A feature of the month's activities was the Victory Thanksgiving Services. As expected attendances were excellent and a genuine spirit of thankfulness was evident amongst all ranks.

Other services have also been held at all squadrons and outposts, travel talks and recorded musical programs being given at the latter. Our men in the 104 C.C.S. have been visited and numerous letters written to next of kin.

A number of parcels have been received from the NEUTRAL BAY Comforts Work Party and have been distributed.

Subject: DRAFT INTERROGATION OF PW Captured 29 Jul 45 EAST of MANDI by 35 Bn

Extracts only.

1. ORDERS: To hold the present areas :
1 st line Defence Mt HAGURO
2 nd Line Defence Mt YOSHINO

2. INTENTIONS:
A raiding party 50-60 strong is to be sent against MANDI on 1,2 or 3 Aug 45 Three small patrols have been sent in to the area,and they estimate our strength at 180 men,on the basis of 30 huts and 6 men to each hut. They consider MANDI is the weakest unit in the sector (.) Troops used will be rear infantry troops from MADUNGAI area,and will have at least 1 LMG to 10 men,and two captured hand grenades each. (Captured BRANDI in June).
On their last reconnaissance,patrols found Australian guards very alert. When they do attack,they will leave their position,timing it to arrive at the scene of the attack about dusk,and will leave in the early morning when the light is similar. They will not use the track marked on the map. PW disclosed the existance of two secret trails one on either side of the known one. These follow the ridges and cannot be seen from the air. They are in use every day. The secret track to YOSHINO is under the command of a major (name unknown).
PW is convinced that the proposed rain will be of the strngth stated above,a as in operations of this size, a large coil of sig wire is taken along for use in comms between the advance party and the main body. PW heard it definitely stated that the wire is to be taken.
There are two bridges across a deep narrow stream at MOROWE. If one of these could be destroyed,it would cut the track and make passage of troops very difficult until repairs could be made.
Ref 424952 is an important track junc and could be bombed with good effect.

OUR ARTY: Ref 476004 - effective,caused heavy weapons to be dispersed.
439003 - NOT effective as it falls in a garden.
438998 - NOT effective.
415988 - Very effective. Troops have been killed.
409974 - NOT effeive as it falls in the valley. PW suggests that it be moved to 415967.
425969 - Very effective,as it shells a track.
435960 to
435957 Very effective in this area.
425953 to
435946 Most effective. Japs dislike passing through this area.

3. IMPORTANT PLACES:

PASSAM : 51 Div HQ has moved out for an unknown destination. The infantry will defend PASSAM area,as the 1st Line,to hold off the Australian troops.

KOMBOKUBRA: Is the supply depot for 51 Div.

MADUNGAI : Is the key point of their L of C for the whole area,as all traffic has to pass through this place. Supplies for the troops to the North are brought up from the inland via the village.

OFFICERS AND MEN OF THE JAPANESE ARMY

We ask you to consider your position:

Your lack of food, ammunition, and medicine supplies makes your future a hopeless one.

Your superiors have told you that you will be tortured and killed should you fall into our hands. The thousands of your comrades now in our care prove that this is not true in any one case.

On the third of May five of your officers and 37 men, a complete unit, surrendered at the village of WOMGRER, west of MAPRIK. They are now in Australia receiving good and plentiful food and for those who were sick medical attention from our efficient doctors.

Come over to us and similar treatment is assured for you.

Approach our troops, individually or in groups, hold up this leaflet, or wave a white flag. Our troops have been ordered not to fire if you do this. Come to our lines between 0600 hours and 0800 hours any day. Our troops have been instructed to watch for you.

I give you the word of a soldier.
