DETAILS OF WORK CARRIED OUT IN RECONDITIONING BARGES.

28th.Oct.40.
1 Staff Sgt. and 2 O.Rs detailed from Qastina Palestine to proceed to Alexandria by rail.
Men departed Qastina 1100hrs.
Work commenced on 3rd.Nov.40. Men under Movement Control for instructions and discipline.
By 5th.Nov.40 both auxiliary engines in each barge were running and pumping started to empty water tanks preparatory to cleaning andscrubing of same.
8th.Nov.40.
Whole of gear on barge W1 in working order apart from minor engine adjustments.
11th.Nov.40.
W2 main engine ready for starting but owing to lack of air unable to start until 13th.Nov40 when both barges were given trial runs under supervision of Lieut.Commander Hatchett R.N. at this stage it was decided that both barges would need scraping.
14th.Nov.40.
Services of diver obtained and hull scraped and cleaned. R.A.E. men carrying out necessary minor adjustments and painting.
23rd.Nov.40.
Barges ready for commission, and one (W1) put in use supplying water to naval vessels in Alexandria Harbour.
W2 has not been used to date.
Total amount of water supplied up to 6th.Dec.40 862 tons.
In addition 800 tons of water have been used for cleaning of tanks.

CONCLUSION
The vessels are at present manned by 1 Staff Sgt.with 2 O.Rs and 2 native steersman. Water handled per day per barge varies between 50 and 100 tons. It is suggested that the provision of 2 more O.Rs would enable the vessels to be solely operated by R.A.E., provided arrangements could be made to have Harbour navigation licenses issued to men at present on barges.

PROVISION OF WATER TANKS on 30-cwt LORRIES.

1. The undermentioned units are not in possession of Army pattern Water trucks or trailers. Before moving from the present areas, it is essential that they should be provided with an improvised Water vehicle. With this object, H.Q. R.A.E. will reallocate Tanks as necessary, and will arrange for mounting of tanks on vehicles.

2. Transport will report as requested by H.Q. R.A.E. Where A.A.S.C. vehicles are provided they will be attached with own drivers to the user unit until Army pattern water trucks are provided, or until the unit receives sufficient 30-cwt lorries to enable it to release the A.A.S.C. vehicle.

3. If any unit shown hereunder as requiring an improvised tank is already in possession of one, H.Q. R.A.E. must be advised immediately to that effect.

ADMINISTRATIVE INSTRUCTION NO. 85.

MOVE TO THE WESTERN DESERT

The following points in connection with the forthcoming move of the Division are forwarded.

1. SIGN BOARDS: Units should make the best use of the remaining time to prepare for themselves a number of Sign Boards which will be similar in colour and number to the unit Signs painted on vehicles. These are essential to assist D.R.s and others to find units who are scattered round the Desert. They should be constructed so that they are plainly visible from both sides and arrows painted on them. In addition, the Divisional sign should be included on the Board.

2. Advance Parties: As soon as the move is finally ordered units may send small advance parties forward by road to the new area.

3. Canteens: Owing to the prohibition against the entry of civilians into the Western Desert and to the great shortage of transport, the system of conducting Canteens as has been the practice up to the present will be modified very considerably. In the Western Desert, the Canteen service will conduct in each major unit area, one Canteen for wholesale dealings only. From this wholesale Canteen units and/or sub-units will purchase in bulk for cash. Units and/or sub-units will then conduct their own retail Canteens. Messing Stores orders may be given into the wholesale Canteen and these orders will be fulfilled as soon as possible thereafter, but no guarantee as to the date of delivery can be given. The limited transport will undoubtedly entail a system of "rationing".

4. Documents for 2nd Echelon: Any bulky packages of Records for 2nd Echelon should be sent to the Kit Store, ALEXANDRIA. They must be clearly labelled for Records and the Kit Store will make arrangements for their subsequent transfer to PALESTINE.

5. Rations: Advance parties, if sent, must be fully self-contained up to the time of arrival of the main body. When units move they will carry with them 24 hours Preserved rations.
