41 Aust Landing C raft Coy RAE. From 1 Oct 44 to 19 Oct 44

Oct 44

3 MT casualty return is attached as Appx "A". The transference of the remaining ALC 40's is held up. LHQ have signalled 42 Aust L/C Coy to this effect but have not sent a copy to this HQ. The matter remains in abeyance. A direction was issued by 1 Aust C orps HQ to be prepared to train with personnel of 9 Aust D iv.in landing exercises as from 15 Oct 44 and also that 21 Aust Inf Bde would be carrying out loading and unloading exercises with men and vehicles. To commence on 9 Oct 44.

4 D CRE, Townsville, Captain Oreton of E in C Branch LHQ, and Captains McBain and White from HQ 1 Aust Corps visited the unit.

5 RO Serial 91 will cause comment amongst the troops which will be noted in time. The reason, it is told, is that the DFO Brisbane and 7 Div. (while in camp at Brisbane) did not agree too well on the subject of carrying of troops on leave in army trucks. Hence the GRO - the story is logical anyway. Progress, under difficulties, with the construction of various buildings around the camp is indicated in Appx"B". Unit training-Requests from higher formations for provision of craft to take part in combined ops. exercises have caused the O.C. some worry in view of the present standard of training. His views on the matter are set out in Appx"C"

8 With the camp site nearing completion there has been more time available for sport. The quality of teams engaged is in general very good and will improve with practice. A resume of the week-end activities in sport is attached. Appx"D"

10 The ALC 40's directed to be transferred from 42 Aust L/C Coy have commenced to arrive. All are in a very bad state of repair and lack COL items while several are without engines. "B" Pln despatched two ALC 40's to Palm Beach to commence loading and unloading training with 21 Aust Inf Bde.

12 Two additional ALC 40's moved to Palm Beach for training with 21 Aust Inf Bde.

14 W 3008 and W 3009 of this date are attached as Appx"E".

15 Training Exercise No 2. Craft from "C" Pln moved out as instructed for training with 21 Aust Inf Bde. Details of movement and training program are set out in Appx"F" attached.

16 Lt-Col. Brewer CRE 1 Aust Corps Tps visited the camp area.

17 RO Serial 108 lays down rules for the organisation of mess parades; this was very necessary as the previous system wasted a lot of everybodys time. Lt. Cook with the I.O. inspected the mouth of the Barron River with a view to opening a sandbar by the use of explosives.

18 Work was commenced on the forming of the main camp road. Maj. Pinniger's F.S. Launch, having struck a reef at Green Island on Sunday was beached for repairs. The slipway proved to have been rather inadequately constructed and the craft was lifted from the water by means of a crane and tractor. Repairs are estimated to be well within the powers of the unit workshop. Softball is becoming very popular and inter-platoon matches are played nearly every afternoon. Rivalry is keen but friendly.

19 C apt. Ahon returned from Trinity Beach and reported that the exercise with 21 Aust Inf Bde was going very well.

AUSTRALIAN WAR MEMORIAL AWM2020.71.4323

SECRET

WAR DIARY

41 Aust Landing Craft Coy RAE — From 19 Oct 44 to 31 Oct 44

Oct 44 19 (contd) Lt-Comdr. Pearson of 1 Aust Corps Combined Ops Sec. had made some very complimentary remarks about the handling of the craft. The exercise is still in progress. For the last two days there has been a strong SE wind with much haze and dust; visibility offshore has been limited to less than three miles at times. Roumour says the dust is coming from Broken Hill way. RO Serial 114 will cause some adverse comment amongst the troops but the malarial incidence has been too high.

21 Spare parts and necessaries for essential maintenance and repairs have proved impossible to obtain in sufficient quantities. All craft are in need of painting and the seriousness of the position in this regard will be apparent from the attached communication to CRE 1Aust Corps Tps (Appx"G").

22 Week-end sport is summarised in Appx"H".

24 A more intensive course of close-order and arms drill commenced in preparation for an inspection by Brig. Dougherty of 21 Aust Inf Bde to take place on Sunday next Oct 29

27 RO Serial 118 has caused a stir amongst the troops but the previous order has proved ineffective. Objections on the part of the troops arise mainly from rumours as to the supposed ill-effects of atebrin.

28 O.C.'s Parade. Maj Pinniger impressed on all ranks the necessity for a good appearance on Sundays parade and seemed to be in no doubt that Brig. Dougherty's opinion of us would have some bearing on whether we get an operational role or not

29 Brig. Dougherty inspected the coy in the morning. Major Pinniger later expressed himself as very pleased with the show the unit put on. All ranks were very much impressed by the Brigadier who inspected very carefully and complimented the coy on its turnout in the course of a talk at the conclusion of his inspection. He had a good to say about post- war rehabilitation and the role of the R.S.L. after the war; his idea was that the R.S.L. should interest itself more actively in politics, a point of view which is new but is becoming very general in the AMF.

30 Softball has now become a major sport in the area after a rather difficult opening period in which protagonists of two varying sets of rules stated very frank opinions of the others point of view. Inter-pln games now take place practically every night and are keenly enjoyed. A short account of the games history in the unit is attached. Appx"J".

31 Slipways: These are of prime importance to a unit such as this one and the original construction has proved quite useless (see Appx "K"). Reconstruction of this slipway is now being undertaken and further slipways are to be constructed by 2/16 Fd, Coy. RAE.

AUSTRALIAN WAR MEMORIAL AWM2020.71.4323

WAR DIARY

41 Aust Landing Craft Coy RAE — 31 Oct

Oct 44 31 (contd)

R.O.'s for the month of October (serials 86 to 121) are attached Appx "L".

Health:- There have been (about 19) cases of malaria (suspected) evacuated to 116 AGH during the month. The staff at 116 AGH indicated that the men of this unit appeared to have a low suppressive content in their system. This HQ, not wishing an enquiry, enforced per ROs, platoon supervision of the administration of atebrin:- 2 per day for one week was to be the immediate dosage to build up resistance.
Two men were slightly crushed about the chest between two landing craft collided during the exercises at Trinity Beach. They were evacuated to hospital.
Crew of 4 men of a landing craft were asphyxiated through local carbon monoxide fumes escaping from the engines under the canopy. The engineer fainted and the others going to his assistance fainted also. The cause is vague. One man was slightly burnt as he fell on the exhaust pipe from one of the engines.

Morale:- Well maintained. C.H.Q. is perturbed at the number of members who are experiencing domestic troubles at their homes. As 1 Aust Corps is placed under administrative conditions such as would be experienced if the Corps was operating overseas, it is difficult to allow those men concerned compassionate leave without prior investigation by L's of C. It is only natural that these men in particular are down in spirits.

W.H. Bagley Lt.

BARRON RIVER CAMP CONSTRUCTION

CRE 1 AUST CORPS TPS

1. REQUIREMENT :-

Permission to occupy campsite at BARRON RIVER was given by CE 1 AUST CORPS on 6 Sep 44. 1 AUST CORPS TPS were to undertake construction of scale "A" accommodation and provision of materials for construction of scale "B". Three slipways were to be constructed by Fd Engrs, one of which was for use by ACME. It was decided by me that a jetty should replace one slipway and, in order to get the work completed quickly, construction was undertaken by this unit. Clearing site of timber, stumps, etc, grading, drainage and construction of parade ground were also undertaken by unit.

2. PROVISION :-

Scale "B" accommodation at campsite totalled 16,600 sq ft, of which 12,000 sq ft were planned for Landing Craft Coy. (HQ RAE 1 AUST CORPS TPS DRAWING A65 of 25 Aug 44 refers.) It was considered that 12,000 sq ft was NOT required and this unit requested provision of 10,000 sq ft only. In order to reduce delay in camp construction, I interviewed Comd HQ 17 L of C and requested his assistance in providing any buildings or building material from unused camps in his area. No quantity was specified. Permission was requested from 1 AUST CORPS for unit to make immediate use of this provision and, two days later, this was given. HQ L of C made available some 12,600 ft of existing coverage. A considerable part of this was in form of small buildings, skillions, etc, and allowing for wastage in sizes and for US materials, total equivalent scale "B" accommodation was approx 8,000 sq ft. Approx 3,000 sq ft of flooring was provided excl an area of 1,000 sq ft which was taken in error and must now be returned. In addition to L of C provision, sufficient timber has been sawn, and surfacing provided by 1 AUST CORPS, to complete remaining requirement of 2,000 sq ft coverage.

3. REMAINING REQUIREMENTS :-

In addition to Orderly Room and Q Store, flooring is still required for workshops and two mess buildings both of which are in areas flooded in wet season. For workshops, 12½ cu yds concrete is required and for mess buildings, 1,600 sq ft of flooring only (joists are laid and buildings otherwise complete).

4. FLOODING :-

Areas liable to flooding have been indicated by property owner, a MR Dave SHART, who has been in occupation of the river flat for a number of years. These areas are well marked and adequate provision is being made for culverts, drains, etc.

Major,

UNIT TRG AND COMBINED OPS EXERCISES

41 Aust Landing Craft Coy RAE
AUSTRALIA

CRE 1 AUST CORPS TPS

1. On 8 Sep 44 the subject of unit trg was discussed by me with CE 1 AUST CORPS, who emphasised the urgency of this unit's participation in combined exercises at the earliest possible date. From my knowledge of minimum period necessary to make unit adequately based and trained in use of equipment, I estimated that ten week's trg should be allowed before one pl could undertake reliable part in such exercises. This pl is still in its first week's trg.

2. Since that date, a new camp site has been established on BARRON RIVER and necessary slipway, jetty and workshops accommodation provided for maintenance and operation of craft. On 27 Sep 44, DWT discussed with me the provision of craft manned by part-trained personnel, by 15 Oct 44 stressing urgency of elementary trg of other arms. It was decided that by this date, 6 craft should be made available, with earlier provision if possible. Necessary adjustments were made to trg programme.

3. On 4 Oct 44, Engr LO, 1 Aust Combined Ops Sec requested the provision of 2 A1C 40 by 9 Oct and 4 by 12 Oct as these were required urgently for trg of 21 Bde personnel. Craft were promised, subject to certain limitations of operation, etc.

4. Your attention is invited please, to the following matters of vital importance to the effectiveness of this unit, either in trg or operations :-

   (i) At the present time, unit has no reliable information regarding provision of craft on its W.E. Conflicting instructions are received almost daily relative to handover of craft between 41 and 42 Coys, with the result that neither unit knows what craft it will be required to operate. For example, the latest Corps Instn (Q 3081) on transfer of craft is not being implemented because of a (? LANDOPS) Instn to 42 Coy (No copy to 41 Coy) to delay such hand-over. Also, infm is not available as to likely dates of d livery of remainder of unit craft and no indication has been given as to what types are likely to be issued.

   (ii) No provision of urgently needed W.E. and W.E.T. equipment, including workshop machinery loadings, has been made and no facilities are available for maintenance of craft which have already been in operation for at least 180 hrs. It is desired to stress the urgency of such provision.

   (iii) No provision of spare parts and components for maintenance of craft operation has been notified, and, in the event of 42 Coy craft being transferred to 41 Coy, almost all will require urgent attention. Even COL and MPL items are depleted. Hulls are rapidly corroding for want of painting, but this item has not been supplied. Further delay will greatly increase time necessary to slip and chip all hulls.

5. It is requested, please, that consideration be given to the impractability of meeting further demands while conditions, outlined above, continue; and to the effect both on combined operational trg and unit preparedness for operations, of excessive participation in exercises with a unit itself lacking in essential trg.

APPX "D"

Oct 41 Vol 2

This is your weekly sports review, chaps, so any little "tips" or "cracks" you have, drop them into HQ Pl office before we go to press each week end. If you desire to send a copy home some time, we will do our best to arrange it. We only write up certain types of sport, as an official reporter cannot be found to concentrate on the job at G.I.

BOXING

A boxing tourament was held at the park on Friday night. There was a large attendance, and many good bouts were witnessed; 41 providing four contestants.

Brudenall, 11-9 (41) defeated Bulfin 11-3 (Navy) in a 3 - 2 min round bout by a TKO in the last round. The pair were evenly matched, and a rugged hard punching fight resulted, with Brudenall showing marked improvement on his previous bouts, wearing his opponent down in the last round.

Lloyd 10-8 (41) defeated Magennis 11-1 (Navy) on points after 3 - 2 min rounds. This bout was voted the best exhibition of boxing for the night. Magennis, a more rugged type than Lloyd was worn down by Lloyd's boxing ability. Magennis was nominated the best loser of the night.

Westerdale 10 st. (41) had a points decision over Higgins 10-2 (Local) The bout was marked by good boxing ability on the part of Westerdale.

Osborne 10-3 (41) in the hardest fight of the night and by clever boxing forced a draw with Mitchel 10-10 (Navy)

There's money in this game, chaps, and a black eye or two is well compensated. Just ask the above Dempseys, so hop into trim, and roll up for a match at the Marist Old Boy's Union Monster Boxing Tournament in two weeks time. Excellent trophies are given, so pop your name into any of the boxing committee.

TENNIS

41 played the engineers at the Local club courts, giving a good exhibition of play to score another victory in sport for the unit.

Ison and Baynes won their tussle, 6 - 4, 6 - 5, 3 - 6.

Webster and Alderton went down 6 - 0, 5 - 6, 4 - 6.

Donohue and Clark won 4 - 6, 6 - 3, 6 - 4,

Results: 41, 46 games to Engineers, 40.

Somebody said Rusty is round shouldered tonight from carrying Mo. Who knows! But Mo is showing his age trying to coin money these days.

"Sparks" short circuited the base lines, electrified his mate into victory. Ho Ho

SWIMMING

The water polo team is doing excellent training and their match looks like being won easily.

For the not so talented, arrangements will be made for classes to learn this necessary sport.

AUSTRALIAN WAR MEMORIAL AWM2020.71.4323

FOOTBALL

41 V Transport (Umpire - Reid)

Playing their opponents, 41 had a comfortable win over Transport.

Transport, having the advantage of the wind in the first quarter, hard failed to break 41's defence. The players found the ball to drop-kick, and many passes in the early part of the game went astray. The forwards of the home team were crowding one another at this stage, and quite a few chances were lost.
The second quarter saw the 41 settle down to really good football, and racing away from their opposition, they scored 6 - 5 to nil, Even the boundary umpires showed better form, but their passing could be improved. "Big Horse" should be at the top of his form.

In the third term, some really good football was seen; the highlight being brilliant passing by the 41 forwards. Both sides were playing their hardest, and Transport was unlucky to see their full-back, Leach, go off with a sprained ankle. He was, till that time, the back-bone of his side.

Last term was played out quietly by 41; their opponents could not check them anywhere on the ground, and tiring quicker, let 41 take the game to victory.

Scores:	1 qtr.	Transport 1 gl - 1 pt :	41, 1 gl - 1 pt.
	2 qtr.	Transport 1 gl - 1 pt :	41, 7 gl - 6 pt.
	3 qtr.	Transport 2 gl - 2 pt :	41,10 gl - 6 pt.
	Final scores.	Transport 3 gl - 3 pt :	41,16 gl - 8 pt.

Goal Kickers:
Transport; Badham 1, Hayle 1, Pearce 1.
41. Smallcombe 3, Cooper 3, Saunders 3.
Ahon 3,Molloy R 1, Molloy F 1.
Catterall 1,Anderson 1,

Best Players for Transport: Pearce, Northy, Leach, Fuller.

For 41, it can be said, the whole team were good; each player pulling his weight and although some had more chances to show their talent, the best would be:
Molloy R, Molloy F, Wyatt, Watson, Cooper, Champion, Saunders, Comely.

Leading goal kickers to date: Ahon 6, Saunders 4, Cooper 4.

DID YOU SEE:-- Umpire Reid handle the game well, and throw his weight around. "Robust" kick a beautiful drop to score a goal from the wing. "Jasper" bite his lip. "Father" look around for the Sun photographer after taking a one handed mark. "Little Horse" catch the crumbs from the pack. "Mum" with all her tools of trade mothering "Bill Beenleigh's" brother. The £50 the opposition were going to bring (We didn't).

CRICKET

As no outside match could be found this week-end, the "Slaves of the willow" picked two scratch teams among themselves. Players were keen, and it is expected that a classy side will eventually take full honours against all comers. Among the talent shown today was Bennett, retired 31, and Witcher, retired 29. Zillman put on a stylish 17. The bowlers did not have much of a chance against the batsmen, as many retired to give others practice. However Grant 2 for 10, Webster, 2 for 16, Stone, 1 for 8, showed that they were on the spot.

ALL THE BEST FOR GOOD SPORT AND VICTORIES FOR THE UNIT NEXT WEEK

41 AUST LANDING CRAFT COY RAE

Training ~~Instruction~~ Exercise No. 1

1. GENERAL
   (a) C pl will supply craft as in para 2 for amphibious trg of 21 Aust Inf Bde.
   (b) Object of trg will be :-
      (i) The exercise of Bde, Bn, Beach and Mil Landing Gps in the planing and execution of a co-ordinated landing by a modified Bde Gp and Beach Gp.
      (ii) The individual and collective trg of Bde and att units in as many aspects of amphibious w[illegible] as available eqpt permits.

2. CRAFT REQUIRED
   (a) ALC 40 Load carriers 6
   Reserve craft 1
   ALC 40 refuelling craft 1
   ALC 15 salvage 1 to be placed an any beach by OC Pl.
   (b) Appx A gives places and timings that craft will report.

3. CREWS
   Continuous picquet will be mounted on craft when at anchorage.

4. ADM.
   (a) Dress
      (i) Working dress, shirts may be removed at discretion of pl offr.
      (ii) Berets KD will be worn at all times.
      (iii) Crews will be uniformly dressed at all times.
   (b) Arms No arms will be carried.
   (c) Amn No SAA will be carried.
   (d) POL (i) Refuelling craft will carry :-

Petrol	44 gal drums	50
DDOE 30		20 gals
DDWP 4		10 lbs

   Above to be replenished as necessary.
   (ii) Each craft will carry :-

Petrol	44 gal drums	2
DDOE 30		4 gals
DDWP 4		4 lbs

   (e) Rations and water Each craft, 3 days reserve, 2 x 2 gal tins of water. Refuelling craft 2 x 400 gal tanks, plus 2 for shore kitchen.
   (f) Rations C pl will arrange for pl cook and mess to be set up on shore in 42 Aust Landing Craft Coy area. Place to be by mutual arrangement with 42 Coy. Cut lunch for midday meal on Sun 15 Oct. Hot box meal to be supplied by Q for evening meal Sun. Pl cook to be in operation by 16 Oct. QM to supply daily necessary rations. C pl will notify Coy HQ each day ration state for pl incl att sigs and salvage craft pers.
   (g) Discipline Crew will at all times be regimental and will give orders as laid down in standing orders for coxswains.

5. Intercom
   (a) Sec Comds set will be equipped with No.19 Set.
   (b) Shore station will be set up as required by pl Comd.

PAINT

CRE 1 AUST CORPS TPS

Copies: DWT, MELBOURNE
CE 1 AUST CORPS

1. For essential hull maintenance of craft on WE, a Landing Craft Coy has a monthly requirement of paint of 3000 gals. This requirement is based on two complete surface coats per month which has proved necessary for craft in service.

2. 41 Coy is still deficient most of its craft and holds, at present, 26 ALC 40, 1 ALC 15, 1 Workboat and 3 PS Boats. The monthly requirement for these craft is 1620 gals. One gallon will cover 300 sq ft of hull. Corrosion of steel hulls of craft on charge has already become serious and, unless paint is made available immediately, permanent damage will result.

3. Surface areas for painting on craft are arrived at, in the case of ALC 40, as follows :-

Bilges and water tight compartments		3000 sq ft
Bottom, inside and out	65' x 20' (2)	2600 sq ft
Sides, inside and out	65' x 7' (2)	1820 sq ft
Bow and stern, inside and out	65' x 7' (4)	560 sq ft
Canopy top, inside and out	16' x 15' (2)	500 sq ft
Engines, covers and fittings	16' x 15' (2)	500 sq ft
		8980 sq ft

Paint required 60 gals

On a similar basis, quantities of paint for various craft are :-

Type	WE	Paint per craft	Totals
ALC 40	13	60 gals	780 gals
ALC 20	25	35 gals	875 gals
ALC 15	35	30 gals	1050 gals
ALC 6	4	20 gals	80 gals
Workboats	3	15 gals	45 gals
PS Boats	8	15 gals	120 gals
Water and Refuelling launches	3	15 gals	45 gals
	Total Requirements		2995 gals

AUSTRALIAN WAR MEMORIAL AWM2020.71.4323

CRICKET

...ed. The team played ...ir Force and had a first innings victory of 181 runs. This was only a scratch match and the best among the batsmen were, Bowater 54, Young, retired 41, and Vorwerk, 28. Of the bowlers to show form, Welsh, 3 for 10, and Mier, 2 for 11 were outstanding.

Thursday. The batmen challenged the Malarial Control, and showed that batmen can really do againsy a few mosquitoes.
Scores Batmen 112 Malaria Control 65
Mills was the batsman to top the list with 55.

Sunday. The A team played the Provosts, and scored a decisive victory which entitled them to 8 points, for the start of the Competition

Provosts batted first and made the humble score of 16. 41's reply was 17. Provosts were sent in for their second attempt, and could manage to score 38, giving 41 a victory on one innings and 182 runs.
The highlight of the game was the bowling of 41, Allood 6 for 8, Logan 6 for 14, Bowater 8 for 14, and Grant 3 for 6, were the bowlers, and they certainly had a hey day.
Our batsmen were all able to score freely, the best being Webster 52 Young 31 and Farrelly 25.

The arm-band boys were well run in after chasing their bowlers choice offerings all day. Still don't talk cricket on the street corners for a while.
All the B2's are elated at the success of their candidate.

SWIMMING

Sat, afternoon saw the water babies hold another carnival in the river Lack of condition among the swimmers caused the abandonment of a few finals. A few more swimmers are required to compete each week, and with handicap events suggested for the next carnival, every one will have a chance.

Results

50 Yds Freestyle	50 Yds Breaststroke	50 Yds Backstroke
1 st Brown	Bennett	Gillespie
2 nd Welsh	Munro	Wilson
3 rd Munro	Speed	Dunn

100 Yds Freestyle	
1st Heat	2nd Heat
Wilson	Andrews
Falkenmire	Dunn
Frost	Mann

Team Medley Relay
1 Platoon Gillespie, Falkenmire, Dunn
A Platoon Brown Weir Speed
B Platoon Bennett Speedy Frost

Under threat of libel suit, we are forced to withdraw our statement of last week, that no Sergeants were seen competing. 'Eddie' alias 'Hi-de-Ho' has our apology, but we really thought he was a bait to keep the sharks away. He appeared to be dragging a heavy slimmer. (But not heavy enough state a few of his pals.)

It was pleasing to see more competitors engaged in the various branches of of sport this week. That is what we require in the Unit, increasing numbers each week, so all shall get some benefit and not just the select few, So it is up to the various committees to coach and arrange for a 2nd and 3rd or more teams to play among themselves of a sports afternoon.

AUSTRALIAN WAR MEMORIAL AWM2020.71.4323

BOXING

Saturday Four glove artists went to the Marist Old Boys' Boxing tournament, and met with varied success.

Results Westerdale (41) 9.13, lost on points to Cower, 10.8. It was a hard fight, and the advantage of weight against Westerdale was a little too too much, but our lad tried hard for a K.O. several times and really put on a good show.

Lloyd,(41) 10.13, defeated McGinnis on points in a good clean bout in which both men were fairly well matched.

Maus 41 (11.3) in what was voted the best bout of the night, degeated Newman (io.13) by a K.O. in the last round. The fight was fast and both boxers punched freely. Maus , with a two-handed battery of punches put Newman down for 7 in the third round, and before his opponent could recover, Maus floored his opponent for the K.O.

Barrett(41) 11.6, lost on points to Delaney, 11.2. Delaney, with ~~busking~~ bustling tactics did not allow Barrett to settle down and show his best, and managed to show up a shade better in the three short rounds.

Last night the Copper did not get his man, and Scotland Yard will be duly notified. Perhaps he was told to go for ar-rest, but Maus ~~mere~~ or less, he was lucky he did not finish up a New-man.

' Old Joe' is back, and to date he and 'Herr Von' have only compared operations, but that's not to say it will be Comboned Ops when they start.

FOOTBALL

Sat afternoons saw the scratch teams play. 'Mum O'Connor', captain and coach of the Yella's was unlucky to see his team beaten by Jack McMenamin's Bearskins. The scores Were Yella's 8 Gls 10 to Bearskins, 8 Gls 6. Aussue Rules converts enjoyed themselves and every effort will be made to have a match of this calibre arranged each week to cater for all those exkluded from the A team. The highlight of the game was 'Mum's coaching. If the team had been more disciplined and obeyed instructions, a different result would have been seen. (Players dead all over the ground) However, Yella Jackets are keen to issue another challenge, and just to show that there is no animosity, will stake a bottle of beer on the game.

Sun. It was a great disappointment to the A Team and their followers to have their match fall through again this week. The Navy and Air Force Team which was to play, was unable to get along through no fault of their own. Still, our boys will get their chance at some future date.

Jack Dyer has wired 'MUM' to sign up for next season.

~~FOOTBALL~~ SOFT BALL

Again judging by the noise during the week MANY GAMES WERE KEENLY ~~XX~~ contested. We would like to see more players take up this game, especially those who are not catered for in any other branches of sport. If you can argue and have a good voice, then you're worth your place ~~xxxxx~~ in any team. The inter-platoon results for this week are;

A Platoon 28 defeated hq Platoon 11.

Coy HQ 36 defeated B Platoon 4

A Platoon are playing a service women's team during next week. I'll bet that there will be plenty of sliding in the bases To avoid any ~~trouble~~ trouble, our boys are to be gagged and the girls are to plug their ears

---

RESUME OF SOFT-BALL IN 1L AUST LANDING CRAFT COY RAE

The game of soft-ball was commenced by a small group of enthusiasts with equipment brought from PUCKAPUNYAL. Sports Officer Lt. W.H. WATSON, Lt BAZELEY assisting. It was decided to encourage inter-pl matches as the games popularity grew. These first games were played, for want of a better field, on the Coy Parade Ground which, however, limited full fielding facilities. Fielding left much to be desired and play generally was erratic while big differences in scores, pointed to an imperfect knowledge of the game and rules.

In the beginning, amenities rules guided the game but minor ommissions met with a certain amount of disfavour, from men conversant with American rules. Matches played by men with a mixed knowledge of both sets of rules, consequently, led to a desire for complete clarification of this matter. A meeting of reps from each pl attempted this, and tolerant handling of the keen discussion by the Sports Officer led to a final clearingup of the odd rules concerned. The provision of a suitable ground was then undertaken by Lt WATSON and he has the thanks of the men for the good work done. The drawing up of soft-ball fixtures also by the Sports Officer increased the competitive inter-pl spirit greatly, and with highly improved pitching, batting, basework and outfield playing, the game is definitely providing satisfactory form of recreation.

Thexadvent of the WAAAF for purposes of instruction in soft-ball and intra-service relationships has provided light diversion from the inter-pl competitions. Scores to date in the current competition :-

Coy HQ	defeated	B Pl	24 - 2
A Pl	defeated	Cpy HQ	11 - 10

CRE I AUST CORPS TPS

1. On 6 Sep 44, CE I AUST CORPS gave permission for unit to occupy BARRON RIVER campsite and stated that Scale "A" accommodation was to be provided by RAE CORPS TPS together with slipways, etc. Scale B was to be a unit responsibility.

2. Scale "A" accommodation was completed by Fd Engrs in reasonable time, with assistance of unit working parties. Concrete floors throughout were quite unsatisfactory. In order to avoid delay, construction of jetty was taken over by unit. Of the two slipways, only one was commenced. Despite unit provision of working parties as required, work was very slow and slip was left, half completed, some two weeks ago. Unit was not notified that construction had been discontinued. Unless this slipway is completed expeditiously, participation in Combined Ops exercises must shortly be discontinued owing to lack of serviceable craft. 41 Coy has run temporary 20 lb rails on lower section of way to allow overdue repair and maintenance to unprotected Fast Supply launches.

3. It is now requested, please, that steps to complete this slipway and to construct AEME slip, be put in hand as a matter of urgency.

95. SMALL CRAFT OPERATION RECORDS

(i) AAF G 2 "Water Transport Work Ticket" will be used as a daily craft work ticket and will be issued by the Orderly Room of the Pl which has the particular craft on charge
  (a) No coxswain will move a craft without being first in possession of a G 2 signed by an Officer.
  (b) G 2's correctly completed will be returned to the Orderly Room responsible for issue at end of each day.

(ii) AAF G 5 "Monthly Craft Log Sheet"
  (a) One sheet is to be kept for each craft on charge
  (b) Information extracted from G 2's will be entered daily.
  (c) Completed G 5's are to be handed to Q M on the day following the last day of each month.

(iii) Craft Transport Records will be carefully filed and available for checking at any time.

(iv) This order will operate forthwith and will be strictly enforced.

96. SERVICE AND EXECUTION OF PROCESS UPON MEMBERS OF THE MILITARY FORCES

The attention of all Personnel is directed to the following paragraphs of GRO A40/44 as recently amended by GRO's dated 8 Sep 44

"3. The location address of a Unit may be disclosed to the civil police, a solicitor or process server when such address is also the Unit's postal address and it is required by :-
  (a) the civil police, the solicitor or process server for the purpose of serving any legal process on a member of the Unit; or
  (b) the civil police for the purpose of investigating any alleged offence.

4. When the postal address of a Unit does not disclose its location the commander of an L of C Area or command may disclose such information as to the location of the Unit as he thinks fit, having regard to the requirements of national security and the circumstances of the particular case, to :-
  (a) the civil police, a solicitor, or a process server for the purpose of serving legal process on a member of the Unit; or
  (b) the civil police for the purpose of investigating any alleged offence.

5. Except as permitted under paras 3 and 4, the location address of a member's Unit will not be disclosed to the civil police, a solicitor, or a process server desiring to serve legal process on a member.

AUSTRALIAN WAR MEMORIAL AWM2020.71.4323

5A. Where the location address of the member's Unit is not disclosed and the member has not nominated a solicitor to accept service on his behalf, the civil police, a solicitor, or process server desiring to serve legal process, will be advised to apply, or an application already made by such person will be referred, to the Officer-in-Charge Echelon and Records of the L of C Area or command of enlistment of the member for a statement which may be used in support of an application to a competent court for an order for substituted service.

7. Where the location address of a Unit is disclosed as it is undesirable that police and process servers be permitted to searc search around a Camp for the persons upon whom they desire to serve or execute legal process, commanding officers or other local authorities will arrange for the members concerned to attend at Unit H ? at such time as it is most convenient to those commanding officers or authorities and the police or process servers.

8. No member will undertake the service of any legal process upon any other member.

97. RETURN OF UNIT EQUIPMENT BY PERSONNEL MARCHING OUT.

All Personnel before marching out of Unit will return the undermentioned articles of Unit Equipment to Coy ? Store :-

Hammocks — Suits, Jungle, American
Boots, Barge — All blankets except one.

98. CAMP STANDING ORDERS

Camp Standing Orders have been issued to all concerned and will come into operation forthwith, subject to the following exceptions :-

(a) The Routine Time Table hitherto in force will continue to operate until a notification appears in Coy R O's

(b) The size of the Guard will be one Sgt, one Cpl and twelve sappers until a notification appears in R O's

Unit workshop area is out of bounds to all personnel other than personnel of Workshop Sec unless they have been detailed to enter workshop area on duty.
Personnel on entering workshop area on duty will report to workshop office.

110 Sport

The parade ground will NOT be used for sport after 18 Oct 44. A sports area has been cleared and is available within the camp boundary.

111 Income Tax - Members with dependents resident overseas

The Income Tax Assessment Act provides for the rebate of tax to a taxpyer in respect of his wife and children resident in AUSTRALIA. A member of the AMF who married in a country other than Australia and whose wife or children are not resident in Australia is not entitled to such rebate. As the non-allowance might cause hardship, any member affected is requested to apply, through his pay representative for a remission of tax.
A member applying for such remission will furnish :-
(a) His name in full and all regimental particulars; and
(b) the names and addresses of his dependents,
and will advise whether -
(i) his wife and children are wholly maintained by him;
(ii) his wife's separate income exceeds £50 per annum (Australian) and
(iii) it his intention, as soon as war conditions permit and transport is available, to bring his wife and children to reside in Australia.
The application will be forwarded by the pay representative to the Director of Finance Administration, LHQ, who will refer the case to the Taxation Department for consideration. (vide GRO F377/44)

115. CENSORSHIP AND SECURITY

(1) Diaries and Notebooks. These may not be sent through the post. They will be collected at intervals and after examination by the censoring authorities will be sent to L of C Records from which they may be reclaimed by the owner in person.

(2) (a) Letters must not refer to the following : strength, morale, location, movement, arms or equipment, distinguishing signs, of any Unit of our own or Allied Forces, or to the state of communications, or to casualty figures, effect of enemy action, or any description of a Camp etc. No criticism of the Army is permitted.

(b) To addressees in Australia it is permitted to indicate that the writer is in N.G. or in a particular state but not his whereabouts in those places.

(c) To addressees a writer may indicate that he is in or out of Australia only.

(3) The following may not be enclosed in letters : captured enemy documents, our own official documents, or any propaganda leaflets.

(4) The use of codes and ciphers is forbidden.

(5) Unit Censorship. Will apply to Units in W A north of 20 degrees Sth Latitude or in N T, parts of Nth Qld or N G and Papua.

(6) Only a Commissioned Officer may censor mail.

(7) NO franking Officer will refer to or disclose the contents of any mail.

(8) Full name and address of sender must appear at the head of letters or on the backs of telegrams.

(9) When subject to Unit Censorship, no mail will be posted otherwise than directed by the Unit.

(10) Green Envelopes. Scale of Issue - 1 per man per 10 days. These are for private and family matters only. Use for other purposes may result in stoppage of the issue.

(11) Newspapers may not be sent through the post except with official permission. (GRO 371/44)

116. RUMOURS A rumour is current within the Unit that the Unit is likely to be disbanded within a short time.
THIS RUMOUR IS ABSOLUTELY WITHOUT FOUNDATION.
Severe disciplinary action will be taken against any member dectected spreading or passing on any such rumours.

117. INJURIES CAUSED BY ACCIDENTS WITH EXPLOSIVES AND LIVE AMMUNITION

1. Members of the public have been killed or seriously injured recently as the result of handling explosives and live ammunition which either -
   (a) have been taken or sent home by members of the forces as souvenirs ; or
   (b) have been negligently left in places to which the public has access.

2. To prevent a recurrence of such accidents, the following instructions will be observed strictly.

3. (a) Unless acting in the course of his military duties or unless so authorized by or under the National Security (Firearms and Explosives) Regulations, a member of the AMF will not have in his possession or deliver or transmit or attempt to deliver or transmit to any other person any bomb, shell or other explosive or live ammunition of any kind.

   (b) All units will take vigorous action to ensure that members comply with the terms of this Paragraph.

4. (a) When any member serving outside Australia and Tasmania is to return to Australia or Tasmania, his kit and baggage will be inspected thoroughly, prior to his embarkation or emplaning, to ensure that he is not in possession of any explosive or live ammunition of any kind other than such as may be necessary in the course of his military duties.
   (b) His kit will again be inspected thoroughly at any LTD from which he is to be released on leave, prior to his being so released.

5. (a) Units will ensure that all prescribed safety precautions for the handling and storing of explosives and live ammunition are carefully observed.
   (b) Explosives and live ammunition used for training purposes will be carefully safeguarded.
   (c) Under no circumstances will explosives or live ammunition of any kind be left unguarded in any place to which members of the public have access.
   (d) In areas where training with explosives and live ammunition is carried out, the utmost care will be exercised to ensure that that all blinds are searched for and destroyed in accordance with the prescribed safety regulations.

6. If a member is charged with an offence against this order, a Summary of Evidence will be taken and an application submitted to superior authority for trial by Court Martial. GRO Adm 381

118. SUPPRESSIVE ATEBRIN ADMINISTRATION

1. R O 114 is cancelled.

2. Pl Officers will be responsible for ensuring that the necessary dosage is taken daily by all ranks and that the following procedure is observed:-
   (a) The atebrin tablet or tablets is or are placed in the recipient's mouth.
   (b) The recipient swallows a drink of water and demonstrates that the tablet has been swallowed by calling out his name in a loud voice.

3. Pls will submit daily reports on the administration of Atebrin.

4. Commencing 28 Oct 44 two tablets will be administered to all personnel daily for seven days and one tablet daily thereafter.

5. All personnel marching in to the Unit or returning from leave or duty outside the Area will take two tablets daily for seven days subsequent to the date they marched in or returned and one tablet daily thereafter.

6. If Atebrin is taken in accordance with this order no member will develop or suffer a recurrence of Malaria.

7. Should any member develop or suffer a recurrence of Malaria it will be prima facie evidence that suppressive Atebrin has not been taken in accordance with this order, and severe disciplinary action will be taken against the member and the Officer responsible for the administration of Atebrin to such member.

119. PROPHYLACTIC ABLUTION CENTRES

1. It has been conclusively shown that approximately 90% of Army Personnel who contract venereal disease neglect to make use of P A C facilities.
2. The reason for such neglect is thought to be :-
   (a) Lack of effective promulgation of addresses of P A C's.
   (b) Lack of effective education as to the definite necessity for prophylactic treatment in every case of promiscuous exposure.
3. Attention is also directed to the fact that all P A C's operated by Navy, RAAF and Allied Services are available for use by members of the AMF.

WAR DIARY

41 Aust Landing Craft Coy RAE (AIF) From 1 Nov 44 to 30 Nov 44

Nov 44

3 "C" Platoon completed training with 21 Aust Inf Bde. A report on this exercise is attached. Appendix "A".

4 "C" Platoon have been having trouble with some of their craft. They were due back yesterday but some craft are beached and work is in progress to get them off. The behaviour of the telephone has been most erratic for some time and matters reached a climax yesterday. In addition this camp is apparently regarded as a refuge for various strays and miscellaneous personnel from other units who usually arrive quite unannounced. This situation has also, we hope, reached its climax. Events of the past two days have moved the Orderly Room Sergeant to write a full report on the matt er; a copy is attached, Appendix "B" A detachment of 2/16 Fd. Coy. arrived to work on the NL pontoons while 2 Fd. Coy. are to construct the slipways. WF 3008 and WF 3009 of this date are attached . Appendix "C".

5 "B" Platoon moved out to Unity Beach for amphibious training with 18 Aust Inf Bde. It was discovered that a robbery had occurred in the Sgts Mess, about £18 worth of assorted stock mostly liquor and cigarettes, being taken. The matter is being investigated by the SIB but there is also a number of amateur sleuths, each one with a different theory.

7 During the night an attempt was made to lift some petrol from the unit dump. A person was surprised in the act of getting a 44 gal drum into the back of a jeep. When surprised he abandoned the drum and made off in the jeep hotly pursued by the CSM in a truck. By good driving the CSM was able to force the jeep to the side of the road wherupon the unknown leapt out and disappeared into the scrub. The jeep is a "hot" one but the unit owning it has not yet been traced. The SIB are investigating this also and have questioned a few people but so far there is no solution. The unit remains unsuccessful in obtaining spare parts for repairs; the attached letters from the OC to CRE 1 Aust Corps Tps indicate the seriousness of the present position. Appendices "D" and "E".

8 Pictures were shown in the camp in the evening. "B" Platoon are having very good weather for their exercise.

14 "B" Platoon returned from Unity Beach. A report showing the type of task carried out is attached, Appendix "F". Weather throughout was very good and there was no repetition of the swampings which ocurred in the previous exercise. The S IB have solved the petrol mystery but are no nearer finding out who broke into the Sgts Mess. Probably they wont now that the trail has had time to get cold. Only 7 craft are serviceable at present although several are in W/S merely for a check. Most of the craft received from 42 Coy have not yet been made serviceable because we havent any parts; about 20 engine assemblies alone are required.

16 Pictures shown at night included a newsreel of the Melbourne Cup, Much to the delight of the troops.

17 "C" Platoon moved out to Trinity Beach for training with 26 Aust Inf Bde.

18 WF 3008 and WF 3009 of this date are attached as Appendix "G".

20 Col Faulkner and Maj Ogden (Provost Marshalls from LHQ and

AUSTRALIAN WAR MEMORIAL AWM2020.71.4323

SECRET

WAR DIARY

41 Aust Landing Craft Coy RAE (AIF) From 20 Nov to 30 Nov 44

Nov 44
20 (contd) Corps respectively) visited the area. They left a piece of good news to the effect that a new Provost Coy and PM will take over in Cairns. This will please most people as the Coy in there now has been very hard to get on with and there are stories of treatment of prisoners. The visitors also said that they had been told, by whom not disclosed, that this was the worst unit in the area but after seeing it they were of the opinion that it was one of the best. No doubt we have a bad reputation in certain quarters but it is being corrected.

21 Major Hugh ADDWT marched in to stay and observe the unit for a while. He is from CE Branch LHQ and , of course, is concerned primarily with DWT matters but will no doubt be interested in other things as well. A party of Sigs left for Green Island where they will train for a week or so.

23 MT Casualty Return of this date is attached as Appendix "H"

25 "C" Platoon returned from Trinity and "B" Platoon moved out to train with 24 Aust Inf Bde. On the night of the 23rd "C" Platoon had one craft swamped and this delayed their return Otherwise no difficulties were experienced. Coy parade was held at 0830 hours.

26 The cricket team won its second match in the local competition wtihout much trouble

27 There are rumours of a trip to Brisbane to bring up craft, probably this week. The cyclone season is on so it is to be hoped none develop during the trip. There is also to be a trip to Bandiana to pick up spare parts or the like; spares and even complete engine assemblies are now easier to obtain and preparat-ions are now being made to put into service those craft from 42 Coy which up to now have lacked engines. Short specialist courses for engineers and coxswains are now in progress including signalling as well as the mechanical side. The OC is trying to get down to Melbourne to buy us a job somewhere.

29 A GRO received today informs us that this is now an AIF unit Major Hugh left to return to LHQ.

30 The instruction for the movement of the detachment to Brisbane is attached. Appendix "J".

Health:- The suppressive atebrin course mentioned in this units War Diary for Oct 44 has been continued with good results, the health of the unit now being very good. Other anti-malarial precautions are being enforced.
Morale:- This has been well maintained; for various reasons the sending of the party to Brisbane has given morale somewhat of a fillip.

R.O.'s for Nov 44 (Serials 122 to 142) are attached. Appendix "K" Unit Intelligence Summaries for September, October, and partof November are attached. Appendix "L".

AUSTRALIAN WAR MEMORIAL AWM2020.71.4323

Appendix "A"

REPORT ON 'C' PL EXERCISE

GENERAL

The training for assault landings of Personnel and Vehicles was carried out with 9 A L C 40's on Unity Beach, Able Yellow, Bakey Yellow and Bakee Red, Charlie Green, and Easy Beaches.

At the conclusion of the training, an exercise was carried out with only fair results, in the main, the trouble being caused by the tide, although rising, not being 'in' sufficiently far enough to allow the craft to dry embark the troops. The beach at this point was very flat and going to a depth of only 4 feet to a distance of 80 yds from the beach. Navy advice was to keep the craft where they were - 50 yds from the shore, as if they came in closer, water pump trouble would result from the surf and the craft would broach. One craft with an experienced coxswain was signalled to come right in, and his craft broached, necessitating a long delay in getting him off as the salvage craft was working at the exercise beach, and eventually a bulldozer had to be obtained to get the craft off.

The complaint that the men had to wade to 5 ft of water is not correct, the greatest depth reaching to the average man's chest.

The craft that picked these men up were able to complete their job, which would not be the case if all craft broached. Also criticism by Officers of the beach tps concerning the craft can only be replied to by suggesting that these officers get some experience with craft handling and about wind tides, surf etc.

Generally speaking, the experience gained by the Coxswains was excellent, and very little trouble occurred until the last three days, when weather conditions were particularly bad and three craft were swamped.

AUSTRALIAN WAR MEMORIAL AWM2020.71.4323

The craft appear to me to be most seaworthy and with some suggested improvements may be made sufficiently serviceable to do beach work, in a reasonable surf. At present, the risk of damage to craft is very great in any type of surf.

Suggested improvements are :-

1. Wheel) All to be in a position where the
   Gear levers) coxswain can get immediate reaction to
   Throttles) his anticipation of the crafts movements.
2. That a more suitable and efficient water pump is required, as those used at present give consistent trouble, particularly in surf and very often caused motors to be cut off, thereby giving the Coxswain less control when he particularly needs all the engines to hold the craft in position.
3. A Wk/shops truck with three men and any available spares be attached to a Pl for these exercises, as it is too big a job for the crew, continually working on a craft at sea to do any but normal crew maintenance, and as trouble of some kind is inevitable and quite often beyond crew maintenance.duties.

It is possible in an average surf on good beaches to dry embark and disembark personnel and vehicles as was proved by one night exercise when a Battalion was carried from one beach to another and given 100% service.

In a bad surf, the damage risk is too great to attempt to beach as trouble is certain to be encountered and craft broached causing extensive wk/shop repairs and overhaul.

In summing up, if given River work, Ocean to River work, 100% efficiency could be expected, but unsatisfactory results seem inevitable on surf beaches.

The craft carried over 20,000 personnel for training purposes and many hundreds of vehicles of all kinds.

Attached is a list of number of personnel carried by the craft over a period of training.

.....Capt

O C 'C' Pl.

COMMENTARY
on
Certain Events which have occurred in Base (VERY Base) HQ of a certain Aust Landing Craft Coy RAE in the last few days.

The series of events well worthy of promulgation to all ranks, opened on Friday 3 Nov 44 when this Unit achieved a notoriety unique in the history of the Australian Military Forces by adopting the famous HOSKEN*-NATIONAL Code of Signals.

This code has for its object the creation of unprecedented turmoil in Coy HQ and there is no doubt whatsoever that its object has been admirably achieved. When you hear the phone ringing, you proceed in a soldierly manner to whichever phone you think is ringing and invariably try the wrong one first. The phone is then thrown out the nearest windowand you keep on trying till at last one of them works.Much to your dismay you find that you are in conversation with an entirely different caller from the one you expected, to wit, a Dutchman speaking in Pigeon English -(Pigeons are on the WE of this Unit) - , Colonels are heldon the line while vain efforts are made to switch the call through to the Control Tower, the Major's launch or the non-existent phone in the Officers' Mess, and finally the O C concludes by talking to the Orderly Room (to put it mildly) wondering where in the &$?/‡*--H% - BLUE BLAZES is that Colonel.

The events following on 1000 hrs 3 Nov 44 are too well known to require any further commentary, other than the following notes :-

(a) The O C is now convinced that the HOSKEN-NATIONAL Code of Signals works far better when you place the earpiece to your mouth and the mouthpiece to your ear.

(b) Immediate steps are to be taken to recommend to higher authority the introduction of this Code throughout the Army and it can confidently be anticipated that the founder of the Code will receive due recognition from His Majesty the King for his great services for King and Country.

Friday afternoon was notable for a call from CAIRNS (the Code of Signals NEVER lets us down*) to the effect that 100 Pontoons weighing a mere 25 cwt each were available for collection and were to be obtained by us forthwith under Unit arrangements. Of course, nothing was known by anyone in CHQ about the matter, and after a short lapse of time, the expenditure of considerable energy and the waste of quite a little boot-leather, a likely looking Officer using a theodolyte on the Waterfront for reasons best known to himself, was approached and he at least knew something about them. He asked for transport and was informed that the only vehicle available was a JEEP which was considered HARDLY suitable for the purpose. The suggestion that the pontoons be towed round to BARRON RIVER by Landing Craft was favourably received, but was finally rejected for the simple reason that NO craft were available. On Saturday it was noticed that the pontoons began to arrive at the Camp Site by transport supplied by a Gen Tpt Unit.

Feeling slightly in need of relaxation the writer had a very enjoyable and profitable game of cards in the evening, enabling him to resume duty on 4 Nov 44 quite refreshed, and like Mr Micawber, ready and waiting for ANYTHING to turn up.

And sure enough it did.

(1) A party of Personnel from a Fd Coy RAE arrived at CHQ, produced a letter of authority to which was attached an elaborate location plan of this Camp, and stated they were here for the weekend and asked where they could pitch their tent. The senior NCO i/c Party, who turned out to be a Spr, wanted to know whether our O C would be good enough, firstly, to sign leave passes held by them, and secondly, would he be graciously pleased to allow them to use THEIR OWN VEHICLE that night. Extending to them the hospitality for which our Unit is renowned, a boat trip on Sunday was arranged for their benefit without their knowledge which would have been thoroughly enjoyed by all IF they were still here, which they weren't.

AUSTRALIAN WAR MEMORIAL AWM2020.71.4323

2. Two Netherlands East Indies Army Personnel arrived by vehicle and wanted to know where THEIR Landing Craft was located. Believing that it was reasonably certain that same was not hidden away in the O C's inkwell or on top of the mast in front of CHQ, they were directed to the Waterfront. Subsequently, one of them, a very jovial little Dutchman entered CHQ and, mind you, asked for a leave pass. The O C had just entered at the time through another door - another case of 'Shut the Door, They're coming through the Window, Shut the Window they're etc etc'. When the matter was referred to him he said 'Certainly, by all means' in a tone which implied that the request was a perfectly normal and natural one. The full facts were ascertained from our visitor by the use of a bit of good natured banter, and he thought that he would be coming back on the last leave truck that night, provided he was not too drunk to find out its starting point. In any case he could easily walk the 7 odd miles from CAIRNS and would have no difficulty in finding the Camp Site, a quick glance outside the door of CHQ proving sufficient to re-assure him in that regard.
3. One Officer and Thirty O/R's arrived in C Pl's lines and attached themselves for rations, pursuant to arrangements made with somebody by somebody. Enough said, except that they borrowed a leave pass book from CHQ, this Camp being now recognized as a Rest Camp for all strays and broken down individuals who are in need of convalescing by the sea.
4. It was therefore not unexpected that the Sgts' Mess Accounts perused in the evening showed a surplus of Assets over Liabilities considerably in excess of that which could reasonably be expected.
5. It has just reached the ears of the writer that certain Very Lights were being displayed in the vicinity of this Camp in the very early hours of Sunday and that a senior Capt of the Unit (who must not be confused with Sherlock Holmes) insisted that they -whoever they may be - (NOT the Very Lights, I presume but the Personnel displaying them) should be placed under close arrest if and when located. It is even whispered that the same Captain saw, or thought he saw, some one yet unidentified, covered with a white sheet, running around the Camp at 0200 hrs 5 Nov 44. As at the time of writing at 1100 hrs 5 Nov 44, developements are awaited with interest.

RECOMMENDATIONS

Not knowing what might turn up next and recognizing the paramount necessity for CHQ to be able to deal effectively and irrevocably with ANY eventuality which may arise, the following recommendations are respectfully submitted.

(a) Immediately upon arrival of a Swiss Submarine at the waterfront, the 2 i/c will be informed and he will attend to the Commanders needs in his usual capable manner.
(b) An amendment to Camp Standing Orders to provide for action to be taken by the Orderly Officer and/or Orderly Sgt to deal with the possibility, nay probability, that two crocodiles, perched on the Mast in front of CHQ may toss a Unit football and or/softball from one to the other and eventually puncture same. It would upset morale of the tps if no one could deal with this situation promptly.
(c) The testing of the suitability for front line service of Repellent, Sharks G.S. Mk 1 presents NO difficulties whatsoever, provided transport is available. You cant contact them by means of the HOSKEN INTERNAL COMMUNICATION SYSTEM, (at least, you generally can't) so a Runner must be despatched to arrange same.

AUSTRALIAN WAR MEMORIAL AWM2020.71.4323

(C) Continued --- Taking advantage of the fact that it is only a few days after Pay Day, 10 Personnel go into CAIRNS with plenty of dough, and their arms and faces are well sprayed with shark repellent, and they are then let loose in the town for one hour. If they return to Camp without any money and each reading a local daily newspaper priced at twopence for which they were charged threepence, you'll know that the Shopkeepers have proved that the shark repellent is no earthly use whatever. Same is thereupon thrown into the Waste Paper Basket in the 2 i/c's room, if you can find one there.

(d) Receipt of the following signal from DWT, LHQ, within the next few hours may confidently be anticipated.:-

" 5 A L C 40 will proceed to the Tablelands and return to Camp via BARRON FALLS. Matter to be finalised under Unit Arrangements within the next few days. Ack."

This instruction is not considered complicated enough and worthy of attention by CHQ, so its implementation is entrusted to the 2 i/c Unit Batmen. His Adm Instruction is as follows:-

" Craft will be lifted from water at 0300 hrs Wednesday 8 Nov 44 and placed on roller skates and then towed to the nearest cane tram line by attached Unit Bulldozer. Colonial Sugar Refinery Ltd will co-operate by providing two steam engines to tow craft to INNISFAIL, where immediately upon arrival they will be loaded onto semi-trailers and taken from thence up to the source of the BARRON RIVER, from which point they will make their way back to Camp. No rations will be carried but Tps will be equipped with Knives, Clasp, complete with Lanyard to enable them to cut fresh meat from Crocodiles frightened to death from the sight of our craft. Helmets, Steel will be worn by all ranks participating in the exercise to provide against any untoward incidents in passing over the Falls. R A P will be provided. Craft will tie up at their moorings, provided they survive, at BARRON RIVER CAMP SITE not later than 1800 hrs Wednesday 8 Nov 44. Disciplinary action will be taken against any Personnel failing to carry out their duties and a Summary of Evidence will be taken for submission to higher authority.

P.S. CHQ now feels competent to handle ANY SITUATION WHATEVER.

SUBJECT : POOL OF LANDING CRAFT SPARES AND COMPONENTS

41 Aust Landing Craft Coy RAE

C R E
1 AUST CORPS TPS

1. The few spare parts and components received from Ord since arrival in this Areahave been issued when the item to be replaced is returned to cell. No allowance is made for a pool. It has been found in NG that a Landing Craft Coy requires a maintenance pool in order to avoid unnecessary periods of unserviceability of craft.

2. The method adopted for repair of craft is as follows :-

A craft on return to base is examined by Wk/shops Officer who decides what parts or components require repair. These are then removed from craft and replaced. Subsequently, these parts are repaired in the appropriate section of Wk/shops and become available for re-issue. Thus it is unnecessary to hold craft while repairs are effected. Similarly, if any part of a main assembly is defective, the complete assembly is unbolted and moved on a series of rails and gantries to whichever workshop is involved in the repair and a replacement is immediately lowered into position. Thus, while the repair of assembly may take some days, the craft itself is serviceable again in a few hours. This principle is vital to successful operation of Unit.

3. The establishment of a holding in Unit cell, based on a monthly rate of use, in NG and elsewhere, has been approved. It is requested please, that necessary representations be made to ORD for the urgent provision of such holdings to Cell in order that the present "hand to mouth" method may be obviated.

SUBJECT - UNIT TRG & COMBINED OPS EXERCISES

41 Aust Landing Craft Coy RAE

C R E
1 AUST CORPS TPS

1. Further to my letter of 5 Oct 44 on this subject, your attention is invited to the fact that only 6 ALC 40 on charge are now serviceable. Craft at present in use have been operating without essential maintenance for some time. This is now resulting in the broaching and swamping of craft made available for Divisional training and much damage has already occurred.

2. Unit Wk/shops have been completed and any available equipment installed but none of the four machinery loadings on WE has been supplied. Despite frequent representations, no substantial provision of spare parts or components has resulted. Many items required are standard MT replacements.

3. To meet Combined Ops training requirements, only experienced coxswains ~~have had no training~~ can be used on open beaches. The great majority of coxswains have had no training with craft and training at sea is not possible unless all craft on charge can be made seaworthy. At present craft not actually in use on beaches are being cannabalised in order to maintain those operating.

No 2 trip DOUBLE ISLAND to BAKER YELLOW

ALC 15 AB 1199

AM No salvage. 0 C used as 'runabout' for mortar shoot.

PM No salvage operations required.

COMMENT

Craft worked from 0830 hrs to 1030 hrs and from 1330 to 1545 hrs. Sub-Unit comds of tps practising wading were satisfied that they had had enough instruction without trg from 0830 to 1200 and 1330 to 1630.

ABLE RED very satisfactory for wading. Craft can beach dry if necessary even at present low tides, probably not at L W Springs

122. PICTURE PROGRAMMES

D A D Amenities, 1 AUST CORPS, has expressed concern because the weekly Picture Programmes do not appear to be fully appreciated by Tps of this Unit.

It appears that some complaints have been made in the past by isolated Personnel to the Operators that they had seen the previous programmes before, and also that attendances were not as large as had been anticipated.

It is felt that the great majority of tps DO appreciate the programmes and realise that the showing of pictures in this Camp is a privilege, and for this reason D A D Amenities has consented that programmes will continue to be shown for the time being, dependant on attendances and appreciation.

Pls will ensure a full attendance for tonight's Programme and instruct tps to show their appreciation at the end of the evening in the usual manner.

123. CAMP LIGHTING

(1) No person will exchange globes for globes of a higher wattage without permission of the electrician as this may cause damage to lighting plant.
(2) No person will instal extra lighting or power points without permission of Wk/shop Officer.
(3) Lights will be switched on at 1800 hrs and will be switched off at 2215 hrs. Anyone requiring lights at other times will prior to 1700 hrs on the day on which extra lighting is required obtain permission from the O C, 2 i/c or Adjt.
(4) No one will at any time remove globes, switches or any other fittings.
(5) Personnel are warned that contact with overhead wires will cause instantaneous death. Drivers of vehicles with high fittings and loads are warned to watch overhead wires. Guard will warn drivers of other Units when entering the Area.
(6) Should overhead wires be broken, Coy HQ will be notified immediately.
(7) No unauthorised person will interfere with plant or fittings.

VX 52 MAJOR S.G. PINNIGER commanding 41 AUST LANDING CRAFT COY RAE

11 Nov 44
Serials 129-134

DUTIES mounting Retreat 11 Nov 44

ORDERLY OFFICER	LIEUT HOSKEN	B.M.G.
Next for Duty	Lieut Maxwell	J.M.
ORDERLY SERGEANT	SGT KIRKHAM	H.V.
Next for Duty	Sgt Schaefer	E.K.

129. WATER FRONT DISCIPLINE
(i) The Water Front Area in front of the Slipway and paint jetty including the wharf, is out of bounds to all craft except for the purposes of refuelling with petrol and water, lifting or replacing engine assemblies (bolting and unbolting of assemblies will NOT be done alongside wharf), or for repairs as ordered by Workshops Officer. Movement into this Area will only be with permission of Wharfmaster.
(ii) Wharfmaster is Sgt COCKLE W.N.

130. STANDING ORDERS FOR COXSWAINS
1. There are indications that Standing Orders for Coxswains are not being observed in the following matters.
(i) Proper care is not being exercised over C O L and M P L items. All spare valves, gaskets, water pumps, carburettors spark plugs should be returned to Tech Store on return to Moorings.
(ii) Unserviceable parts are not being returned to Workshops.
(iii) Bilge plugs are not being removed and greased weekly.
(iv) In some cases maintenance as laid down is not being effected.
2. (i) Failure to adequately observe Standing Orders may result in the coxswain being suspended from duty and charged with neglect to the prejudice of good order and military discipline.

131. RELATIONS BETWEEN PLS AND WORKSHOPS
1. On craft which require workshop attention returning to moorings crews will not be granted a stand down while Workshops require to start work.
2. Three members of the crew are to be available to work on craft for the period it is in Workshops.
3. One member of the crew will be on duty on board his craft at all times.
4. In cases of swamped craft, Pl Engrs will be organised as required to assist Workshops in removing and replacing Engines

132. INTOXICATING LIQUOR
Personnel have been detected carrying bottled beer outside the Camp Area. It is a military offence to carry intoxicating liquor in containers except in places set apart for that purpose.
Any member detected removing intoxicating liquor in containers from the Camp Area will be severely dealt with.

133. SPEED LIMIT IN CAMP AREA
Vehicles in Camp Area will not exceed a speed of 10 m p h

134. CLOSED CAMP NIGHT
Monday 13 Nov 44 will be a closed camp night and no leave will be granted.

S.G. Pinniger Lieut
Adjt, 41 Aust Landing Craft Coy RAE

135. LIFE ASSURANCE POLICIES TAKEN OUT BY MEMBERS OF THE FORCES

1. Life Assurance policies taken out by members of the forces on their own lives after September, 1939, usually contain a war clause which imposes upon the member concerned, if he wishes to remain covered under his policy for the full sum assured while serving outside the Commonwealth, the obligation of -
   (a) informing the life assurance office concerned of his departure from Australia and of the date thereof; and
   (b) payment to that Office of an extra war loading premium.
2. Certain life assurance offices regard the territories of Papua and New Guinea as being, for this purpose, outside the Commonwealth, and there are variations in the rate of war loading premiums charged by different offices, while, in some circumstances, an office may not be prepared to cover the additional risk and may, therefore, refuse to quote any extra premium.
3. If the member subsequently embarks for service outside the Commonwealth, he may arrange through army channels -
   (a) for payment of the amount of extra war loading premium (as previously ascertained by him) to the office concerned, by means of a remittance of undrawn pay; and
   (b) for notice of the date of embarkation to be given to that office by the DFO when paying the remittance.

   The member will attach to the remittance form a letter requesting the giving of the notice mentioned in sub-para (b) of this Para.
4. For security reasons, direct notification by members to life assurance offices of their impending or actual embarkation is strictly prohibited. (GRO F 412.)

41 AUST LANDING CRAFT COY RAE.

UNIT INTELLIGENCE REPORT. (From 1800 hrs 12 SEP 44 to 1800 hrs 19 SEP 44)

CRAFT: On hand:-

ALC 40's	12
ALC 15's	1
38' F.S. Launches	4
40' Wk Boats	1

Five ALC 20's are being over from Ord Veh Park at TOWNSVILLE to proceed under own power to CAIRNS. Personnel left CAIRNS by rail 12 SEP 44. On SEP 15 five ALC 40's were taken over by 42 AUST LANDING CRAFT COY but due to altered instructions these are to be returned and four have already been taken back. On 13 SEP 44 Capt STUBBS in workboat with three RAAF personnel salvaged instruments and parts from crashed Boston Bomber some 120 miles north of CAIRNS.

VEHICLES:

Two 3 ton Machinery Lorries, three trucks ¼ ton 4 x 4 with trailers 2 wh 8 cwt and one tractor are on unit strength. In addition three 3 ton trucks are on loan from RAE 1 AUST CORPS TPS. These have been inadequate for the present constructional needs.

CAMP: Camp construction at BARRON RIVER (Location Map Ref 696763 CAIRNS 1" Sheet) commenced 16 SEP 44. 11 AUST ARMY TPS COY RAE is constructing Scale "A" accomodation and two slipways. 41 AUST LANDING CRAFT COY is constructing approx 10,000 sq ft Scale "B" and workshop accomodation and its own piled jetty and gantry. Progress is satisfactory but limited by availability of materials.
Two wells have been sunk - Output useful and possibly potable.

TRAINING: No organised training has taken place as all available personal are fully engaged in construction of new camp. 3 offrs and 8 ORs were att 42 AUST LANDING CRAFT COY as observers during amphibious exercise with an INF BDE.

A & Q; Normal.

HEALTH; Full anti-malarial measures adopted; otherwise normal.

MORALE: Good.

3. Unit Intelligence Report: (from 1800 hrs 12 Sep to 19 Sep).

Craft: Maintenance of craft is receiving due consideration. Five ALC 15's are being taken over by a party of three Offrs and 36 OR from the Ord Veh Park at TOWNSVILLE. The party left Cairns by train 12 Sep . Unit Nav Offr is proceeding to TOWNSVILLE (19 Sep) to escort craft to BARRON RIVER site. On 15 Sep ALC 40 AB 2105 AB 2107 AB 2109 AB 2106 AB 2108 were taken over by 42 Landing Craft Coy. As will be seen in para "2" above four of these craft have already been taken back onto the strength of this unit. In the course of the next week the remaining ALC 40 will be taken over. On 13 Sep Unit N Offr made a reece to a point South of COOKTOWN where a service plane had crashed into the sea. Purpose; to ascertain whether the plane was salvagable. The bar at the mouth of the BARRON RIVER gives slight trouble at low water.

Slipways: The site for one slipway has been scooped out and the Engrs are preparing for pile-driving. A start has been made on a jetty to be used by the AM craft. (FSLs)

Vehicles: Two 3 tn trucks, three ¼ tn trucks and trailers and one tractor are on unit strength and in addition are the three 3 tn trucks on loan from 1 RAE Corps Troops. These have been inadequate for the present constructional needs.

AUSTRALIAN WAR MEMORIAL AWM2020.71.4323

Camp: Considerable activity in the erection of buildings tents etc, on the new camp site. A det of 1 Aust Corps Engrs having built kitchens are in the process of sinking wells for the internal water supply. One well is now delivering water to high tanks for the mens showers. Camp routine is being developed satisfactorally.

Adm and Q: Normal.

Training: Organised training; nil. Whole time is spent in the construction of the new camp site.

Outside activity: Apart from the party at TOWNSVILLE taking delivery of craft, a small party of 3 Offrs and 6 OR were att to 42 Landing Craft Coy on 13 Sep to observe landing exercise by an Inf Div on the coast North of TRINITY BAY. Three separ landings were made over a course of four days. Party arrived back at unit 17 Sep.

Health: Full anti-malaria measures adopted; otherwise norma

Morale: Good; men kept busy.

Major,
OC, 41 Aust Landing Craft Coy

Sep 44.

AUSTRALIAN WAR MEMORIAL AWM2020.71.4323

Training: General sapper training for all OR in connection with erecting installations and demolitions. Six OR are receiving training in tractor driving and crane handling. Five OR are being trained in pile-driving.

Health: Normal. Full malaria precautions adopted. Organisation of sport progressing.

Morale: Good.

Coy Strength: 430 all ranks. (24 x 406).

Engineer Intelligence: Nil.

INTELLIGENCE SUMMARY NO 5

41 AUST LANDING CRAFT COY RAE

FOR PERIOD 16.10.44 to 31.10.44

To: Directorate of Water Transport
LHQ Melbourne

Copies to: RAE 1 Aust Corps Tps

Marine Superintendant. DWT
Adv. LHQ Brisbane

1. General.

"C" Platoon with 6 ALC 40's has completed amphibious tng with 21 Bge, and is now tng with 25 Bge at Trinity Beach area Cairns. The object of the tng is to practice personnel in loading and unloading of all classes of stores and personnel. Equipment carried has included tractors, guns, tanks (Matilda), and personnel equipped for both wet and dry landings. All craft allotted for the exercise have carried out their roles successfully but difficulty is being experienced in keeping craft in commission owing to a shortage of spare parts.

On 5 Nov. "B" Platoon with 18 Aust Inf Bge will commence amphibious tng culminating in a Bge exercise.

Mortar Shoot. OneALC 40 was requested by 2/25 Aust Inf Bn to carry out a mortar shoot from landing craft. Two 4.2" mortars were mounted and secured by means of baulks of timber and sandbags. The mortars were set up at an angle of 45 degrees and ranged by varying the number of secondary charges, and considerable accuracy was secured.

5 Aust Welding Pl RAE are at present engaged in welding canopies on those craft lacking them; at present a total of seven craft have yet to be welded.

2. The following appendices are attached:

Appendix A - Craft Ops.
B - Craft out of Commission.

The following appendices are omitted:

Craft Transfers - Nil transfers.
Movement of Officers - Nil
Dispositions of Units - Nil except as shown in para.1.

1 Nov 44.

WAR DIARY

41 Aust Landing Craft Coy RAE (AIF) From 1 Dec 44 to 13Dec 44

Dec 44

1 Nominal rolls of the party to proceed to Brisbane on the 2nd are now complete. Major Pinniger and a small party will leave later and travel by FS Launch. Col. Brewer, CRE, 1 Aust Corps Tps, visited the unit today.

2 The Brisbane party left this morning at 0900 hrs. The general opinion is that they will have plenty of work and possibly an unpleasant trip back and will earn what leave they get in Brisbane. It is certain that no improvement on the conditions experienced by the first convoy could be expected and seasonal weather conditions are less favourable now. "B" Platoon returned from Trinity; the work there was according to the now familiar pattern and rather uneventful. WF 3008 and WF 3009 of this date are attached as Appendix "A"

3 The cricket team is in a bad position in the match commenced today and may sustain its first loss.

4 Capt. Horn R.A. marched in to be Unit M.O.

5 MT Casualty return of this date is attached as Appendix "B" It has proved difficult to obtain adequate supplies of paint Appendix "C" attached sets out the estimated minimum requirements to prevent undue damage to craft. Permission to move AM 1488 to Brisbane was received.

7 At 1130 hrs Maj. Pinniger, Capt. Stubbs, Lieut. Nankivell and crew departed for Brisbane in AM 1488; they are expected to arrive at 0730 hrs Dec 13. Lieut. Dobson is acting Adjutant and Capt. Chapman administers command. Capt. Hickey marched out.

9 A disastrous falling off in the amount of mail received by the unit having been noted in the last few days inquiries were set on foot to discover the reason and it has been found that some unknown person has arranged for all the unit mail to be sent to Toorbul Pt. This is rather extraordinary as the Unit HQ remains here together with the greater number of personnel. Steps are being taken to remedy this state of affairs. (It was discovered later that the fault lay with someone at AWTTC, Toorbul Pt)

10 The cricket team sustained its first defeat but remains well placed in the competition.

11 AM 1488 has experienced very bad weather south of Townsville and has been forced to put into Mackay for shelter; Maj. Pinniger is completing his journey from Mackay by train. Col. Herbertson DWT Small Craft, and Maj. Bunn visited the unit today.

13 Maj.-Gen. Steele, Engineer in Chief, inspected the unit today; in the course of a talk at the conclusion of the inspection he told us some rather interesting things, amongst others that we would "travel everywhere under our own power". It begins to look as if there may be a job for us shortly after the convoy returns from Brisbane. Maj.-Gen. Steele expressed himself as very satisfied with the appearance of the unit. There has recently been a number of transfers of personnel to other units- in many cases a process of getting rid of undesirables - and the unit is now somewhat under strength; a number of reinforcements is expected to return with the convoy. Craft are being worked as little as possible; from time to time odd jobs require to be done but for the most part craft are remaining at their moorings with the crews carrying out general maintainance. Brig. King and other officers of 15 Aust Inf Bde visited the unit today. This Coy seems to hold some special interest for senior officers.

AUSTRALIAN WAR MEMORIAL AWM2020.71.4323

SECRET

WAR DIARY

41 Aust Landing Craft Coy RAE (AIF) From 14 Dec 44 to 30 Dec 44

Dec 44
14 A signal was received to the effect that AM 1488 has been able to continue from Mackay and has reached Bundaberg. Pictures were shown in the area at night.

16 The detachment at Toorbul Pt has had to wait to receive its craft but whether this will involve a later sailing date for the convoy is not yet known.

17 There are rumours of leave for those with over 24 days credit. A party went out pig-shootingbut met with no success. The fishing party returned with about a cwt. of fish. In the morning a shark warning was issued and all swimming in the Barron stopped; 42 Coy have caught small ones near their anchorage and the crew of AM 1480 saw a shark about 10 ft long in the river in the evening.

18 Maj. Hayes, Special Military Attache, U.S, Embassy, visited the area.

19 At 1500 hrs 1 Officer and 17 ORs proceeded south on 24 days leave. "B" Platoon with 6 ALC 40 and AM 1480 as control craft moved out to the Port Douglas area to participate in an exercise with 2 Aust Beach Group; they are expected to return tomorrow night.

20 "B" Platoon returned at 1700 hrs; the exercise was quite successful

23 A Coy parade was held at 0830 hrs; Capt Chapman referred to rumours of movement, stated there was a possibility of it and impressed on all ranks the need for security in such matters. It does look as though we are moving shortly. The convoy is to leave today and will consist of 18 ALC 40 and sundry other craft not yet known exactly. The camp is very quiet at present and everyone is looking forward to Christmas Day.

25 This day and the preceding one were rest days and only a bare minimum of duties were mounted. Christmas dinner was a success; the meal was served by the officers and sergeants and to conclude with most of them paid an involuntary visit to a large pool of water in front of the Q store. A party is to go to Melbourne to pick up 2 ALC 120. The Melbourne people in the Coy are very excited the more so as future leave is stopped and those now on leave may be recalled.

26 The Melbourne party, 1 officer and 11 ORs, left at 1300 hrs and another party is to follow later. The convoy is expected to reach Townsville tonight.

27 A signal was received to the effect that the convoy is due here on Friday at 1200 hrs; 36 reinforcements are travelling with the convoy.

29 The convoy arrived off the bar just after midnight of the 28th but owing to the low tide no attempt was made to proceed up the river till after dawn. The convoy consisted of 18 ALC 40, 1 FS Launch and 1 Workboat while 2 ALC 5 and 1 FS Launch were carried as deck cargo. All craft arrived safely.

30 Major Pinniger and Capt Stubbs left by air for Melbourne to join the two previous parties; The unit is now reorganised as an ALC 40 Coy with 3 platoons each of 9 ALC 40; the ALC 120 may be a new platoon. Details of the reorganisation will be found in Appendix "D" attached

AUSTRALIAN WAR MEMORIAL AWM2020.71.4323

SECRET

WAR DIARY

41 Aust Landing Craft Coy RAE (AIF) For 31 Dec 44

Dec 44 31 A further party, 1 officer and 16 ORs left for Melbourne to join those picking up the ALC 120's.

Health: Anopheline mosquitoes have been found in a swamp adjoining the area and four cases of malaria have ocurred; the consequence has been a further tightening of malarial precautions and it is hoped these will prove effective. Otherwise the health of the unit remains good.

Morale: Has been well maintained on the whole. Any despondency due to the prospect of leaving Australia without first having leave has been largely outweighed by the prospect of a move and the arrival of new equipment.

Location: The unit is concentrated at the Barron River camp area, Cairns. Map reference 701766 Cairns 1" to 1 mile sheet

ROs for Dec (serials 143 to 162) are attached, Appendix "E".

MINUTE FOR PUBLICATION IN ROUTINE ORDERS

A DCM convened by Lt. Gen Sir. Leslie. J. Morshead commanding 1 Aust Corps was held in the field on the twentieth day of November 1944 for the trial N 191664 Spr Croghan. N. T.

The accused was charged with:

First Charge Army Act Sec 40 — WOAS conduct to the prejudice of good order and military discipline in that he at about 1745 hrs on 28 Sept 44 in Edith St, INNISFAIL, a public street, engaged in a struggle with another soldier.

Second Charge — WOAS resisting an escort whose duty it was to have him in charge in that he at about 1745 hrs on 28 Sept 44 while under escort of members of First Aust Army Pro Coy, AIF, Detachment INNISFAIL, resisted the escort by punching struggling and kicking.

The court found the accused guilty of the charges. Sentence 60 Days Field Punishment. The accused was two days in close arrest awaiting trial. The finding and sentence was duly confirmed on the Fifth day of December 1944 by Lt. Gen. Sir. Leslie. J. Morshead commanding 1 Aust Corps and Promulgated to the accused in the field on the Thirteenth day of December 1944.

Orderly Sergeant mounting Retreat 15 Dec 44 — Sgt. Vorwerk L. M.
Orderly Sergeant mounting Retreat 16 Dec 44 — Sgt. Olver R. J.

157. INFORMATION OF PERSONNEL OF ROMAN CATHOLIC DENOMINATION
Mass is celebrated every Sunday morning in the Recreation Hut at 0815 hrs.
The Chaplain is very perturbed at the non attendance of members over the past few Sundays.
In view of the fact that, from a Military viewpoint these services are entirely voluntary, all RC personnel are urged to make every effort to attend.
Arrangements for Xmas services will be notified at a later date.

158. COMPANY AND PLATOON OR SECTION ROLL BOOKS
Company and Platoon or Section Roll Books will be maintained in accordance with the instructions printed on the inside of the covers to the extent to which unit circumstances permit, e.g. in the case of units not engaged in operations or on work in the field which prevents assembly for the purpose of roll call, the instructions will be complied with in full; in the case of other units, the rolls will be completed as opportunity offers, but daily if practicable.

J W Dotson Lieut
Adjt. 41 Aust Landing Craft Coy RAE.

159. GREEN ISLAND.
Parties proceeding to GREEN ISLAND will take with them their own supplies of food and drink as meals are not available on the island. Craft will ensure that only the recognized channel is used to approach the island and that no damage is done to the wharf.

160. TROUSERS POCKETS
Trousers WD (Green Self Sp) are being issued having an outer pocket on the front of the left leg.
In some cases it has been noticed that such pockets have been removed.
These pockets are invaluable in ops, and must must not be removed.
