MAJOR G.R.B. PATTERSON DCRE 57 AUST DCRE (WKS) AIF.

Para 11.

The substance of G.R.O. G 264/ 44 is republished for information.
BATTERIES, SECONDARY, PORTABLE, LEAD-ACID; CARE, CONSERVATION AND SENTENCING.

Care and conservation.

1. It is apparent that all ranks have not always been impressed with the seriousness of the present shortages of batteries, secondary, portable, for MF and wireless requirements. Every effort will be made to preserve and prolong the working life of this equipment.

2. Replacement parts are in very short supply and new cases are unobtainable, which situation is further aggravated by the return of batteries from units with cell-covers broken and cases smashed.

3. All officers directly concerned with the operation or handling of batteries will take immediate action to reduce the present excessive usage rate of these stores and to impress upon all personnel the necessity for exercising the greatest care in handling and transportation.

4. The use of batteries, secondary, portable, for any unauthorized purpose, such as the lighting of tents, huts and similar uses will be discontinued forthwith, and such batteries will be returned to the nearest RSD immediately. CO's of units will be held personally responsible for the implementation of this instruction.

Sentencing.

5. Instances have occurred where units have returned batteries to RSDs as unserviceable when they merely required charging. The time-lag in the receipt of such stores by workshops causes the battery components to deteriorate to the extent that recharging, or even repair, may not be practicable, thus making complete rebuilding necessary.

12. AREAS OUT OF BOUNDS TO ALL TROOPS.
Unit R.O. SERIAL 2/44 of 8 Jul. '44, para. 6 is repeated.
(a) The oyster bed leases.
(b) The area of the Water Transport, enclosed with wire- situated north of Camp Lines.

13. SWIMMING
Unit R.O. Serial 2/44 of 8 Jul. '44 , para. 7 is repeated.
Swimming in the TOORBUL POINT AREA is prohibited owing to Stone Fish being prevalent. A strike from one of these fish often proves fatal.

14. LEAVE TO CASOOLATURE.
Unit RO Serial 3/44 of 22 Jul. '44, para. 9, is cancelled until further notice.

Bulk purchasing of stamps, in advance will be made at Orderly Room at 1500 hrs daily.

26. MULTI COIN PUBLIC TELEPHONE.

A Multi Coin Public Telephone has been installed on Road at entrance to Camp Staff.

27. DYNAMITING OF FISH.

Information has been received from the Police Authorities on Bribie Island that they intend taking action against persons dynamiting fish.

28. Attention is drawn to 2 Aust. L of C Sub-Area R.O. Q108/44 Fly and Mosquito control.
MOSQUITO CONTROL DENGUE FEVER.

1. It has been observed throughout the Camp Area that there are numerous recepticles of a varied nature capable of holding water for an indefinite period. Such containers include drums, tins, buckets, tanks etc.
2. Collections of fresh water in artificial containers independent of size are capable of allowing the breeding of aedesaegypti, the dengue mosquito, with the approach of warmer weather. There are doubtless carriers of the dengue fever parasite in the area whence the breeding of the aegypti mosquitoes may possibly result in an outbreak of the disease.
3. Some larvae have been noticed in certain containers which may possibly be of the aedes aegypti variety.
4. It is recommended that each unit pay particular attention to avoid the creating of possible breeding places for dengue mosquitoes. In the case of fire buckets, it is suggested that these are emptied, and refilled once a week since oiling is not recommended for fire buckets.
5. As regards water tanks situated at kitchens, showersetc, it is recommended that these be drained out and cleaned at weekly intervals which, besides overcoming the possibility of mosquito breeding. would also eliminate possible fouling of the water due to sediment and organic growths.

29. CLERKS JETTY.

This jetty is private property and boats tied, and anchored on Northern side interferes with the duties of Caretaker.

In future boats must NOT be tied or anchored on Northern side of the Jetty. No objection to boats being anchored or tied on Southern side.

30. OUT OF BOUNDS.

Water Tpt. Unit Canteen is out of bounds to all troops other than WATER TRANSPORT.

AUSTRALIAN WAR MEMORIAL AWM2020.71.1925

31. The substance of C.R.O. 0302/44 is republished for information.

CONSERVATION OF RUBBER-SYNTHETIC TYRES.

1. The critical rubber situation and the necessity for obtaining the maximum service from tyres has been stressed from time to time. The further deterioration of the situation, necessitating the introduction of tyres of synthetic construction, renders it imperitive that greater care than ever be excercised in the use and maintenance of all tyres, whether of synthetic or natural rubber construction.

2. Synthetic tyres are far more susceptible to failure through abuse than tyres constructed from natural rubber. All concerned will therefor-
(a) excercise the utmost care to avoid-
overloading
underflation
hardbraking and fierce acceleration,
high speeds
bumps and other causes of severe impact;
(b) check wheel alignment frequently and correct irregularities promptly;
(c). rotate tyres regularly;
(d) remove stones and flint from tyres during unit maintenance;
(e) submit tyres for replacement at the correct stages for recapping ; and
(f) submit damaged tyres for repair without delay.

3. Formations and units will ensure that prompt disciplinary action is taken where breaches of this order occur.

Amounts received by the bank under the allotment will be credited to a special account in the member's name and interest will be allowed thereon at the rate borne by the bonds selected for purchase by the member.
