COMPOSITION

One Offr 18 O/Rs 2/7 Aust Cav
 One Offr 3 O/Rs 2/5 Aust Fd Coy.

OBJECT

 Recce possible Jeep track from Crossing (GONA sheet 114293) to North, West to a line from ref 073282 to june 065299.

ROUTE

3. GONA-DIMMATI-JAUNGA - EURORIBADE (ALMHOGA CROSSING (AMBOGA 4" to 1 ML) 065307 - ELIMADA GARDENS 056514 - 046315 (ambound the set to ELIMADA GARDENS - South to AMBOGA CROSSING 063307.

GENERAL DESCRIPTION

4. Track

The route followed mainly secondary growth timber with water most parts ankle deep. In parts there is first growth timber but there would be a shortage of this bigger timber for building a possible Jeep track, Many small watercourses are met and appear to run into the river running North to DAHAWATUTU. The natives call this river "BANEDA" and say it runs into AMEDOS. The maives call this river "BANEDA" and say it runs into AMEDOS. The maives have all left this area. The many tracks met are all very failtees of AMEDOS did we strike any main track and the two running west on map towards BANEDA do not exist as main tracks but many small native pads observed. Route taken given on map to O.

GENERAL NOTES

- Natives report 4 to 5 Japs coming daily about 8 a.m. to ELLWADA GARDENS 056514 for food. They are poorly armed carrying only a bayonet;
 - (a) their route to this gerden is South along Government track to approx 068316 thence West'to gardens:
 - (b) this garden has a plentiful supply of food and is approx 400 yds long by 200 yds wide.
- 11. The crossing of AMBOGA is not at spot marked on map, but 1000 yds SW at ref 063507. We checked this twice by a compass traverse: also EURORIBADE and JAUNGA are both approx 500 yds SE of spots marked on map.
- 111. The natives report a good government track from AMSOOD, north along coast side of river to crossing at 085307 thence North to coast to a village the natives call NAWAFI. This track is still in excellent order 9 to 12 ft wide in most parts and Jeeps could now move along it. We went North 1000 yfa from crossing and no sign of enemy met. To see how the track went south track was till in the contract of the covernment track was still in maximum of all and the green with definite it goes to AMSOGA and the smaller track to FORDENTYA.
- The river running north to DANAWATUTU which the natives call BARKDA is 30 ft wide, 3 to 6 ft. deep running at 5 to 4 knots. Natives say it joins AMBOGA River.
- V. Na tives report that Japs on coast at "BARIDAR"
- V1 No Japs have been sighted coming to gardens for food since Jan 8
- VII Natives have all left their villages and are living in the bush as they are afraid of the Japs and dare

- not resist stopping them taking their fcod. On two occasions two natives were killed for resisting them.
- viii. The natives are very keen to assist us in the area we traversed and on many occasions wanted to take us to the coast to the Japs. They are very keen to guide you and would come in very handy for patrols inland.
- ix. Since our partol and YORI tps in area willage, village councillors are going around bringing back all the natives to the villages.
- x. ELLADA is name of village 100 yds wes t of crossing at 063307. Is a very clean village of 9 large huts.
- xi. The RABAUL natives have all gome east.
- xii. Natives guides we used would always go fwd to gardens and villages to make sure no Japs were there before we entered them.
- xiii. Confirmed reports that Japs going as far West as SENANI.
- xiv. NAFAFI name of village at end of government track.
- XV. Jan 10 a native came and reported two PBs killing 7 Japs and taking two PBF DefDEDETTA, says it happened in his garden 4 hrs walk from EUROBIDADI.
- xvi Engrs putting in separate report.

Conditions the same as for Jan 4.

Klowolf

POINTS ARISING OUT OF THE ACTION FROM THE "Q" ANGLE

- The utter stupidity of using trained cooks as fighting soldiers instead of for the job they are intended for - result the Regt marched out of action with NO cooks, - all evacuated wounded or sick,
- The necessity of holding certain personnel at "B" Each for essential duties and to release centain men for the supply lines so necessary in this type of warfare.
- That all units carry their Hydra Burners and essential cooking goar with their "B" Esch, to provide hot meals especially hot drinks to the fwd troops.
- 4. That adequate issues of "canned heat" be made available to units, especially for the fwd. posts.
- 5. That the issue of tea and sugar especially to troops in holding posns such as existed at SanNaNDAD eo of a liberal nature suggest 4 ozs Tea and 6 ozs Sugar per man per day.
- 6. That complete change of clothing be made available every 7 days.

702. CASULITIES APPECTING PAY

Ne action will be taken to amend pay book rates consequent upon promotions, remissions of fines or forfeitures until receipt of the revelant Routine Part II Order from Records Office.

/93. CARE OF HAND TOOLS

1. Demands for replatiment of hand tools indicate that wastage is unduly high.

2. An acute shortage of those tools exists. Many types are not manufactured locally and have to be imported from oversees. It is essential, therefore, that all ranks are impressed with the mosestity of ensurint that wastage is reduced to a minimum. S. Care is to be taken that tools are used only for 'he purpose

for which they are supplied.

4. Sub-unit commands and officers or other ranks in charge of workships, etc., are to take all action mesosary to commer that these instructions are observed by personnal under their control, and that appropriate steps are taken to ensure the safe keeping of hand tools on issue.

794 ABSENCE WITHOUT LEAVE

1. Attention is directed to the fact that the surfacement of the offence of absence without leave is not properly appropriated and that the commission of this offence has become provident.

2. Sub-nut commands and officers will canute that the members under their command are instructed in the reasons for the offence bring reparded seriouvely and will bring to particular notice the fact that absence without leave reflects adversely on the offender with the three a heavier burden on his commades and disrupts leave rectors and that it is not a sign of "toughners" on the offenders part but a betrayal of the national cause by its reculting wastage of transport, manpower and money and impairment of the officiency and fighting strength of the officiency and fighting strength of the officiency is

795. MUSUSE OF ARMY TRANSPORT - THEFT OF PETROL

Whonever it appears that an officer or saldier has used both a Government motor votacle and Government petrol for an unauthorized purpose he will be charged with the unauthorized use of both the vehicle and the petrol.

794. UNAUTHORISED IMPERFERENCE WITH EQUIPMENT

1. Several cases have occurred recently where minor defects in technical equipments have been converted into major defects by unaktlated attempts at repair by unathenessed personnel. In particular, clocks and watches which should have been repairable have had to be condumned as unserviceable because unshilled tampering has aggravated the original damage or caused further breakage of sound parts.

breakage of sound parts. 2. As spare parts for certain instruments, particularly watches and clocks, are almost unobtainable, such tempering results in loss of equipment.

5. Provious orders forbidding the repair of technical equipment of all kinds by unauthorised personnel will be strictly enforced

Adrm Comd 2/7 Aust Cav

Hailliay AUSTRALIAN IMPER 15 Feb 43 IN THE FIELD 795% ESCAPES OF PRISONERS OF WAR FROM ENERY HANDS 1. It is the duty of all soldiers if captured by the enemy to effect their escape at the carliest possible moment.

2. It is equally important that the soldier having completed his escape should not disclose the method by which he, or any companior he may have had, evaded the energy and achieved freedom. The disclosure of such information:-(a) prejudices the chances of other escapees.
(b) prevents other members of allied forces from using the same or similar methods of esc (c) endangers the lives of those ohe may have assisted the scapees at any stage of their escape.

4. Therefore, scaped priseners of war will not without the permission of G. I. of a corps or higher formation, disclose any distall of their experiences in connectic with their escapes.

(a) of they verbally or in writing to their friends and published. and relatives. (b) either verbally or in writing to the press or broc deast stations, 5. Full details, however, will be given by escaped prisoners of war at the carlicat apportunity to the nearest Ailed Military Headquarters, from a nee it will be transmitted to G.S.I. at LHQ or Advanced LHQ direct. 796. USE OF SMOKE GENERATORS IN ENGLOSED SPACES Smoke generators and smoke grenades of all types will not be operated inside buildings or in other enclosed space except for operational purposes, since production of dangerous smoke concentrations is likely to result from such use. 796 TRAVELLING ALLOWANCE AND SUBSISTENCE ALLOWANCE Considerable misunderstanding appears to exist amongst some The substitution and an advantage of the state and the substitution of the forces as to the conditions under which travelling allowance and substitution of the substi to required to travel on duty or to be absent out day from the unual station for a period extending overnight.

5. Subsistence allowance on the other hand is parable to a number then he is located at his usual station and is not provided with rations and querters by the Department. 4. It present, when a member is transferred to a new station, where retions and quarters are not available, travelling allowance if payelle during the time which the member spends travelling between the old and new headquarters, will cause immediately on arrival at the new station and subsistence allowance only will be payabl thereafter. 797. MA LMUM PERMISSABLE SPEED OF VEHICLES The following are the maximum speeds permitted to any surface for vehicles mentioned. These speeds are not to be exceeded unless absolutely necessary for the purpose of field training, or as redered by a responsible commissioned officer. In such cases, the work ticket is to be endorsed accordingly.

In cases of emergency, the speed of motor embulances will be at the discretic of the medical authorities. Where a second figure is shown, it denotes the movimum permissable speed on bad surfaces.

Army drivers are subject to the traffic regulations of the State Authorities, and must observe all the rules of the road and obey orders end signals from traffic police and members of the Provost Corps.
