12. AMENITIES - CONSERVATION OF RUBBER SPORTING GOODS (CRO 1183)

Owing to acute shortage of rubber, every effort will be made to recover all articles of which rubber is a constituent. Strict supervision must be exercised so that the maximum use of such equipment is obtained. Particular care must be accorded the storage of such materials to guard against deterioration. Football and other rubber bladders which may have become punctured, perished or faulty are to be returned to the Amenities Bulk Store, W Aust L of C Area.

AUSTRALIAN WAR MEMORIAL AWM2020.71.35

Units are requested to forward as many used golf balls as possible to the Amenities Bulk Store. Payment at the rate of 2/- per dozen will be credited to Unit Trust a/c's for any quantity of such golf balls suitable for reconditioning.

Units are requested to forward all used tennis balls to the Amenities Bulk Store.

13. RUBBER CONSERVATION (CRO 1184)

Information has been received which reveals considerable neglect existing in regard to unit maintenance concerning the care of tyres.

The figures quoted are as follows :-

Total of tyres condemned due to abuse or lack of attention -

For Australia - 83.4%
For 3 Aust Corps - 86.8%

Total of tyres condemned due to under inflation -

For Australia - 46.5%
For 3 Aust Corps - 36.8%

Other figures quoted were as follows -

No of vehs without pressure gauges - 80%
Without inflation pumps - 59.4%
With incorrectly kept log books - 34.3%
Not effecting tyre position changes - 47%

The above figures reveal that unit CO's are not paying sufficient attention to ensuring that tyre maintenance is being carried out effectively, and in view of the need to conserve rubber CO's are directed to give this matter their immediate attention.

ROUTINE ORDERS PART 1

BY

BRIGADIER F E WELLS

COMD 1 AUST ARMOURED BRIGADE GROUP

SERIAL 27

2 Oct 43

---

1. STAND DOWN DAY
MONDAY will be stand down day for all units of this Bde Gp.

2. ROADS - NEWLY GRAVELLED
As the only means available for packing down newly laid gravel, is by veh traffic, units will warn drivers that as far as possible, they will not follow other veh tracks.

3. MOVEMENT FROM BDE AREA
No movement will be made beyond Bde area without permission from this HQ.

Where approval has been given G2s for vehs will be submitted for endorsement at this HQ.

4. DISPOSAL OF PERSONNEL TO GDDs (GRO 1199)
(a) Recent instances of the unauthorised movement of OR personnel from units to GDDs have been brought to notice.

(b) The procedure set out in GRO A415/43 must be rigidly observed, and units will not transfer personnel to GDDs without the prior approval of the appropriate Formation HQ.

5. TRAINING OF CLERKS (GRO 1200)
To assist in estimating the number of clerks typists and clerks ordinary that should be trained to meet current deficiencies, units will divide their deficiencies of clerks as shown on W3009s into 2 categories, namely, Clerks Typists and Clerks Ordinary, and show these in separate columns of W3009.

6. MEDICAL - REPAIRS TO SPECTACLES (GRO 1201)
Attention is directed to ASO 10/25.

Indents for repair of spectacles (whether provided by the Army or private by purchase) must be accompanied by a certificate signed by the CO or Unit MO that the damage was NOT due to the negligence of the soldier concerned. Where a certificate is NOT supplied with the indent the soldier will be charged for repairs.

7. LEAVE PRIOR TO, DURING, AND AFTER APPOINTMENT TO A TRG DEPOT (GRO 1203)
(a) Attention is directed to ASO 6/1(n) as the instructions contained therein are not being observed sufficiently by field formations responsible for provision of officers for staffs of Trg Depots. Non-observance of these provisions makes the efficient operations of these Trg Depots unduly difficult, and greater co-operation in the future is requested.

(b) ASO 6/1/1(n) reads as follows ;-

"LEAVE PRIOR TO, DURING, AND AFTER APPOINTMENT TO A TRG DEPOT

Any leave due to personnel before appointment to a training unit or depot may be taken either

AUSTRALIAN WAR MEMORIAL AWM2020.71.35

before or after such tour of duty.
This leave will NOT be granted during tour of duty at training depot. During period of appointment at a training unit or depot the instruction regarding leave as per GRO A598/43 will apply. "

(c) Personnel reporting for duty, and this applies particularly to officers, almost invariably state that they have been advised by their units that leave in accordance with their entitlements to date will be granted after arrival at training depots. In the majority of cases, the only evidence available as to leave entitlement is the person's own statement.

(d) In most cases it will be preferable to grant any leave due to personnel prior to reporting for duty at the trg depot. This should save a considerable amount of time and unnecessary travel. When for any reason it is essential that the personnel selected should report for duty immediately, this will be impracticable, and save in exceptional circumstances accumulated leave will not then be granted until termination of period of appointment to the trg depot.

18. MOVEMENT PROCEDURE OF INDIVIDUALS

Special attention is drawn to GRO Q635/42 which is repeated hereunder :-

"Q.635. MOVEMENT OF PERSONNEL ON DUTY.

(1) All movement of officers and other ranks (except by units, portion of units and large drafts for which Movement Control makes special arrangements and issues Movement Order) travelling on duty by rail, sea, air and co-ordinated road movement will be covered by a Movement Order issued by the formation unit or school despatching the personnel concerned.

(2) The formation, etc., will issue a Movement Order (AAF A.19) to the individual or, in the case of a party, to the senior officer or other rank who will be in charge of party. In accordance with information supplied by Movement Control, full instructions as to the method, dates and times of travel and intermediate reporting centres en route will be embodied in the order.

(5) Any officer or other rank attempting to travel without proper authority or by means other than specified in the Movement Order will be refused travel and may have disciplinary action taken against him or her."

Standing Orders for Movement Within Australia and its Territories (1942) Section VII para 3 also refers to the above.

In many cases individuals are NOT being issued with AAF A19 and even where this order has been issued the information which it should contain in regard to the method, dates and times of travel, meals, whom and where to report, etc., is either omitted or is inadequate.

Units will ensure that appropriate circulation is given to this instruction and that the provisions of GRO Q635 and Standing Orders for Movement are carried out.

1. ROAD TO MAGNETIC OBSERVATORY.
Ref maps MILING, TANCHE 1 in to 1 mile. The road running west from 061470 to the WATHEROO Magnetic Observatory at 870477 is out of bounds for any veh traffic.

2. FLY CONTROL.(CRO 1212)
(a) With the advent of summer the Fly menace cannot be over-emphasised and all methods of Fly Control must be practised unceasingly to combat the nuisance.

(b) The attention of Unit and Sub-unit Commanders is directed to the following :-

(i) 3 Aust Corps ASO 10/1(c)

(ii) Army Manual of Hygiene and Sanitation (1934 - Reprinted with Amendment 1939) Chap X.

(c) Owing to restrictions in the use of Fly Spray (now designated "Mosquito Spray", GRO A404, 13(b)) this commodity is no longer available for fly control, consequently all other methods available must be constantly applied. Not one particular method, but a combination of all methods must be employed. Some of these methods are explained in Appendix "A" to these ROs.

(d) The improvisation of Hygiene appliances, for this purpose is a simple task for Hygiene Sergeant Inspectors, whose services should be employed now and not in a month's time when the menace, if neglected, will cause real damage.

(e) A pamphlet "Some Insect Pests of Military Camps" (issued 1942 by Western Australian Dept of Agriculture) is a very useful booklet and is obtainable at a cost of 9d. per copy.

(f) The fly is as deadly as the bullet, if unchecked, and as such, must be eliminated by strict control and effective action.

(g) To be repeated, together with Appendix "A", in all Unit ROs.

3. AAF's C.2 - NECESSITY FOR CORRECTLY COMPLETING.(CRO 1213)
(a) Vehicle traffic checks reveal that in most instances AAF's C.2 are not being correctly filled in by those responsible, especially in regard to the exact nature of the duty upon which the vehicle is engaged, and the destination of the vehicle.

(b) It is stressed that such bald statements as "personnel", "Adm duties","camp duties","stores", etc are totally inadequate and will not be accepted in future as sufficient description of nature of duty.

(c) In all cases where the nature of the duty is such that

travel over any variation from the shortest practicable route between start point and destination is required, the exact route and the reason for the variation is to be clearly and concisely stated on AAF C.2 Otherwise, it will be accepted that journey is intended to be by the shortest practicable route, and drivers will be proceeded against who do not comply therewith.

(d) Strong disciplinary action will be taken against any drivers and/or unit transport officers or NCO's responsible in instances where AAF's C.2 are found to be incorrectly or inadequately filled in.

(e) To be repeated in Unit RO's.

4. UNIT AMENITIES, SPORTS, AND CANTEEN OFFRS.
Units will submit to this HQ by 17 Oct a list giving ranks and names of Unit Amenities Offrs, Sports Offrs, and Canteen Offrs.

5. REGTL TRUST FUNDS - PUBLICATION IN UNIT RO's.
Attention of all units is again drawn to GRO Q54/43.

6. AMENDMENT TO RATION SCALE.

(Potato fresh - 6 ozs

In lieu of 16 oz fresh meat there will be issued on Sunday for consumption Monday, 2 eggs, 4 oz Tinned Fish and 4 oz Preserved Sausages.

AUSTRALIAN WAR MEMORIAL AWM2020.71.35

APPENDIX "A".

As a general guide to Fly Control, the following methods are recommended :-

(a) Trapping - for Blowflies.

The Army pattern fly-trap (similar principle to that illustrated in the pamphlet referred to in para (c)) suitably baited with meat scraps, preferably liver, in a small container (such as an old Kraft Cheese tin) the meat just not covered with water, placed in the reservoir. This trap must be carefully maintained and the water level kept up. A dried scrap of meat holds no attraction for flies.

For Houseflies.

The bait must be of a sticky sweet variety, e.g. thin treacly syrup, sweetened milk, etc. Fly traps of this pattern may be obtained from 3 Aust Corps Ordnance Services on a scale of 4 per Coy. Units already issued with fly traps should check on same and if they are found to be unserviceable they should be reconditioned under the supervision of the Hygiene Sergeant. The traps are best used at a distance of 25 feet from cookhouses and are particularly effective if the reservoir is removed and the trap "set" in latrines of the deep trench type where it traps the infected fly at the source of infection and before it can convey that infection to food stuffs, etc.

(b) The Roller Fly Trap (Local Improvisation).

This type of appliance is to be recommended as a standard appliance in the field situated in the vicinity of latrines and under sheds. The reservoir is filled with a solution of Arsenite of Soda (vide Appendix 14 Manual of Hygiene and Sanitation). Arsenite of Soda will be made available, in small quantities (1 lb tins) from AASC 3 Aust Corps.

N.B. This substance is a deadly poison and under no circumstances must it be kept near cookhouses or foodstuffs.

(c) Fly wires and Papers (Local Improvisation).

Fly wires, coated with Tanglefoot mixture made up of a solution of Castor oil 5 parts, Resin 8 parts, (vide Appendix 14 Manual of Hygiene and Sanitation for method of mixing). These appliances are strongly recommended for kitchens, food preparation rooms, and food stores - also for mess huts etc.

(d) Fly Poisons.

Place in shallow dishes, saucers, etc, in which are pieces of bread, sponge, blotting paper or other absorbent material. Such a solution as the following serves the purpose :-

Commercial Formalin	..	1 Fl oz (2 table spoons)
Filtered Lime Water	..	½ pint
Sugar	..	½ ounce
Water to make	..	1 pint

(Formalin is obtainable from AASC).

Alternative -

Formalin	..	1 desertspoonful
Sugar	..	1 "
Lime Water	..	1 pint.

AUSTRALIAN WAR MEMORIAL AWM2020.71.35

(c) Fly Swatters.

No description necessary, but strongly recommended.

The protection of food from flies, particularly jam, butter, bread, cheese, sugar - in fact all exposed food, especially that exposed on mess tables - is to be practised generally. All mess gear is to be dipped in boiling water BEFORE as well as after use.

Not only must the fly itself be combated, but fly breeding areas also must be eliminated as thoroughly as possible. No waste food or scraps must be left uncovered or, buried.

All the above appliances may be viewed at the 3 Aust Corps Hygiene Museum, No.7 Camp, MELVILLE, and at Formation Hygiene Model Areas.

20. USE OF TERNE PLATED IRON ON ROOFS.

LHQ Q3a/1/2/13-10 of 13 Oct is repeated hereunder for information.

"Owing to shortage of galvanised iron, terne coated iron has been used at various times for roofing of buildings. There is a definite danger of lead poisoning if water drained from terne iron roofs is used for drinking purposes, as this is actually a lead

coated roofing. Medical opinion is, that, even where terne plate is painted, the danger of lead poisoning in water from such a catchment still exists.

Technical Instn No.44 was issued by the Director of Engineer Services in November 41 drawing attention to the danger and directing that Service that terne iron must not be used for the purpose of catchment or storage of drinking water.

The matter has again been raised and it is considered possible that drinking water is being obtained in certain areas where reticulated supply is not provided, from catchments on terne coated roofing. It is therefore desired that a check be made throughout L. of C Areas and the tanks containing any such catchment should be marked " Water Not for drinking purposes".

In view of the Works Instn issued it is considered that all, or nearly all, cases dealt with in this way will be found to be storage for fire fighting purposes."

21. SALVAGE.

In future only tins with pressed lids and those of five pound capacity or over will be treated as salvage. All other tins will be disposed of by normal hygiene channels. Previous instns with reference to cleanliness and freedom from rust will be strictly complied with.

SERIAL 30

1. SPEED LIMITS - BDE AREA

A speed limit of 20 mph will be observed on all roads within this Bde Area.
Speed limit for motor cycles will be 35 mph. If road maintenance is to be kept to a minimum it is essential that these limits be strictly observed. Disciplinary action will be taken against offenders.

2. MOVEMENT OF REINFORCEMENTS AND "X" LIST PERSONNEL - GENERAL (GRO 1245)

(a) In accordance with GRO A600/43, "X" List personnel must be returned to their parent units at the earliest practicable date, and will have priority of movement over general reinforcements. In all cases unnecessary travel will be avoided.

(b) (i) In Western Australia "X" List personnel will normally be returned to Units through GDD, CLAREMONT.

(ii) Where proceeding through GDD entails unnecessary travel, the return of personnel direct to units from medical installations may be approved. This approval will be given by W Aust L of C Area Records Office after consultation with HQ 3 Aust Corps (AIF) or HQ W Aust L of C Area, whichever is appropriate.

This approval will be notifed by memo to all medical and other units concerned, with accompanying instructions as to any special records procedure necessary. Units will ensure that these directions are strictly observed.

It is to be noted that, in accordance with GRO 600, para 9 (a), the direct movement to units of personnel "attached" by WE's, whose return to their former Unit is contingent upon existence of a vacancy in that Unit, will not be effected except under an express authority (i.e. Reinft Order) issued by Records Office.

(c) GDD will be responsible for ensuring that, so far as is practicable personnel on "X" List are DPl (A & Q) when marched out to units. A member will not be held for completion of innoculations Tab 1, 2, 3. In such cases, Tab 1 will be given at GDD, nominal roll marked accordingly and Tab 2 and 3 given en route or at destination at the proper intervals (GRO 597/43).

(d) The return of "X" List personnel to units via 3 Aust ARD will be discontinued as from 24 Oct 43.

AUSTRALIAN WAR MEMORIAL AWM2020.71.35

2. MOVEMENT OF REINFORCEMENTS AND "X" LIST PERSONNEL - GENERAL (Contd)

(e) General reinforcements will be marched out direct to Units from HQ Western Reinft Trg Centre who will be responsible for their concentration for inspection in accordance with LHQ SM19102.

(f) ASO's Chap 6, Sec 3 (d) and (e) and GRO 1191 are cancelled.

3. LEAVE: ACCRUED ANNUAL RECREATION LEAVE AMR&O PART VI. (GRO 1246)

(a) Correspondence received at HQ 3 Aust Corps indicates that difficulties are being experienced in the application of Part X of GRO A598/43. The following information is promulgated to assist in clarifying the position in this regard.

(b) Up to 10 Dec 41, Annual Recreation Leave under AMR&O Part VI was granted to members of the PMF and to members of the CMF on continuous full time duty.

(c) Such leave was originally at the rate of 18 days for each completed year of service in ordinary localities (with longer periods for certain tropical and remote localities). Later authority was given for 1/3rd of the year's entitlement to be credited at the end of each 4 months, without varying the effective annual rate.

(d) On 10 Dec 41, in consequence of the entry of Japan into the war, the granting of Annual Recreation Leave was suspended, but at that stage it could still continue to accrue to the members credit.

(e) From 14 Apr 42, all members of the AMF have been "on active service", and as the provisions of AMR&O authorising Annual Recreation Leave do not apply to members on active service, credits of such leave ceased to accrue from that date.

(f) As members were debarred after 10 Dec 41 from taking annual recreation leave which they had accumulated, provision was made (now embodied in Part X of GRO 598) for those credits to be carried forward. If such provision had not been made, the accrued leave would have lapsed in accordance with AMR&O.

(g) It is pointed out that the provisions of Part X of GRO 598 authorise the carrying forward of such leave only in cases where it has not already been taken. Attention is directed to paras 76 and 77 of GRO 598 regarding the enquiries to be made before credit is allowed for any of the above leave claimed by a member. It is pointed out that in most units, leave was being made available at week ends and other times during the material period. In many cases the amount of leave so made available was considerably in excess of the 6 days per 4 months allowable as annual recreation leave. Where members received the leave in this way no credit is to be carried forward under Part X of GRO 598. A member of a unit which was receiving regular leave at that time should not now be credited with any annual recreation leave for that period unless it is clear that for some special reason he did not have leave.

(h) From 14 Apr 42 to 30 Jul 42, weekend leave only was available. It could not be accumulated but certain travelling time was allowable for personnel whose homes were distant and this could be accumulated for two months. No credit is now allowable for any such weekend leave or travelling time.

(i) Regular leave at the rate of 2 days per month was introduced from 1 Jul 42. Credits for leave accruing from that date onward may be carried forward subject to the provisions of Part II of GRO 598.

AUSTRALIAN WAR MEMORIAL AWM2020.71.35

3. LEAVE: ACCRUED ANNUAL RECREATION LEAVE AMR&O PART VI. (CRO 1246) (Contd)

(j) With reference to para 75 of CRO 598 attention is directed to the fact that the carrying forward of holidays applies only to those members of the PMF appointed prior to 6 Oct 39 and graduates of the RMC appointed since that date who were so entitled under AMR&O 869.

10. STATISTICS OF "B" CLASS PERSONNEL (CRO 1257)

Reference CRO A650 - 10 Sep 43.

(a) It has proved to be impossible in many cases for units to ascertain authentic information as to medical classification without referring the matter to the appropriate Records Offices.

AUSTRALIAN WAR MEMORIAL AWM2020.71.35

10. STATISTICS OF "B" CLASS PERSONNEL (GRO 1257) (Contd)

(b) These enquiries are imposing a heavy strain on some Records Offices, and one Office in particular is receiving more enquiries than it can handle without interrupting more important work.

(c) It is advised that when the Record of Service Books (AA B83) are issued, a special form (AAF A256) will be available on which units may request details of personnel, for insertion in AA B83. These details include medical classification. As special facilities will be provided in the various Records Offices for dealing with such enquiries, it is desired that units requiring authentic information in relation to medical classification for the purposes of the above GRO should wait until these special facilities are available.

(d) In the meantime, the following procedure should be adopted in the compilation of AFW 3008 and 3009.

PART 11

SUMMARY OF OPERATIONS BY AREAS

NW AREA

LAND

TIMOR: Native reports state that 1,500 Japs moved from MANATUTO to DILLI by MT on 25 Sep. Reports from similar sources reduce the enemy strength in PORTUGUESE TIMOR to 4,745 and in DUTCH TIMOR to 1,800, making a total of 6,545. These reports are not regarded as comprehensive and the official estimate remains at 9/10,000 PORTUGUESE TIMOR, 5/6,000 DUTCH TIMOR 4/6,000 unlocated - a total of from 18 to 22,000. It is not considered likely that TIMOR, which is the key to the SUNDA ISLANDS, including JAVA, will be abandoned by the enemy without a severe fight.

SEA

AMBON: Shipping at this port, which has been photographed at 45,000 tons, leaves little doubt that tp movement into or away from the island is proceeding. Reports that the main portion of 5 Div has moved to WEWAK are not considered reliable. More reliable reports to the effect that one regt of this div has retired to PALAU suggest that the div is to be employed further back in the def of more important areas.

AIR

Enemy air activity has been restricted to possible single A/C recces of TANAHMERAH and MERAUKE and the 21 Type 96 Mitsubishi and 4 ZEKE raid on DRYSDALE MISSION STA, runways and RAAF installations. After causing hy damage to the mission, slight damage to RAAF buildings and killing one white and 4 natives and injuring one native, the Jap A/C departed towards KOEPANG.

Allied activity has been directed at AMBOINA, the KAI ISLANDS (both hy Liberator raids), MANOKWARI and SORONG (lt Liberator raids) and the nickel mining centre POMELAA in the SOUTHERN CELEBES (where 4 Catalinas attacked dock installations the township and shipping).

NE AREA

LAND

NEW GUINEA: Australian tps have captured the airfield and are 6,000 yds WSW of the village of FINSCHAFEN, where Jap resistance is explained by the probable presence of 2,000 of 3,000 tps cut off from LAE between HOPOI and FINSCHAFEN by our landing west of HOPOI on 4 Sep. One thousand of these tps are reported to have left by barge after stating that they were making for MADANG. Main enemy resistance is being encountered at and near the tactically important village of SATELBERG (6 mls NW of FINSCHAFEN) and this may delay our reduction of FINSCHAFEN itself.

Australian tps moving NW from KAIAPIT in some force are advancing on MARAWASA (60 mls SSE of MADANG and 84 mls NW of LAE), where the Japanese are reported to be digging in.

AUSTRALIAN WAR MEMORIAL AWM2020.71.35

SOLOMON ISLANDS — American tps are moving north along the west coast of VELLA LAVELLA towards the NW tip. Isolated pockets of resistance are causing much trouble.

SEA

Shipping at RABAUL on 20 Sep comprised:-

1 hy cruiser	5 submarines
1 lt cruiser	7 other warships
9 destroyers	22 merchant vessels totalling 109,700 tons.

This represents a slight increase on recent sightings. Ships entering RABAUL of late are making very short visits, despite the lull in our air attacks on the harbour. This may be because of Jap shipping shortage, or because vessels are concerned with tp and not supply movement.

Shipping in the BUIN-FAISI and BUKA areas remains at a low level.

On 27 Sep photographs revealed only 2 small cargo vessels, 24 small craft and barges at BUKA and one med, 9 small cargo vessels, 16 small craft and barges at BUIN-FAISI, but interesting sightings of enemy shipping were made in the SOLOMON ISLANDS waters on 28 and 29 Sep:-

	Date	Time	Force	Posn	Course
(1)	28 Sep	1245 K	8 destroyers	60 mls north of BUKA ISLAND	SE by east
(2)	28 Sep	1825 K	11 or 12 vessels	BOUGAINVILLE STRAIT (between BUIN-FAISI and CHOISEUL)	Not known
(3)	Night 28/9 Sep	Not stated	7 to 9 vessels incl at least 2 destroyers	NORTH of KOLAMBANGARA ISLAND (VILA)	South
(4)	29 Sep	0608 K	10 destroyers	29 mls NE of BUKA ISLAND	NW

All these sightings are considered to have been of the same force, which in 17 hrs 23 mins travelled at least 550 mls. When last sighted the force was proceeding at 20 knots, but even 1925-launched Jap destroyers are capable of 35 knots (modern ones 40 knots), and a speed of just over 30 knots would have been sufficient for the force to have reached KOLAMBANGARA and returned to the posn of sighting (4).

A speed of 35 knots would have allowed the destroyers 2 hrs at KOLAMBANGARA. Jap destroyers are believed to be capable of carrying 500 tps. Estimated total on KOLAMBANGARA was 7,500 on 25 Sep.

The waters between BUIN-FAISI and KOLAMBANGARA have been regarded during the past few months as the exclusive province of Allied naval units, and the presence of so large a force of destroyers there suggests that they were used to evacuate, or cover and assist in a barge evacuation of the island.

AUSTRALIAN WAR MEMORIAL AWM2020.71.35

Two other sightings of interest in this connection are reported - one of barge activity covered by destroyers on the NW coast of CHOISEUL, 45 mls east of BUIN at 2100 K 27 Sep, and the other of 7 vessels off SUMBI HEAD (CHOISEUL ISLAND), 35 mls north of KOLAMBANGARA, course south, at 0345 K 29 Sep. Neither of these forces could have been the same as the one in sighting (4), which, as has been said, is considered to be the same as (1), (2) and (3), but it is probable that tps from KOLAMBANGARA were being evacuated by barge along the western coast of CHOISEUL before and during the presence of the destroyer force.

Damage to the destroyer force was caused by Allied A/C which scored direct hits on two destroyers, heavily damaging if not sinking them

AIR

Enemy air activity in NEW GUINEA has been confined to attacks on our tps and supplies at FINSCHAFEN and in the SOLOMONS to raids on MUNDA airfield and our bases in GUADALCANAL and VELLA LAVELLA. No substantial damage has resulted from these attacks, and MUNDA airfield is believed to exceed all Allied expectations as an all-weather B and F field, rendering the capture of KAHILI less important.

Allied activity in NEW GUINEA has included most devastating raids on the WEWAK area (which have probably at last convinced the enemy of the futility of its retention as an air and supply base), lighter, but most successful, raids on enemy comms in the MADANG-BOGADJIM area and D/B support of our tps at FINSCHAFEN. In the SOLOMONS, raids on the VILA and BUIN-FAISI areas approach the same scale as those against WEWAK. BUKA received a 21-Liberator raid.

AUSTRALIAN WAR MEMORIAL AWM2020.71.35

PART VI.

SECURITY.

Security of infm.

Two important phases of military security are (1) safe disposal or burning of old letters and documents and (11) constant check of bivouac areas for lostdocuments especially when leaving an area.

A search through uninhabited farm buildings in this bde area resulted in the finding of several letters and official documents which disclosed infm on :-

The name of the unit and location of RHQ
The probable state in which it was formed
The names of the Adjt, Tpt WCO, Postal Cpl, two other Sgts, a DR and 2 ORs.
The approx strength of the RHQ (from an AAFW 5284.)
The approx strength of W/sand Sgts (crockery list of Sgts mess)
Approx time during which the unit was in this area, and approx date of departure.
Previous service of the unit (AIF unit with service in ME.)

Other infm disclosed was:-
One other unit in WA
The names of four units of Aust CCB.
The location of two FRes (one in New Guniea)
The name of an offr and his posting
The names of two dental offrs and their posting, and some slight infm re methods of our medical services.
Infm on our methods of trg MT drivers

Economic infm disclosed in letters was:-
Approx time of a call up in one state
Shortage of labour in one area.
The name of an organistaion engaged in war production
The probable type of motor cycle with which the unit was equipped and the VOL of that type.
Indications as to how war affected the social life of some civilians.

From the conditions of the buildings it was obvious that an attempt had been made to destroy useless papers, but no thorough check had been made. As fourteen (14) letters were addressed to one man, it appears that one man's carelessness has been a large factor in destroying that unit's security measures.

Security Test.

The following questionnaire was submitted through Tp Leaders to personnel of an Aust Tk Bn :-

(1) Who is your security offr?
(2) What conditions govern the posting of letters while on leave?
(3) What conditions govern the use of green envelopes?
(4) If you are questioned by a civilian regarding your unit location and other such particulars what would you do?
(5) If you see a civilian walking unescorted in your camp area what would you do?
(6) Does a guard challenge a person in uniform?
(7) What papers are taken into action?
(8) If captured, what infm can you give?
(9) If you are asked by a person in uniform for infm what is the correct step to take?
(10) What would you do with captured eqpt and documents?
(11) Have you any question on security you would like answered?
(12) Can you suggest any improvement of security inside or outside your unit?

The security offr reported that the test was of great value. It was found that reinft personnel were most ignorant of the instns.

As far as practicable the discussion took place between the testing offr and each man independently.

SUMMARY OF OPERATIONS BY AREAS

WESTERN AREA

(For the purpose of these Summaries comprises all of WESTERN AUSTRALIA south of a line from the junc of its eastern border and the 20 deg latitudinal line to YAMPI SOUND and all INDIAN OCEAN bounded by continuation of this line to the 120 deg longitudinal line, thence west to the 110 deg longitudinal, thence south to the SOUTHERN OCEAN).

AIR

BROOME-DERBY AREA: Five separate posts reported hearing an unknown number of A/C over this area between 0820 and 0835 H 6 Oct. One post at BROOME reported hearing A/C again at 0930 H. No indications were received of these A/C, which remain unidentified. The A/C appeared to come from and depart north.

NW AREA

(For the purposes of these Summaries comprises the part of WESTERN AUSTRALIA excluded from WESTERN AREA, the EASTERN SUNDA ISLANDS, JAVA, BORNEO, GULF OF THAILAND, SOUTH CHINA SEA, PHILIPPINES, CELEBES, HALMAHERA, that portion of NEW GUINEA west of 140 deg longitudinal, BANDA SEA, all of ARAFURA SEA except portion south of NEW GUINEA east of 138 deg longitudinal, and the NORTHERN TERRITORY.)

LAND

TIMOR: The enemy is believed to be improving that part of the east-west trunk rd between DILLI and MANATUTO (31 mls east of DILLI). Dual-purpose guns from MANATUTO are believed to have been moved to DILLI.

AMBOINA: No tp movement is reflected in the O of B, but no other explanation of recent shipping sightings at AMBON seems reasonable.

DUTCH NEW GUINEA: Movement east of some units of the formations located here is indicated by PW statements.

SEA

AMBON: Photographs taken 2 Oct reveal 23 vessels, incl 19 merchantmen, totalling from 24,250 to 28,800 tons. Nineteen harbour craft or MLC were at the new jetty.

AIR

No enemy raids have taken place during the past week.

Eight raids have been made against the following enemy targets:-

NE AREA

(For the purposes of these Summaries comprises that part of NEW GUINEA and the ARAFURA SEA not included in NW area, QUEENSLAND, NEW BRITAIN, NEW IRELAND, SOLOMON ISLANDS and the CORAL SEA.)

LAND

NEW GUINEA

FINSCHHAFEN: Following the capture of the airfield and village allied tps are pursuing the enemy 1,400 yds north of the original landing place at the RIVER SONG mouth and are advancing 4½ mls SE of SATELBERG.

RAMU VALLEY: Allied tps are extending their control, NE, north, west and NW of DUMPU, being now within 4½ mls of MADANG. Patrols from BENA BENA area have contacted these forces.

NEW BRITAIN

It is believed that the 65 Div has been detailed for the def of WESTERN NEW BRITAIN.

SOLOMON ISLANDS

KOLAMBANGARA: The evacuation by the Japs of VILA and STANMORE PLANTATION (near VILA) is confirmed. Apart from a considerable number of evacuees from MUNDA, 7,500 tps were believed to be at or near VILA. The evacuation was carried out by barges covered by destroyers and small naval vessels.

VELLA LAVELLA: The isolated Jap tps at MARQUANA BAY on the NW coast have been evacuated, other gps now remaining being at TIMBALA BAY (south of MARQUANA BAY), SUPATO and RIVER OULA (SW coast) and JAVA BAY (NE coast). Additional Allied landings are being made to deal with these gps.

CHOISEUL: Tps withdrawing from VELLA LAVELLA and KOLAMBANGARA are proceeding via the SW coast of CHOISEUL in the direction of BUIN-FAISI.

GIZO: Allied air attacks indicate the continued presence of Japs on this island. The last estimate was 200.

SEA

NEW IRELAND

Several interesting convoys have been sighted NNW of MUSSAU ISLAND:-

	Date	Time	Composition	Course
1.	3 Oct	1110 K	One CL 2 DD one tpt 2 large merchant vessels.	SE by south
2.	4 Oct	0959 K	One CL, 3 DD, one large tpt 2 med tpts.	SE by south
3.	5 Oct	0800 K	2 CR 2 large 2 med tpts	NNW
4.	5 Oct	0930 K	1 CR one tpt, one large merchant vessel (possibly same as 3)	NNW
5	6 Oct	0945 K	2 DD 2 large merchant vessels	Not stated

AUSTRALIAN WAR MEMORIAL AWM2020.71.35

NEW BRITAIN

Photographs of RABAUL HARBOUR of 6 Oct reveal 2 Cs, 8 DD, 4 SS, 7 warships, 27 merchant vessels, totalling 130,000 tons, incl one 10,000, one 8,000 ton tanker. Two DD have departed since 1 Oct, and there is an increase of 12,000 tons of merchant shipping.

Two DDs and one tpt were sighted 36 mls north by east of TALASEA (central north coast) at 2330 K 6 Oct, course east by north. The presence of DD in this posn probably indicates reinft of WESTERN NEW BRITAIN.

SOLOMON ISLANDS

DD have continued to assist evacuation from the NEW GEORGIA Gp. Photographs of BUIN-FAISI and BUKA areas reveal one 70 ft boat and 14 barges and one 280 ft cargo vessel and 4 barges, respectively, leaving little doubt as to the policy of the enemy concerning these two bases. Allied surface attacks have been most successful against barge evacuees from KOLAMBANGARA and VELLA LAVELLA, over 40 tp-laden barges having been sunk.

AIR

Enemy effort has been directed against FINSCHHAFEN (1 raid), WOODLARK (recce) GOODENOUGH (recce), KIRIWINA (1 raid) VELLA LAVELLA (6 raids; lt casualties, little damage) and MUNDA (4 harmless raids).

Allied effort has been maintained, 24 raids (11 of them hy) having been made.

NEW GUINEA

WEWAK: Photographs taken after the hy raids of 27 and 28 Sep reveal a ratio of 23 serviceable to 128 unserviceable A/C left on the airfields there, besides terrific damage to the township and fuel and amn dump areas. Even the Japanese must be tiring of WEWAK, but are finding it difficult to find a solution to their problems pending evacuation.

MADANG: Three successful raids on the BOGADJIM rd near DAUMOINA.

NEW BRITAIN

Lt raids have been made against the WITU ISLANDS, north of NEW BRITAIN, and attacks against barges off GASMATA and CAPE GLOUCESTER. The new strip at CAPE HOSKINS (central north coast) has twice been visited by Allied Bs.

SOLOMON ISLANDS

Four hy raids have been made against each of KAHILI and VILA. Eighty-four Liberators have visited KAHILI during the week, as well as 27 D/B and 12 T/B, and the Japs must be feeling much the same about this base as they are about WEWAK. A total of 194 Bs attacked VILA.

KAKESA barge depot on the SW coast of CHOISEUL has received 3 raids by a total of 72 Bs, and two lt raids were made against GIZO ISLAND.

OTHER FRONTS.

BURMA.

Allied patrols have penetrated to a posn 6 mls SE of BUTHIDAUNG (SW BURMA) without contacting the enemy. Natives in the area report that the enemy left on 20 Sep. These reports indicate that the enemy has abandoned the BAUTHIDAUNG- MAUNGDAW line.

PART VI.

Censorship Education.

It is essential that the goodwill and voluntary co-operation of the soldier should be sought and gained. Itshould be explained that censorship is NOT a disciplinary measure, as is usually supposed, but is imposed to protect and safeguard the individual, his unit, future actions and engagements, stores, installations, etc.

To be effective censorship education should go further than merely a list of "DONTS". It is imperative that the soldier be acquainted with the reason for the imposition of the various censorship restrictions and, more especially, any local restrictions.For example, to point out that correspondence with "Pen Pals" is prohibited because enemy agents have been known to obtain important infm in this manner impresses upon the soldier the dangers ofthis correspondence far more than does a bare statement that "correspondence with "pen Pals" is forbidden."

Teaching the soldier to safeguard himself and his unit by denying the enemy valuableinfm should be an essential part of his trg as teaching him to protect himself from attack by the use of his weapons.

(3 Aust Corps Summary 75)

COMMENT:

Two examples of soldiers of Units of this Bde Gp writing to "Pen Pals" have been noted recently. In each case the soldier found a note giving name and address in a pocket of an article of clothing issued.

Attention of franking offrs is drawn to LHQ Censorship Instn No 4 PART A, para 16 relating to "pen pals."

FORMOSA: It was officially announced from TOKYO, 23 Sep, during a news broadcast for home consumption, that conscription of Formosan subjects would come into effect during 1945, on the anniversary of JAPAN'S annexation of the island.
Previously in 1941, Formosans were graciously given permission to volunteer for service in labour units.
The chief point of interest to us is that FORMOSA with a population of 6,000,000, half of which are males, should be able to provide sufficient manpower for at least five divs.

LAND

NEW GUINEA: A map of NE NEW GUINEA illustrating Allied progress since the capture of LAE is attached at Appendix "A".

FINSCHAFEN AREA: Slow but sure progress is being made by our tps towards complete clearance of the Japs from the most difficult terrain NW and West of FINSCHAFEN. Fighting along the rd and track JIVEVANING-SISI-KUMAWA and in the triangle it forms cost the enemy over 400 killed, our casualties being lt. The enemy then took up posns west of track SISI-KUMAWA, from which they continued to probe our posns in some strength. Enemy posns 300 yds west of KUMAWA which were held by marines were successfully attacked on 13 Oct and after fierce hand-to-hand fighting 25 enemy dead were counted.

SATELBERG is one ml 300 yds NNW of SISI and 2 mls NNW of KUMAWA. A motor rd winds up an 890 ft rise

from just north of SISI to SATELBERG, which is built on a plateau approx 3,000 ft above sea level. The final approaches to SATELBERG are terrifically steep, the gradient being of one in three. Allied arty has registered for MASANGKOO and unnamed villages (1½ mls north, 1¾ mls NNW and 2¼ mls ENE of SATELBERG.

Three and a quarter mls west of FINSCHHAFEN our tps have occupied TIRIMORO and despatched patrols to investigate a native report that Japs are occupying QUEMBUN (5 mls west of FINSCHHAFEN).

DUMPU AREA: A map showing territory and comns between DUMPU and MADANG is attached at Appendix "B" hereto.

Extensive Jap posns have been located by Allied patrols 7½ mls north of DUMPU. Fighting continues NW, north and east of KUMBARUM (4 mls NNE of DUMPU on the track and rd DUMPU-BOGADJIM). After suffering considerable casualties, the enemy is withdrawing under pressure over difficult terrain. Jap dead, totalling 132, including 10 who jumped over a precipice, have been counted. Our casualties have been lt.

BOANA (10 mls NNE of NADZAB): Following receipt of a native report of the presence of Japs at BAWAN (4 mls east of BOANA), Allied tps occupied the village on 13 Oct, killing 23 Japs. KUMBUM (5 mls ESE of BOANA) was found to be deserted.

MARKHAM POINT: Allied tps continue to mop up the area between the RIVER BUANG (10 mls south of LAE) and MARKHAM POINT (8 mls west of LAE).

SECURITY AND CENSORSHIP.

Marked Maps: A JAP map att to a recently captured document disclosed the identity and dispositions of AUST units in that particular area. From the amount of infm shown, it is reasonable to assume that the enemy had captured a map from our forces which bore markings showing all our units posns in the area.

(3 Aust Corps Summary 76)

Comment: The practice of marking dispositions of units directly on to maps should be discouraged even in rear areas and during trg. If such dispositions are necessary they can be placed on talc, tracing paper or celluloid overlays, and erased or destroyed when memorised or when of no further use. No matter other than bare essentials should be marked, and marked overlays or diagrams should be treated as secret documents.

Reasons for evasion of Unit Censorship.

To ascertain the reasons why service personnel post letters in evasion of unit censorship a check recently imposed on civil post boxes in NORTH QUEENSLAND disclosed:

(a) for no apparent reason 55%
(b) to write of personal matters 12%
(c) to give location 19%
(d) to refer to movement 12%

Of 118 letters examined 35.5% required treatment and all were from service personnel.

Reasons underlying (a) and (b) are usually:-

(1) Offrs are discussing personal contents of letters franked by them
(2) Supply of green envelopes is inadequate
(3) Undue delay in franking trains personnel to post their mail out of camp.

Reasons underlying (c) and (d) insufficient security education is the obvious explanation.

(Adapted from 3 Aust Corps Summary 76)

SLIPS-WARE OF SECURITY:

"I know you are wise....constant you are, But yet a woman: and for secrecy no lady closer; for I well believe THOU WILT NOT UTTER WHAT THOU DOST NOT KNOW, and so far will I trust thee, gentle Kate."

HENRY IV, Part1, Act II.

(3 Aust Corps Summary 76)

DISCLOSURE OF TP MOVEMENTS.

The most sought after infm by INT is that concerning enemy tp movements. Such infm, however slight, is sifted, weighed, analysed and subjected to microscopic examination because it provides clues to the enemy's future plans and therefore enables accurate forecasts to be made of projected ops/

Surprise is one of the principles of war, and it obviously follows that adv infm of tp movements in the hands of the enemy deprives a comd of the most powerful and essential weapon. Yet infm about projected tp movements still appears in offrs correspondence. As a natural consequence it appears in tps mail also.

Thus infm which even in the comparative safety of official channels is safeguarded by a MOST SECRET classification is passed on to be conveyed by the rumour monger and broadcast by common gossip.

Rank does NOT absolve an offr from his security obligations but because of the infm in his possession by virtue of that rank, those obligations are increased.

SECURITY

SECURITY QUESTIONNAIRE:

A unit in this bde gp recently tested selected personnel with the questions detailed in 1 Aust Armd Bde Gp Summary 2.

A cross section of the unit was chosen so that as well as fighting personnel, cooks, drs, and adm staffs were questioned.

The results when analysed show NOT only along what lines security instns have succeeded, but also along what lines it has failed, with the result that further instn can be given to improve the security education of personnel.

This, of course, is an important aspect in all trg - an instructor must test to assess to what extent instns have been absorbed, and in what aspects of the work further instn is necessary.

EVASION OF UNIT CENSORSHIP - USE OF CODES

Simple codes, which disclose locations and movement often pass the Franking Offr and are subsequently excised by Base Censorship.

Some codes are childishly simple and present no difficulties:- "Milny Boyliss is having a baby" (MILNE BAY). Other however are ingenious enough to escape the notice of all but the most careful of Franking Offrs.

For example:
(a) "I am half way through my composition, Intermezzo, so will understand the lack of mail". "Intermezzo" is a musical term meaning a short movement - an interruption.
(b) An extra initial is included in a soldiers name. After three or four letters he has spelt a name.
(c) Minute markings under letters can be use to convey meaning.
(d) Letters omitted from misspelt words sometimes tell a story.

If the soldier has pre-arranged his code, there is NO method by which a Franking Offr can discover the fact. Continued p 6

PART 1

GENERAL REVIEW

LAND

Although reports from the NE Area continue to be conflicting and to obscure Jap intentions, there is evidence to support the contention that (1) the continued allied surface patrolling of the enemy's barge and submarine traffic lines between NEW GUINEA and NEW BRITAIN, followed (2) by the transfer of the main concentration of allied air power from NEW GUINEA to NEW BRITAIN, has altered, temporarily at least, the enemy's policy of evacuating to RABAUL tps in his bases along the RAI COAST. Two thousand of the tps which were cut off from LAE by our landing near HOPOI made their way to the FINSCHHAFEN-SATELBERG area and have probably since been joined by some of the tps which fled northward from LAE to SIO.

The enemy's object in the SATELBERG-RIVER SONG area is probably (1) to deny to us for as long as possible potential air and sea bases there (2) to delay for as long as possible the allied threat to CAPE GLOUCESTER which was becoming far too imminent for the enemy's liking and (3) to inflict as many casualties on our ever decreasing first line tps as possible. Any more pretentious ideas on the enemy's part are out of the question so long as allied tps control LAE and the MARKHAM and upper RAMU valleys.

SEA

The enemy is making strenuous efforts to restore his barge and submarine traffic lines between NEW GUINEA and NEW BRITAIN. Barge hideouts are being established in ROOKE and LONG ISLANDS and attacks on allied lt surface units in DAMPIER STRAIT have been made by enemy DDs.

Enemy submarines are concentrating on allied sup lines between MILNE BAY and FINSCHHAFEN in an endeavour to reduce sups and reinfts reaching our tps at FINSCHHAFEN.

Destruction of shipping by allied air attacks on RABAUL has not kept pace with enemy reinft.

AIR

In the NW increased enemy airfield construction in TIMOR and the other eastern SUNDA ISLANDS has provoked an increase in allied raids.

In the NE the concentration of allied effort against NEW BRITAIN has not prevented the launching of hy attacks on the ALEXISHAFEN area.

Allied destruction of enemy A/C in the RABAUL area has exceeded enemy capacity for replacement.

Enemy air activity has increased in the NEW GUINEA area and the allied battering of BALLALE and KAHILI continues.

AUSTRALIAN WAR MEMORIAL AWM2020.71.35

PART 11

SUMMARY OF OPERATIONS BY AREAS

NW AREA

SEA

CERAM: One DD and one med merchant vessel were sighted on a westerly course (towards AMBON) off WATABOELA ISLAND (SE of CERAM) on 13 Oct.

AMBON: Several small ships were sighted in the bay on 17 Oct. Catalina attacks against shipping at AMBON have been unsuccessful owing to severe evasive action taken.

AIR

No enemy raids have been made since the 27 Sep raid on DRYSDALE MISSION.

Seventeen allied raids have been made against widely spread targets. Particulars are as follows:-

SOEMBA: 3 Catalinas attacked shipping off WAINGAPOE on 13 Oct.

TIMOR: Allied activity is again approaching the previous normal scale, possibly owing to increased enemy activity on airfields.

CAPE LAIVAI (eastern north coast). Attack on shipping by 3 Catalinas on 12 Oct.

KOEPANG. Dusk attack by 3 Hudsons which caused large fires and explosions on 14 Oct.

DILLI. Lt but successful attack by 2 Mitchells on 14 Oct.

LAUTEM. Successful attack by 3 Mitchells on 14 Oct.

MANATUTO. (31 mls east DILLI). Effective attack by 3 Hudsons on 15 Oct.

FUILORO. Concentrated attack by 3 Hudsons and 6 Mitchells on the building area on 19 Oct.

TANIMBARS:

An hr's attack by 6 Beaufighters on LARAT and SELARU ISLANDS.

KAI ISLANDS:

An attack by one Mitchell and 5 Hudsons on LANGGOER airfield.

AROE ISLANDS:

One attack by 3 Liberators on TABERFANE seaplane base and an attack by 6 Beaufighters on TRANGAN airfield.

CERAM and AMBOINA:

Two unsuccessful attacks by Catalinas on enemy shipping at AMBON, one successful attack by 4 Catalinas on AMBON HARBOUR dock area and 2 attacks by forces of 3 Liberators on the oilfield port of BOELA (NE CERAM).

HALMAHERA:

The most important raid of the week in the NW Area was probably the 6 Liberator daylight attack on TERNATE township and waterfront. This raid was prompted by the Jap development of 3 airstrips in the HALMAHERA GP, indicating a new air route from the PHILIPPINES.

AUSTRALIAN WAR MEMORIAL AWM2020.71.35

NE AREA

LAND

NEW GUINEA

FINSCHHAFEN-SATELBERG AREA: Fighting has taken a temporary turn in this area, reinfts having enabled the Japs to launch offensive moves near the coast/eastward of their mountain stronghold at SATELBERG. An allied bn at KATIKA (near the coast 5 mls east of SATELBERG and 6 mls north of FINSCHHAFEN) is with difficulty repulsing repeated enemy infiltration attacks upon its posns. Enemy attacks on the original allied beachhead area near the mouth of the RIVER SONG have also been repulsed but the enemy has penetrated to the coast south of our posns. Enemy forces are believed to have been landed north of our beachhead. Allied reinfts are believed to be arriving and part of our forces is at present disposed to protect the RIVER SONG beachhead. with the main body in the FINSCHHAFEN area.

DUMPU AREA: Contact has been made (presumably in some force) with the extensive enemy posns 7½ mls north of DUMPU. Known casualties inflicted upon the enemy since the fall of KAIAPIT total 479 killed.

The track from URIGINA (21 mls SW BOGADJIM) to JAPPA (13 mls WSW of BOGADJIM) is reported to be clear of the enemy. This track is approx 15 mls west of the track DAUMOINA-BOGADJIM which the allies are approaching from DUMPU, and which the Japs have neglected to repair since the recent batterings received from allied air attacks.

SOLOMONS

Barge sightings and activity on and off the NW end of CHOISEUL ISLAND indicate evacuation of the island.

SEA

NEW GUINEA

The enemy is making strenuous attempts to restore and protect his barge and submarine traffic line between NEW GUINEA and NEW BRITAIN, which has been seriously interrupted by allied lt surface units operating in VITIAZ STRAIT and along the RAI coast. Barge hideouts and bases on ROOKE and LONG ISLANDS have been established/and enemy DDs/sent into the area. Enemy submarines are concentrating on our sup line between MILNE BAY and FINSCHHAFEN.

NEW BRITAIN

Despite the 2 hy allied raids (12 and 18 Oct) shipping photographed at RABAUL has slightly increased since 10 Oct.

SOLOMONS

On 15 Oct 2 cargo ships, 2 small craft and 48 barges were photographed in the BUIN-FAISI area, and 2 cargo ships and 9 barges at BUKA.

On 18 Oct 40 barges were sighted 10 mls SSW of CHOISEUL BAY (NW CHOISEUL ISLAND).

On 19 Oct 2 small cargo vessels and 23 barges were photographed at BUIN-FAISI and one cargo vessel and 19 barges at BUKA.

AIR

NEW GUINEA

Enemy activity has been confined to 3 attacks (one large scale - both unsuccessful) on our post at ORO BAY, 4 med scale attacks on the beachhead at FINSCHHAFEN, 2 lt attacks on MADANG airfield and one lt attack on CAPE SUDEST and BUNA.

Allied effort has comprised a hy (62 M/B 50 ton/28 mb 56,000 rounds) raid on ALEXISHAFEN, a 6 Mitchell raid on sups at ALEXISHAFEN, a 30 Mitchell raid on the ALEXISHAFEN strips, a 70 M/B raid on enemy barges and sups from SAIDOR to SIO (RAI coast), a 54 Mitchell attack on WEWAK township, MUSHU ISLAND shipping and BORAM airfield, 9 Boston, 9 Mitchell, and 9 Boston and 10 D/B attacks on SATELBERG the second of which destroyed many buildings, a 4 Mitchell and 6 Liberator and a 4 Mitchell raid on enemy posns and brs along the rd BOGADJIM-DAUMOINA.

NEW BRITAIN

RABAUL: On 6 Oct at least 86 A/C were visible in photographs taken over the RABAUL area. On 11 Oct 294 A/C were counted. There was also a considerable concentration of shipping in the harbour. On 12 Oct the heaviest aerial attack in the SWPA was launched against the airfields (VUNAKANAU, LAKUNAI, RAPOPO, KERAVAT and TOBERA) and shipping. The factor of surprise was exploited to the utmost and the results were devastating. From 1015 to 1045 K the airfields were bombed and straffed from minimum altitude and in the second phase, which began at 1205 K, 87 Liberators escorted by 125 Lightnings dropped 1000 ton bombs on the shipping. Comparatively few enemy A/C were able to take off before the full force of the attack was on them, and of those which did attempt to hamper the raid 26 were shot down. 1. AMPHIBIOUS OPERATIONS AND JUNGLE WARFARE.

The BM explained future proposals in connection with this matter - see 1 Aust Armd Bde Gp Trg Instn No 20 of 21 Oct43.

2. LECTURE - THE BATTLE OF THE NETHERLANDS EAST INDIES.

Provisional itinerary in connection with this matter was passed to COs for perusal. Arrangements confirmed in 1 Aust Armd Bde Gp Secret memo of 19 Oct 43.

3. OFFICERS REST CENTRE MANDURAH.

Details of this matter were explained to COs by S C, vide 3 Aust Corps memo A129/230/54 of 13 Oct 43.

4. WATER SCHEDULE.

The SC said that a further water point was being brought into operation and a new detailed water schedule would be issued to units shortly.

5. PERSONAL APPEARANCE OF TPS.

The 2 i/c said that it was noticeable that many tps were badly in need of a haircut and COs were asked to ensure that their tps attended to this matter.

2/5, 2/7, and 2/10 Regts said that shortage and repair of hair clippers were problems. The Bde Comd suggested that Maj Bradley might be able to assist in this direction.

AUSTRALIAN WAR MEMORIAL AWM2020.71.35

6. BDE SPORTS MEETING.

The 2 i/c mentioned that it was proposed to conduct a Bde Sports Meeting on 6 Nov. Heats would be conducted in the morning and finals in the afternoon. Local residents might possibly be invited to attend, and COs were asked to do everything possible to make the meeting a success.

7. BOOTS AND CLOTHING.

15 Mot Regt stated that some difficulty was being experienced in connection with these items.

BOO said that the last indents submitted for boots had been met in full.

The Bde Comd asked whether it would be possible for Lieut Deady to obtain a percentage of heavy boots for the Armd Regts. BOO thought that this could be done.

The Bde Comd expressed the view that QMs did not always show foresight when submitting requisitions. Full requirements should always be carefully ascertained and indented for.

2/10 Regt asked what had gone wrong with the question of shorts. BOO explained that for the past three weeks Ord had been endeavouring to size correctly the I P shorts, which would not be issued until that had been done. Indents were in for 7000 pairs of shorts. It was hoped to distribute them in about a week's time.

BOO said that on Friday next he would be making out the full indent for the Bde. He asked Units to ensure that their indents reached Bde HQ by 0900 hrs Friday.

2/10 Regt inquired re colour patches. They had not been able to procure any. BOO said that regimental colour patches had not been manufactured for 18 months. An order for 2/10 Regt had been placed about 3 weeks ago. They may be available in 6 or 7 weeks' time.

BOO said that as to berets, a requisition had been placed for 2000, which were on the way.

8. L/CPLS - PAYMENT OF.

2/10 Regt asked whether it was proposed to lay down a policy in regard to this. 2/7 Regt said that he understood that LHQ were going to promulgate an establishment in respect of paid L/Cpls. His view was that in the meantime units could go up to the limit already indicated.

9. DETENTION BKS - 2 AUST DIV.

2/10 Regt said that it had been reported that prisoners at the Detention Bks were not being treated with the firmness that their sentences warranted. The Bde Comd said that the Bks were controlled by 2 Aust Div, but he would look into the matter.

10. LIEUT E N ROBINSON.

2/5 Regt said that this Officer had reported to 2/5 Regt. He was originally from 2/7 Regt, and as 2/5 Regt had more Officers than needed at the moment, perhaps Lieut Robinson might be sent to 2/7 Regt, which were under strength.

The S C said that 3 Aust Corps had been communicated with regarding the matter.

11. INSTRUCTOR FOR UNARMED COMBAT - 2/5 AUST ARMD REGT.

The B M said none was available at the moment. Possibly 15 Mot Regt might have someone to spare (?).

AUSTRALIAN WAR MEMORIAL AWM2020.71.35

12. BOORAN AMN PARTY.

2/5 Regt inquired when this party would be relieved. S C said he would look into this.

13. CIGARETTE SUPPLY.

Raised by 2/5 Regt, who inquired whether the ration of 40 cigarettes per mal. was general.

14. DELIVERY OF TELEGRAMS.

2/5 Regt said that there was a big delay in the delivery of telegrams. S C said that this was so, and steps were being taken to rectify the position.

15. MOBILE BATH.

The S M O said that the Mobile Bath would be in the area tomorrow A new itinerary was being issued, and COs were asked to ensure that it was treated as a definite parade. COs also to make sure that sufficient water was available. The Brigadier asked the S C to look to the latter question.

16. MAPS.

The I O asked that units return any obsolete maps to this HQ when an endeavour would be made to have them replaced either by Corps or some other unit.

17. REQUESTS BY LOCAL LANDOWNERS FOR ASSISTANCE.

2/3 Fd Sqn said he had been approached by two local landowners to provide men for farm work. He requested advice as to the policy to be adopted.

Informed that 5 Aust Corps had been written to on the matter and advice would be furnished.

18. SPEED LIMITS: ROAD MAINTENANCE.

Maj Flint requested that every endeavour be made to ensure that drivers observed speed limits laid down. This was necessary from the point of view of road maintenance.

19. SPEED PAST HOSPITAL.

SMO asked COs to make sure that drivers slowed down when passing the hospital.
