271. STATIONERY-ECONOMY IN STATIONERY ITEMS

1. Considerable difficulty is being experienced in the procurement of adequate supplies of certain stationery items-and in particular all types of pencils and the larger sizes of envelopes.

2. It is imperative, therefore, that the strictest economy be effected in the use of stationery items generally, and that present stocks of pencils and large envelopes be conserved to the utmost.

3. It is apparent from the large demands made upon Stationery Depots, that there is an exorbitant usage rate in a number of items, which indicates that the need for economy in this regard is not appreciated. This again applies very seriously in the case of pencils.

272. LOSSES OF CLOTHING, EQUIPMENT OR STORES.

All losses of clothing, Equipment or Stores by personnel stationed in this Depot MUST be reported verbally to the Adjutant or Orderly Officer immediately the loss is discovered.

280. WASHING OF ISSUE CLOTHING.

1. Due to the short supply of all raw materials involved, it is necessary that the maximum life be obtained from all items of clothing on issue to AMF personnel.

2. Incorrect methods of washing, exposure to strong sunlight excessive sweating and using too much of certain soap powders, may seriously affect the dyes and weaken the fibre of clothing material. Failure to remove completely all soap and perspiration by thoroughly rinsing after washing is one of the reasons for the breakdown of fabrics.

3. Neglect to pay due attention to regular and efficient washing of garments has been responsible for many cases of dermatitis. Observance of the following instructions will assist in decreasing the incidence of all skin complaints.

4. Washing flannels and woollens-

(a) Worsted shirts, socks, woollen drawers, etc, should be washed in lukewarm water and never in boiling or hot water, as this shrinks the material. A tablespoonful of ammonia added to every two gallons of water will remove grease perspiration stains.

(b) Good quality yellow soap only should be used, and, after washing the garments should be well rinsed in clean, tepid water and stretched by hand before drying.

5. Washing of cottons-

(a) If cotton garments are boiled, the washing compound or soap will be added to the water prior to putting in the garments to be washed;

/OVER

AUSTRALIAN WAR MEMORIAL AWM2020.71.3700

(b) If washing compounds, which are usually sold in packets under well-known brands and frequently known as soap powders, are used, not more than one tablespoonful of the compound will be added to each gallon of water to be boiled;

(c) If ordinary soap is used, 1-oz (approx a 1-in cube) should be added to each gallon of water to be boiled;

(d) It is most important that, after washing, the garments are thoroughly rinsed to remove all trace of soap.

6. It is realized that washing facilities and an adequate supply of water are not always available. Nevertheless, the hints and instructions contained in this order will be carried out whenever possible, especially in regard to rinsing thoroughly after washing.

NOTICES:

REQUEST HOUR: Will be held in the Adjutant's Office at 1900 hours on Tuesday 17 Apr 45.

GIFT PARCELS FOR UNITED KINGDOM ADDRESSEES-DUTY FREE CONCESSION

1. The conditions of the concession announced in the Notice appearing in GROs dated 20th October, 1944, pages 26 and 27, under which members of the AMF and of the British Army serving in Australia and in other places within the SWPA are permitted to send to their relatives and friends in the United Kingdom anmaximum of four gift parcels per year, duty free, have been amended. The notice is, therefore, cancelled.

2. The following are the conditions applicable as from 6th April, 45:-

(a) The usual postage rates are payable.

(b) Parcels must not weigh more than 5 lbs. each and must not include-

(i) any drinkable spirits;

(ii) more than ½ lb. weight of tobacco, including cigars and cigarettes (50 cigard or 200 cigarettes) or any tobacco goods marked "H.M. Ships only".

/ OVER

AUSTRALIAN WAR MEMORIAL AWM2020.71.3700

(iii) more than ½ pint of scent;

(iv) more than 2 lbs. of any one foodstuff.

(c) The maximum value of the contents of parcels which can be sent by one person in any one year is £12, and this value may be made up as follows:-

(i) one parcel of £12 value; or

(ii) two or more parcels up to a maximum of six parcels aggregating £12 value.

(d) Special Customs declarations (AFs W5192) must be affixed to all parcels in order to secure the duty free concession. These declarations, where not already in possession of units, are obtainable through normal stationery channels.

(e) Issues to personnel will be under unit arrangements, on the basis of a maximum of six AFs W5192 per year to any one sender. A comparatively few forms should, therefore, suffice for the needs of any unit.

(f) Each Af W5192 issued will have entered upon it the sender's number and name and be signed by the issuing officer in the space provided.

(g) Each Customs declaration represents a permissible value of £2 within the parcel to which it is attached.

(h) Where the value of the contents in any one parcel exceeds £2, a further declaration for each additional £2 (or fraction thereof), up to the maximum of £12 must be attached, e.g., a parcel containing goods to the declared value of £6 would require three labels attached.

(i) Gifts under this concession arrangement may also be forwarded by letter post. In such cases normal letter postage rates will be payable and if the sender so desires, the article may be tendered for transmission by registered post. To be eligible for the concession, articles forwarded by letter post must conform to the same conditions as those set out above for parcels, with the exception that the maximum weight for letters (4½ lbs.) will apply.

3. It is stressed that full duty will be levied in the United Kingdom (for collection from the addressees) in respect of the contents of parcels and packets which infringe the restrictions contained in para 2 (b) above. APPENDIX "A"

AUSTRALIAN MILITARY FORCES

Office of the Engineer in Chief.

Headquarters
Victoria Barracks
MELBOURNE, S. C. 1

POTENTIAL OFFICERS - RAE

1. The Corps of RAE requires 80-90 new officers per half year to maintain it at officer strength.

There are not sufficient candidates offering who are able to qualify at the present p/o course, which is intended to produce officers competent, technically, to fill any RAE posting.

2. The deficiency must be made good and to this end it is proposed to run alternative types of p/o courses designed to produce officers for limited employment in RAE. These will probably be:-

(a) Mech Eqpt P/O Course.

Proposed syllabus of instruction:-

8 weeks basic instruction "A" & "Q", organisation, reports writing etc.
5 weeks practical mech eqpt operation and maintenance
4 weeks E & M workshop practice etc.
6 weeks survey, design and construction road, airfields and earthworks generally.

(b) Wksp Pl P/O Course

Proposed syllabus of instruction:-

10 weeks basic instruction including br maintenance.
13 weeks E & M Wing with emphasis on workshop work.

There should be men capable of qualifying on these courses who have been passed over previously on account of lack of sufficient basic technical training.

3. A recent survey by "A" Br (LHQ 33157 of 9 Mar 45 refers) of RAE personnel who have appeared before officer pre-selection boards and who have been graded "A" "B" or "C" by LHQ Board or "A" by a local board, discloses the following numbers who have not yet attended pre-OCTU and OCTU courses:-

First Aust Army	(returns incomplete)	2
Second " "		6
1 Aust Corps		33
NSW L of C Area		4
	TOTAL	45

4. Will you, therefore, revies your resources of potential candidates (excluding those referred to in para 3) for each type of course and advise the maximum number per half year which you estimate could be found, bearing in mind that they will still be required to be graded "A" by a local officer pre-selection board. Also please indicate for which type of course, including the normal p/o course, you consider those referred to in para 3 would be best suited giving approximate numbers for each type.

1. Attention is again directed to the necessity for strict compliance with GRO 10/45.

2. Marks must be clear and legible and care [illegible]ll be taken that old marks (if any) are removed.

3. Laxity in marking is regarded as a factor contributing in a high degree to wrong delivery of stores at destination to depots, etc, other than those of Service for which they were consigned. Apart from the mischief arising from the failure to arrive of stores urgently required, claims that such stores were short shipped or were pilfered ensue. Such claims require immediate investigation involving expense and a waste of time for all concerned.

4. When marking is not considered to be satisfactory, Movement Control may direct that packages tendered for shipment be rejected.

NOTICE:

ALLOTMENT AND DEPENDANTS ALLOWANCE PAYABLE OUTSIDE AUSTRALIA

With the approval of the prescribed authority under War Financial (Military Forces) Regulations, a member may make an allotment to a person resident in any country outside Australia. Where the allottee resides in an enemy or enemy occupied country, the allotment may be dated back to 25th August, 1944, provided that this does not place the member's pay account in debit.

2. Where a member has made an allotment of not less than the standard rate, dependants allowance will be payable, in accordance with War Financial Regulations –

(a) where the allotment is payable in a country forming part of the sterling area – to any person dependent on the member; or

(b) where the allottee resides in a country other than a country included in the sterling area – to the wife or children of the member and not to any other dependant.

AUSTRALIAN WAR MEMORIAL AWM2020.71.3700

3. If the allottee resides in a country where it is not possible to effect payment of allotment and dependants allowances, either because of the conditions set out in National Security (Exchange Control) Regulations or for any other reason, the amount of such allotment and dependants allowance will be held in trust until payment becomes practicable. A member may cancel such an allotment at any time before payment is actually made to his allottee and, in that case, the accumulated amount of the allotment will be credited to his pay account. In such circumstances, no dependants allowancewill be payable.

4. In this order, the words "sterling area" have the same meaning as in National Security (Exchange Control) Regulations namely:-

> "All parts of His Majesty's dominions (except Canada and Newfoundland), and includes all territories in respect of which a mandate on behalf of the League of Nations has been accepted by His Majesty and is being exercised by His Majesty's Government in the United Kingdom or in any dominion, all British protectorates and protected States, Egypt, the Anglo-Egyptian Sudan and every other country or area declared by the Treasurer, by order published in the Gazette, to be included in the sterling area, but does not include any country or area so declared not to be included in the sterling area."

5. The following areas have been included in the sterling area:-

Iceland
Faroe Islands
Iraq

380. FOOD CONSERVATION-POTATOES

1. Attention is drawn to the necessity for making clear to troops the reason potatoes will not be peeled before they are cooked, and instructions regarding their preparation and use.

2. The Army ration has been balanced as a result of scientific study of health and resistence to disease under active service conditions, and unless troops receive the benefit of all the essential food factors in the ration, this reason is wasted.

3. The boiling and continual soaking of peeled potatoes will destroy more than fifty per cent. of the food value of this vegetable, particularly when boiled in larger stoves in which the tinplate of the inner surface is perished.

4. When properly cleaned and cooked, potatoes cooked in their jackets are an attractive dish. This is particularly so in the case of young potatoes which are liable to break up when boiled in large quantities after peeling.

5. It is not intended that soldiers should be compelled to eat the skins or that variations in the menu, such as mashed potatoes, should not be served.

6. All officers, and in particular unit officers whose duties include the inspection of men's messing facilities, will impress upon the minds of their troops that one of the main objects of this order is to preserve the full food value of the vegetable.
