2. CENSORSHIP

A considerable number of abuses of the privilege of the green envelope are occurin at the present time and a number of personnel do not appear to be aware of the primary use - that is, to permit correspondence on personal and private matters only, in accordance with a declaration that the writer has to sign.

Any discussion on matters which cannot be classified as personal and private(guards od hints as to Unit's location cannot be classified as such) is considered a breach of censorship regulations.

Cases where the writer has deliberately abused the privilege conferred by the green envelope will be cause for severe disciplinary action.

All ranks will be made thoroughly aware of the conditions governing the use of green envelopes(laid down in Army Field Censorship Instruction No 22 para 5).

Continued abuse of the privilege of the use of the green envelope may result in the issue being temporarily restricted or withheld from Units concerned.

AUSTRALIAN WAR MEMORIAL AWM2020.71.2582

Part 11. Operations

A. There are no major works in progress. Minor works include settling in new camp area; construction of huts, latrines, tracks etc.

B. No major works completed.

C. Reconnaissance Recce parties consisting each of, one Officer One N C O and M T driver were sent out to assess the state of preparedness of demolition in Zones "P & N" . Reports consolidated in one summary submitted to H Q R A E Force on 8 JUN 43 . Result was that the majority of bridges were ready but the proposed highway demolition programme was only 50% complete. Liason is being made with Capt Previtt now in area as to the demolition plan and the role of the V D C. A fuller report on these matters will be forwarded.

D. Training carried out during the last fortnight covered the following ground:- Demolitions, Class 9 Trestle Bridge, Lawyer Vine Suspension Bridge of 70 ft span, Gas training, Jungle training, and water supply.

General Report. Results with Lawyer Vine as a load carrying medium were successful. Greater flexibility at the points to be knotted can be obtained by judicious use of a blow lamp.

Intention. Training for the next fortnight will follow the lines of the attached syllabus.

AUSTRALIAN WAR MEMORIAL AWM2020.71.2582

Part II. Operations

A. 1. There are no major works in progress. Minor works included drilling of spurs for Provost Detention Barracks, using air compressor wood borer.

No. of days employed - 7 . Estimate completion by 7th June 1943.

2. Camp works in own unit lines included erection of a bush hut 20' x 40' for a recreation hut. 60 % complete.

B. No major works completed.

C. Cape York Road Recce. Major Davey, O.C. 12th Aust. Field Coy., R.A.E., Major Hawley (F.A.A.) and 3 personnel left Cairns on Sunday May 9th 1943 to reconnoitre an all-weather route to Jacky-Jacky.

Last report from Fairview on 26th May 1943. They are now working to the West of the Overland Telegraph line, near Musgrave. Progress reports are forwarded by the party direct to C.E.'s Branch First Aust. Army.

D. Training carried out during last fortnight covered the following subjects:-

1st Week all Platoons Class 9 trestle Bridge(local timber), Suspension bridge S W R 60' span, culverts, and a route march combined with night exercise.

2nd Week Class 9 trestle bridge(bush timber), demolitions, field firing and grenade practice, knots and lashings.

General Report. Subjects were covered adequately and the prepared syllabus adhered to by all platoons. The bridge construction was not hurried as time was given to experiment, discuss and criticize the design and methods used.

Intentions. Training for the following fortnight will follow the outline as in attached projected syllabus.

WAR DIARY

12 Aust Fd Coy R.A.E.(AIF)
AUSTRALIA.

PLACE	DATE	REMARKS
KURANDA	July 1	Received notification from Bde that move to wharf would be at 0330 tomorrow morning. Issued atebrin tablets and ammunition per man. Also supplied each man with his embarkation number.
AT SEA	2	Reveille 0230. Black as pitch. Hot drink with piece of bread and butter at 0300 hrs. Capt Zilles arrived 0320 hrs. Paraded troops and embussed. Arrived Cairns wharf 0445 hrs and embarked 0500 hrs. on "Canberra". Most of Fd Coy slept on promenade deck in hammocks. Number embarked 4 offrs 1 W.O. 8 Sgts 182 ORs.
AT SEA	3	Boat drill 1100 hrs and 1400 hrs. Otherwise uneventful. Mounted sentries on 50 calibre A.A. guns at bow and stern. Three other ships in convoy - "Taroona" and two merchantmen.
NEW GUINEA	4	Arrived Port Moresby dock 1200 hrs and disembarked. Day dull, but cool. Found fostering officer from C.E's branch awaiting us. Conducted to camp site at Pom - Pom Park where tents were already erected and a meal prepared by 24 Aust Fd Coy R.A.E.. Came under command 12 Aust CRE(Works)One compressor dropped into harbour by docks operating Coy.
	5	Rushed No 2 platoon to 2/5 A.G.H. to help complete wards of 3600 bed hospital. Other platoons to follow. No 1 Platoon moved into hospital in afternoon. Using 6 trucks only. Have to ferry men & gear.
	6	No 3 Platoon moved into hospital with majority of HQ. Sorting out gear and construction mf mass-production beds to raise men off concrete floor.
	7	Work on wards commenced in earnest, masonite along 4' walls; concreting floors; laying out ward and latrine sites. Unit bedded down in part built wards, cool and comfortable. Excellent canteen in hospital.
	8	Works on wards continues.

AUSTRALIAN WAR MEMORIAL AWM2020.71.2582

1-31st July 43

WAR DIARY

PLACE	DATE	REMARKS
NEW GUINEA	9	Work on wards continues. Construction of stronger and smaller crates and segregation of stores into air and sea transport.
	10	C.R.E., 11 Aust Div, Lt-Col WOOD and CRE Corps Troops Lt-Col St.Smith arrived in morning to look over unit. A/OC visiting CE's branch for data on plane loads and previous engineer coy's experience.
	11	Received word to move on 12th Rushed through emplaning tables, bills of lading for gear going by sea. Taking only minimum of gear by plane. Alloted 19 planes but Bde requested number to be cut down. Reduced to 15.
	12	0330 reveille. Loaded 15 AASC trucks. Pulled out for Bde HQ 0545 (Pom Pom Park) Arrived 0600 hrs. left for drome 0915 hrs. Remained in convoy with 6 Fd Amb. until 1200 hrs and then flying for day ceased. Returned Pom-Park and bivouaced.
	13	Reveille 0330 hrs. Left Moresby by air approx 0900 hrs. 15 plane loads. Arrived Dobodura 35 minutes later. Conveyed by vehicle to camp site at Knoxville on Cape Killerton Road. "C" Coy 116 U.S.Engrs had meal ready. Good food.
	14	Went with C.R.E. to new camp site just off new road near Sememi West. Entrance to camp partly corduroy and only 10' wide. Not too good for three tonners. Also contacted Col Lanterback, officer commanding 116 Bn Engr.(US)attacjed 41 U.S. Division. Story was that we should inherit all U.S.equipment but so far this has not been implemented.
	15	Despatched No 1 Pl at 1400 hrs to new camp. Transport very scarce as far as Australians concerned. Entrance to new camp beginning to break up. Several vehicles bogged.
	16	No 2 Pl moved to new camp 0815 hrs No 3 departed at 1400 hrs. Parties working on entrance road, to keep it open, Major Davey marched in 1900 hrs after flying from Moresby in a bomber. ½ Pl moved half platoon to sawmill at Embi near Oro Bay.

AUSTRALIAN WAR MEMORIAL AWM2020.71.2582

WAR DIARY

PLACE	DATE	REMARKS
NEW GUINEA	17	Rained solidly ~~all day~~ from midnight to 1300 hrs. without stopping. Only transport unit has so far is two jeeps both in bad condition, and two ½ ton trucks in similar condition.
	18	No 1 Platoon working on Buna Jeep track on maintenance. Remainder settling in USA pattern tents supplied very leaky. Beds build by all, 3' off ground with rack underneath for gear.
	19	C R E left for ~~Massau~~ Nassau Bay on recce with OC of 11 Fd Coy. Transport in unit is still as before. Detached several men to work on mechanical equipment alongside Americans.
	20	A party ~~of~~ under L/Cpl Waddle take over portable water purification plant from "C" Coy 116 Engrs. Coy strength 5 offrs 176 ORs. Detached 2 offrs 26 ORs.
	21	2 i/c went over Buna Corduroy track with Col Lanterback. Unit assigned up keep of track, repair of existing bridge which is in bad shape under continuous heavy traffic, and the construction of two new bridges on new road, working in conjunction with platoon of "C" Coy 116 U.S. Engrs. Advance party of 55 Fd Park arrives.
	22	2 sections of No 2 Platoon started work on bridge , No 2. Remainder of coy on maintenance work. HQ remains at Knoxville.
	23	Bridge and road works continue Camp improvements pushed on.
	24	Works continue - Coy strength in camp 6 offrs 184 ORs. - at mill, detached and hospital.

AUSTRALIAN WAR MEMORIAL AWM2020.71.2582

PLACE	DATE	REMARKS
NEW GUINEA	25	Sunday. Stand down for road and bridge gangs. Camp works all day by remainder. Erecting tank tower kitchen, sinking well lined with petrol drums, latrines. HQ shifted to Coconut Grove near Keporita on vacated American Engineer's camp site. Raining.
	26	C.S.M. taken ill. Sent to hospital for examination Oro Bay. Bridge beams 50' x 10' cut from bush for old bridge reparis. Sappers learning to handle natives on jobs. ~~Raining~~ Raining
	27	O.C. taken ill. temperature 103 - ambulance to hospital - day fine.
	28	Food supply very poor. DID in a mud hole. 1 Pl engaged on widening turnouts and staking side walls on Buna Jeep Track. Transport situation very serious.
	29	Lack of tinned fruit and milk. No canteen stores.
	30	Strength in Camp 4 offrs 185 ORs " in hospital 1 3 " detached 1 15
	31	U.S Engineer Platoon hand over entirely. Pile driver left in awkward position with blown gasket on Motor.

2. LEAKAGE OF MILITARY INFORMATION IN PROCEEDINGS BEFORE CIVIL COURTS.

When giving evidence in a civil court, a soldier will merely give his number, rank and name and state that he is a member of the AMF, without mentioning thename of his unit.

In no circumstances will a soldier divulge in open court the location of his unit, unless the bench rules that a full answer is essential to the case, in which event he will offer to write the information on a slip of paper to be handed to the bench.

The danger to security in disclosing the location of units cannot be too strongly impressed on all ranks.

3. AIRGRAPH SERVICE.

This service is an arrangement under which letters written by senders in Australia upon special forms are photographed in miniature in this country and the negatives thus obtained forwarded by air to the overseas country of address, where enlarged prints are taken, enveloped and delivered by post to the addressees.

The service now functioning from Australia is available only for communications

(A) To civilians in -

Aden
Anglo-Egyption Sudan
Bahrein
British Somaliland
Canada
Ceylon
Cyprus
Egypt
Eire
India
Iraq
Kenya
Uganda
Mauritius
Northern Rhodesia
Nyasaland
Palestine
Seychelles
South Africa
Southern Rhodesia
Tanganyika
Transjordan
United Kingdom
Zanzibar.

(B) To members of the forces of the Empire serving in -
The countries included in the list above, and

Syria
Persian Iraq Force
Ethiopia(Abyssinia)
Iran(Persia)
Madagascar
Somalia(Italian Somaliland)
Occupied Territory of Eritrea;

and the charges payable are as folowst-

(i) For airgraph letters to members of the forces of the British Empire 5d.
(ii) For airgraph letters to civilians 10d.

AUSTRALIAN WAR MEMORIAL AWM2020.71.2582

Forms upon which airgraph letters may be written by senders are available ~~xxx~~ from Army postal orderlies serving within units, from whom further details of the s service can be secured by personnel.

Normal unit censorship arrangements will apply to airgraph letters lodged by personnel. The franking officer's signature will appear in the lower left-hand corner of the form (above the direction "This space should not be used)" Censorable matter will be obliterated and not excised. The unit censor stamp will be affixed in the space between the address panel and the single printed line directly thereunder; it will be placed as far to the left as practicable.

Detailed instructions covering preparation of the letters by senders are set out on the backs of the forms, which will, however, in every case folowing censorship be passed through unit channels by postal orderlies for onward transmission.

If one form be insufficient for the whole of a letter, two or more separate forms may be used, but in such case each form will be treated as a separate letter and a separate fee must be paid for each. Writing must be plain and preferably in black ink, to secure satisfactory photographic reproduction. Use of pencil is not recommended but, if used, it will be a soft black lead pencil; indelible pencil will not be used.

Names and addresses of addressees of airgraph letters will be written by hand in prominent block lettering (as large as practicable) and will be kept wholly within the panel provided on the form. The full address of the sender and the date of writing will be written at the top of the "Letter" portion of the form and at the foot of the letter the sender's full name will be written in block lettering followed by his signature.

The airgraph letter as delivered to the addressee overseas will be less than one quarter the size of the original lodged by the sender. The need for block lettering as above described and clear writing generally will therefore be readily understood.

DISCIPLINE

Herewith copy of C.E. Technical Instruction No 57 which is to be read and necessary action implemented forthwith.

It has been observed that there is a marked deterioration in the general turnout, bearing and discipline of the members of the 12 Aust Fd Coy over recent weeks.

There is absolutely no excuse for this and indicated a laxity in the control by officers and N.C.Os. Main points noted were slackness of troops in commencing tasks and go slow methods whilst engaged on those tasks. Unkempt appearance and unsoldierly bearing, i.e. slouching about. Failure to pay compliments to officers ~~xfxxxxxxxxxxx~~(This has even been observed occuring amongst subarlterns failing to pay compliments to officers of senior rank). Main point on the subject is when an officer walks into the mens' quarters, the men simply take no notice of his entrance and continue doing whatever they may be engaged on at the moment, that is, reading or playing cards or simply lying down. This must be stopped and men educated to do the correct thing.

Shaving may be a difficult thing at times, owing to the shortage of blades, but as faras possible men must be clean shaven irrespective of whatever the tasks they mey be engaged on.

It has been said by senior officers that they can differentiate between AIF & CMF units, simply by walking into their camps and noting the amount of work being carried out and the turnout of the troops.
As this Coy is not AIF, it is strongly desired that they also be AIF standard.

Strong action will be taken against any future offenders irrespective of rank.

W. Berry Major.
O.C.12 Aust Fd Coy R.A.E.(AIF)

AUSTRALIAN MILITARY FORCES

12 Aust C.R.E. (Works)

8 July 43.

C.E.Technical Instruction No 57

1. A noticeable slackening of work, lack of discipline and absence of of Regimental bearing has been noticed in RAE units in recent weeks.

2. Main faults observed are:-

(a) A tendency to carry out work at the slowest possible rate with prolonged rest periods which sometimes exceed the work period.

(b) Unshaven and unkept appearance of troops.

(c) Failure to pay compliments to officers.

3. It should be borne in mind that Sapper units are expected to set an example as regards working parties and discipline. The reputation for efficiency built up by the sappers in the Middle East was earned by hard work and rigid discipline. The loss of this reputation by slackness in NEW GUINEA will not be tolerated.

4. It is directed that the attention of all ranks be drawn xx to these matters on parade. Disciplinary action will be taken in future cases and the officer, NCO or Sapper i/c of the working party will be held responsible.

Signed A.G. Torr Brigadier.

17 SEP 1943

WAR DIARY AUGUST

12 Aust Fd Coy R.A.E.(AIF)
AUSTRALIA.

PLACE	DATE	REMARKS
BUNA	1 AUG 43	Obtained another motor from Yanks (Chevrolet) for pile driver. Fitted in 2 hrs.
"	2	C.R.E.'s conference 0900 hrs. Decided 12 Fd Coy to concentrate on bridges and maintenance of SOPUTA-KILLERTON RD, and DOBODURA- SEMIMI RD. No U.S. army vehicles or equipment is to be left. Obtained loan of 3 ton G.S. from 11 Fd Coy. Lieut PATTERSON marched in from A.W.C. School, Rydalmere. Strength in camp 5 offrs 187 ORs. Hospital & detached 2 offrs 17 ORs.
"	3	Insufficient equipment to do jobs in hand. Necessity for a tractor or bulldozer in Field Engineer Equipment emphasised by experience on bridge work.
"	4	Works continue. Administration matters now referred to H.Q.R.A.E. 1 Aust Corps Troops instead of 6 Aust Inf Bde.
"	5	Announced by C.R.E. that Americans were handing over equipment, including power shovel and grader.
"	6	Works continue, arrangements to pick up shovel and grader on Sunday.
"	7	Brig TORR C.E. New Guinea visited works. Held conference C.R.E's office 2000 hrs all engineer officers Collected 6 1½ ton dump trucks 4x4 from motor pool.
"	8	Commenced carting piles from Soputa bridge stock pile. 1800 hrs learnt that yanks were collecting our piles. Worked transporter in teeming rain allnight to transfer piles and stringers to own bridge site - BUNA RD. Shovel collected and taken to Cape Endiadaire.
"	9	Coy strength in camp 6 offrs - 199 ORs. detached 3 hospital 1 1 7 203 Attached 3 7 206

PLACE	DATE	REMARKS.
BUNA	10	C.R.E. inspected Coy on ceremonial parade and addressed troops. Large percentage of men on road jobs afflicted by small mites or "Chicas".
"	11	C.S.M. Argee evacuated MORESBY for observation re stomach ulcers. O.C. marched in from 10 Fd Amb MDS.
"	12	O.C. gave lecture to N.C.Os on tightening up of discipline. Administration now to pass through 6 Aust Inf Bde.
"	13	Loaned 1 N.C.O. to C.R.E. for typing. Also signwriter to 55 Fd Pk. Lieut Marsh delousing booby traps around arty emplacements. 25 pounder shell cases filled with rusty nails and 4 lbs of melanite. Also 36m. hand grenades on trees. Cleared area.
"	14	3 Platoon began driving piles at BUNA DOCKS. C.R.E.& O.C. on complete tour of inspection of works. Plumber lent to 55 Fd Pk for work on NGF HQ(new buildings). Sgt OLDHAM lent to ordnance to recce old dumps for booby traps.
"	15	Piledriver on ~~xxxxxxxxx~~ bridge overturned in creek. Spr McKenzie T.G. run over by semi-trailer. Internal injuries - evacuated to hospital.
"	16	Withdrew all men from saw mill, bar one. Arranged to leave Spr CHRISTENSEN as saw doctor. 1930 hrs report that old bridge BUNA RD broken through. Found all stringers in No 2 span broken. Repaired by 2300 hrs for class 9 loads. Night shift commenced for bridge.
"	17	Power shovel broke down. Good progress with No 1 Bridge BUNA - using "Quick Way" shovel with driver attachment. Obtained beach search lights for jobs at bridge and dock. Both working night shift.
"	18	Drove 3 piles and capped them by 0600 hrs. this morning at No 1 Bridge BUNA RD. Report by UXB parachute mine at Cape Endaidaire. Sent Sgt Clark to delouse or destroy. Completed 9 piles and one top wale by 1800 hrs. 1 offr 14 ORs 2/1 Topo Svy Coy attached.

AUSTRALIAN WAR MEMORIAL AWM2020.71.2582

PLACE	DATE	REMARKS.
BUNA	19	Daywork on dock slow due to faulty supervision. By 1800 hrs driven 1 pile and placed 2 stringers. Arrangements being made for one lighting set 4 KVA for bridge to be installed by MEC and one 25 KVA to be released from Base Sub Area for dock.
"	20	Completed No 1 Bridge BUNA with exception of kerbs. Weather fine.
"	21	Weather fine. Word from C.R.E. at 2000 hrs of conference. Conference decided throw all engineer resources on to job at hospital and complete by 25 Aug 43 in view of expected battle casualties, disregarding all jobs in hand.
"	22	Work began on new hospital. Whole Coy with exception of cooks engaged. Four weeks work to be completed in 4 days. All other work including maintenance dropped. 2130 hrs completed work for day. Bridge on Killerton Rd inspected on report from 6 Bde. In poor condition but trafficable for Cl. 7 loads. Insufficient men for repairs.
"	23	Work progresses on hospital Weather fine. Working strength of unit 6 offrs 154 ORs Attached W.E. 2 Detached 34 Adm 1 offrs 8 ORs. 7 198 11 Div R.O. enforcing wearing of shirts even by working parties.
"	24	Work continued at hospital. Impossible to complete in period stated. Concreting gang working 16 hrs a day. Natives useless at barrow-men because unable to keep wheel on planks. Hard pushed to supply logs to hospital, mill, bridge and pier, because of unsuitable transport.
"	25	General CLOWES G.O.C. 11 Aust Div visited hospital job and toured area. 2 Platoon worked through from 1400 hrs to 2130 hrs on concreting.

AUSTRALIAN WAR MEMORIAL AWM2020.71.2582

PLACE	DATE	REMARKS.
BUNA	26	2 platoon resume preparations for No 1 Bridge. 1 Platoon revert to road construction and maintenance. 3 platoon go on withpier.
"	27	Work as usual.
"	28	Work as usual. Coy strength 7 offrs 164 ORs. Detached 26 Attached W.E. 8 Attached 17.
"	29	Orders received from C.E. that all jobs to finish in a fortnight. C.E. visited jobs.
"	30	55% tippers grounded for various reasons - springs, axles, tail shafts. Pile driver clutch broke down. Orders from C.R.E. to send all U/S vehicles to wkshops where granted priority I. Extra 20% wet rations allowed by G.O.C. to 12 Fd Coy in memo Q299 of 20 Aug 43.
"	31	Break down in shovel - 3 hrs delay. Breakdownin clutch of pile driver to be remedied by tomorrow.

2. BLISTERING.

A number of cases of blistering of the skin has occured in New Guinea within the last few weeks.

Experimental work has shown that the condition is due to the action of direct sunlight on skin which has been sensitised by peeling parsnips.

All ranks are warned that sunlight in the presence of water and solid parsnip will cause severe blistering.

2. VOTING

Held at HQ, No 1 & No 3 Pls. on 21 Aug(Saturday) Attention is drawn to candidates on H Q Notice Board.

3. The following are the maximum speeds for M T Vehicles using roads in 11 Aust Div Area and will NOT be exceeded.

(i) Light Vehicles - 30 mph.
(i.e.) truck ¼ ton 4x4 Cars DS)

(ii) All vehicles other than those specified in (i) above - 20 Mph.

Commanding officers will ensure that this order is brought to the notice of all concerned. The substance of this order will be repeated in all unit routine orders.

The unnecessary use of chain no-skid causes rapid deterioration of road surface and damage to tyres. All MT personnel are to be instructed that chains are only to be fitted where definitely necessary and are to be removed as soon as the necessity has passed. Vehicles with chains fitted will NOT be driven on any formed road having a gravel or sand surface.

4. PROMOTIONS

T43223	Cpl SPENCER R.W.	promoted to A/Sgt.

2. COMMUNICATIONS IN WAR.

1. Communications in war is so vital that it is the first duty of enemy paratroops and sabotage agents to cut lines used for the purpose.
2. The majority of communication required is provided by telephone or telegraph wires. The construction of lines involves a major problem in supply and transport of materials as well as in work required to construct the lines and keep them working.
3. If you cut a line, or by your thoughtlessness, allow it to be damaged, you are as guilty as those who deliberately sabotage communications to help the enemy.
4. Some lines look unimportant because there is not sufficient labour available to construct them in accordance with their importance. All lines of communication are important, otherwise they would not be laid.
5. Compare some of the following possibilities with the importance of having a length of field cable for a clothes line or some similar purpose at the expense of a working line:-

(a) Isolation of a defensive area.
(b) Silencing a call for aid
(c) Holding back a vital warning.
(d) Interrupting important preparations.

These are only a few of the possible consequences of a cut line, damaged insulator or a broken pole.
6. Testing a line to find out if it is in use is a trained specialists' job, leave it to him.
7. Any type of interference to lines is a serious offence and severe disciplinary action will be taken against all offenders.
8. A little thought and obedience of simple rules will enable you to avoid the serious consequence which may follow interference with lines.

The rules are:-

(a) Don't cut or tamper with lines, poles or insulators.

(b) Before you fell trees, lights fires, dig drains, etc make sure that there are no lines on the ground or in the air which will be damaged by what you are doing.
If lines are likely to hamper your work, notify that nearest signal office; wherever possible signal personnel will shift their lines to let you do your

hat you can to prevent damage (whether intentional, careless or accidental)

promptly to your headquarters any damage to lines which you see or

AUSTRALIAN MILITARY FORCES—6TH MILITARY DISTRICT.

Please quote this Number when replying.

H.Q.s (cont)

2. UNAUTHORISED SUPPLY OF MUNITIONS ETC TO NATIVES

The supply without authority of any arms ammunition or explosives to natives is prohibited. Severe disciplinary action will be taken in all cases of breach of this order.

4. CARE OF MORTAR BOMBS & FUSES.

Mortar bomb fuses, under certain conditions, may become armed throughout rough handling and consequently it is imperative that the greatest care be taken with mortar ammunition. Boxes of bombs should always be carried from place to place. They must never be thrown.

All fuses that are dropped from aircraft are labelled accordingly and when subsequently examined by technical Ordnance personnel who certify "Safe to Fire."

If a mortar fuse is fired and does not detonate, it will in any case become armed and therefore exceedingly dangerous. No attempt will be made to interfere with or move a blind bomb. It must on no account be fired by a mortar a second time.

5. PUBLIC STATEMENTS BY MEMBERS OF THE FORCES.

Members are forbidden to communicate with the press or to give interviews for broadcasting or other media of publicity on military matters, whether by correspondence personal interviews with press representatives or by any other means except in accordance with para 3 hereof.

3. Members who have been on active service may give interviews on first hand experiences in battle to uniformed accredited war correspondents, provided that every proposed statement of the nature referred to in this paragraph will be submitted before publication for the approval of an officer of the Directorate of Public Relations. The publication of names of members above the rank of lieutenant is prohibited unless specifically authorised.

4. No restriction is placed on members in regard to articles, ~~stories~~ stories or poems for publication in the press, in periodicals or other publications, provided that these do not deal with military matters and that no indication of the military rank or unit of the contributor is given.

2. DRESS - MALARIA CONTROL.

In view of the fact that medical research has disclosed a malaria carrying mosquito which is active in daylight, it is directed that the following instructions be taken into use immediately and Commanding Officers will be held personally responsible to see that they are implicitly obeyed:-

(a) All Ranks will wear SHIRTS, shirts, SHORTS AND ANKLETS OR SOCKS, GAITERS or SHORT PUTTEES at all times;

(b) Shirt sleeves may be rolled up between the hours of 0630 and 1800 but SHIRTS will ALWAYS be worn and sleeves must be buttoned at all other times.

It is emphasised that the permission previously granted to members engaged in manual work to remove their shirts is CANCELLED.

It is the plain duty of every officer, Warrant Officer and Non-Commissioned officer to ensure that these instructions are carried out at all times, whether the troops concerned are directly under his command or not. Any failure in this regard will be treated as an offence.

Provost patrols to police these instructions will be instituted throughout the area, by this H.Q. Should any breaches be reported the most severe disciplinary action will be taken NOT only against the members concerned but also against the Officer etc., responsible for the conduct of such members.

ALL OFFICERS

DISCIPLINE

Despite the recent instruction issued to NCO's and their subsequent understanding to carry out their duties conscientiously, the standard of discipline in the Coy needs a lot more improvement.

Whereas the NCO's have shown a marked improvement, the ORs have a long way to go before they reach the desired standard. Often men are sitting down on a job and when an officer approaches, he is usually casually scrutinised by the men, from their recumbent positions, as if he were some strange species.

This practice MUST be stamped out, and men taught to pay the correct compliments.

After receipt of this instruction, any future offender will be disciplined as well as the nearest N.C.O..

Major.

*Court of inquiry, board, or committee.

PROCEEDINGS of a* COURT OF INQUIRY

assembled at BATTLE STATION

on the 25th June 43.

†Name and appointment of assembling authority.

by order of† Capt. P.G.CRAWFORD - Administering Command - 12 Aust Field Coy R.A.E.(AIF)

for the purpose of Enquiring and Reporting respecting:-

(a) The fact of the absence of TX9027 Spr PEARSON J.

(b) Deficiencies, if any, incurred by Him.

PRESIDENT:

Lieut L.M.WILLIAMS - 12 Aust Fd Coy R.A.E.(AIF)

MEMBERS:

Lieut C.W.CRAWFORD

The* Court having assembled pursuant to order, proceeds to examine witnesses under oath with a view to establishing facts relating to the absence of Sapper PEARSON J. and arriving at deficiencies, if any, in the arms, equipment, ammunition, instruments, regimental necessaries or clothing of the soldier or any public property issued to him for his use or entrusted to his care for military purposes.

11 - 5 JUL 1943

NOTES.—(1) The proceedings will be signed at the end by the President and members, the date of the signing of the proceedings being entered above the signatures.

(2) Attention is directed to the following provisions relating to the report of a Court of Inquiry or Board:—

(a) Loss of or damage to Government property.—A.M.R. & O. 694; M.F.R. & I. 618, 619.
(b) Loss or damage entailing claims against public.—A.M.R. & O. 697.
(c) Injury to Personnel.—A.M.R. & O. 699; M.F.R. & I. 287.

WAR DIARY SEPTEMBER

12 Aust Field Coy R.A.E.(AIF)
AUSTRALIA.

PLACE	DATE	REMARKS
BUNA	1 Sep	1/2 hr drill & S A T per day, allpersonnel, outside working hours. 12 members of 36 Bn marched in to help with logging. Average of 25 logs per day delivered to bridge & pier. Pile driver on job again & piles began to be driven.
BUNA	2 Sep	Casualties in dump trucks still high - mainly rear axles. Weather very dry for last week. Water table subsided 30" and most wells nearly dry.
BUNA	3 Sep	Conference with C R E resulted in M E C & this unit working together on Buna Rd extension for 24 hours (3 shifts 8 hrs) Arranged 3 trucks Fd Coy 6 trucks M E C per day. At night 6 trucks Fd Coy 3 trucks M E C..Usind Fd Coy shovel.
BUNA	4 Sep	Sgt Hutchinson & rear party from Moresby arrived with stores in "Josiah Earle". Buna Rd extension entering boggy spot. Three more broken axles during night shift. Weather fine. 3 members 2/14 Fd Coy marched out.Night shift Buna Dock bent axle of winch & tore winch from bed endeavouring to draw poles.
BUNA	5 Sep	Work as usual. Weather fine. Air raid "Red" midday. All clear 20 mins after. Air "Red" 2010 hrs. All clear 2100 hrs. Obtained Diamond T for logging.
BUNA	6 Sep	O.C. delivering lecture to 6 Aust Inf Bde & 11 Div officers on explosives generally. Lieut Marsh & S/Sgt Clarke lecture & demonstrate booby traps tomorrow & next day to same group. Coy strength posted 7 offrs 197 OR's. Detached 38 Attached . 14 Dump trucks in workshops out of 21.
BUNA	7 Sep	1930 hrs Air raid "Red". 1935 hrs Bombs dropped towards Buna apparently (2). 1940 hrs Stick of bombs dropped between Buna Y Map ref 275244 and H.Q. camp this unit map ref 273203 probably 4 by the explosions seen from camp. apparently bridge flood-lights were left on as no warning reached the job. Plane took this patch of light as target. Damage confined to Signal lines, pipe line (fuel) and edge of Buna Rd. Work continued after plane disappeared & before " All Clear".
BUNA	8 Sep	Order from Major Chesterman SO R A E on Corps H.Q. ordered withdrawal of blacksmith's forge. 12 adzes 12 blocks 3" cordage from unit. C R E notified of consequent drop off in speed of work . Two new light forges obtained from Ordnance on loan. Report on air raid submitted to C R E together with splinters found in one crater by recce party from unit. Other craters were not located on account of dense jungle. Probably 30/50 kilos. Air raid "Red" at 1945 hrs All Clear 2010 hrs.

AUSTRALIAN WAR MEMORIAL AWM2020.71.2582

WAR DIARY SEPTEMBER

PLACE	DATE	REMARKS
BUNA	9 Sep.	Stores began to be off loaded from " JOSIAH EARLE" some crates were damaged and some stuff were missing including two s signal pistols. Slight rain alleviated water position
BUNA	10 SEP.	Work as usual. Coy strength in camp 7 OFFRS 166 OR'S Detached 16 Hospital 5 Attached 38
BUNA 44444	11 SEP.	Loss of a pistol .455 short barrel Webly no 118605 and Owen S.M.G. no 20717 . Wells now O.K. for water
BUNA	12 SEP.	Bridge over GIROPA CREEK BUNA commenced this morning Bridge 165 FT. span width 14 ft. class 24. 3 shifts employed. F.B.E. used there taken up and sent north to LAE area.
BUNA	13 SEP.	Investigation into loss of weapons commenced on reporting of loss. Kit inspection held immediately with no result.
BUNA	14 Sep	D A P M's investigation of loss of weapons commenced. Contacting Americans as they pay up to £30 for a pistol.
BUNA	15 Sep	Work as usual. Air raid "Red" 2100hrs approx. Moonlight but cloudy. Work continued on night shift on Giropa Bridge.
BUNA	16 Sep	Bridge over Giropa Creek completed in 3½ days driving. No result in search for weapons lost.
BUNA	17 Sep	Summary of data collected on all jobs submitted to C R E. Included working constants, native labour factors, timber peculiarities etc. (Appendix). Dull weather. Rained last night.
BUNA	18 Sep	E in C (GENERAL STEELE) C.E. N G Force, C.E. 1 Aust Corps and C.R.E. 11 Div inspected Company on ceremonial parade 0930hrs. E IN C praised work done by Coy in the area & C.R.E. read out message from General Clowes relinquishing command 11 Div thanking sappers for good work (Attached Appendix). Checking stores found considerable lossof controlled stores apparently pilfered en route from Moresby. Notified A D O S. Weather fine & clear. No rain at night.
BUNA	19 Sep	Work organized by 1 platoon to commence 90' pile bridge class 24 at Wariosota. Switched 2 platoon to road jobs. Weather fine & Clear.

AUSTRALIAN WAR MEMORIAL AWM2020.71.2582

PLACE	DATE	REMARKS
BUNA	20 Sep	Major Shanahan 14/32 Bn appointed investigation officer for loss of controlled stores. Statements from all concerned. Commenced driving abutment piles on Wariosota bridge. 1400hrs bulldozer loaned to M E C withdrawn by C R E 's orders. Dozer necessary to heap up tà shovel as shallow sand bed only.
BUNA	21 Sep	Quick-Way broke down 1430hrs with leaking master cylinder. Heavy rain last night rendered road into Wariosota a morass. Tippers bogged so concentrated on main Dobodura Rd maintenance.
BUNA	22 Sep	0400hrs - 8 bombs dropped Buna. First fell before alarm. Casualties ~~xxxxxxx~~ and damage to end of dock (one days repair). Two men of unit slightly injured by shrapnell, another suffering from blast shock. One crater 16' diameter, 5' deep with edge 2' from tent occupied by 5 personnel - one case of blast shock only. Kitchen riddled shrapnell from another bomb & rations spoilt. Portable crane damaged in tyres, petrol tank & radiator. 100 square feet decking torn up. All clear about 0430hrs. Road into Wariosota stilla morass. One steel tape missing was found.

2. POWERS OF SENTRIES AND GUARDS

1. Regulation 8A of the National Security(General) Regulations(Statutory Rules 1942, No 374) provides that, without derogating from or restricting the existing powers or rights of sentries and guards, a military sentry or guard stationed or posted at, on, in, or in the neighbourhood or vicinity of, any prohibited placed, protected area, controlled area, or any premises used by the Commonwealth, or used for defence purposes of for essential services, or any vehicle, vessel or aircraft used by the Commonwealth, or any enclosed wharf or picking-up place, or any merchant vessel lying in port, or any road, pathway or waterway, specified in an order by the Minister, which passes through or near a prohibited place or work of defence may be armed, and may -

i. use his weapon against, or otherwise attack, any person who, in disregard of a warning given by a sentry or guard, approaches, enters, leaves, or passes over or in the vicinity or neighbourhood of, or attempts to approach, enter leave or pass over or in the vicinity or neighbourhood of, that place, area, premises, vehicle, vessel, aircraft, wharf, picking up place,road, pathway, or waterway, or who, after being arrested for doing so, escapes; and

ii. use his weapons against, or otherwise attack, any person attacking him or who is reasonably suspected of being about to attack him.

2. There are, however, certain principles which must guide all sentries and guards in the execution of their duty as such, and in the exercise of the right to resort to arms.

3. These principles are:-

(a) Sentries and guards will be ordered to take any action required to ensure the safety of their posts or to defeat the activities of enemy, or suspected enemy agents.
(b) If necessary, they will fire upon or otherwise attack any persons threatening the safety of their posts or engaging in hostile actions.
(c) Before firing upon any person, the sentry or guard will, except in an urgent case of self-defence, challenge that person to "Halt". If that person does not halt, the sentry should challenge him again with"Halt" or I fire". If he does not halt and no other means are available for stopping him - as for example, by calling on the rest of the guard - it is the duty of the sentry to shoot.
(d) The sentry will uses his intelligence and sense of responsibility in choosing whether he will shoot or not, and he must be careful not to allow any suspected person to approach so close that he can be rushed and overpowered.

AUSTRALIAN WAR MEMORIAL AWM2020.71.2582

(e) Guards of enemy prisoners of war. An enemy prisoner of war attempting to escape may be fired upon, but a previous summons to surrender will be given if possible.

(f) Guards of members of the forces in custody

(i) An escort or guard is not justified in using his weapons merely for the purpose of preventing another member from escaping from custody and if he so uses his weapons he may render himself, as well as any officer or NCO under whose orders he acted, liable to be charged with murder, manslaughter or incitement to murder.

(ii) If a member in custody attempts to escape, the escort or sentry will immediately raise the alarm and give chase. He may call upon any passer by to assist him in apprehending the escapee.

(iii) An escort or guard may be justified in using his weapons when a member in custody resorts to violence. In such circumstances, an escort or guard may meet force with force, but care must be taken to use no more forces than is necessary to overcome the violence offered. Hence, even when violence is offered to an escort or guard, it will only be as a last resort that the use of weapons will be justified.

3.UNAUTHORISED THOROUGHFARE:

The Camp areas of 43rd BOMB GROUP (US) JACKSON AIRFIELD are out of bounds to all AMF personnel and troops proceeding to picture shows in that area will use only the access road.

2. GIFT PARCELS FOR UNITED KINGDOM ADDRESSEES: DUTY FREE CONCESSION.

A concession has been sanctioned by the United Kingdom authorities which permits members of the A.M.F. and the British Army serving in Australia, to send to their relatives and friends in the United Kingdom(4) gift parcels a year, duty free. The usual postage rates are payable.

Such parcels must not weigh more than 5 lbs. each nor exceed 30/- in value and contents may not include:-

(a) Any drinkable spirits.
(b) No tobacco marked "H.M. Ships only".
(c) More than ½ pint of scent
(d) More than 2 lbs of any one foodstuff.

Special Customs Declarations will be affixed to the parcels; these will be secured through normal stationery channels, on a basis of 4 per year to any one sender. Each form issued therein will have entered upon it the recipient's number and name and be signed by the issuing officer in the space provided.

3. DEPOSITS TO PAY BOOKS AND CASH REMITTANCES.

The attention is drawn to the necessity for obtaining official receipts for all moneys paid to members of the A.A.F.C.

Credits arising from cash deposits appearing in members' pay books are only accepted a bona fide in cash offices If one of the above receipts for the amount of the credit is fixed to the back of the pay book. Unless this credit entry is so supported, no portion hereof can be drawn until confirmation is obtained.

Upon completion of a cash remittance(Form W.F.131A) the remitter must receive from the member of the AAFC concerned one of the above receipts for the amount paid by him, the number of which should be quoted in any inquiry relative to same. It is the responsibility of all members to obtain receipts for all moneys paid to members of the AAFC.

2.CONSERVATION OF KEROSENE.

As there is a distinct possibility that the supply of Kerosene Lighting will be more limited in the future, than perviously, every care is to be taken to identify, before issue, the use for which Kerosene is intended.

In no instance should Kerosene Lighting be used for any purpose other than an illuminant. Kerosene for use for power plants, cleaning, hygiene, etc., must be supplied from the existing stocks of Kerosene Power which in most areas is in plentiful supply.

2. CONTROL OF MOSQUITO BREEDING (TRUCK DISCIPLINE)

The permanent breeding places sometimes responsible of malarial mosquitoes in the BUNA-DOBODURA area are wheel ruts on kunai flats.

Most of these breeding places can be eliminated if proper truck discipline is observed, and the following measures will be taken in all units.

(a) All units will define roads in their areas, and all MT will use only these defined roads.

(b) All unused and unnecessary tracks will be closed and a notice "CLOSED" placed at each end thereof.

(c) All wheel ruts or depressions which hold water along such unused tracks will be filled in, or if too large for filling, drained by the construction of a vertical sump.

WAR DIARY

C O P Y

C

Hereunder copy of message of commendation received from Major-General CLOWES, 11 Aust Div:-

"C.R.E. 11 AUST DIV.

On the occasion of relinquishment by me of comd of 11 Aust Div, I wish to convey to you, and all under your command responsible, my great appreciation of the efforts put fwd by the RAE in regard to the works in the area BUNA-DOBODURA.

The results achieved reveal a high measure of enthusiasm and devotion to duty on the part of all concerned, and a spirit which it gladdens the heart to see.
In particular I may mention the extraordinarily speedy and efficient construction of the SIMEMI-BUNA "Y" and 2/11 AGH; these are outstanding examples of what the Sappers can produce when the "let themselves go."

I congratulate you all on your recent achievements, and feel sure that you will continue the good work in regard not only to local requirements , but also as affecting any future operations.

To conclude, I wish you all the best of luck, and a speedy and safe return to the home country.

C.A.CLOWES,MAJOR-GENERAL. "

INTELLIGENCE SUMMARY.

Works in BUNA AREA.

1. It is desired to include in next RAE Intelligence Summary infm of Rd construction and br and dock construction in this area.

ROADS.

2. 2/1 Aust Mech Equip Coy will prepare a comprehensive report on roads wks, incl materials used, output of machines, suitability of existing eqpt and progress rates, recommendations for future wks, etc.

BRIDGES & DOCKS.

3. 12 Aust Fd Coy will submit a similar report on wks in hand incl speed of work, types of timber, comparison of different methods, recommendations, etc.

The reports will be as accurate as possible with special regard to rates of progress; organization of wk should be indicated, and everything that may be of use in planning future wks of a similar nature.

Any other items of general Engr interest should also be included.

Reports are to reach this HQ by 1800 hrs 16 SEP.

12 AUST FD COY R.A.E.(AIF)

D

REPORT ON ENGINEERING TASKS CARRIED OUT BY THE ABOVE COY DURING THE MONTH OF AUGUST-SEPTEMBER 1943.

GENERALLY. The Unit has been engaged on various tasks which can be placed briefly under the following main headings.

1. Dock Construction.) Subsidiary to these two
2. Bridge Construction.) 1A. Logging.
3. Jeep track maintenance and road construction.

1. DOCK CONSTRUCTION.

The task was to extend the existing BUNA PIER, constructed by U.S. Engineers, from 90' to 255', making a total length of 165' constructed by this unit, plus an additional shore leg.(See DRWG No 3). The following paras deal with equipment used, stores required etc..

(a) Equipment

Pile Driver. The pile driver used was a standard pattern pile frame, 30' high with a 25 cwt monkey, mounted on two steel open deck barges. Power Unit is a Ford V8 Engine, driving through gears a winch drum, and Capstan. Diagramatic sketch is appended (DRWG No 4). When taken over by this Unit, the pile driver had had a fair amount of use, and as the job had to be commenced quickly, only a preliminary check of the maintenance and structure was taken, and a few minor repairs affected immediately. This proved to be costly, as the construction was held up at irregular periods for the replacement of timber members in the frame and minor breakdowns in the power unit. A day or so spent in the initial stages in thoroughly overhauling the equipment, at the expense of delaying the commencement of the construction, would have saved time over the job period. The pile hoist arrangement could be improved by having a separate winch drum large enough to take 200' - 300' of 5/8" Diameter S.W.R. instead of using the capstan on the main power unit. Alternatively, if the monkey was fitted with a trigger release the main winch could be used as a hoist, having the monkey locked at a convenient position.
The present equipment can cope with piles of a max butt daim of 24" and cannot operate in water of less than 2' 0" depth. For inshore driving of piles for shore leg, a mobile boom driver was used, operating from the shore.("Quick-Way" equipment).
Stores. In addition to the normal equipment of a platoon and the pile frame, the following additional stores are recommended:

Hammers sledge	7-9 lbs	6
Adzes	4" blade	10
Crow Bars	6' 0"	8
Cant hooks(timber)		6
Axes felling		6
Snatch blocks 2" SWR		2
Length of 1" piping with a reducing nipple 1"-½" for use as jet		Various lengths as required.
Rope twitch sticks		8
Anchors pontoon		6
Emery Wheel 6"x8"		1
Emery Paper		6 sheets
Spanners adjustable 14"		2
SWR ½" D.		100 fthms.
Winch Truck or Tractor		1
Pontoon Bulldog Clips		36
Folding Boat & PONTOON		1 of each.
5 KVA generating set with necessary bulbs etc for night work.		1

AUSTRALIAN WAR MEMORIAL AWM2020.71.2582

(b) Personnel A platoon at full strength could provide three 8 hour shifts. Platoon engaged on task had only sufficient personnel available to work two shifts, and with the addition of the other personnel could have reduced the erection time considerably, although good progress was made by working in 10 hour shifts. This long shift had a marked effect on the efficiency of the personnel over a prolonged period, and it is recommended that each man should be given a rest day each week on the roster system.
The following data for various erections is compiled on an 8 hour shift:

Driving of piles 18" to 20" diam piles with 15' to 20' penetration in sandy sea bed, using working party of 8 men:- 6 piles.
Placing Caps and Stringers. Using a party of 4 men, top 5 piles place 1 capsill and 7 stringers.
Decking. 4 men laying and spiking - 300 Sq ft of 12" x 3".
Preparation of piles caps and stringers. 12 men can prepare 5 piles, 2 caps and 6 stringers.
Fixing of bracings. 3 men can fix twelve 20' braces.
If natives are available (adze and axemen) they are quite efficient in preparing piles, caps and stringers and the above schedules can apply to their work, with the addition of a Spr supervising.

Generally. It is essential to have a rigger full time on the job for the preparation of slings and carrying out of splicing as required. Native labourers are good workers, but their working hours and 6 day week restrict their output.
Local timber available is not the best and penetration is often determined by the splitting of the piles when being driven.
BENDORA or QUILLA was found to be the best timber for driving.
When fixing caps and stringer, they need only be drilled and spiked with a $\frac{3}{4}$" drift bolt.

2. BRIDGE CONSTRUCTION

The following data is based on experiences gained in the construction of two Bridges (one 150' long and the other 240' long), class 24, over swampy ground. In the initial stages of the first bridge, a boom pile driver was used, mounted on skids. This was a very cumbersome arrangement and every time it had to be moved forward, it entailed a considerable amount of hard work, and the rate of progress was 1 bay per day, under the most favourable conditions. Each bay consisted of three piles, 1 capsill, and 5 stringers. In the latter stages of the first bridge, this pile driver was completely wrecked and was replaced by "Quick Way" equipment. This was found to be the ideal for speedy erections, and the following schedules are all based on the use of this equipment. It is fitted with a 15 cwt monkey and the boom has an affective driving arc of 180°.

General Factors

A normal working day consisted of two 8 hour shifts - 0600 to 1400, and 1400 to 2200 hrs.
Speed of construction depends on rate of timber deliveries and a quick and efficient method of feeding up to pile driver.

Organisation

Two days spent in laying out of site, preparation of timber, preparation of stores and equipment and laying out rigging, will save a lot of time when construction is actually started. (See sketch DRWG No 1A).
When driving is actually commenced, the second bent is driven before the first one in order to provide a platform for the pile driver, to operate on. The bents are then driven in their normal sequence. This preparation would not be the case when operating from a bank, when the normal sequence would be observed.
Using the "Quick-Way" two bays can be completed comfortably in a working day.

AUSTRALIAN WAR MEMORIAL AWM2020.71.2582

Construction Points

(a) A good run way for feeding the pile driver is essential, especially in swampy crossings, where there is likely to be snags and stumps. Time spent in ensuring this at the outset will save many hours and broken cables.

(b) The site for preparation of timber should be disposed to allow of the prepared timber being fed to the runway.

(c) The approach to the bridge should be kept clear at all times, Decking may then be dumped right on job as it arrives.

(d) Push ahead with construction of bays using a temporary decking to walk pile driver forward. Decking can then be laid as available.

(e) If design of bridge entails ~~a coffer dam~~ Wing Walls for abbuttment, with fill, make early arrangements for the fill so that decking can be dumped directly on the bridge at the required place so as to avoid double handling.

Driving of Piles

The "Quickway" will take piles up to 13" butt diam, but piles of slightly longer diameter can be used by trimming sides to overall width of 13". When driving, it is essential that the pile be maintained in the correct position, as there is some side movement in the boom and monkey guides.
A driving band consisting of two turns of ½" diam SWR was found to be satisfactory and a pad of sand bags placed on top of thepile, helped considerably, in preventing mushrooming and splitting. Piles are hoisted into position with the crane attachment. Piles were driven until they had a final set of ½" and average depth of penetration 8'-10', with a square toed pile.

Caps and Stringer

The case of handling of these members can be facilitated by the use of grappling hook.(See DRWG 1A). These can be easily fabricated by unit blacksmith out of ¾" diam M.S. rod. The "Quickway" crane attachment is then used for hoisting into position. Two men can easily handle and position the members, using this method.
For feeding timber up to driver a long length of SWR passed through a snatch block anchored on far bank was used. The standing end was hooked into the winch drum of a winch truck and the running end was fitted with a short length of chain and a hook. If a join is necessary in the SWR to obtain the required length, using small diam SWR, a double sheet bend with the free ends seized passes quite readily through the snatch block.

Distribution and Organisation of Personnel.

Two 8 hour shifts 0600 - 1400, 14 - - 2200. Each shift comprised 1 N.C.O. and 12 Spre, plus one driver MT, organised as follows.

N.C.O. i/c	1
Carpenters preparing timber	2
Feeding pile driver	3
Winch Operator	1
Setting, guiding and cutting off piles, placing stringers and caps.	4
Compressor Hand	1
Driving spikes and odd jobs	1

AUSTRALIAN WAR MEMORIAL AWM2020.71.2582

In addition to these the following details are used on normal day work hours.
1 blacksmith.

1 carpenter N.C.O. (supervising native preparations of timber).
When working at night or on a night shift the following additional duties are to be carried out by the normal shift as part time duties -

1 O.R. i/c lighting set and 1 O.R. as air raid sentry when an air raid red warning is sounded.

Natives

20 natives under an A.N.G.U.A. supervisor working a normal day and equipped with the following tools. 12 adzes, 8 axes felling, 3 cant hooks, 3 crow bars 6' 0" and 2 cross cut saws.
This party can prepare sufficient timber for two bays of bridge per working day.

Note

It is advisable to have two days supply of timber prepared before pile driving is commenced, as natives do not work Sundays and as a guard against hold up in timber delivery.

Stores

In addition to platoon equipment and "QuickWay" the following additional stores are required:-

SWR 3½" diam.	500'
Bulldog clips	12
Snatch blocks SWR 2"	1
Adzes	8
Axes	4
Cant hooks	4
Crow Bars 6'0"	4
Hammers sledge 5-7 lbs	4
Air Compressor	1
Power Band saw (if available)	1
5 K V A lighting set with accessories	1

Generally

~~For organising the logging it was taken~~ Using the "QuickWay" as a pile driver, two bays per day of two 8 hour shifts can be erected. Under good conditions 3 bays are possible.

1A LOGGING

In organising the logging it was taken into consideration that the jobs had to be completed within a time limit and the structures had to last a minimum of twelve months. These considerations enforced the choice of a site within reasonable proximity of the jobs and also the felling of any strong timber which gave evidence of lasting for a maximum of 24 months in bridges and 6 months in docks.

Timbers Used

1. BOL-E-AH (local native name) of a fig or rubber variety, having a whitish timber of pine texture.
2. LEICHHARDT(local native name GOW-BA) a very yellow timber containing large quantities of water tasting very much like atabrin.
3. BROWN PINE or PACIFIC MAPLE(native name DERE-DE) open grained pink coloured, very soft and light.
4. BENDORA or QUILLA. A very hard red timber with a black heart wood.
5. WEL-A-GA. similar to BENDORA, but with very little sap wood and the sap wood has a very high resin content.

The BENDORA and WEL-A-GA were the best types, but were only found in limited quantities on the sites logged.

Time and Labour

The limiting factor in supply was the facilities for hauling logs from the point of felling to the loading point. The length of haul was 7 miles. It would be possible to extend this to 12 miles without seriously lowering the output.

AUSTRALIAN WAR MEMORIAL AWM2020.71.2582

In the early stages of the logging, deliveries were often held up, due to traffic difficulties on the BUNA jeep track.
Using a TD9 tractor working two 6 hour shifts, it was capable of drawing an average of 42 logs per day. Each shift was organised into four parties.

(a) Felling party.

Consisting of two axemen and one tally man. Axemen fell the trees, headed them and cut them into lengths as measured by the tally man. He also kept a record of the number of logs carted per shift.

(b) Tractor Party

Consisting of tractor driver and two men, whose duties were to hitch and unhitch the logs on the tractor. Tractor hauled logs from felling to trailer loading point.

(c) Loading Party

Consisting of one Spr i/c and Inf working party of 4. Their duties were to load the logs on to the trailer.

(d) Hauling party

Consisting of two transporter power units and three trailers. While two trailers were on the road the third was being loaded.

Method of Loading Trailers.

Logs were drawn up parallel to one another with their butts in line. A space of approx 12" was left between logs to facilitate the passing of the winch cable around the log. The logs were then rolled up timber skids on to the trailer by means of a winch truck, kept for this one purpose.

Sizes Logged

Piles	-	ranging from 20' to 60' with average diams ranging from 12" to 18".
Stringers	-	17' to 20' lengths by 13" to 18" diam.
Capsills	-	14' to 25' lengths by 13" to 18" diam.
Kerbs	-	Various lengths up to 30' by 9" diam.

Note:
When carrying out logging for specific job it is advisable to cut 20% extra to allow for rejects and hollow core logs.

Equipment Required

2 transporter power units or equivelent vehicle(Diamond Tfor preferance)
3 8 ton, two axle dual wheeled trailers.
1 TD9, or similar, tractor.
1 Winch truck G.M.C.
6 Axes felling
4 Crowbars
2 Cant hooks
6 15' lengths 3/8" chain with shackles.
2 Cross cut saws.
200' ½" diam SWR with necessary bulldog clips, eyes and hooks etc..

AUSTRALIAN WAR MEMORIAL AWM2020.71.2582

3. JEEP TRACK MAINTENANCE

From the view point of maintenance in the original construction of jeep tracks, it is advisable to incorporate fairly substantial kerbs, securely spiked. Light kerbs are easily pushed out of position and don't hold the surfacing material too well.
On a formed jeep track it was found that an odd truck load of sand tipped on the tracks here and there where necessary and spread with a drag, kept the main pot holes filled. For general maintaining of the track surface a drag passed over it a couple of times a day is quite satisfactory.

Labour Factors.

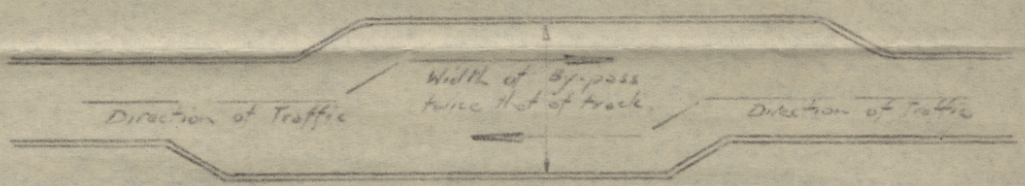

6 natives can load a tip truck by hand in 10 minutes.
10 natives can be fully occupied spreading sand by four trucks operating from a hand loading pit on a short haul.

6 natives can be employed per mile to spread surplus sand from sides of track on to centre and to fill small ruts.

For culverts constructed of 44 gal drums, they can be prepared and placed at the rate of 2'0" per native man hour.

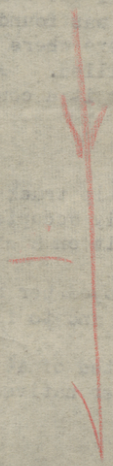

Generally

For constructing jeep tracks adequate by passes should be provided, constructed on the same principle as the main track, i.e. corduroyed. Length of by pass should be sufficient to accommodate four trucks and built on both sides of the track and staggered as per sketch.

SKETCH OF TYPICAL BY PASS
Not to scale
