THE FOLLOWING LETTER OF THANKS HAS BEEN RECEIVED FROM RAF, CYPRUS.

"On behalf of the RAF, Cyprus, I am writing to thank you, your officers and all the men under your command for all the most valuable assistance you have been giving us these last months. The spirit of enthusiasm, the keenness to give their best under trying conditions and to meet all our requirements, especially during the last "emergency" operations greatly impressed us, and all ranks wish, through me, to express their gratitude. It was real comradeship and co-operation that pulled us through and helped us to successfully fulfil the tasks we had undertaken. [illegible]

1. DISTINGUISHED CONDUCT.

The conduct of QX 5567 TPR JONES, P.N. of 7 Aust Cav has been brought to the notice of the GOC 7 Div.

This soldier showed outstanding devotion to duty on 22 Jul 41, when 3 tins of petrol became ignited on a vehicle of which he had charge and which was located in near proximity to a quantity of live ammunition.

Although suffering severe burns to both hands, Tpr Jones removed the burning petrol tins to a safe distance from the ammunition. By his calm and deliberate conduct he prevented the extension of the fire to the ammunition, thus averting possible loss of life and serious damage to property.

The G.O.C. directs that an entry be made in the documents of the above-mentioned soldier in accordance with [illegible]gulations, 1940, para 1718 (b) sub para xvii.

2. SUSPENSION OF LICENCES.

Consequent upon proceedings of Coun[illegible]iry into motor and cycle accidents, the licences of the un[illegible] personnel have been suspended from the dates shown for [illegible]x months:-

1. CIVILIANS IN CAMP AREA.

Civilians, irrespective of nationality or colour MUST NOT be permitted to enter the camp area at any time. It is the duty of all ranks at all times to ensure that this order is rigidly enforced. A complete kit was stolen by a civilian from a member of the Regt yesterday afternoon.

2. SECURITY.

(1) British and Australian troops are occupying the whole of SYRIA from 16 Jul. The security problem that lies before us is not going to be a simple one, but its execution will be rendered either most difficult or comparatively easy in accordance with the attitude that the present inhabitants adopt towards us.

(2) This attitude will be formed quickly and will be almost entirely dictated by the behaviour of both offrs and men in the occupied territory.

(3) The French forces under General DENTZ have put up a very gallant defense against our superior forces. [redacted] up to each of us, offrs and men, to show to the defeated enemy al[redacted]ble courtesy and consideration. If we do so we will find that [redacted]y will this courtesy and consideration be reciprocated, but al[redacted]at it will do much to heal the bitterness of defeat, may even mean [redacted]t later these same Frenchmen will join us against our common enemy [redacted] Germany.

(4) The local inhabitants as a whole welcom[redacted] our arrival - the Christians with some enthusiasm, the Arabs [redacted]d Druzes in a rather neutral manner. The will judge us by our beh[redacted] o[redacted] parade and by the way we take our liquor. Scoffing or laughin[redacted]ir religious customs will be deeply resented, while interferer[redacted]their women will be the surest road to trouble. It is worthw[redacted]alian remembering that to the SYRIAN it is almost as objectionable for hi[redacted] wom[redacted] to be stared at or called out to or whistled at as it is for them to be actually accosted or seduced. In either case his honour and Oriental propriety is violated and he will never forgive.

(5) It is known that German agents still exist in the country. They will not be slow to spread and magnify the importance of any incidents that occur.

7TH DIVISIONAL CAVALRY REGIMENT

IN THE FIELD. PART I ..... NO 285 25 Aug 41

1. FIELD CENSORSHIP.

(a) Posting of Correspondence. Cases of evasion of censorship by carrying letters by hand continues and this is leading to a serious state of insecurity. The practice is most common between EGYPT and PALESTINE. All ranks are advised that the practice of carrying letters is forbidden. A personal search of all personnel in transit may be conducted at any point and correspondence being carried by hand for delivery found in their possession will be confiscated and destroyed. Disciplinary action will follow against the carriers and writers.
The term ALL RANKS includes:- (a) Wives and adult relatives and dependents of offrs and ORs. (b) Att Allied personnel (c) Civilians employed by H.M. Forces (d) Civilians visiting the Army (e) Interpreters.

(b) Green Envelopes. Regulations regarding "multiple" green envelopes are not being correctly observed. All ranks are reminded that writers may enclose up to three of their own letters, each in a separate ordinary envelope in one green envelope. Letters will be properly addressed, but must be left unsealed. Officers Claglopes containing more than one letter will be addressed "The Censor".

(c) Franking of Correspondence. A certain laxity in the manner in which offrs franking correspondence apply to their envelopes has been noticed. The attention of all franking offrs is drawn to Field Censorship Regulations, 1940, Part II, Para 3 (ii).

2. REGISTERED POST.

Personnel are advised to send by Registered Post any packet - not exceeding (1) lb in weight - containing valuable enclosures. The additional fee is 3d. Registered parcels are checked from hand to hand and safeguarded against loss during transit. Registered articles should not be placed in a posting receptacle but presented at an Army Post Office - through the unit Postal representative - where an official receipt will be issued. Registered packets should be properly packed and securely wrapped. Linen, canvas or calico is the most suitable type of cover.

3. PHOTOGRAPHS.

The practice of forwarding to Australia personal photographs taken in such a manner as to show the portrait superimposed or inset on facsimile Australian Bank Notes in the blank oval space reserved for the watermark will cease. The possession of such photographs in Australia constitutes an offence under the Commonwealth Bank Act and any person within the Commonwealth in possession thereof is liable to prosecution.

4. VEH ROAD PASSES.

Personnel on permanent duties and others requiring veh rd passes will, as far as possible, apply for same before 0900 hrs on the day on which the pass is required.

NX16246 Lieut F.A. Timbury.

2. MAINTENANCE OF VEHS.

It is essential that every care be taken by fitters, mechanics and drivers when removing nuts, bolts, screws etc not to damage them. Replacement and repair is difficult and losses and breakages through carelessness can very easily impair the regt's efficiency as a fighting unit by causing vehs to be needlessly grounded.

3. ENTRANCE TO CAMP.

Entrance to camp from TRIPOLI - LATTAKIA will be along road bearing signposts to that effect.

3. FIELD CENSORSHIP - USE OF HOTEL STATIONERY.

It is observed that the practice of using hotel stationery for private correspondence is being continued contravention of Field Censorship Regulations 1940, Part I (para 5 ix).
It is notified for information that as from 1 September 1941, letters written on hotel stationery will not be passed by censorship.

4. POSTAL CENSORSHIP.

Letters brought to an offr for censoring must already be fully stamped and the censoring offr himself is responsible for putting them in the letter box or otherwise despatching them to the APO. They must not be handed back to the writer to affix postage stamps or convey to the post.

13 Lt Tks.
30 Carriers with Bren Guns and Boys Rifles.
29 No 11 H.P. Wireless Sets.
15 Motor Cycles.

plus spare parts of various types.

3. If the extra eqpt as outlined in para (2) above became available, it would be possible to return to Ordnance the following:-

4 2-pdr ATk guns.
41 Bren Guns
20 T.S.M.G.s
14 Hired vehs
15 M.M.G.s
8 Boys Rifles.

S E C R E T.

4th Aug. '41.

1. Transport arrangements for dispersal and embarkation Aust. Cav. Regt. are set out in Appendix.

2. (a) Units required to supply transport are indicated in column headed "method". Transport will R.V. at "English Halt" rail and road crossing 1½ mls. W. of FAMAGUSTA. 540641. by 2000 Hrs. Aug. 5th for Serials 1 - 7 and by 2000 Hrs. Aug. 6 for Serials 8 - 10 except transport detailed to clear baggage from Nicosia. Transport will pass under command O.C. Supp. Col. at "English Halt" and so remain until despatched from Dock Area. From that stage until rejoining own unit transport will be under command senior officer present in convoy. Transport required to clear baggage from Nicosia will be held in readiness from midnight night concerned. Q (M) will notify when required to be at Station. On arrival at destination vehicles will off-load immediately and be ordered to rejoin own units.

(b) Transport detailed for Serial No. 15 will report to H.Q. Aus. Cav. as indicated and after off-loading Famagusta will R.V. , "English Halt" in readiness for Serial No. 8. and will then serve under command O.C. Supply Col. as in (a).

3. O.C. Supply Column will arrange to supply drivers of vehicles with hot tea during evening Aug.5/6 and Aug.6/7 and that as much rest as possible is obtained pending being called forward for troops. He will arrange embussing points and loading places in conjunction with Port Staff and maintain such constant liaison that transport may come forward promptly when required.

4. Supply Col. will ensure transport provided for particular Serials are kept so far as possible for such serials. If exceptional circumstances demand variations he will advise unit providing the transport by quickest means.

5. Figures may vary for particular units but no material variation from the total indicated in particular ship is anticipated.

6. If a considerable interval is expected between arrival of the two ships conveying Serial 1, H.Q. 50 Bde. will decide whether transport will proceed as two separate convoys.

7. All drivers will be warned by Supp. Col. and also Officers i/c Convoys that if a vehicle breaks down en route and has to be left the driver will remain with his vehicle. Failure to do so will probably result in the theft of battery, tyres, and other removable parts.

8. Supply Column will maintain small reserve of transport available to meet any contingency which may arise. It is unlikely that baggage will be considerable as troops are arriving in H.M.Ships.

9. Normal work of dock clearances will be carried out by all O.C. R.A.S.C. and all O.i/c Transport Port Areas (Famagusta, Limassol Larnaca).

Transport of 136 Field Amb. will be reserved for use in clearing Port of Larnaca.

10. Q (M) are requested in view of heavy calls on transport to avoid requiring road carriage for stores to Larnaca and Limassol.

1. PAY AND ALLOWANCES IN THE CASE OF OFFRS WHO ARE PRISONERS OF WAR OR REPORTED MISSING.

Article 10A of the Royal Warrant for Pay, promulgated by Army Orders for August, 1940, is re-published below for infmn. Notwithstanding this all offrs are, in their own interests and in the interests of their families and/or dependants, recommended to make arrangements with their Agents, Bankers and/or Command Paymaster, AIF, ME for the payments of such amounts as they may wish to be issued to their families or dependants should they be reported missing or be taken prisoner of war.

"10A. The pay and any other emolument granted by this, Our Warrant, to any Officer, may, in the event of the individual concerned being officially declared missing in circumstances which do not justify the presumption of his death or absence without leave, be paid, in whole or in part, at the discretion of Our Army Council, or of any officer duly authorised by them, to the wife and/or any other dependant to whose support it shall have been proved to the satisfaction of Our Army Council, or any officer duly authorised by them, that the missing person contributed, and a receipt given by such wife and/or dependant shall be a sufficient discharge for any such claims.

1. DAMAGE BY FIRE - PREVENTION OF

1. There have recently been serious fires in military establishments in which valuable stores have been destroyed.
2. The needless destruction of stores by fires that could be prevented or rapidly extinguished is impeding our war effort.
3. The attention of all ranks is drawn to the following points:-

(a) In buildings in which smoking is prohibited, notices to that effect will be prominently displayed and the order rigidly enforced.
(b) In no circumstances will authority be given for smoking in garages, forage barns or dumps, stables, magazines, the vicinity of petrol stores, or any other building in which inflammable materials are stored.
(c) All local labour and POW will be rigidly searched for matches and cigarettes prior to entering an area or building where sabotage or carelessness might produce a serious fire.
(d) Grass will be kept short in barrack areas, hutments and camps.
(e) Special arrangements will always be made for the storage of petrol oil and grease. Tins of sand will be kept available in such places, in addition to authorised tins for oil waste etc.
(f) Naked lights in tents will be carefully shielded.
(g) Great care will be exercised when the tanks of vehs are being replenished. Engines will be stopped and any petrol spilt will be immediately wiped up or liberally sprinkled with sand.
(h) All ranks will co-operate in preventing the throwing of cigarette ends, pipe ashes or glowing matches into waste paper baskets, from movin vehs or at any place where there is danger of fire.

2. BOUNDS FOR LEAVE.

All ranks are advised that the town of ALEY is out of bounds and that any breach of this order will be severely dealt with.

3. GAMBLING.

All offrs, whether on leave or on duty, will wear pistols whilst in SYRIA.

3. REGULATIONS GOVERNING USE OF WD VEHS

Contravention of traffic regulations and mis-use of WD vehs is assuming very serious proportions. Offences of the following nature are particularly prevalent:-

Speeding
Leaving WD vehs unattended.
Using WD vehs for improper purposes.

Offrs requiring, or ordering the use of MT vehs must realise their responsibility in enforcing the regulations governing such use. In a deplorably large number of cases, offrs are themselves offenders. It is the duty of all offrs to abide by the regulations themselves, to insist on a similar standard being set by all ranks under their comd and to take prompt disciplinary action in all cases of contravention of the regulations by any of their personnel. Furthermore, it is equally their duty to report to higher authority ALL cases of contravention of traffic regulations which come to their notice.

Trng Instn No. 13

GROUND DEFENCE AGAINST AIR-CRAFT

1. GENERAL.

It has been laid down by HQV that one of the important phases of trng and preparation for the next campaign is "ground defence against aircraft". Efforts are being made to secure the cooperation of the Air Force in providing 'planes for practice aiming purposes, towing targets etc, and further inform on this will be promulgated when received. In the meantime, sqns will amend trng syllabi to incl one period per day (or equivalent) for the fortnight commencing 6 Sep 42 on AA Trng, and thereafter will have one refresher period per week.

2. REF.

SAT Vol 1 Pam 6 - Anti-Aircraft, will be referred to, and lessons 1, 2, 4, 5, 7 and 10, as applied to Cav, taught. If copies are not available in sqns, CO's copy may be borrowed. Model 'planes, diagrams, poles &c to be produced by sqns, but services of regtl carpenter may be had through GC HQ sqn if necessary.

3. RAISING OF SMALL ARMS FIRE.

The following extract from 1 Aust Corps Circ G.718 is to be given as a lecture by sqn ldrs, and the instn contained in sub-para (b) made perfectly clear to all ranks:-

(a) "There is much loose thinking and many valueless generalizations on this subject. In certain cases, two conflicting requirements arise:

(i) Offensive action, in order to damage the enemy.
(ii) Concealment, where it is desired for special reasons to mislead the enemy.

Concealment is often used as an excuse for no action being taken against aircraft within range when the real reason is a fear of "drawing the crabs" - a failure to employ one's weapons against the enemy because of fear or because of a feeling of helplessness because fire appears to give no results. In special cases, the battle plan may require concealment of the fact that certain areas are occupied by our tps. In other cases, we may wish to mislead the enemy into believing we occupy areas permanently that, in fact, have been occupied only temporarily; in such cases, fire is called for even at aircraft slightly out of range."

(b) "The Corps policy is now laid down. Except when special orders have been issued (because of the battle plan) every possible weapon within range shall be brought into action against ground strafing aircraft. Dive bombers are particularly vulnerable just as they pull out of their dive, but by this time the enemy has dropped his bomb. Earlier fire disturbs his aim."

(c) "The value of this fire has been confirmed by captured German Air Force orders. Here, too, is a report from actual operations in SYRIA."

"The undermentioned figures of damage due to AA fire from the ground were obtained from a fighter sqn operating in SYRIA. It is emphasised that many of the pilots of this sqn had considerable experience in ground-strafing and knew that success depended largely on surprise and a quick get-away. The nature of the country lent itself to surprise though it made it difficult to find targets. The Air Force report that the enemy appeared to have very badly organized ground defences and this is considered the main reason why there was not considerably more damage done to our aircraft.
In a period of 60 days in a sqn of normally 16 aircraft, we lost:-
(a) 7 completely through forced landings due to a bullet in engine cooling system. (b) 2 for a period of some weeks. (c) 1 for a period of 1 to 4 days. (d) 4 for a period up to half a day. (e) 5 for a short period: the damage to these, though slight, might have been serious if the bullet had struck even a few inches away."

COMMENT:- It is worth noting that in the vast majority of these cases no immediate effect of their fire would have been visible to the gnd tps.

GERMAN MOUNTAIN TPS - ORGANISATION

Appx "A"

1. The German division consists of three mountain rifle regiments, one mountain artillery regiment with its observation unit, one mountain engineer bn, one mountain divisional anti-tank bn and one medical unit.

The mountain infantry regts consist of Alpine tps eqtipped as such. They differ from the normal inf regt mainly in their tpt which is on a pack basis. As regards armament, the only difference is in the 13th coy of each regt, which has eight 75 mm mountain guns. This weapon, known as the L.22 fires a 14½ lb shell with a maximum range of 10,900 yards. It is moved by pack tpt.

A mountain artillery regiment consists of HQ and two batteries. Each bty consists of three tps and each tp consists of two secs, each armed with two 75 mm mountain gunsand with two amn echhlons. There are thus 24 guns in the regiment.

The mountain engineer bn consists of HQ and three coys. Detailed organisation is not known. The bn carries trestle bridging eqpt, butno pontoons. Both pack animals and MT are incl in the bn.

The mountain divisional anti-tk bn consists of three coys and HQ and (probably) one AA coy. Each coy consists of three pls, each of four secs, each armed with one 37 mm gun. There are thus 36 ATk guns in the bn.
