SERVICES.

The same principles apply as for Staff Officers.

To Regimental Officers I say, further,

Keep cool. Do not forget to organise and look ahead. Keep your unit or sub-unit together. Keep control always. Train your men to be confident in their weapons and not to part with them under any circumstances. Be aggressive in attack and defence. Be always ahead of your men in planning and thinking. By your own good example you will influence their morale, develop their courage and allay their fears.

In conclusion, I express confidence in you all—your courage, leadership and military ability—and trust that together we may defeat all those who attack us.

Iven Mackay

22nd Dec., 1941.

Lieut.-General,
G.O.C.-in-C., Home Forces.

RECCE REPORT OF BRIDGE AREAS.

MELBOURNE - POINT NEPEAN ROAD, over PATTERSON RIVER, CARRUM and MORDIALLOC CREEK by Norman J. Oliver, Captain, 4 Armd Regt. 1300 hrs, 12 Jan. 42.

Ref. maps CRANBOURNE) 1 : 63360
RINGWOOD)

PART 1. Suitable storages for 1 ton of explosive at Mordialloc Creek bridge, Point Nepean Road.
Best is garage at Mordialloc Railway Station Gates owned by Mr. Hogg. Phone Mordialloc 146. Railway Trolley could be used to transport stores direct from garage to both bridges, Railway and Road within 50 yards of Road Bridge and direct to Railway Bridge.

PATTERSON RIVER BRIDGE - Council tool locker about 15' x 6' x 6' dug out in bank of river 20 yds from Bridge. Council Officers will co-operate.

PART. 2. (a) MORDIALLOC CREEK.

1. There is within 300 yds a road Bridge on A1 Road and a railway bridge, double track supported on about 11 sets of wooden piers with steel girders.

2. The facilities for storing approx. 1 ton of explosive in this area are:-

A wooden council shed very near Road bridge, used for storing tools. This shed is divided by a partition into two parts. One part could be cleared and would hold the material. There is a possibility that this shed could be set alight. It is East of the Bridge, North Bank of Creek. The Railway bridge is approximately 300 yds upstream of this spot.

There is a brick garage, stoutly constructed door, (size about 15' x 10' outside garage) owned by Mr. Hogg. Phone Mordialloc 146. This garage is situated about 20 yds from Railway Signal Box. It is about 150 - 200 yds from road bridge by road, 20 yds from Railway line. Stores loaded on railway trolley could be dispatched to within 50yds of Road Bridge in a few minutes, and direct to Railway Bridge. Mr. Hogg and his sister are strongly recommended by Cr. Davis for security reasons. Stores in this garage would be safe and secret.

Other possibilities at Mordialloc are:-

Iron garage, owned by Mr. Atkins at 9 George St. near Rly Viaduct.

Room at rear of Palais.

Two garages owned by Mr. Perry, Hardware Store.

Brick grandstand at rear - ¼ mile away.

AUSTRALIAN WAR MEMORIAL AWM2020.71.113

(b) PATTERSON RIVER BRIDGE. - CARRUM.

Railway and concrete road bridge close together.

Facilities for storing explosive here are:-

N.W. corner adjoining creek and road, Property owned by Cr. L. Righetti Double.brick garage now being used by tenants.

N.E. corner,House owned by Lt. McColl, with concrete brick garage securely locked, occupied by Chev. car, probably not used much.

S.E. corner. Fire Station. There is a tool room, which filled, with door, would make a good storage chamber. Brick Cement Floor.

S.W. Corner. On bank of Patterson River is a dug out about 8'x6'x6' securely timbered, with door lock which Chelsea City Council will make available. Recommended as an explosive dump by City Overseer, Mr. Oates, who is an experienced miner. Council will supply a stout iron and wood door and timber with which a second door could be constructed over the existing door when this chamber would be excellent. See City Engineer, City of Chelsea, near Chelsea Rly Station also Mr. Oates and Mr. Callahan at municipal chambers for Key etc.

PLANS OF MUNICIPALITIES.

Appendix.
Secret.

(a) MORDIALLOC CITY. - 1 copy of enlarged plan to 6 Inf. Bde herewith.

(b) CITY OF CHELSEA - 1 copy of Plan Blue Print, herewith to be copied and returned to City of Chelsea City Engineer.

(c) Plans of Bridges on Patterson River and Mordialloc Creek are not obtainable in these areas, but can be obtained from Mr. Jones, Country Roads Board, Melbourne.

Capt.

RECCE REPORT

REF MAP CRANBOURNE 1" : 63360

OBJECTS. A General recce of route.
B. Detailed recce of area. 208138, 219100, 172114, 175128, 195139. 208138.

PART I.

1. Area suitable for AFV. movement but little cover for advance or defence

PART II

ROADS Generally good, some unformed would be unpassable in winter, Good cover on roadside at 208125 for covering road

BRIDGES. Suitable to carry all AFV's.

FIRE POSITIONS. 207138 to cover both roads
208125 " " road.
Hull down position 177126 & 195115

OBSERVATION POSTS. One at 195138 which could be used as a fire position also one at 205125

WATER SUPPLY. Pipe line at 195138 would be very valuable to flood surrounding area's, besides other purposes.

HARBOURS. Only one of any use at 209138. this has covered approaches.

AUSTRALIAN WAR MEMORIAL AWM2020.71.113

LEAGUE OF SOLDIERS' FRIENDS · TAKE CARE OF HIM · CHURCH OF ENGLAND

Military Camp at.....

BATTALION
OR UNIT.....

RECCE REPORT CONT.

.....19.....

MAP ACCURACY. Generally accurate with the exception of road at 217100 where new road has been made & another budge erected. House at 192116 removed.

GENERAL. Fire positions & O.Pˢ could be set up at places mentioned, but cover generally is sparse. Heavy rains would seriously hamp movements. Communications would be carried out by W. Tx.
Only obstacle would be drain but this could be crossed easily at 208102.

Sgt J.W. Greaning

RECCE REPORT.

by Sgt. Holland R.S.

REF. MAP. Cranbourne 1" to 1 m.

OBJECTS. 1. General recce of route
2. Detailed recce of area "A." Map Ref. 162082, 167068 169038, 183039, 175087.
3. Detailed recce of area "B." Map Ref. 162082, 149077, 159037, 169038.

PART I.

1. Generally suitable for A.F.V movement.
2. Generally suitable country for A.F.V's.
3. Unsuitable for A.F.V's.

PART II

ROADS. Roads from figs. 175086 to Chelsea — B2.
Pt Nepean Rd from Chelsea to Carrum - B1.
Road Carrum Rly. Stn. to figs 185053 — B3.
The remainder of the roads are either streets, detours or tracks & are all passable. Transport of any kind would not find difficulty in this area whilst well formed roads are utilised

COMMUNICATION. L/T. between Chelsea & Carrum & generally throughout the both towns. L/T along road figs. 155079 to fig. 176087 also roads figs. 161047 to figs 175053.

BRIDGES. Bridge (W) figs 165083 — weak, but drain can be crossed & will not offer any obstacle to A.F.V's.
Bridge (W) figs 167049 - now constructed of concrete
Bridges (Carrum) figs 158051 — reinforced concrete bridge carries all road transport.
Wooden bridge carries double line railway

TANK OBSTACLES. No major tank obstacles other than drain (Patterson River) however this would only be a delaying feature as crossings may be made at figs 157051 also figs 177067. If flooded this drain would be a major obstacle which would cause great delay.
May be possible to flood drain from pipeline at figs 165084 (Engineers task)

AUSTRALIAN WAR MEMORIAL AWM2020.71.113

COPY.

WATER SUPPLY. - Water available from lake line running parallel to road figs 175086 to 152-077 Domestic sources

O. P's. Area very flat - however one may be utilized from figs 171090

RAILWAYS. Only railway - double line rails - Frankston-Melbourne line used for both steam + electric trains

HARBOURS. Cover available in several positions figs 172083.

ACCURACY OF MAP. Fairly accurate. Towns have grown considerably during the last few years
Building at figs 168083 not marked on map
Town Boulevard approx figs 155067 not marked
Bridge figs 166049 marked W now concrete

AIRCRAFT. LAND. Not suitable. Cove suitable N of Area.

GENERAL. Fire position 172083
Main Roads of B2. classification others C.3.
Water supply good
Ground heavily fenced
Intercom. L/T or V/T for very short distance

Training. — Driving Instruction,
Signal Code,
Capabilities & Limitations of barriers
Driver Control,
Observation.

Ref. Maps Cranbourne 1" to 1M.

1. General Recce of route.
2. Detailed " " Area Seven. Map Refs.
172115, 215099, 202057, 184058, 167106.

Part I. Generally suitable for A.F.V. movement.
2. Good country for A.F.Vs
3.

Part II.

Roads. All roads bounding area 7 of a B.2. class.

Communications. Only telephone communication were on Wells Rd from 168104 to 175086.

Bridges.

Bridge at M.R 183066 not marked on map, two bridges at 206084 which are shown on map are demolished, all bridges in good condition.

Tank Obstacles.

Main Drain would delay the advancement of A.F.Vs if bridges were blown.

Water Supply.

18" pipe line crosses Main Drain Rd at MR 183111 with 3" stand pipe not marked on map, Wells Rd domestic supply obtained from this main.

AUSTRALIAN WAR MEMORIAL AWM2020.71.113

Recce Report. Appendix II

Ref Map Cranbourne 1"to/M. By L/Cpl W. Purer

Objects 1 Detailed report & recce of route.

2 Detailed recce of area Map Ref 173–114, 215–099, 201–056, 184–058 166–106. 173–114.

Part I

1 All roads on route suitable for AFV's.

2 Mostly suitable for AFV's.

Part 2

Roads All roads around route B2 class excepting from Ref 201–056 to Ref 205–084 which is CH class. Harwood road Ref 204–074 B2 class for small distance West into area then becomes CH. Road along drain Ref 205 084 to Ref 182–068 C2 class.

Communications Only H/T in area or around it is for small distance along Wells Road Ref 166–106 to 175–086

Bridges Bridge at 203–074. in disrepair but AFV's can pass channel it would not offer any obstacle to AFV's

Bridge at Ref 204–074 not marked on Map.

Tank Obstacles Only real obstacle for AFV's is drain Ref 215–099 to 182.068 only a delaying feature at present because crossings can be made at several points but if it were flooded it would be impossible for AFV's

Water Supply Domestic sources. Pipe line runs South through area from Ref 195–106 also water cock at this point.

O.P.S All of area is very flat.

Railways None.

Harbours Country sparsely timbered but several small areas could be used for cover or harbour.

Aircraft Landings Hardly possible most of country is fairly heavily fenced and ti tree would have to be cleared for landing to be made.

AUSTRALIAN WAR MEMORIAL AWM2020.71.113

Accuracy of Map.

Artifial features around area Ref 205-084 to 215-099 have been changed considerably and do not coincide with map.

Drain now runs South from 205-099 in a fairly straight line to Ref 205-084 where it curves and runs SW to ref 182-068 Drain from 205-084 South to 201-056 is only small in comparison to other drain. Creek which formerly ran into drain 205-084 - 182-068 is now diverted and runs into smaller drain 205-084. 201-056. Bridges shown at 205-084 are wrong only one bridge remains over smaller channel no bridge over large channel at all at this point. Road now runs along west side of channel from Ref 215-099 to 182-068. Another channel joins large channel at Ref 212-091 not shown on map running in from the east.

General

all area could be travelled over by AFV's cover is very scarce and ground very flat providing very ~~little~~ few places for fire positions or O.P's. V/T could be used over short distances no high ground being available. Area is generally heavily fenced but would not provide obstacle for AFV's.

Training

Crew control, Driver Control, Signal code + driving instruction

Weather Fine.

Recce Report

by Sgt J. Stock.

REF. MAP. CRANBOURNE 1" to 1 m.

OBJECTS 1. General Recce of Routes.
2. Detailed Recce of Area 6.

PART I.

1. Generally suitable for A.F.V. Movement.
2. A.F.Vs could move comfortably right through area.

PART II.

Roads: Road 175086 to Chelsea ~~B1~~ B2
" 185054 to Carrum ~~B1~~ B2
" Chelsea to Carrum B.1.
All roads on map shown as Chelsea are B.2.

Communications: L/T from Chelsea to Carrum.

Bridges: Wooden Bridges at 158052, 166048 replaced by Cement Bridges.

Drains: All drains in area are crossable + Main drain at Carrum would only be ~~the~~ tank obstacle if flooded.

Water Supply: Main Domestic + water channels.

O.P.s: Very scarce in the area, one may be found at 172084.

Harbours: Sand pit is only suitable place for harbours, Sea tree is very thick.

AUSTRALIAN WAR MEMORIAL AWM2020.71.113

Accuracy of Maps: Roads & tracks fairly accurate.

Aircraft Eastern portion of area very flat, but fences would hamper any attempts at landings.

General Ground is generally flat with heavy tea tree round sand spit.

Weather — Fine

COPY

RECCE REPORT.

REF. MAP. CRANBOURNE. 1" TO 1MILE

By LIEUT. I. RYAN.
"B" SQUADRON.

OBJECT. 1. Checking previous recce report.
2. General recce of area 5.

PART. I.

1. Previous reports covered all inaccuracies.
2. Area suitable for AFV movement, only obstacles fenced roads

PART. II

ROADS. Road 162039 to SEAFORD 164014 B1. WELLS RD. B2. all other tracks C2.

BRIDGES New Bridge over drain 164038, Two new wooden bridges over drain on WELLS ROAD. 184039.

WATER. SUPPLY. Mainly domestic
New well at homestead 181022 supplies unlimited drinking water.

COMMUNICATIONS. L/T. along CARRUM SEAFORD. ROAD. No other L/T on area.

HARBOURS. Many harbour area's in area 5. the best being 1802. This harbour has excellent approach & is supplied with water from well 181022.

OBSTACLES. No Tank obstacles are in this area. except drains which when flooded would possibly slow down A.F.Vs. but should not delay them for long.

O. P's This area is fairly low lying & offers no O'Ps.

ACCURACY. Roads shown on map all correct two bridges over Wells road shown as culverts.

RAILWAYS. Only railways in this area are between CARRUM & SEAFORD. This line is a double electric.

AIRCRAFT. There is no suitable landing fields in this area as it is fairly well wooded & fenced

GENERAL Many small drains cross this area & could be flooded by the "main drain" or from PATTERSON RIVER. A large number of vehicles could be concealed in the Southern portion of this District & could be made invisable to Aircraft as timber

RECCE REPORT.

L/CPL. MARTIN

~~WEATHER~~.

MAP REF. Cranbourne 1" to 1 mile

OBJECTS. (a) General Recce.

(b) Detailed Recce of area 208138, 209100, 172114, 175128 193124 195139 208138.

PART. I

Area suitable for A.F.V. movements, but little cover for advance.

PART. II

ROADS. Mainly class B2 some C4 which would be impassable in winter

BRIDGES All suitable for A.F.V. traffic.

FIRE POSITION 207138 to cover both roads, 208125 to cover road 208114 combination of 3 positions would cover whole area.

Hull down position 177126 & 195115

O. P.'s One at 195138 which could be used as a fire position, also one at 205125.

WATER. SUPPLY. Pipe line at 192108 would be very valuable to flood surrounding land as well as domestic uses

HARBOURS. Excellant harbour at 208114 with good covered approaches, also could be used as a fire position.

MAP ACCURACY. Generally accurate with exception of road at 217100 where new road has been made & new bridge erected, house at 172 removed. house at. 208133 not mapped, house at. 205137 removed & windmill erected

GENERAL. Area generally good for A & V movement, Heavy rain would seriously hamper movement. owing to flat nature of country. Drain about rank obstacle but could be easily crossed at. 208102 unless flooded.

By. A.W. MARTIN. L/CPL.
NO1 TROOP.
"B" SQUADRON.
4TH ARMOURED REC.

TIME. 0900 hrs to 1600

WEATHER. Cloudy & unsettled.

AUSTRALIAN WAR MEMORIAL AWM2020.71.113

RECCE REPORT (cont) 2.

O.Ps. This area is very lowlying & no suitable OPs could be found.

Water Supply Mainly domestic. Stand pipe & valve from 18" pipe line is on Main Drain rd at North of area

Harbours No suitable harbour areas are to be found as the country is very bare & dry & offers no cover for A.F.Vs.

Aircraft a large flat area between the Main Drain and the branch drain would be suitable for aircraft landing.

Accuracy Many roads shown on map are now fenced and several small drains are now formed off the Main Drain.

General A.F.Vs could find complete cover for approach behind high drain embankement both from Edith vale & Wells rd's & many turret down positions good be found.

Weather. Fine

J Ryan Lieut
B Squadron
18-1-42

AUSTRALIAN WAR MEMORIAL AWM2020.71.113

RECCE REPORT. 1.

By Lieut J. Ryan.

Ref Map — Cranbourne 1" to 1m.

Object
1. Recce of route
2. General recce of area.

Part I
1. Suitable for A.F.V. movement
2. Country good of A.F.Vs

Part II

Roads — EDITHVALE road B1 Main Drain rd B2 all other tracks are C3 all roads are in good condition

Bridges — Bridge at 173115 is strongly constructed (wooden) but is very narrow
Bridges shown on map at point 205083 are no longer in position & must have been removed since map was constructed

Communication — L/T only along WELLS rd.

Tank Obstacle — Drains in this area present the only tank obstacle as they would delay an advance if they were flooded by means of the main pipe line.

Recce Report on Roads bounded by Figs. 201056 north to figs. 215096 west to figs 243093 south to figs. 228052 & east again to figs 201056.

Road ref. figs 220097 to 215096 "B2"
" " " 220097 to 233095

Consider it possible for two streams of traffic to pass along this road at any point therefore class "A1"

Road ref. figs 220097 to 214054 "B1"
" " " 220097 to 238069 is

with the exception of a channel crossing ref. figs 226088 (packhorse only in winter) on "A3" road.

With the exception of this crossing suitable for M.T. in summer & dry conditions.

Road ref. figs 215096 to 201056 is an "A4" class road.

Has bad crossing & one narrow bridge only wide enough for one vehicle at ~~fig~~ respectively figs 203065 and figs. 218084. Apart from the bad crossing

AUSTRALIAN WAR MEMORIAL AWM2020.71.113

From Page 4

No.

A.C.F.

19

Lecce. report Cont.

is suitable for M.T. under dry conditions but should think would become exceptionally sticky under wet conditions Road reg. figs 233095 to 243094 is impassable beyond figs 237094 owing to channel & wired entanglements. Main Dandenong Rd. can be reached by following channel around joining main rd. at point just North of wooden bridge reg. figs 243096 This road now passable for M.T. would under wet conditions necessitate Horse drawn traffic therefore "A 3" road. Hallwood Rd from figs 204074 to figs 217072 a "B2" road; from 217072 to 238068 an "A 2" road.

Thomsons Rd. figs 201056 to figs 228052 is a solid road suitable for heavy M.T. in all weather & I class it as a "B2" rd. Dandenong, Frankston rd. from reg figs 242094 to figs 228052 is an "A 1" rd suitable for 2 streams of heavy M.T. traffic.

Recce Report
Lt R. James.
19 Jan 42.
16 Aust Reft Battalion

Object: To make ground ~~recce~~ Recce of area bounded by Danandong Drain and Refs. 216097; 206137; 206137; 216136.

Part I: Ground flat. Little cover for fire positions Danandong Drain Tanks Grass especially if full of water.

Part II

Ground: Ground over area very flat covered with dry grass.
Timber along line 223103; 227124 gives good covered approach to Danandong Creek from W.

Cover: Cover for fire position very scarce, but Knoll 216113 gives good fire position over front along Danandong Drain; Culverts are surrounded by drains approx 3" Mat and 2'6" Wide would provide good protection for dismounted troops from S.A. fire.

Protection: Danandong Drain gives excellent protection from enemy advance, would hold up both Mechanised & Infantry advance if supported by armed force.

Lt.

Time 1300 - 1630 hrs 19 Jan 42. Weather Bright & Sunny

AUSTRALIAN WAR MEMORIAL AWM2020.71.113

Recce. Report.

by Sgt. M. L. Anderson

Object:- General Ground Recce of Area

M. Refs. 228052 - 236050 - 253048 - 247014 - 229016 - 232033 - 217036

Part 1.

Ground in area 232033 - 249030 - 247014 229016. From McFarlane's Rd suitable for good fire positions and cover for carriers. M. Refs 245031 - 245014. From the above refs to Taylor's Rd not very satisfactory. (very flat)

Ground in area bounded by Rds:- McFarlane's Thompson's Taylor's and Whittakers Rds. Ground slightly undulating odd positions for M.G.s but higher ground against us.

Ground in area bounded by Rds:- McFarlane's Whittakers, Dandenong and Thompson's similar to above area.

Part 2.

Map in the area found to be slightly incorrect so far as houses wind-pump & houses were concerned.

House at M. Ref 236045

Recce Report

Ref. Sheet Cranbourne 1" to mile. by Sgt. M. L. Anderson

Object:- General Ground Recce. of Area

M. Ref. 238068, 256065, 253048, 228052.

Part I.

Ground in this area rather flat and apart from a Mortar Position 252048 fire positions not suitable to us. The map was found to have the following features not marked.

1. Large Drain running from 243049 to 245068 with bridge crossing at 245064 this continues over Hawood road out of my area.

Above Drain could be a tank obstacle if filled with water.

2. Drain running from 255060 to 240068 small but may be good for infanty to use small arms fire from.

3. Windpump were found at the following M. Refs. 245064 Brackish, 235054 Blackish, ~~245043~~ Waterholes at M. Refs 232055 fed by spring. This place also has a well.

Communication

Telephone at M. Refs 241055 otherwise area is without means of communication.

A. Point of Interest:- M Refs 238068 to 216036 a gas main runs along west side of road from Dandenong to Frankston

Weather Fine
Windy

Recce Report

by Dvr J. McInroy.

Ref Map Cranbourne 1:63,360

Object :- To make general recce of area bounded by map refs. 215·097; 206·089; 202·056; 214·054; 220·096.

Part I

Country very flat. Little cover. Very scattered timber. Roads fair.

Part II

Two wind pumps at map ref 216·098. Only one shown on map Close cover around school for small area. Covered approach along north side of road from map ref 220·096 to map ref 215·097. Small water tanks at school & church, sooth & north respectively of road, at map ref 219·096. Shallow ditch along both sides of road. Channel at map ref 215·097. about 25 yards wide and 12 feet deep. When dry, not a tank obstacle. House, not shown on map at map ref 217·083, has two tanks and thick shelter immediately around house. Drain ~~not shown on map~~ running from road at map ref ~~217·084~~ 217·084 to channel at map ref 205·083, has low cover on both sides. Low ridge running roughly parallel to this drain
