BROOCHES AND RINGS SHOWING UNIT COLOUR PATCHES.

4. It is considered by LHQ that the practice of forwarding brooches and rings showing unit colour patches is not particularly dangerous from a security viewpoint, since these trinkets would naturally only be sent by soldiers to friends and relatives who would already know the colour patch of the soldier's or sender's unit.

It is considered therefore, that troops should be permitted to send these tokens through the post to addresses within AUSTRALIA but not to overseas addresses.

5. CORRECT MANNER OF ADDRESSING WARRANT OFFICERS OF THE AUSTRALIAN MILITARY FORCES.

In future Warrant Officers will be addressed as "Sir" or by the title of his appointment "Sgt-Major" etc.

A Warrant Officer willnot be addressed as "Warrant Officer" "WO" or "Mr"

6. ARMY SMALL CRAFT PROCEEDING BEYOND HARBOUR LIMITS.

(1) In the interest of both ship and crew, it is imperative that Naval Control is aware of all projected movements of small craft in order that Allied Naval vessels, aircraft and coast defences may be notified of all small craft proceeding beyond harbour limits.

(2) The absolute necessity of first obtaining a clearance and identification signals from Naval Control before leaving port will be impressed upon all masters of craft.

(3) Serious consequences may result from neglect to obey this order and disciplinary action will be taken against all offenders.

(GRO 4/44)

7. UNAUTHORIZED USE OF RAILWAY WATER SUPPLIES.

Complaint has been made that frequently water has been drawn by units from Railway supplies. This practice will cease forthwith and no unauthorized use of Railway watering facilities will be made in future.

11. SECURITY - UNOFFICIAL PHOTOGRAPHS.

Instances are frquently occuring of breeches of censor-ship in respect of unofficial photographs.

No list of specific matters can be given as being sub-jects which MAY NOT be photographed, but the follow-ing photographed subjects have recently been excised by WA L of C Area:

(1) Formations signs and Unit identification numbers discernible on vehicles.
(2) Aircraft, where showing details of construction or equipment.
(3) AFVs. (2 AUST DIV R/O 4/46)

12. INCLUSION OF CENSORABLE MATTER IN CORRESPONDENCE.

Although certain censorship regulations have been lifted such as the privilege of the troops' mail not being franked, it is brought to notice by the Base Censors that personnel are still mentioning matters of a security nature.

It is an offence against the Defence Act, Section 73A, to communicate Naval, Military or Air Force information to any person otherwise than in the course of official duty.

The Judge Advocate General has ruled that the submission to a franking officer or a censorship authority of a letter containing Naval, Military or Air Force information is an offence against this section.

All ranks are forbidden to include in their correspondence information classed as censorable matter under current Field Censorship Instructions, notwithstanding that such correspondence is to be submitted to a franking officer or a censorship authority.

(GRO A27/44)

13. LOSS OF WATCHES - BINOCULARS - COMPASSES - PISTOLS etc.

The number of watches, compasses, pistols etc lost and stolen in the last few months, has grown out of all proportion and it is considered that personnel are NOT taking sufficient care of the equipment on issue to them.

AUSTRALIAN WAR MEMORIAL AWM2020.71.3196

When this equipment is being ~~is being~~ carried on exercises, where possible, a lanyard of cord of some type will be used to secure the article to the webbing or clothing of the person, and when NOT in use, such equipment will be left in a secure place, and NOT in un-attended tents etc.

This matter will be brought to the notice of all ranks and personnel warned that disciplinary action will be taken where any loss or theft occurs through the negligence on the part of the individual to whom the equipment is on issue.

14. VENEREAL DISEASE - EFFECT ON PAY.

Preliminary: -

1. Approval has been given for the amendment of War Financial (Military Forces) Regulations 25 to provide that no forfeiture of pay will be incurred by a member -

   (a) for the first thirty-five days of his absence after 31 Jan 44, as the result of venereal disease acquired by him on the first occasion as defined in para 3 hereof and including any days of absence as a result of a relapse from a disease acquired on any such first occasion, pro--vided that the total number of days of absence as a result of such first occasion and any such relapse does not exceed thirty-five days;
   (b) acquiring venereal disease while acting in the course of his duty; or
   (c) who is suffering from a congenital form of venereal disease.

Commencement: -

2. The approval so far as it relates to sub-para (a) of para 1 of this order will take effect on and from 1 Feb 44, and so far as it relates to sub--paras (b) and (c) of that paragraph will operate as from 6 Oct 39.

Interpretation: -

3. For the purpose of this order, the term "First occasion" when used in connection with venereal disease will mean -

   (a) the first occasion on which a venereal disease is diagnosed after 31 Jan 44.
   (b) in the case of a member who was on 1 Feb 44, absent from duty by reason of the disease diagnosed prior to that date - the venereal disease for which he is being treated; or
   (c) in the case of a member who, subsequent to 31 Jan 44, is absent from duty through a relapse from the venereal disease diagnosed prior to 1 Feb 44 - the relapse from which he is suffering whichever first occurs.

Transfers and Re-enlistment: -

4. No account will be taken of any absence through venereal disease of a member -
   (a) whist serving with the RAN or the RAAF, or
   (b) during any previous period of service with the AMF under an earlier appointment or enlistment.

AUSTRALIAN WAR MEMORIAL AWM2020.71.3196

15. OFFENCES - NATIVES AND LEPROSY.

Attention is again directed to the Native Administration Act 1905-1936.

Para 46 (1) states -

"Any person (except a native) -

(a) who habitually lives with natives or with any native not his wife or husband; or
(b) who cohabits with or has sexual intercourse with any native who is not his wife or husband,

shall be guilty of an offence against this Act, and shall be liable to imprisonment for a period not more than two years or to a penalty not more than one hundred pounds."

Para 48 (1) states -

"Any person who sells, supplies, or gives any fermented spirituous, or other intoxicating liquor, in any quantity whatsoever, either alone or mixed with any other substance or any Opium, to any native shall be guilty of an offence and liable on summary conviction to a penalty not exceeding one hundred pounds, or to any term of imprisonment not exceeding six months, or to both."

Apart from legal penalties, personnel who have intimacy with native women are exposing themselves to the risk of leprosy, an unprecedented number of cases of which disease have been discovered throughout the North West.

The far reaching and devastating effects of this disease may develop in years to come causing great sorrow to the soldiers concerned and to their families. The undesira-bility of fraternising with native women is to be impressed on all ranks.

21. INCLUSION OF UNAUTHORISED ITEMS IN KITS DEPOSITED IN KIT STORES.

A serious fire which recently occurred in an Australian Kit Store, resulted in the total destruction of many thousands of kitbags and their contents, and partial loss of contents of many others.

During the fire violent explosions occurred which indi--cate that ammunition had been deposited in kits. The explosions interfered with the fire fighting and added to the spread of the conflagration.

This flagrant disregard of instructions has led to the destruction not only of a large quantity of Govt prop--erty, but also the personal possessions of troops which were left in their kits for safe keeping. The loss to the individual soldier is to be deplored and is viewed with grave concern.

Attention is directly to para 2 (c) of GRO Q178/42 which reads -

> "No inflammables, explosives or loot of any description will be deposited in any Kit Store"

Severe disciplinary action will be taken against all ranks where this instruction is not complied with. (2 Aust Div R/O 7/119).

22. BADGES OF RANK - CHEVRONS etc.

Badges of rank will be worn by officers, Warrant officers and NCOs at all times.

The above are the only types of chevrons authorised. Efficiency and Service chevrons will not be worn as badges of rank.

Badges of rank for Warrant officers and NCOs will be worn on the right arm the position of chevrons for men of normal dimensions will be -

When wearing summer dress with sleeves folded back the position of the chevrons will be 1 1/2 inches nearer to the top of the sleeve.

When wearing summer dress or working dress all AIF personnel will wear woven "AUSTRALIA's" on shoulder straps. (2 Aust Div R/O 7/120)

30. TRAVEL BY TRAIN - CONDUCT OF SERVICE PERSONNEL.

Attention is drawn to the dangerous practice of service personnel walking along the footboards of coaches while train is in motion.

On the night of 21 Feb 44, a member of the Defence Forces while attempting to do so, fell and sustained injuries which proved fatal.

Strong disciplinary action will be taken against any person found guilty of this offence.
(2 Aust Div R/O 8/133)

31. SPEEDING OFFENCES.

Provost traffic checks for the month of FEB reveal the number of excessive speeding offences to be extremely high.

Particular attention will be paid by all M/T drivers to this order, more so in camp areas and speed limits in towns and metropolitan areas.

32. REPORTING OF ACCIDENTS.

Where the driver of an Army vehicle is concerned in an accident, he will forthwith report particulars of the accident to his Orderly room by the most expeditious means available.

This report will be made in all cases, irrespective of the amount of damage either to the Army vehicle or to the other vehicle, person or property concerned in the accident.

The accident, if it involves damage however slight to any civilian vehicle, person or property, will be reported to a member of the police force or, if no member of the police force is at the scene of the accident, to the nearest police station.

AUSTRALIAN WAR MEMORIAL AWM2020.71.3196

32. REPORTING OF ACCIDENTS (continued)

The report of the accident to the civil police will be in accordance with the following pro-forma -

Report of accident to be furnished to the Civil Police.

Particulars of accident:

(1) Army number, rank, name and unit of driver concerned.....

(2) Number of Army vehicle concerned.....

(3) Date of accident.....

(4) Time of accident.....

(5) Place of accident (stating street or other suitable landmark).....

(6) Nature of accident..... (e.g.,collision,running down pedestrian etc)

(7) Names and addresses, if known, of any other person and the registered numbers of any other vehicles involved in the accident.....

(8) Names of any witnesses of the accident (including military personnel), if required by State law .....

The driver or other member of the forces concerned in or witnessing the accident will not give any information other than as particularised above to the police or any other person or sign any statement unless the law of the State in which the accident occurred requires it. Drivers will make themselves familiar with and comply with the law of the State in which they are stationed, insofar as it relates to the notification of accidents and the giving of information concerning them.
(GRO 983/44)

33. MECHANICAL VEHICLES - USE OF GEARS AS BRAKES.

The practice of approaching at high speed and then changing down to a lower gear, while still at comparatively high speed, in order to obtain the necessary deceleration when slowing down for any purpose, e.g., stopping, entering gateways, negotiating corners etc., is still prevalent.

This practice, which is forbidden, produces excessive engine speeds, causes unnecessary strain on the vehicle transmission system and is a contributing factor to rapid tyre wear.

The attention of all drivers is drawn to Amendment No 1 to Standing Orders for Drivers of Mechanical Vehicles, and disciplinary action will be taken against offenders.

34. SECURITY - PRIVATE LETTERS.

The practice of including the words CHIDLOWS or NORTHAM or other camp areas in the writer's address at the head of letters is incorrect and must NOT continue.

Such camps are not "fixed establishments" within the meaning of LHQ Field Censorship Instructions No 4, and the XXXX address "Australia" (in conjunction with number, rank and name and unit) will be used at all times.

39. SECURITY - CENSORSHIP OF MAIL.

On the contents of letters written by members of units released from the application of unit censorship by GRO 835/43, mail from a number of units was recently diverted to a Field Censorship Detachment. The report of this Det makes the following points -

(a) The lifting of franking requirements has been widely interpreted as a general relaxation of censorship.

(b) The practice of posting letters in civil boxes is very widespread and is till extensively followed.

(c) A large number of soldiers, however, expressed delight because they could now post letters through Army channels for 1d which before had cost 2½d.

(e) Soldiers had in many cases, presumably because of the ease and apparent safety of civil posting, dispensed with many formalities, such as e.g. correctly heading their letters with the official unit address.

(d) "Security" in letters has sadly deteriorated.

(e) Civilians' letters are being posted through Army channels to gain concession postage rates.

Personnel are informed that -

(a) The lifting of franking requirements in certain circumstances is NOT to be interpreted as a slackening of security requirements in correspondence.

(b) Letters must still be posted through Army official channels.

(c) Base censorship will disclose breaches of security and censorship regulations and disciplinary action will be taken.

40. CHANGE OF ADDRESS - NEXT OF KIN.

In the past there has been a tendency to delay and often complete failure to advise change of address of next-of-kin.

In view of the fact that the address held by Records Office is the address notified in the event of a casualty to a soldier, all ranks will readily realise the importance of immediately advising unit HQ any change of address of next-of-kin.
