No.138. PAY CYPHER

Coy Orderly Rooms please note alteration in Pay Cypher - to operate IMMEDIATELY - from V13 to V16.

No.139. UNSERVICABLE STORES

The attention of Coy Commanders is again directed to the following:-

ALL STORES such as Buckets, Dixies, Tents, Fly's, Brooms, Brushes, Tent Poles, and Pegs etc, etc, when unservicable MUST be returned to Bn Q.M.Store.
Coy Commanders and C.Q.M.Ss will observe this as a "Religious Ritual" - bearing in mind the fact that all stores are a charge against this Unit - also that until these Stores are returned and replaced the Unit is deprived of their utility.
This particularly applies to Crockery and Glassware, for if broken pieces are not returned to Q.M.Store, replacements cannot be made.

No.140. INVENTORY (A.A.F. F.54.)

On these Inventories, which should be posted in a conspicuous place in all buildings and at all Posts, it is important that items of a private nature (i.e. distinct from Army Issue) such as gifts from the Comforts Fund or purchases from the Regimental Funds, be shown. The name of the owner or person or organisation who donated them must also be clearly shown in the "Remarks" column.

No. 175 LEAKAGE OF MILITARY INFORMATION IN PROCEEDINGS BEFORE CIVIL COURTS

1. When giving evidence in a civil court, a soldier will merely give his number, rank and name and state that he is a member of the AMF, without mentioning the name of his unit.

2. In no circumstances will a soldier divulge in open court the location of his unit, unless the bench rules that a full answer is essential to the case, in which event he will offer to write the information on a slip of paper to be handed to the bench.

3. The danger to security in disclosing the location of units cannot be too strongly impressed on all ranks.

No. 217. SECURITY OF DOCUMENTS IN OPERATIONAL AREAS.

1. The loss to the enemy of documents containing details about our forces, movements and plans is always likely to have disastrous results, for experience on all fronts has shown that captured documents provide one of the most fruitful sources of information to the enemy. For example, some of our marked maps captured by the Japanese in New Guinea, and subsequently recaptured by us, show clearly the good use to which they were put by the enemy.

2. Every soldier should therefore be aware of the grave danger (to himself and to his comrades) of permitting documents to fall into enemy hands - a danger all the more acute in battle zones, or in any situation which may entail contact with the enemy, or when the possibility of attack by enemy exists.

4. To Guard against the danger of documents falling into enemy hands, care will always be taken to:-

(a) refrain from carrying into or retaining in battle zones any documents other than those indispensable for the operation in hand;

(b) arrange for destruction, at a moment's notice, in the event of emergency, of all documents necessarily retained in battle zones
