WAR DIARY

NARRATIVE for SEPTEMBER 1946

ORIGINAL ~~DUPLICATE~~

The Squadron had a bifurcate existence during September. An advance party under Lt M A Attiwill having assumed Occupational responsibilities in the ONOMICHI area on 30 August was joined by C Section on 5 September, and Lt O S Davies took over command of the Detachment. The movement of A Section from HIRO to ONOMICHI on 10 September brought the strength of this Detachment up to about 60, including the two abovenamed officers. Squadron Headquarters, Scout Troop, and elements of the Fighting Troops left behind to carry out essential maintenance on the A vehicles, remained at HIRO, and a daily personal courier service was initiated to preserve contact with the Detachment.

The piecemeal movement of the troops to ONOMICHI was due to the exigencies of the gunnery practices begun at HARA MURA late in August, and the Provost wireless patrols carried out by armoured cars in the absence of the scout cars at the firing range. On 1 September A Section returned to HIRO from HARA MURA where their place was taken by C Section. On 4 September C Section returned to HIRO and the next day moved by rail to ONOMICHI. A Section being relieved of their night patrol duties by Scout Troop on 6 September, moved to ONOMICHI by rail on 10 September. No A vehicles were taken to ONOMICHI, one truck 2½ton 6x6, one truck ¼ton 4x4 and trailer, and one water truck being provided for transport and hygiene requirements.

As little occurred at HIRO that would make "news" it will be best to record the activities and experiences of the ONOMICHI Detachment, who almost daily came up against fresh or arresting sides of their occupational duties. Unfortunately an outbreak of cholera amongst the civil populace in the area adjacent to our camp left the commander no option but to impose strict confinement to barracks on all troops save those required to move through the town on duty. This ban on leave lasted for approximately 3 weeks and curtailed opportunities for private sightseeing in the very picturesque neighbourhood of the port of ONOMICHI.

The first case of cholera reported during our tour of occupational duty was on MUKAISHIMA, an island four or five miles long which is separated from ONOMICHI on the mainland by a long narrow strait. The patient lived in a block of houses abutting on the ferry terminal through which thousands passed daily on their way to or from ONOMICHI. This patient died at midnight of the same day, 2 September but within four days 3 more cases occurred in adjoining houses, one of which proved fatal. A further case was reported from the mainland, in an area about ½ a mile from our camp in the ONOMICHI Commercial School.

On 7 September a case of typhoid fever was reported in the ONOMICHI City area, on 9 September a second, and later in the month the 23 and 26 September each produced a case. In addition two cases of paratyphoid were diagnosed, on 21 and 26 September.

Cases of dysentery were far more numerous, 16 being reported during our tour of duty. Action taken in the instance of any contagious diseases was to ensure that the civil health authorities played their proper part by promptly evacuating the patient to hospital, at the same time informing the local place, and thoroughly disinfecting the patient's house and effects. Upon the police we placed the responsibility of restricting the affected area and any suspected polluted sources of water.

As a general precaution several inspections were made of the chlorinating plant on the City's water supply, where all seemed satisfactory, but Horrocks' Box tests made on water from this source drawn from a point near the camp showed an alarming and fluctuating degree of organic matter in suspension, and 6 scoops of water sterilising powder had to be used to super-chlorinate the camp water supply. Evidently the city water-mains are not proof against seeping contaminated water. Deciding that large accumulations of rubbish at various places around the city were a constant menace to public health, Lt Davies ordered the Mayor of ONOMICHI to convene a meeting of the municipal authorities, police, medicos &c, which then inaugurated a public health campaign. The main points in the programme were the removal of debris and general cleaning up of the city, entailing the mobilisation of all the residents in every block on specified days, and a propaganda drive to

make everybody hygiene-conscious, backed by the threat of coercion of all who failed to co-operate. Yet though these measures may reduce to some extent the risks of an epidemic of contagious disease they do not get at the root of the problem, which is economic. Since the country has neither phosphate deposits nor nearly enough animal manure for its close-cultivated fields it must fall back on human night-soil for this purpose, and such a method of disposal inevitably courts the spread of disease, in fact it is marvellous there is not much more.

Our stay at ONOMICHI co-incided with a nation-wide strike of the All-Japan Seamen's Union. Though the strike tied up only one vessel in that port the crews of many other vessels lying in the roads awaiting repairs were enthusiastic supporters. However the Government Marine Bureau and the Shipping Operators contended that the strike was illegal -- there was a schism in the higher councils of the union over the calling of the strike -- a charge vehemently denied by the officials of the local chapter of the union. A troop of the Detachment stood by on 12 September when strike meetings were held in four places in the streets of ONOMICHI, but there were no disorderly incidents. Again on 19 September there were street demonstrations and a procession which aroused the greatest enthusiasm among the participants even if the public generally manifested only mild interest. Between these dates Lt Davies met the local representatives of the disputing parties several times but saw no reason to warrant intervention by the Occupation Force. The strike ended on 21 September when the two principal claims of the seamen, objection to the projected dismissal of 75% of their number, and an increase in their wages, were acceded to by the owners.

The strike at the Sanko Shipbuilding Company which started at about the time the Seamen's strike ended was more difficult to handle. For this company, which normally makes wooden ships, is occupied at present with urgent contracts for the Occupation Force, and the Supreme Commander for the Allied Powers has directed that when cessation of work is prejudicial to the Occupation Force resumption must be ordered and enforced. The strike began with a dispute over dismissals and a new labour union was born to demand the reinstatement of the men who had been fired. For a time there were three factions amongst the men including some who continued at work but just as our tour was ending they made common cause with the rest and the strike became total. Both the mangaement and the workers' leaders, who were continually presenting their respective cases to the Detachment commander, appeared to be very confused and unsure of their tactics, doubtless because they were both still unused to democratic labour practices. We were constrained to smile when the management, confronted with the strike situation, decided to declare a four-day holiday and recommence negotiations with the union on 1 October after consultation with the owners in KOBE. As we had handed back the area to 65 Australian Infantry Battalion, we were unable to follow later developments in this dispute.

ONOMICHI has a bad name as a centre of black-marketing activity, and co-operating with the Japanese police the Detachment was able to detect some breaches of the marketing laws. Early in the month a civilian from MUKAISHIMA was discovered in illegal possession of a quantity of sugar belonging to the Occupation Force. He was arrested and detained by the ONOMICHI police to await trial by Provost Court,

On 16 September, acting on information supplied by a Japanese in the Hidachi shipyard, MUKAISHIMA, Lt Attiwill in command of a troop raided the Japanese repatriation ship (about 5500 tons gross) "TAIAN MARU" which was entering the shipyard's dry dock that day for repairs. When the Chief Officer in the absence of the Captain could not satisfactorily account for the presence on board of a considerable quantity of Allied rations, the ship and its entire crew were placed under arrest, and an armed guard supplied by the Detachment placed aboard. A number of civilians found in the vessel and some ashore were arrested at the same time for suspected black-marketing, but were later released when insufficient evidence precluded the laying of charges. The captain, recalled from business with the owners at KOBE, was subsequently informed that he would be charged with omitting to declare Allied rations left over on two occasions from repatriation voyages terminating at OTAKE. He was placed under house arrest by the police but the vessel was released and our armed guard withdrawn.

On 21 September, conjointly with the police a raid was made on the street stall area between ONOMICHI Railway Station and the ferry pier, where black-market-in foodstuffs was flagrantly practised. A fair quantity of goods, mostly fruit, vegetables and fish, was seized and several charges will face civil charges for breaches of the price control laws.

Information supplied by a Japanese employee of the Occupation Force led on 25 September to the discovery by this Detachment of a dump of Japanese Army signal equipment, located in a rice storehouse in a scattered village four miles

AUSTRALIAN WAR MEMORIAL AWM2020.71.350

inland from MIHARA. As the Japanese civilian in charge of the storehouse could produce neither certificate that the goods had been declared nor satisfactory explanation of their presence there enquiries were made of the MIHARA Police, who were alleged to have placed the goods in the store. The radio operator at MIHARA Police Station then admitted under interrogation that in September 1945 he had been called in by the Tadanoumi Police (this district is contiguous to MIHARA on the West) to supervise the storing of this equipment, which had been evacuated from the TADANOUMI Arsenal to a number of places in the hinterland some months before the war ended. He revealed the existence of two further dumps of similar equipment, one behind a shop in MIHARA City, the other in a tobacco drying warehouse in a village beyond HONGO, i.e., about 6 miles to the West of MIHARA. This informant also stated that the material had been taken over by the Prefectural Police, but about two months ago had been transferred to the HIROSHIMA Communications Bureau. Originally he had held complete inventories of the stores but had since lost them. He did not know whether the goods had been declared.

The Detachment therefore made inventories of the stores in the three dumps, placed them under police guard and reported the known circumstances in full to HQ 65 Australian Infantry Battalion, in charge of the Eastern sub-area of responsibility, HIROSHIMA Prefecture. Actually only the dump in MIHARA was in 65 Australian Infantry Battalion's area, the other two falling under 66 Battalion's jurisdiction, but all of our information had come from MIHARA.

Many breaches of the SCAP directive relating to the wearing of service badges were observed after the Japanese submarine tender "CHOGEI" entered the Port to be broken up at the Hidachi Shipyard. Members of the crew usually pleaded ignorance of the directive, but after about 20 badges had been seized the number of offenders dwindled rapidly.

An application by an Anarchist to form an International Freedom Union in MIHARA was approved. The applicant hoped to receive the support of members of the Korean and Chinese communities as well as of Japanese, but a Field Security patrol which attended the inaugural meeting on 29 September reported there were fewer than 40 present. Opposition to the Emperor system seems to be still unpopular throughout the country.

Other Occupation duties included the taking of a census of powered watercraft and a census of the population by nationality in our area. These data were required as part of a complete prefectural check.

The three-week ban on leave threw the other ranks of the Detachment very much on their own resources in providing recreation. Fortunately excellent facilities for cricket, football and basketball existed in the camp area and all of these games were popular on an intra-Detachment basis. A mobile cinema unit from FUKUYAMA showed recent films two nights a week, and the beergarden beneath its wisteria covered trellises was of course a constant attraction on those mild evenings of early Autumn.

On the morning of 30 September the Detachment handed over Occupational responsibilities in the ONOMICHI Area to an advance party of C Coy, 65 Australian Infantry Battalion, and the whole Detachment completed the move back to HIRO by rail the same day. For those who had shared in the experiences the tour of duty at ONOMICHI stood out as their most interesting time hitherto in JAPAN and it was fervently hoped that it would not be the last time we were given such a role.

During September members of the Squadron continued to go in small parties for a few days to the rest camp on NASAKE-SHIMA, but with the onset of coller weather at the end of the month it was decided to close the camp down for the winter months. Several other ranks were granted leave to Recreation centres in the U.S. Zone of Occupation, while the innovation of exchanging parties of leave-takers with the Royal Australian Air Force station at BOFU, in YAMAGUCHI Prefecture gave the opportunity for quite a number to see this area some 60 miles distant to the West.

Visitors to the Squadron included Major Middleton, Major McLeod (BM 34 Australian Infantry Brigade), Capt Walsh (SC(Q)), on 18 September, and Lt col Wright (AQMG from AHQ, MELBOURNE) and Major Williams (DAQMG(E)) who were entertained at the Officers' Mess on 20 September.

SCHOOLS & COURSES

To the course commencing 9 September at the Brigade Training Cadre, KAIDAICHI, four NCO students were nominated. It is worthy of mention that one of these, L sgt Ray Stevenson, was recently promoted to that rank on a recommendation made in MALAYA in January 1942, which has only lately been promulgated in 8 Australian Infantry Division Routine Orders Part II. Two students were also sent to the Brigade MT School, HIRO.

SPORTING ACTIVITIES

There were no Brigade Competitions during the month except the finals in Cricket, which this Squadron had just failed to reach, finishing 5th among the 11 competing teams.

On 4 September a Brigade Athletics Meeting was held at Kannon Oval, HIROSHIMA, in which the Squadron was represented in every event. It was a field day for the Battalions, who naturally had much larger numbers to choose their competitors from than the smaller units. However our fellows were not daunted by this fact and by putting their utmost into all events they provided good entertainment for the large number of Squadron spectators who came along.

On the home front inter-troop basketball aroused keen interest and rivalry and many new faces were to be seen on the courts. At the end of Round One Scout Troop led from 2 Troop and the Officers' team, who shared second place.

Each afternoon, too, there were always many chaps out on the field kicking the "leather" around in preparation for the forthcoming Brigade Rugby and Australian Rules Competitions.

It was decided to enter a Squadron team in the Hockey Competition starting Mid-October. About 20 men attended the first training practice and were coached in the rules and tactics of the game by Major Ives. Most of these men have never previously played but are eager to learn, and it is hoped to attract more enthusiasts when this sport gets going.

In the middle of the month a pool was made available to us in KURE, for training our swimming team. Sixteen men went into training and we expect to do very well in the Brigade Contests at HIROSHIMA on 2 and 5 October.

The good news that two tennis courts are under construction a few hundreds yards away from the unit lines, and should be ready for use by mid-October has stimulated a number of prospective players to buy racquets through the Amenities Service.

The keen-ness with which training is being tackled is a good omen for a highly successful season of winter sports for this Squadron.

EDUCATION

During September a great leap ahead was made in the opening of a unit education centre in the area at HIRO. A class-room, reading-room, and gramaphone listening-room were set up and well equipped with desks, improvised lounge-chairs and high-standard lighting. Reading facilities were considerably enlarged by borrowing more books from the Brigade Mobile Library, and the provision of a Reference Section, well stocked from the Army Education Service pool at Brigade. An extraordinarily wide variety of Australian, English and American magazines were laid out on reading tables. We owe these partly to the Army Education Service, partly to the largesse of the Australian Armoured Corps Association, which has a large membership in the Squadron. A radio receiver-cum-gramaphone was loaned by Brigade AES Centre together with a quantity of records. An OR was placed full time in this Centre, to check library books out and generally assist users of the Centre.

Enrolment in Correspondence Courses has steadily increased over the months in Japan and the total is now approximately 30.

Indoor hobbies, with the exception of boatbuilding (in which a group of enthusiasts overcame all obstacles) have hardly got under weigh yet, owing to shortage of materials, but with these now in sight the craft of leatherwork seems likely to engage the spare hours of not a few during the coming winter months. A project now gaining supporters is the formation of a camara club, whose members plan to set up their own printing and developing facilities and organize the ex-

AUSTRALIAN WAR MEMORIAL AWM2020.71.350

change and display of photographs.

The absence of a large number of the troops at ONOMICHI during the month made it hard to gauge the response to these new amenities, but it is thought that they will become increasingly popular as the advent of winter curtails some of the normal outside activities.

BRITISH COMMONWEALTH OCCUPATION FORCE

Subject: SQN TRUST FUND

1 Aust Armd Car Sqn

1. During the period the Sqn has been in Japan there has been a waning lack of interest shown in the administration of the Sqn Trust Fund.

2. On investigation it has been found that some of the causes are as follows:-

(a) Troops invariably have different representatives at each meeting with the result that these representatives through no fault of their own, are not aware of business that has been discussed at previous meetings, nor are they sufficiently interested because in all probability they will not have to attend another meeting.

(b) The tentative members are not usually aware of the financial position of the fund.

(c) They have not discussed the fund with their troop, because in all probability they have only had about 15 minutes notice to attend the meeting.

3. In an endeavour to overcome this unfortunate lack of interest the following steps are being taken:-

(a) Section Leaders will submit the name of one (1) representative per troop to A/Q and the representative will remain as a member of the Trust Fund Committee unless the representative proves unsatisfactory to his troop, then the troop can nominate another representative and the Section Leader will then submit name of new nominee to this HQ.
Lt Gray will submit names of two SHQ representatives.
The Secretary and Treasurer of the present committee will remain the same.
Nominations will be submitted to reach the A/Q by 7 Sep.

(b) Meetings will be held on the first and third Monday of each month and ample notification of any changes in times of meetings will be notified to the committee.

(c) An effort will be made to bring out an agenda for each meeting so that it can be discussed between the troops and representatives prior to each meeting.

4. So as to be able to obtain expert advice on the spot on two of our most important subjects (food and amenities) the following will be made ex officio members of the committee:

6. RELIEF OF PERSONNEL AT SOUTHERN BCOF

Approval has now been received from AHQ Melbourne of the use of the Kure Melbourne wireless link for urgent personal messages and enquiries in connection with re-engagement for service in BCOF.

The following standard text has been signalled to Army Melbourne for use in those messages to facilitate transmission:

"Volunteers being called for from Aust troops at present in Japan to re-engage for a further period of eighteen months to twentyfour months here. The conditions of those who volunteer will get twentyeight days leave in Australia before commencing the second term. Am considering volunteering but would like your remarks and agreement".

Personnel desirious of availing themselves of this free service will also forward the name and address of the person to whom the signal is required to be sent in accordance with the pro-forma held at SHQ.

All signals of the above nature will be sent direct to Army HQ Melbourne by wireless from this HQ. Three copies of the pro-forma will be handed to Sig Office HQ 34 Aust Inf Bde by relevant unit HQ. AHQ Melbourne will retransmit the signals to the desired person giving the standard text and will also signal the reply from that person to the soldier concerned by the same means.

AHQ Melbourne is using standard text replies to enquiries sent by members this formation sent to next of kin in Aust. Standard text is as follows:

"Ref(originators requesting signal number) (.) standard text (.) category one (next of kin agrees to re-engagement) schedule follows (.) category two (next of kin does NOT agree to re-engagement (.) schedule follows.

HQ 34 Aust Inf Bde will advise units concerned of personnel whose answers to enquiries fall into either category one or two.

3. SAFETY PRECAUTIONS - RAILWAY LEVEL CROSSINGS (Republished FRO 306)

The incidence of accidents to service personnel at railway crossings has increased. Five accidents, two of which were fatal, have occurred within fourteen days.
Before attempting to cross a railway line, drivers of independently moving service MT vehicles will stop their vehicles and will ensure that no train is approaching. Commanders of convoys will detail one member to control traffic at level crossings.
These precautions will be observed both by day and night and failure to comply will entail disciplinary action.
The fact that the Imperial Japanese Government Railways have been instructed to take appropriate precautionary measures does not absolve drivers from their responsibility.
Presidents of Courts of Enquiry and Investigating Officers will record evidence of compliance or otherwise with this order.

Sea View House will close downon 1 Oct 46 for duration of winter. It is intended that the Sqn will reopen this sea-side hostel early next summer.

3. WARRANT OFFICERS - MANNER OF ADDRESSING (Republished MBI 103)

This instruction is issued in amplification of AMR & O 1105(2) which provides that "NCOs and men are to address WOs in the same manner as they do officers, but not salute them".
Similar principles also govern the manner in which warrant officers will be addressed by officers and other warrant officers.
In applying these principles in instances where an officer would be addressed as "Sir" or as "Mr", or by his rank, a male warrant officer will be addressed as "Sir", or by the title of his appointment, that is "Sergeant-Major", etc with such abbreviation, if any, as is in accordance with the custom of the Service.
A male warrant officer will not be addressed as "Warrant Officer", "WO" or "Mr".
Similarly, a female warrant officer will be addressed as "Madam" or by the title of her appointment as in the case of a male warrant officer,, and will not be addressed as "Warrant Officer", "WO" "Mrs" or "Miss".

PROGRAMME FOR THE WEEK OF TOWN-CLEANING AND DISEASE PREVENTION CAMPAIGN

1. PURPOSE:

Prevention of contagious diseases and beautification of the town.

2. DURATION:

Week Sep 13 to Sep 19 both inclusive.

3. PREPARATORY PERIOD:

(a) Conference of Community association chiefs to be held at 1330 hrs 11 Sep 46.
(b) General meeting of each community association to be held on the morning of 12 Sep 46.
(c) General meeting of each neighbourhood association to be held on the afternoon of 12 Sep 46.
(d) Propaganda to school children

4. PROGRAMME OF THE CAMPAIGN:

(1) For the two days 13 - 14 Sep all the members of each neighbourhood association will be mobilised under the control of each community association chief to clean up buildings, roads, ditches, drains, dust-bins, and sites where the houses have been removed.

(a) All the dust will be collected at some places within each community where trucks and cars are available, and there load by the citizens. After the removal of such dust, officials of each community association will go around and inspect the process.
(b) Especially broken tiles at the sites where houses have been removed will be disposed of.
(c) Government offices, schools, and factories will be warned by community association chiefs to be cleaned up.

(2) During the week enlightening lectures and conferences on health and hygiene will be held under the auspices of each or more community associations jointly.

At such meetings nearest medical doctors will be asked to attend to give lectures.

The City Office will be notified, by telephone, if available of the time and place of each of such meetings as soon as they are fixed.

(3) Extermination of rats and flies planned:

Rat poisons have already been distributed to exterminate rats. After the week of the campaign each community chief is requested to report to the city office on the number of rats caught in each community.

Those who bring the caught rats to the city office will be paid 10 sen for each rat.

(4) Installation of dust-bins:

During the week every house will install a dust-bin with a lid.

5. PLANS TO BE PURSUED HEREAFTER:

(1) The first and third Sundays of every month will be designated as clear-up days to effect cleaning up and beautification of the town.
(2) People will throw dust nowhere except into dust-bins.
(3) People will not be allowed to urinate or excrete except in lavatories.
(4) People will be requested to consult medical doctors at early stage of a disease.
(5) Those who do not co-operate will be punished.

1. Meetings sponsored by the Seamen's Federation were held at four places in the streets of ONOMICHI between 121300I and 121500I. The chief speaker was KOBAYASHI Yoshio. Attendances were not large, about 150 outside the ONOMICHI Rly Stn being the greatest, but the speaker's remarks were well received and the behaviour of the crowd was orderly.

2. The speaker's main points were as follows:

(i) The securing of a decent living wage.

(ii) Opposition to the projected dismissal of 43,000 of a total of 53,000 seamen. KOBAYASHI claimed that to keep Japan supplied with enough food, clothing, and other necessary commodities, and to export goods in exchange would require 3,000,000 tons of merchant shipping and the services of 60,000 seamen.

(iii) Outline of a speech delivered to citizens of ONOMICHI by Seaman's Union spokesman 12 Sep 46.

2. The Marine Bureau and Shipping Operation Corporation officials regard the strike as illegal and violating SCAP directives. They challenge the correctness of the statement by YAMAMURA (sub-para iv of para 1 above) that the decision to strike was authorised by the controlling body of the Union.

3. No serious effects of the strike are as yet evident in this area but should it extend to Kobe as appears likely, great inconvenience to the public will result and many industries will be paralysed as large numbers of employees are transported daily by this method from outlying island areas.

SUBJECT: REPORT ON THE STRIKE OF SEAMEN.

TO. C.C. Occupation Forces in Onomichi.
FROM. Chief of Onomichi Branch of Chugoku Marine Bureau.

Dear Sir,

We would like to report to you on the general process of the present strike of seamen as follows:

1) It was decided at the conference of the Seamens Union which was held at Kobe on Sept. 3 that the Union would go on strike at 00.00 hr on Sept. 10 if their demands were not satisfied.

2) The Onomichi Branch of the Seamen's Union could not decide their attitude as no instructions had come from their headquarters even on Sept. 10. But on Sept.11 by the instructions from the Chief of the Centra Strike Committee, the Onomichi Branch decided to go on strike.
It was found later that this instruction had been issued in spite of the opposition on he part of the President of the Union.

3) The ships at anchor in Onomichi Port as at Sept. 12 are as follows:-

6 ships under repair.
2 ships lying unused.
8 ships waiting for the order to set sail.
1 ship unloading cargoes.

total 17 ships

4) On Sept. 10 representatives of each of Chugoku Marine Bureau, Hiroshima Branch of Shipping Operation Corporation and Hiroshima Office of All Japan Seamen's Union altogether went to the Allied Military Government, Kure, and got the following instructions from Lt. Peter Thomas, officer in charge of labour.

a) In spite of the offer to go on general strike, no ships shall be allowed to stop operation.

b) Those who violate this instruction shall be punished.

c) Instructions to the Seamen's Union shall be submitted to A.M.G. from responsible persons.

Dear Sir,

We would like to report to you that as to the present general strike of seamen, Lt. Peter Thomas, officer in charge of labour, Allied Military Government, Kure, has notified us through our supervisors of seamen in Hiroshima of the following instructions:-

1) Ships of any kind are not allowed to go on general strike.

2) When the branches of Seamen's Union get the instructions from their Headquarters to go on general strike, such an instruction shall be submitted to the Occupation Force for advise, before it is executed.

3) The present strike shall be at once cancelled and be resumed. At the time of resumption, SCAP will help the demands to be passed on.

4) All the responsibilities for the instructions issued by the Union are on the Union itself and not on the captains of ships involved.

5) When movements of ships are stopped, all crews shall be disembarked.

6) Those who violate the instructions of Occupations Forces shall be punished.

INSTRUCTIONS FROM SCAP.

It shall be prohibited to paint extremes slogans on the hulls or the superstructures of the ships controlled by SCAJAP.

INSTRUCTIONS FROM EIGTH ARMY, at the conference at Kobe on September 3. 1946.

Such strikes as will affect the occupation purposes shall be prohibited.

Such strikes as are injurious to public enterprises, reconstructi of industry and economy in Japan, and transportation shall also be prohibited.

Outline of Sea Men's Street Speech.

We Sea Men's Union began the general strike as we announced on paper the other day, so we beg your comments to our general strike.

We seamen are living in the dark small cells suffering the distress in rough sea every day, it is lives like sucide and we are carried away to voyages.

During the Pacific War 52,000 men were killed in action among us and one man's average of accidents is is eight days, it was our great distresses, then on Aug. 15 we were released little, but now Japanese Government and Ship Trade Union are going to enforce the dismissal to 43,000 men among we 54,000 sea men, that is 4 men among 5 men, itis the ~~grate~~ great fear to reconstucted of shipping business and to transportation of goods for 80,000,000 nation.

Our wages are ¥300 or ¥400 a month and special wages for food are a ¥130 a month, attheprices of present we can buy nothing except 23 eggs or 1.5kg rice with such the cheap wages and you labourers are same like us.

Now we could not help beginning the great strike against the insincerity of present Cabinet and Ship Trade Union, so we beg your citizens' help for us.

STATEMENT BY YAMAMURA Shunsuke, chief delegate of the ONOMICHI Branch All-Japan Seamen's Federation
TO O.C. Det 1 Aust Armd Car Sqn
AT ONOMICHI on 14 Sep 46

1. He had just returned from a conference of the Union at KOBE where he represented the seamen of YAMAGUCHI, HIROSHIMA, OKAYAMA, and EHIME (SHIKOKU) Prefectures.

2. This conference had endorsed the decision to strike made by the Central Strike Committee on 9 Sep 46.

3. KOIZUMI, Chairman of the Union, who had opposed the call to strike, was an extreme conservative and former President of Mitsui Shipbuilding Coy, a Zaibatsu concern. Major CONSTANTINE of SCAP Labour Section had condemned KOIZUMI and his conservative colleagues on the union staff as opposed to the principles of democratic trades unionism. YAMAMURA alleged these elements in the union had attempted to break up the conference by sending in hooligans to assault the delegates.

4. If the strike is prolonged it must adversely affect public utilities, industries, and civil supplies as well as the Occupation Force. The onus would then be on the Government for refusal to meet the MMM seamen's claims, said YAMAMURA.

5. All seamen in ONOMICHI supported the strike but only one vessel, the "KOA MARU", with 450 tons of coal for ITOZAKI was directly affected to date.

A street meeting and procession were held in ONOMICHI on the morning of 19 Sep 46, by ~~members~~ striking members of the All-Japan Seamen's Union. The demonstration was lively throughout but marked by no acts of violence or damage to civilian or army property. The public generally was only mildly interested. Many ships in the harbour flew flags to co-incide with the shore demonstration.

Lt
Lt

The strikers assembled outside ONOMICHI Rly Stn about 1000 hrs, with up to 100 flags and banners, and were there addressed by AOKI Tadashi, Organiser of the Seamen's Union in ONOMICHI, and other speakers. Main points put forward were strong opposition to the retrenchment of approx 50,000 merchant seamen and the necessity of securing a decent living wage. The crowd numbering 300 to 400 received all these speeches favourably.

Towards 1100 hrs the strikers were marshalled into a column of 3 abreast by their leaders and over 200 persons including a contingent of about 40 young women marched off the Station square singing militant songs. They linked arms several times and broke into a run, following a serpentine course down the main street towards the office of the Shipping Operation Corporation. Outside the office more speeches were made and the strikers appeared to be in very exuberant mood. They repeated this procedure outside the office of the Marine Bureau, then returned to the Station square via the waterfront and marched out of the western end of the city to SANKO Shipbuilding Coy. The whole procession entered the Company's yard and the seamen's leaders exhorted employees of the Coy to strike work also. The outcome of this appeal is not yet known.

See Later report

On 10 Sep 46 SANKO Shipbuilding Coy dismissed 11 out of their 32 employees without prior notice. Previous to this the employees had belonged to a union formed and controlled by the Coy but they now (15 Sep 46) set up their own union and demanded that the 11 employees be re-instated. Their leaders, UEKI Hachiro President, and OKADA Saburo Vice-President and head of the young men's section, have been negotiating with the Coy over this matter and the purpose of the seamen's demonstration outside the works was to encourage strike action to enforce this demand. At 1230 hrs this meeting closed and the demonstrators dispersed.

H.Q. 65 Aust Inf Bn.

Copy to 1 Aust Armd Car Sqn.

The Marine Bureau advises that the Seamen's Strike officially ended today and that all crews of ships in this area have resumed work. During the period of the strike no action was taken by this Detachment to order seamen back to work as the strike did not affect Allied or repatriation shipping in this area nor did it affect essential local supplies or transport.

The strike reported at the Sanko Shipbuilding Company's works has been investigated and the following information gained:-

1. There is considerable disagreement within the ranks of the employees as to what steps should be taken to further their ends, and there appears to be three factions -
   (a) the extremists, who number approx 200, who are striking until their demands are met;
   (b) the moderates, numbering about 100, who joined the strikers in making the demands but who now are continuing work and advocating peaceful negotiation; and
   (c) the neutrals, approx 50, who have taken no part in the proceedings and who are also continuing to work.
2. Officials of the Company have advised that the strike is causing no interruption of work being carried out for the Occupation Force.
3. Both Company officials and police are submitting frequent reports on the progress of the strike and have been instructed that, if Allied work is affected, police will take immediate steps to order back to work sufficient labour to continue such tasks.

Copy to 1 Aust. Armd. Car Sqn.

Acting on information from a Japanese civilian a party of troops from this Det. raided the Repatriation ship TAIAN MARU in ONOMICHI harbour at 1130 hrs. 16 Sep.46.

Asearch was carried out and the following revealed.

(1) A quantity of Allied Foodstuffs
(2) A substantial quantity of Japanese Foodstuffs.

When questioned the 1st. Mate of the ship could not give a suitable explanation regarding the foodstuffs, consequently the ship and it's crew were apprehended and placed under a/of troops from this Det. /guard

A number of arrests were made of persons suspected of black-market dealing in food-stuffs with members of the crew, but after interrogatio were released owing to lack of evidence. Five civilians on board at the time of the raid were released for the same reason . None of the suspects or members of the crew were in possession of more than a few Yen each.

Results of a detailed investigation has led to the following,

(1) All Allied Rations taken off the ship and stored at Barracks of the Det.
(2) Ten days supply of Jap. rations for a crew of seventy four left on the ship.
(3) Remainder of Jap. rations taken off the ship and stored in the Warehouse of the Food Control Board ONOMICHI. These rations will be distributed as a supplementry ration to the populace of ONOMICHI.
(4) The Capt. of the ship SEIGO MAEDA has been apprehended and placed under house arrest on the following charges
  1. Charges preferred by Civil Police.
  2. Omitting to declare Allied Rations left over from a Repat. Voyage at OTAKE on two occassion s in the normal manner.
  During interrogation he admitted the following ,
  (a) That he knew he had to report such stores as soon as possible at the completion of a voyage.
  (b) That he was aware of crew eating Allied Rations which were loaded for use of Repats. only during a voyage.

(5) During interrogation the Chief Steward KUROSHIMA KIYOHARU admitted that,
  (1) The crew were still eating Allied Rations whilst the ship was in ONOMICHI.
  (2) He was in charge of the issue of rations and that he gave Allied Rations to the crew to eat.

The ship TAIAN MARU is due to sail from ONOMICHI for probably KURE on the 27 Sep 46. ~~to~~ where it is anticipated it will be prepared for another Repat. voyage to SINGAPORE.

Attached are statements dealing with case, of which the Japanese originals are being kept on file at this Det. H.Q.

AUSTRALIAN WAR MEMORIAL AWM2020.71.350

To : Lt DAVIES, OC Occupation Forces in ONOMICHI
From : SEIGO MAEDA Captain of the "TAIAN MARU"
Date : 19 Sep 46

STATEMENT BY SEIGO MAEDA

I first joined the TAIAN-MARU as Captain on 24 Dec 45 when this ship was in the dry dock of the HIDACHI Shipbuilding Coy at HABU on INNOSHIMA, MITSUKI-GUN, HIROSHIMA-KEN. Repairs to this ship were finished during the first 10 days of Mar 46. Since then I have been aboard this repatriation ship.

On the first voyage this ship carried 2997 repatriates back to OTAKE from ST JACK, FRENCH INDO-CHINA. On the second voyage the ship called first at KURE from OTAKE. At KURE rations for repatriates and water were loaded on board. Then at MIIKE, KYUSHU fuel coal was taken on board. The ship then sailed for SAIGON but when near SAIGON it was ordered by wireless to head for SINGAPORE. At the Keppel Liaison Office of the Navy Dept of the 10th Local Fleet stationed at SINGAPORE the ship was supplied with foodstuffs, consisting mainly of Occupation Force supplies such as biscuits and operation rations, to be used as rations for the repatriates. At LEMBAN Island this ship loaded on board 3033 repatriates. It returned to OTAKE on 30 Jun 46 where it discharged these repatriates. Then it called again at KURE to prepare for its third voyage and loaded there rations and water just as it had done for the previous voyage. Having loaded coal at MIIKE it set sail for SINGAPORE, where it got the order to transport repatriates to JAPAN from PALEMBAN. It went then to PALEMBAN where it loaded 2420 repatriates on board. It arrived at OTAKE on 9 Sep 46 and the repatriates were disembarked and the inside of the ship was cleaned up. It left OTAKE at 0600 hrs on 12 Sep 46 and berthed at the wharf of No 1 Dock of HIDACHI Shipbuilding Coy at ONOMICHI at 1500 hrs on the same day for repair.

Knowing that some part of the Occupation Force supplies of foodstuffs that had been loaded on board on the previous voyage to feed the repatriates during that voyage were still on board, by the reports supplied by my men in charge, I wanted to return them as soon as possible. As there was very little time at OTAKE I could not carry out the procedure of returning these foodstuffs. I left the ship at ONOMICHI for KOBE on 14 Sep 46 for the purpose of liaison business at KOBE with the Shipping Operation Corporation and my own household affairs, but before I left I ordered my First Mate HINO to collect and store the remainder of the foodstuffs supplied by the Allied Powers under strict control in the store-room and to carry out the correct procedure of returning them through the Repatriation Supervising Official so that they might be duly reported and returned to the Occupation Forces stationed here. Receiving a sudden order to come back to the ship I returned to the ship on 18 Sep 46 and found to my great regret that the procedure for the return of those foodstuffs had not yet been carried out at the time of the inspection by your troops. I am very sorry to be in this plight. I feel full responsibility and great regret as the captain of this ship and highest responsible person. I would like to ask your kind lenience in your treatment of this case.

Anyhow I am very sorry that this case occurred although I had warned my crew against taking out to sell on the black-market any of the stuffs kept on board, even though public morals were degraded, theft cases occurred frequently, peace and public order were disturbed and social conditions generally were chaotic. And yet we were engaged in the honourable transportation of repatriates. I have also told them that we must realise our honour and never take out and sell any of the stuffs kept on board, and if we did we should be severely punished. I have also strictly warned them not to become involved in any crimes at all. Yet, to my great regret, the present case occurred. I tender my sincere apologies.

STATEMENT

(translated by T Yoshioka)

By
NAME : HIDEYUKI NABESHIMA (aged 21 years)
ADDRESS : C/- KIYOJI KITAGAWA, 1881-1 Ozaki-Cho, ONOMICHI
PERMANENT
DOMICILE : 15 Funetri-Cho, HIROSHIMA City

The abovementioned made the following statement voluntarily at the ONOMICHI Police Station on 16 Sep 46.

1. I am Chief of the ONOMICHI Branch Office of the Supply Dept of KURE District Repatriation Bureau. My office is located at 5 Sumiyoshi, Tsuchido-cho, ONOMICHI. I assumed my post as chief of the ONOMICHI Office on 26 Apr of this year. My position is a repatriation official of the No 2 Repatriation Bureau.

2. According to the organisation of the Repatriation Office its Repatriation Headquarters is located in TOKYO Metropolis and belongs directly to Cabinet. In this Headquarters there are No 1 Repatriation Bureau which deals with the business of the repatriation of the former Jap army, and No 2 Repatriation Bureau which deals with that of the former Jap Navy. The KURE District Repatriation Bureau and the ONOMICHI Branch Office of the Supply Dept of the KURE District Repatriation Bureau is to assist the KURE District Repatriation Bureau.

3. My duty as chief of the ONOMICHI Branch Office is mainly to load foodstuffs on board and to receive the remaining foodstuffs for the crew and repatriates by the order of the Supply Department, KURE, whenever repatriation ships come to ONOMICHI Port, and sometimes to send such foodstuffs to KURE or to designated places or to receive them.

4. The TAIAN-MARU which came to ONOMICHI Port on 12 inst had carried repatriates back to JAPAN from SINGAPORE. When it came to ONOMICHI Port all of the repatriates had already disembarked. There were in all 74 of the crew of whom some had gone ashore back to their homes on leave. At about 9 o'clock on the evening of 15 Sep KIYOHARU KUROSHIMA, Chief steward of the TAIAN-MARU came to my home and told me to receive the remainder of the foodstuffs which had been loaded at SINGAPO Therefore some time after 10 o'clock this morning I went to the TAIAN-MARU which had lain at anchor in front of HIDACHI Shipyard in ONOMICHI Port. The reason why I went to the ship was to carry out the procedure of the return of the foodstuuffs, to investigate their quantities, and to negotiate about the future supply. While I was explaining the procedure the Occupation troops came on board and ordered me not to leave the ship As a result, I came now to this Police Station with the Occupation troops.

The remainder of the foodstuffs of which the Steward told me is as follows

(1) More than 20 cans of cheese
(2) More than 5 cases of rayon
(3) One and half bags of sausage
(4) 2 paper boxes of biscuits
(5) 15 or 16 cans of biscuits
(6) About 10 cans of dehydrated vegetables

I have not yet investigated them.

Today I went to the ship for the negotiation of the return of them. This afternoon I wanted to carry out the procedure of the return at the Supply Department, KURE, and to store the stuffs at the ONOMICHI Branch Office. I wanted to dispose of them by the order of the head office at KURE later on.

5. Since I was appointed chief of the ONOMICHI Branch Office, I have once carried out the procedure of the return. It was about in June of this year when the KANTO-MARU came back from SINGAPORE. At that time I received the foodstuffs and stored them in my office and later on by the order of the head office at KURE I sent out some of them and I still keep the remainder. The other day the Occupation troops came and inspected those still stored. This time too for the same purpose I went there today to carry out the procedure.

6. I have no written certificate to prove my position since the end of the War but the Official Gazette which I keep at my home. If you enquire at the Supply Department of the KURE District Repatriation Bur-

THE DEPOSITION

: KUROSHIMA KIYOHARU (38 yrs old), Chief Steward of TAIAN-MARU
Permanent Domicile : 612 KUCHINOTSU, MINAMI-TAKAKI-GUN, NAGASAKI-KEN
Present address: one of the crew of TAIAN-MARU which belongs to TOYO KAIUN COY

We hold the hearing of the above person at ONOMICHI Police Station on 19 Sep 1946.
The report is as follows:

The Deposition

I became the chief steward of TAIAN-MARU on 17 Apr 46. I will answer your questions about the Occupation Force rations and the scraps remaining from meals. The Chief Purser, YOSHIYE YOKICHI, 28 years old, was in charge of Occupation Force rations. So I suppose that all the rations had been supplied by the Paymaster of Japanese Army in SINGAPORE through our Chief Purser's hand. It was done in the last part of June of this year. The rations can feed 3000 repatriates for 3 to 5 days.

After we finished loading the rations into our ship we moved to LEMPAN Island and took 3000 repatriates on , on 26 Aug 1946. After 13 days trip our ship arrived on 1 July at the Port of OTAKE, HIROSHIMA-KEN, and all of the repatriates were landed.

We departed on our second trip on 8 July from KURE and went to MIIKE in KYUSYU. We left there on 30 July and got to SINGPAORE on 14 Aug and took 2500 repatriates on at PALEMBAN Island. On 9 Sep we came back to OTAKE and landed all the repatriates there. On 11 Sep we left OTAKE and got to ONOMICHI on 13 Sep.

We had the rations which had been supplemented from the Paymaster of Japanese Army, in the warehouse of TAIAN-MARU, as follows:

Rations	6 boxes
Biscuits	7 or 8 (wooden) boxes
Biscuits	2 (paper) boxes
Cheese	24 or 25 cans
Dry potatoes	About 8 boxes
Emergency rations	2 cases
Others	small number

All the above rations were in the warehouse of the TAIAN-MARU. No-one has touched them.

When I was in the ship, on 14 Sep before noon, I had a sudden visitor. I knew neither his name nor face. The visitor proposed to me that I sell any remaining scraps of meals on TAIAN-MARU. I told him to come and see me at my temporary residence in ONOMICHI. Later I found that the visitor's name was HONDA. He stayed in the ship until around 5 o'clock. Later I left the ship with HONDA. At that time HONDA promised me he would come and take me to his friends, named YOSHI about 7 o'clock in the evening. At 7 o'clock I went with HONDA down to YOSHII's. I met one of the Managers of the Iceworks, whose name I didn't know, in his house. They served me with a sake. After that the Manager of the Iceworks introduced me to an official of the Repatriation Bureau, named NABESHIMA. I told NABESHIMA we had some rations of the Occupation Force in our ship and we don't know how to manage with them. NABESHIMA suggested that the Icesworks' warehouse be permitted to have custody of the rations. I agreed with NABESHIMA's suggestion and we came to an arrangement over the selling price for the scraps remaining from meals, as 3.7 kg for 45 yen. We had about 740 kg meal scraps in our ship. As for the selling of meal scraps it might be against the food-control laws but YOSHII said that he would find out about that regulation at the Police Station. If it is not against the regulation it will be a great help for the Ice-works' workers, YOSHII said.

On 15 Sep about 7 a.m. HONDA came back with me to TAIAN-MARU and started to prepare for unloading the scraps remaining from the meals. We got permission to unload these things from the First Mate. I do not know the First Mate's name. But he has been worrying about the rations of the Occupation Force. Then went to see the Superintendent in the Shipyard and he came back and said "we will shift those rations to the superintendent's room." At that moment I was checking the rations myself.

AUSTRALIAN WAR MEMORIAL AWM2020.71.350

About 9 o'clock NABESHIMA came up to the ship, and said ~~xxx~~ "No permission is needed to shift the rations. Just carry them out and send them to the iceworks/warehouse as I said last night". Then I started carrying out the rations from a hold. At that moment I saw some Occupation Force soldiers coming up towards the ship, and I promptly put them back in the hold. While I was carrying out the rations from the hold there were four persons around, namely HONDA, YOSHII, NABESHIMA and another unknown to me. But when Occupation soldiers came up to the ship only two of these were still around, namely YOSHII and NABESHIMA.

These are all the details I can give you since I have been here.

I can say that I did not remove or sell any part of the Occupation Force rations from TAIAN-MARU. All the food and rations that were left over are in the ship's hold of TAIAN-MARU.

We have about 80 men in the crew of TAIAN-MARU. If any of the crew have rations in their hands, or have been selling rations, it might have been their own food. Because we get a ration during the voyage.

Our ship has called at OTAKE, KURE and MIIKE, since she started on repatriation work. During all that period we never took off or sold any Occupation Force rations. All of those things are in the hold of TAIAN-MARU.

I put my finger-print to certify the above is my deposition.

Acting on information received from a Japanese employee of this Det, a small storehouse at Honichi, Nuta-Higashi, Tayota-Gun was searched and the following information is reported:-

1. Ref of storehouse - ONOMICHI 80132606

2. Route through MIHARA via main road - bridge 80442598 - road junction 80332601 - road junction 80262594 - road junction 80142593 thence north is open to 3-ton traffic, whilst route road junction 80332601 - road junction 80132608 is jeepable.

3. Storehouse contains approx 450 cases of Japanese army signal equipment consisting mainly of transmitters, receivers, generators, R.D.F. sets and radio valves. An accurate invenbory is now being prepared.

4. The storehouse belongs to NOJI JIKKO KUMIAI (Agricultural Affairs Executive). Acting on information given by IKEMOTO TOKUICHI, Presiden of the above Executive, KOHARA, wireless operator at Mihara Police Station was interrogated at Mihara and revealed the following facts:-
(a) Between 1 Sep and 5 Sep 45 he received a phone message from TADANOUMI ARSENAL informing him that Japanese army equipment formerly held by Tadanoumi Arsenal was to be divided, under supervision of HANAMOTO of Kure Police Station, between the Prefectural Office, Government Railways and Ministry of Communications. He was instructed to take over certain equipment on behalf of the Police Affairs Sectio Police Department, Prefectural Office.
(b) The stores mentioned above were prevbously located in three separate dumps in the Honichi area, and, under his instructions, they were concentrated in the Noji Jikko storehouse.
(c) Since that time he has visited the storehouse on several occasions for the purpose of inspecting the stores and paying storage charges with funds supplied by the Police Affairs Section.
(d) About two months ago ISAMU NODA, Communication Engineer of Material Investigation Section, Rehabilitation Department, Hiroshima Communication Bureau, visited Mihara and inspected all such stores.
(e) Kohara disclosed that two further stores of similar materials were located in the area at the following addresses:-
i. Ref ONOMICHI 80772613, Store, Owner HANAOKA R., MIHARA
ii. Ref TAKEHARA Sq.796262, Shimo Kitakata Mura, Toyota Gun; Tobacco Drying Warehouse, Owner - KAZUICHI OTA
(f) Kohara originally had complete inventories of all stores in thes storehouses but has since lost same. He understands that duplicate copies are held at the Police Affairs Section.
(g) Storehouses at Honichi and Mihara have been placed under police guard and complete inventories are being prepared. As the Shimo Kitakata Mura storehouse is a considerable distance outside the Det area, no action has been taken in that case.

On 28 Sep 46 storehouse at SHIMO KITAKATA MURA, Toyota Gun, ref TAKEHARA 79652623, tobacco drying barn of Kazuichi Ota, was investigated by a party from this Det.

This is the storehouse referred to in report dated 25 Sep 46.

The barn contains a considerable amount of Japanese army signal stores of the same type as those reported in the abovementioned report. These stores were originally stored in two such barnes, but approx six weeks ago they were concentrated in the one referred to under supervision of MATSUYA TERUO, police officer at KAMI KITAKATA MURA. In this rearrangement, stores were stacked very carelessly, many cases being broken open. This confusion made it impossible for an accurate inventory to be made in the time available. However, the barn was securely closed and HONGO police instructed to place a guard over it.

DRAFT OF DECLARATION AND SLOGANS OF THE INTERNATIONAL FREEDOM UNION

World War II was a great calamity to mankind. In order not to repeat this kind of calamity again, every nation and every race must denounce crazy national and racial beliefs and must cooperate in the construction of a free international united society with no thought of exploitation and domination. How can we prevent war forever? It was farmers and labourers who actually killed each other with guns, but they have never wanted war. In victorious countries as well as in defeated countries it is always farmers and labourers themselves who fall victims to the disasters of war.

It is narrow-minded patriotism, racial egoism and ambiti and the scheming of the minor ruling classes which urge labourers farmers to the battle front. The true cause, however, is the capitalistic economic system itself which seeks profits. However democratically the constitution and the political system might be changed, it would be a guarantee of true peace. Democratic economi revolution only could be the true foundation of world peace.

International cooperation of labourers and farmers and a common united front against the common enemy can ensure peace. We cannot but pay attention to the delicate international position in which we East Asiatic races will be put after the war. We must no be taken advantage of by either side of the two gigantic international influences and their ideologies which confront one anothe Labourers and farmers have neither racial nor ideological fatherland. The fatherland of labourers and farmers is their own society not divided by any earthly demarkation.

Labourers and farmers of the world, unite!

The domination of the intermediary class and the totalitarian bureaucratic system are none the less our enemies tha the world-wide bourgeois system.

Realising again that the emancipation of labourers is the labourers' own duty, we dedicate our service towards the emancipation and world peace in our common fight, irrecpective of demarkation and racial discrimination.

THE INTERNATIONAL FREEDOM UNION

29 Sep 46.

SLOGANS OF THE INTERNATIONAL FREEDOM UNION

1. We desire the realisation of world-wide (international) free united society without exploitation, domination, and racial discrimation.

2. Though every race is free to have its own autonomous common society, its first principal shall be the ideology of the world-wide free united society, renouncing any earthly demarkation.

3. We believe that only a united front of labourers and farmers irrespective of racial and national demarkation will make our emancipation possible.

NARRATIVE for OCTOBER 1946

ORIGINAL ~~DUPLICATE~~

In early October the Squadron was advised that its new barracks at present under construction in an area abutting on the site of 34 Australian Infantry Brigade Headquarters at HIRO would not be ready for occupancy until 28 February 1947 at the earliest. This meantthat we should probably continue to occupy our present barracks throughout the winter months and it therefore behoved us to improve them to the maximum degree possible in anticipation of a more rigorous winter than most of us had yet experienced. Moreover while the barracks of 65 Australian Infantry Battalion were building at Fukuyama we were constrained to share our barracks with one company of that unit. D Company took over one complete building on 1 October, making it necessary to use the upper floors of two buildings to quarter the troops, a practice that previously had been avoided to reduce the fire hazard.

During the month therefore much attention was given to weatherproofing the barracks and generally making them more habitable. Unfortunately the dearth of piping nullified our efforts to have the sleeping quarters steam-heated, while the use of electrical heating appliances, not less than coal or oil fires had to be prohibited because of the fire risk. In this connection it must be mentioned that, profiting by the disagreeable experiences of several units in the Force who had already lost their barracks by fire, the Brigade ran a fire-fighting school, of which Course 2 was attended by a Sergeant and three other ranks of this unit. Upon their completion of this course these men were used in the unit to raise the level of efficiency of the fire picquets, who were required to do half-an-hour's fire drill daily. Further the fire-fighting appliances were meticulously inspected daily to ensure that they could be operated instantly to good effect. On the evening of 10 October the Squadron fire picquet went to the assistance of personnel fighting a fire in 66 Australian Infantry Battalion area. This fire was localised but the building and all its contents were destroyed.

In general it was a fairly quiet month, a period of settling down after detached sections of the Squadron had been brought back within the fold. Very appropriately the barrack square again came into prominence, parades for personal inspection followed by squad drill occupying the first work periods of each day. The second half of the morning was then devoted to vehicle maintenance, or an occasional Section exercise, in which the six Staghound Armoured cars of the particular Section would move to some accessible area and return after lunch.

With the opening of more resorts in the U.S. Zone of Occupation holiday leave was granted on a more liberal basis than had previously been practicable, and the tonic effect of such periods of leave in very congenial centreswas attested to by the fortunate ones. In addition the reciprocal leave scheme by which parties were exchanged for a 4-day period between ourselves and the Royal Australian Air Force Station at Bofu, in Yamaguchi Prefecture, continued in effect. Two officers and 21 other ranks visited Bofu in this way, while we entertained about as many Air Force fellows at Hiro. The following table shows the amount of holiday leave granted and where spent during October:

BOFU (4 days)	TOKYO (6 days)	NIKKO (6 days)	KYOTO (6 days)
2 Offrs 21 ORs	4 ORs	1 OR	2 Officers (1 3 days) 3 ORs

KOBE (4 days)	KOCHI (4 days)
1 Officer	2 ORs

On the afternoon of 31 October an armoured car exercise arranged as an added interest for our Air Force visitors, who were carried in the vehicles where there were crew vacancies, produced a tragic result . Two of the vehicles overturned between Saka and Yano on the Kure - Hiroshima road, one of our members being killed instantly and seven injured, and a Leading Aircraftman injured so seriously that he died while being taken to hospital. The vehicles were the second and fifth respectively in a column of six and the accidents were quite unrelated, occurring nearly a mile apart. The co-incidence was quite remarkable for the accidents occurred nearly simultaneously and the manner of occurrence was almost identical.

AUSTRALIAN WAR MEMORIAL AWM2020.71.350

Six of those who were evacuated to the Dressing Station suffered only minor injuries and returned to the unit the next day. Both of the vehicles were recovered with the aid of the L.A.D. wrecker. The same part of the steering mechanism was broken in each case but repairs were within the scope of 348 Australian L.A.D.

The funeral of Trooper Leslie Maxwell Little on 2 November was an impressively solemn affair. The coffin draped with a Union Jack and a black beret in the centre as a symbol of the Armoured Corps was borne on an armoured car from the Brigade chapel at Hiro to the Force Temporary Cemetery on a hillside above Yoshiura, overlooking the beautiful Inland Sea of Japan. Here the graveside service was conducted by Padre Winn. A firing party paid the last compliment to our departed comrade. Leading Aircraftman Edlund's remains were buried in the next grave later that afternoon, the service being attended by many members of the Squadron.

On the morrow of the accident the Commander of 34 Australian Infantry Brigade, Brigadier Hopkins, appointed a Court of Enquiry to investigate all circumstances surrounding them. The Court consisted of Capt Hogan, of 66 Australian Infantry Battalion, as President and Lt A G McGann of this Squadron as assisting member.

SCHOOLS & COURSES

Two NCOs who had been selected provisionally for OCTU courses in Australia were given the advantage of a course lasting one month at the Brindiv Divisional Infantry School at Matsuyama, on Shikoku Island, beginning 14 October.

Two more students were sent to the Brigade NCO Training Cadre at Kaidaichi for Course No 4, duration one month, commencing 14 October.

During the month one driver attended the Brigade MT Maintenance School at Hiro, being placed first at the end of the fortnight's course.

The Brigade Fire-fighting School has already been mentioned. It was attended by 2 NCOs and 2 other ranks from this unit.

MEDICAL

The onset of cooler weather was reflected in an upward trend in the number of cases treated by the Squadron Aid Post. In the following table the high figure for injuries in the week ending 1 November is mainly due to the accidents to two armoured cars.

Week end	All diseases	Diarr	U.R.T.I.	P.U.O.	Skin	V.D.	Ear	Infect	Others	Injuries
4 Oct 46	21				2				19

1 Nov 46	34				1		1		32	10
Total	114	Nil	2	Nil	3	4	2		103	10

Evacuations to hospital totalled 23 of whom 16 were for the week ending 1 November.

SPORTING

The beginning of the month marked the opening of the Winter Sports season for which our lads had been in training throughout the previous month, to be ready for what promised to be a solidly contested season with plenty of thrills for the spectators.

A meeting of Rugby League players was held on 2 October which elected an Organising and Selection Committee consisting of Troopers Gosson, McLennan and Mitchell, whilst Trooper Ritchie and Corporal Clabby were elected Captain and Vice-Captain respectively. Trooper Berry as previously offered his services as masseur and storeman.

After solid training each day we played our first game of the season against 14 Aust Works & Parks on the Kaidaichi ground -- unfortunately no softer than last season -- and after a rather hard game defeated them 6 - 3. The second game, against 66 Aust Inf Bn and played on their home ground, resulted in a win for the Battalion final scores being 12 - 10. This was a highly entertaining game from start to finish with the play swinging from one end to the other and both teams playing their hardest.

AUSTRALIAN WAR MEMORIAL AWM2020.71.350

28 Aust Fd Coy, our next opponents, gave us our greatest scare to date. With only 20 minutes to go and the score at 8 - 0 in favour of the Engineers we thought that we had little hope against this team with whom we fought several hard battles last season. The Cars evidently decided it was time to get cracking for in the next 15 minutes Appleton, Collins and Ritchie each scored a try, these three tries being converted by the excellent kicking of the Captain "Spike" Ritchie, and we retained the lead in the last few minutes to win 15 - 8.

The team we fielded for our next game, against last season's unbeaten premiers 65 Aust Inf Bn, was without four of our regular players, all hospital casualties through injuries received in the previous matches. As a result of these injuries and another suffered only 5 minutes after the start, we were overwhelmed by the opposition and went down 28 - 0.

In mid-October a meeting of Australian Rules Footballers was attended by 32 players all eager for a place in the team. Election of a Committee comprising Troopers Doodt and Peat and Corporal Anthoney resulted from the meeting which also elected Trooper Barby as Captain, Trooper McLaine as Vice-Captain. Corporal Anthony, an old Victorian League player, took charge of training and has the team really fit to play its first match on 1 November.

Meanwhile Hockey was coming into favour with an increasing number of men in the Squadron. After several practice games Trooper Hosking was elected Captain, Trooper Jackson Vice-Captain and a Committee of Selectors set up constituted of Craftsman Pengilly, Troopers Simpson and Soames. Major Ives, himself a player, has taken a keen interest in the game and has had the parade ground converted to an excellent playing-field, on which half of the competition games are played.

On 19 October we played our first Competition game against the B Team of 65 Aust Inf Bn. The final score of 5 - 2 gives no fair indication of the game and for our young team it provided good practice in team-work. In our second game, against 169 Aust Gen Tpt Coy, one of the best teams in the Competition, the final score was 7 - 0 in favour of our opponents.

The players are undaunted by these initial defeats, realise they are only new to the game and under the coaching of Major Ives are confident of improving their play in time to be "in it" at the final of the season.

Basketball, particularly inter-troop, remained popular and there are few indeed in the Squadron who have not participated in this sport. The Committee, composed of Trooper Russell, Sergeant Badcock and Trooper Burke have enthusiastically watched all games in their unenviable task of choosing a team.

It is unfortunate that all Competition games are played at night in the Kaidaichi area, which necessitates a 20-mile road by truck on these cold nights of late autumn. We have fielded a team in all games to date without managing to win, but are still confident that it will not be long before we do so.

On a chilly afternoon early in October the finals of the Brigade Swimming Championships were fought out in an Olympic-type pool at Hiroshima. Our boys had done well in the heats contested a few days before and we were thus represented in all the main events. But it was not so much individual feats as the excellent team-work manifested by the Squadron swimmers that nearly won us the day. "Blue" McLennan was placed 2nd in the 50 Metres Freestyle, while Trooper Kean in the 50 Metres Breaststroke and Corporal "Jerry" Molle in the 200 Metres Freestyle respectively filled the 2nd position. However victories for the cars in the closely-contested Relay Races the 400 Metres (8 men) and 300 Metres Medley (6 men) brought us most of our points and at the end of the day we were only 2 points behind the winners, 28 Aust Fd Coy who had scored 29 points. An interesting feature of the day was that throughout the afternoon the issue was between the smaller units of the Brigade, for despite the presence of several powerful individual representatives of the Battalions they never looked like challenging the early lead gained by the Fd Coy, Bde HQ and the Cars.

AUSTRALIAN WAR MEMORIAL AWM2020.71.350

3. ARMY SCHOOL OF INFANTRY

Conditions applicable to applicants for attendance at Army Schools of Infantry are available at SHQ.
Applications are sought from members of the AMF who are medically fit Classification A1 and are:

(a) Temporary Warrant Officers AIC under 40 years for confirmation of rank.
(b) Other PMF (enlisted prior 6 Oct 39) under 38 years of age who are desirous of qualifying as Warrant Officers AIC for post war PMF.
(c) Non PMF under 30 years of age desirous of serving as Warrant Officers in post war PMF.

Any additional information such as qualifications etc are available on enquiries at Sqn Orderly Room.

4. FOOD FROM LOCAL SOURCES (Republished FRO 93)

It is the policy of the Occupation Forces to make provision for all its own requirements of food and not to acquire any food whatsoever from local sources. Local procurement of food depletes the food resources available to the inhabitants of Japan. Members of the British Commonwealth Occupation Force therefore will not purchase or otherwise obtain, receive, possess or consume any foodstuffs of any description from local sources. All infringements of this order will be dealt with severely.

5. LOSS OF CLOTHING

Cases are being reported of personnel losing clothing and equipment from barrack rooms.
Losses of such clothing and equipment is the individual responsibility of the soldier to whom the clothing is issued. Such losses will only be replaced by a stoppage being debited in the members paybook.

6. VEHICULAR PASSENGERS - JAPANESE WOMEN (Republished FRO 185)

Under no circumstances will Japanese women be permitted to enter or travel in BCOF vehicles unless they are employed as civilian labour by BCOF and are engaged in or being transported to such work at the time they are being carried in military vehicles. Japanese women will not be carried in staff cars. Japanese women will not be carried in the front seats of vehicles and may only be carried in the back seats of jeeps as single passengers or with other Japanese nationals and in this event the trip will be authorised by an officer who will endorse the work ticket. Women so carried will at all times be in possession of the authorised BCOF official pass, and the senior BCOF member in the vehicle will be responsible to ensure that persons so concerned ARE IN POSSESSION OF SUCH PASSES.

7. CLASSIFICATION OF VENEREAL DISEASE (Republished 34 Aust Inf Bde RO319)

Following promulgation of FRO serial 14 of 5 Jun 191-194 queries have been received as to what exactly constitutes "Venereal Disease". For all purposes the following diagnoses are to be regarded as Venereal:-

Chancroid
Granuloma Venereum
Gonorrhoea
Lymphogranuloma Inguinale
Nonspecific Urethritis
Syphilis
Urethritis (unless "Non Venereal" is specified)
Venereal Sore (VS) NYD

Cases of lice, scabies, Vincents Agina will NOT be regarded as Venereal Disease.

2. GUARDS AND SENTRIES(Republished FRO 62)

If a guard or sentry in the exercise of his duty finds it necessary to fire, he will aim to hit. He will NOT fire over the head or deliberately wide of his target.

3. TRANSPORT - JAPANESE LABOURERS(Republished 34 Aust Inf Bde RO245)

Several instances have been observed where Japanese labour is being transported in MT loaded on a British tp carrying scale. In view of the heavy demands on transport, this uneconomical method will cease and at least 40 Japanese will be carried in a 2½ or 3 ton vehicle. The Japanese standard is 48 per vehicle.

4. HATS FUR FELT.

It is pointed out that Hats Khaki Fur were carried in bulk to Japan in an endeavour to preserve the life of hats on issue to personnel. The correct method of denting the hat is not as is seen in the Sqn Barrack Room. The dent in the hat will be a straight dent from front to rear and NO artificial means will be used to pin the inside of the crown together. Hats will be reblocked and then redented in accordance with this instruction. Any disobediance of this instruction will be dealt with severely.

5. SQN BUGLERS

A vacancy exists within the Sqn for two personnel to be trained as buglers. Personnel desirous of availing themselves of this opportunity should hand their names into SHQ by 1800 hrs 10 Oct.

AUSTRALIAN WAR MEMORIAL AWM2020.71.350

6. SALE BARTER AND GIFTS OF PROPERTY (Republished 34 Aust Inf Bde RO136)

AUSTRALIAN WAR MEMORIAL AWM2020.71.350

4. PUBLIC DISPLAY OF AFFECTION(Republished HQ 34 Aust Inf Bde memo AG868)

The question of fraternization has never been raised officially in the occupation forces in Japan. However, public displays of affection by men in uniform towards the women of any nation are in poor taste. Particularly is this so in Japan among those who were so recently our enemies and where the people have never been accustomed to such demonstrations. The sight of our soldiers walking along the streets with their arms around Japanese girls is equally repugnant to people at home and to those in the occupation areas as well as to most Japanese. Such action in public is prejudicial to good order and military discipline and will be treated as disorderly conduct. Military police will return offenders to their unit lines and submit a report through normal channels to the unit commander for disciplinary action.

5. FRATERNISATION - PLAYING OF GAMES

(a) Playing of games with Japanese is prohibited.

(b) PERSONAL INSTRUCTION FROM COMMANDER -IN-CHIEF BCOF TO ALL RANKS OF BCOF CONCERNING FRATERNISATION(Republished FRO serial 5)

Fraternisation is one of the most difficult problems with which we shall be faced. I consider that it is quite impracticable to issue stringent orders defining what is to be done in an infinite variety of possible contingencies. My policy regarding fraternisation can best be stated in the following terms:-

Every member of the BCOF must bear in mind that he is present in Japan in a dual capacity. You are not only a sailor, a soldier or an airman. You are also a representative of the British Commonwealth of Nations and all that stands for in the world. In dealing with the Japanese you are dealing with a conquered enemy who has, by making war against us, caused deep suffering and loss in many thousands of homes throughout the British Empire. Your relations with this defeated enemy must be guided largely by your own individual good judgment and your sense of discipline. You must be formal and correct. You must not enter their houses or take part in their family life. Your unofficial dealings with the Japanese must be kept to a minimum. You must obey strictly all instructions regarding establishments or areas which are placed out of bounds to personnel forming part of BCOF. Above all you must remember the dual capacity in which you came to Japan and, beyond that, the fact that the eyes of the Japanese and of our Allies and, indeed, of the world will be watching you. Much depends on your conduct and on your bearing. Be sure that they remain formal and that they are in keeping with the dignity and courtesy which are part of our common heritage and tradition.

4. PMF - (SERVICE IN AUST)

It is considered probable that a proportion of present members of the AMF component of BCOF who are unwilling to serve a second term in Japan would be willing to serve in Aust following leave and replacement. Those so elected, where possible would be posted to their own states.
Personnel so interested are requested to submit applications to their Troop Leaders (quoting this RO)
Applications should reach Troop Leaders in sufficient time to allow Troop Ldrs to lodge applications with this HQ by 22 Nov 46.

5. DISCIPLINE - BARRACKS CLEANLINESS

Daily inspections of barracks reveal that rubbish is being thrown into small containers and in one case a 44 gal container was being used for this purpose. Disciplinary action will be taken in future against offenders.

NOTICES continued.

To Members of the Aust Armd Corps Assoc:

Victorian Members of the Assoc have just received a newsletter published by their State Branch which included a letter from Japan about the doings of this unit. It is generally felt that this letter was not"newsy" enough, that more space should be given over to personalities and amusing incidents involving members of the Sqn.

This is where you can help. Why not make a note of such incidents at the time they occur and pass on the "guts" to the Sqn Int Office for inclusion in the next letter. Remember, in this way you can get a story across to dozens of old mates of the old "Armd Div" days, to whom you have not the time to write individually. Why not use this means to pass a message to old friends now in Civvy Street, mentioning their name and your own?

Don't be bashful. Give us a paragraph that will remind your cobbers to drink your health down in the old "Black Stump" at Oodnawoop.

2. UNIT CANTEEN ISSUES

Issue of dry goods and beer tickets will be made at the canteen at 1600 hrs on the day stocks are received from Bulk Canteen. As unit buying day is usually Tuesday this alteration in times will commence 29 Oct. By so doing it is hoped to eliminate long waiting periods during drinking hours.

3. RE-ENGAGEMENT SERVICE IN JAPAN

Period of service in Japan for both re-engagement and new enlistments has been reduced to a minimum of 15 months and a maximum of 20 months. This does not include time spent in travelling to and from Japan. This reduction will apply to personnel who have already volunteered for a second term in Japan and it is not necessary for these personnel to alter the time on their present application as such applications will be deemed to be for the reduced periods.

4. CHRISTMAS CARDS.

Christmas cards are being made available through Canteen Services early in November. They are of two types:

1 (a) BCOF Cards - the design of which was submitted by 34 Aust Inf Bde.
(b) Cards of varying designs including Japanese scenes.

2. The BCOF cards are obtainable through Canteen Services in minimum lots of 500.

3. The printing of unit designations on the BCOF cards can be arranged at small cost, though as yet the prices of the cards are not available.

4. Personnel desiring either types of cards are requested to submit requirements to Section Leaders in sufficient time to allow Section Ldrs to lodge applications to SHQ by 301800I Applications should should show:

Army No, Rank, Name Type (a) (b) Quantity required.

5. JUDO CLASSES

Services of a trained Judo Instructor have been obtained by 34 Aust Inf Bde who intends to conduct courses of 8 weeks duration of three 2 hourly periods per week.
Personnel interested, who have not submitted names to Section Leaders are required to do so at an early date.

6. LEAVE IN JAPAN - TOKYO (Republished 34 Aust Inf Bde : AG4332)

A suitable building for an ORs club has been procured and it is hoped to get this club operating in Nov.
The Tokyo leave hostel is now accomodating 90 personnel on leave. Unfortunately it has not been possible to give midday meals at EMPIRE HOUSE, but an attractive cut lunch is being provided. When the club opensmen will be able to get their midday meal at the club.
A procurement demand has been submitted for the use of buses to be supplied by a Japanese Bus Company for the use of leave personnel. This will solve the present shortage of transport.
A picture theatre has been procured in Tokyo and it is hoped to have it functioning on 12 Oct 46.
A special issue of 50 cigarettes is being made to each person free during his stay in Tokyo.
