REPORT ON 30 YDS RANGES INSPECTED 5 - 7 APR 43.

The above Ranges were inspected in 3 Aust Mot Bde area.

They were found to be generally satisfactory provided certain recommendations are carried out.

Ser.	Location	Type	Unit	Report
1	336393	30 yds	HQ 3 Aust Mot Bde	This range is not proof against richochets, but provided the stop butt is raided 5' above the targets and an area 300 yds X 1000 yds behind the range is marked and notified as a danger area, it will be satisfactory.
2	336392	30 yds	4 Aust Mot Regt	As for Serial 1, also right hand set of targets to be aligned on left hand set.
3	338395	30 Yds	26 Aust Mot Regt	This range is sited against a 27' hill which has a 70° slope but it is considered that a danger area outlined as in Serial 1 should in addition be provided.
4	337393	30 yds	101 Aust Mot Regt	Provided a danger area behind the stop butt 3000 yds X 1000 yds is marked and notified the range is considered safe.
5	341390	30 yds	3 Aust Mot Bde Wkshops	Unsatisfactory in the present site owing to proximity of road, and troops in rear of range.
6	334395	30 yds	30 Aust Tk/A Bty	This range is unsatisfactory as at present sited.
7		30 yds	223 Aust Lt A A Bty	This range cannot provide the prescribed safety measures as at present sited.

MARCHING.

1. Route marching is being featured in the training programme of 3 Aust Mot Bde for two main purposes;

(a) To accustom the units to march ordinary distances without distress.
(b) As a means of hardening the physical condition of individuals to enable them to undergo other necessary training.

2. Motorized units are apt to regard their vehicles as their only means of movement. They may therefore, easily fall into the dangerous practice of neglecting their marching. Actually motor vehicles are provided to carry troops rapidly to distant points from which they are expected to operate as normal fit soldiers. Leaders must always be alive to the danger of troops becoming physically soft.

3. The route march ordered on 13 Feb 43 cannot be regarded as being a general success and the G O C has made the following observations :-

(a) The marches were quite short and the weather was cool, so there was no reason why any personnel of these units should have failed to complete.

(b) The general lack of preparation by Offrs and N.C.Os was evident. Clothing had not been inspected or properly fitted in the larger number of cases. Many boots were not correctly laced and puttees were badly adjusted. In the great majority of cases equipment was badly fitted, and there was no evidence that Offrs had inspected their sub-units and seen to this important matter.

(c) There was no proper uniformity at halts. Tps did not move at once to the side of the road, undo equipment and lay it down inside up to dry.

(d) A uniform and steady pace is an essential for marching. Many sub-units were marching out of step and straggling. When told to march to attention the pace was hurried, with consequent increase in fatigue.

(e) It must be clearly understood that there is only one pace for marching, and Offrs and N.C.Os must be trained to recognize that pace and to set it. They should constantly check this against the watch. The pace should never exceed 120 to the minute, and most good marching units, particularly with big men, find that 112 to the minute enables them to keep going all day with the minimum of fatigue. The correct adjustment of equipment and the avoidance of heavy dangling loads also reduces fatigue. This steadiness of pace cannot be overdone. The forced march is one when the hours of marching are longer than usual, but the pace of actual marching is not altered.

(f) The general impression was that the men were in charge and not the Offrs and N.C.Os. The ordinary standards of organization, checking and inspection, and obedience to those in control was not evident. Many men appeared to be clothed and accoutred as suited themselves and the speedy and uniform action required to gain maximum rest at halts was not in evidence.

(g) Far too many men were exempted from marching for no apparent reason. If a man is "A" class it means that competent medical officers have certified that any disabilities he has are not such as to prevent him carrying out any of the normal duties of a soldier. The only exemptions necessary, therefore should be those who are temporarily ill due to some infection.

(h) Far too many men failed to complete the march. In any self respecting unit falling out of the line of march is considered a disgrace.

AUSTRALIAN WAR MEMORIAL AWM2020.71.554

(i) The G O C directs that the attention of all Comdrs be drawn to these points, and he further wishes it to be known that the defects are not the fault of the men; they are the faults of those who should be exercising control. Apparently they are unable to obey orders themselves, and so cannot see that the men obey, or else are incapable of fulfilling their proper duties.

(j) The army provides the means for dealing with such inefficient personnel and the means will be used if ever the circumstances so warrant.

(k) Evidence of promising leadership were present in a few sub-units. These sub-units gave the appearance of being organized bodies moving with a purpose. A particular case noted was a N.C.O. in charge of M. T. drivers in 4 Aust Mot Regt.

4. Good marching can only be achieved by sound man-management and good leadership, together with plenty of practice. All leaders will study the following portions of Text Books in this matter :-

INF. SEC LEADING 1939 - CHAPTER 11.
M. E. D. 1935 - CHAPTER VIII.

5. During training marches no compliments will be paid except to a Bde, Div or higher Command who takes post, in the open, beside the line of march, with the clear intention of inspecting the column. Compliments will be paid by marching to attention, Commanders order "Eyes Right" and saluto. Compliments will always be returned in accordance with M E D 1935 Ch. VIII Sec 92.

March 1.1.

REPORT ON ROUTE MARCH

26 Aust Mot Regt - 15 Feb 43.

PARADE STATE: 4 Offrs 104 ORs.

Distance: 16½ miles

Time of Starting 0930 hrs.

Hot & Humid

General Points: 20 pers dropped out during first 9 miles of March. The first man to drop out covered approx 6 miles. - Reasons for dropping out were generally lack of training, with resultant exhaustion from heat, sore feet, weak ankles, and in one instance the soldier was suffering from diarrhoea. Pers were drs and general dutymen.
A further 26 pers dropped out between 9 and 14 miles.
After covering 14½ miles O.C. March halted the men and instructed them to lie down and rest at the side of the road, as many of the pers were suffering from exhaustion, and although attempting to keep going dropped to the ground O.C. then continued onto Camp Area, a further distance of 2 miles, and arranged for hot tea to be sent out to the men and transport to pick up those unable to continue.
Owing to the general state of the troops it was decided to bring all the men in by transport.
Hot tea was ready for the men on reaching the camp, and the men were inspected by the R.M.O. and A.M.C NCOs.
Footbaths were also ready for the men.
Factors contributing to the exhaustion of the men were
(a) The trying conditions existing throughout the March.
(b) Heat exhaustion.
(c) Lack of Trg - Many of these pers were drs., batmen, cooks and general dutymen.

No cases of malingering were detected.

All pers recovered after returning to camp and being provided with hot tea, foot baths and a rest.

A/A.

No. 4 Mk. 1 RIFLE - FIXING & UNFIXING BAYONETS

The following procedure will be adopted in this Bde until further ordered.

1. FIXING BAYONETS FROM THE ORDER

Requirements -
The scabbard will be fixed in the frog with stud outwards and protruding between the loops. Two stitches will be taken with tucks in the rear of each loop thus drawing the webbing tightly across the scabbard and making it a fixture. The Bayonet is placed in the scabbard with the cylinder to the rear.

The Squad (or Tp etc) will FIX BAYONETS - FIX ---------- BAYONETS.
On the command FIX push the Rifle forward with the right hand as in the position of Stand at Ease with the Rifle, at the same time seizing the cylinder of the Bayonet with left hand, back of the hand to the front and thumb and fingers to the rear, press downwards with left hand.
On the command BAYONETS draw the bayonet, turning the point upwards and keeping the elbow down placing the bayonet cylinder over the muzzle of the rifle with a quarter left turn press down to fullest extent and give bayonet quarter turn right until spring engages under pawls.
On the command ATTENTION resume the position of attention.

2. UNFIXING BAYONETS FROM THE ORDER

The Squad (or Tp etc) will UNFIX BAYONETS - UNFIX ----- BAYONETS.
On the command UNFIX keeping the heels closed place the rifle between and grip it with the knees, guard to the front. At the same time seize the rifle with the left hand at the nose cap, knuckles to the front, and with the right hand grasp the Bayonet at the cylinder lifting the spring with the forefinger of the right hand and turning the bayonet a quarter turn to the left. Disengage the Bayonet clear of the Rifle.
On the command BAYONETS drop the point of the Bayonet to the left side, cylinder to the rear, at the same time seizing the scabbard with the left hand, thumb underneath the frog and turning the head and eyes towards the top of the scabbard force the Bayonet home.
On the command ATTENTION seize the rifle with the right hand raise the head and eyes and resume the position of attention.

Attached snaps were collected from local residents during recce in MURCHISON RIVER area during Nov last. Note contrast between normal river and same during flood period.

(101 AUST MOT REGT B 1)

2. MILITARY SECURITY

The intermingling of pers of the various units at Special Camp BELLEVUE has resulted in the circulation of the following rumour -

" That the Mot Regts are to be transferred to ADELAIDE taking vehs etc. The move to take place within 5 to 6 weeks. During a period of trg at a camp in ADELAIDE, all S AUS and VIC pers will be granted home leave. When such leave is brought up-to-date the Regts will move to DARWIN to replace a bde which has completed its 12 months in that area."

and in support of this rumour -

" The granting of 10 days' leave to all W AUS pers irrespective of the amount of such leave due to them suggests that some movement is likely."

(26 AUST MOT REGT C 3)

3. GENERAL

A review is in progress to select one tpr as a reserve in each mot sqn. Pers selected to be trained in elementary Int duties.

INT. PERS.

1. Unit Int pers will be trained thoroughly in the drill of recording Minefields. "I" Cpl in each Sqn and 1 O/R in each troop should be able to produce such records accurately and in the correct form. For infmn of procedure in laying and recording Minefields, see 1 Aust Armd Div RAE Tech Instn No 1 and amendment No 1 Laying and Recording Minefields.

2. Steps will be taken by Units to ensure that Unit "I" pers are up to full W.E. and that in addition a minimum of 1 O/R in each tp be trained in elementary Int duties.

3. The following phases in Int trg will be stressed -
   (a) Observational Trg.
   (b) Message writing and Verbal Messages.
   (c) Map Reading.
   (d) Fd Navigation (dead reckoning). Bde I.O. will assist.

4. In view of the inadequate nature of maps in the present Ops Area, particular attention will be paid to para 3 (d) above. It is essential that all Unit Int pers shall be capable of estimating location accurately by day and by night by means of dead reckoning.

5. A complete list of Int pers will be fwded to this HQ by 10 Jun 43. List to show No, Rank, Name, Qualifications and I.O's. estimate of ability. Subsequent changes in Unit Int pers will be notified in Weekly Int reports.
