FREE TRAVEL ON N.S.W. RAILWAYS. 5. Free Travel on N.S.W. Railways to members of Garrison Battalions who are residents of New South Wales.

Copy of Eastern Command. Circular letter - dated 1. 5. 41.

Members of Garrison Battalions stationed in N.S.W. when granted "Home leave" are allowed free travel by rail not more than once every three months from Camp location to Railway station serving home in the electorate in N.S.W. in which enrolled.

The N.S.W. State Government has now decided to grant the concession to members of Garrison Battalions who are residents of N.S.W. but who are serving in other States. The intimation received by this H.Q. from the State Government reads :-

"Adverting to previous correspondence in connection with this matter (your papers 747 AQ/MA). I have to inform you that the Government has decided that the concession of free travel over the New South Wales Railways granted to members of the Garrison Battalions once each quarter to enable them to visit their homes may be extended to those members of the Garrison Battalions who are residents of this State but who are serving in other States. As in the case of the free travel granted to members of the Garrison Battalions located within the State, the Home of the member is to be deemed to be the place where the member is enrolled under the Parliamentary Electorates and Elections Act.

I may add that the Railway Authorities in this State have been advised of the above decision.

It would be greatly appreciated if you would be good enough to advise the Commands in other States affected so that the Military Authorities will be in a position to implement this decision.

(continued overleaf).

PISTOL. 4 Extract from S. Command.R.O. (Pt.1) No.223 dated 18th June 1941.

No. 2833- Loss and Search (3 M.D.only).
Search is to be made by all units to ascertain whether this pistol, which has been lost, is held. Any Unit holding the pistol will at once report this to H.Q. S.Comd.

COMPLAINTS. 5. Extract from S. Comd.R.O.(Pt.1.) No.212. dated 18th June 1941.

Periodical Explanation to Troops of Procedure Provided for Redress Promptitude in Handling.(A.M.R.&O., 289-294).

(a) It would appear from the number of complaints made by soldie to members of Parliament and to high Army authorities directly or through various channels, that many soldiers are ignorant of the procedure by which they may seek redress of any grievanc Such irregularsubmission of complaints not only involves administrative work in investigation by various headquarters, but also entails long delay before the complaints themselves can be investigated and dealt with by the C.O.

(b) The Regulations in regard to the redress of grievances are to be explained, and not merely read, to all members of Units at frequent intervals, and they are to be informed not only of their opportunities, but also of the delay which must arise if they attempt to secure redress in unauthorised ways, and that they are committing a breach of Military custom and regulations if they do so. It is also to be made clear to all members that they will not be penalised in any way as a result of lodgi a genuine complaint or grievance in the proper manner.

(c) Often a statement to his Company Commander should suffice to convince a soldier that his complaint is or is not a reasonable one, but, if he persists in his desire to see his Commanding Officer, he should be paraded for the purpose at the next orderly room.

Continued over.

AUSTRALIAN WAR MEMORIAL AWM2020.71.7894

S. Comd H.O. (Pt. 1) 1940 No. 8 (7) of 9/12/1940.is re-promulgated below:-

(8) (7) Complaints- Procedure and Expedition.

(a) Attention is directed to A.M.R. & O., 289to 294 inclusive, regarding the method of submission of complaints, and all ranks are to be instructed as to the method of submission of complaints through the proper channels. This instruction should be given at regular periods, so as to provide for the frequent changes and influx of personnel. In addition t the purely disciplinary aspect, it is to be explained to troops that the Army system has been devised to afford the most rapid method of redress of genuine complaints by their immediate reference to the authorities competent to make complete investigation of all factors or either effect redress at once or refer, where necessary, the full particulars to the proper authority having power to do so; and troops should be given to understand that it is not only th duty, but the strong desire of their immediate superiors to ensure within their own commands the happiest conditions

(b) of service practicable and a high standard of esprit de cor

(b) Complaints made by members are to be investigated with all possible expedition. Prompt action in this respect is an essential principle in the maintenance of discipline in the Army, and Commanders and C.O's will ensure that no delay is permitted at any stage in the channels laid down in the Regulations.
Investigation and redress, when applicable, will be immedia and every action taken to ensure confidence in all ranks in the administration of the Army system.

(c) Where, in particular, the Regulations or approved policy or the exigincies of the Service do not permit of a soldier's complaint being met to his satisfaction, the reasons should be explained to the soldier who should also be infor of any action taken to refer his complaint to higher authori Where a soldier desires to refer an unredressed complaint to a higher authority, involving its submission in writing, it is the duty of his immediate commander to assist the soldier in its preparation, or set out the complaint fully on his behalf.

(d) Numbers of complaints affecting conditions of service o members have been received by the Department of the Army fr friends or relatives of soldiers and also from soldiers. These indicated that soldiers have acted either from ignor or on account of failure of junior officers to deal promptly with complaints or to have that close knowledge of the individual circumstances of each soldier under his immediate command, which is so essential for efficiency, and which should remove any grounds of genuine complaint before they arise. Lack of this prompt attention and personal knowledg by junior officers can only tend to foster want of confidenc by soldiers in the interest of their officers.

MILITARY INFORMATION 3. Disclosure and Leakage of-

(a) The necessity of strict secrecy regarding informatic that might be useful to an enemy cannot be over-emphasis Items of information or even scraps of conversation which by themselves convey little, can be turned to good accoun by a listener trained to collect and collate such news.

(b) Such- Cases have recently occurred of information regarding the movements of Troops and H.M.Ships becoming public property and in one case information of value to a foreign power was disclosed to an unauthorised person direct by Service personnel.

(c) Such information can only have been obtained in the first instance from Service sources, and leakageof it must therefor have been due to indiecretions on the part of those holding positions of trust. The possession of military information demands a special degree of reticence and discretion in conversation.

(d) All ranks will be frequently warned against discussing Service matters with civilians at any time, or amongst themselves in Clubs, theatres, cafes or other public places.

(e) It is the duty of all ranks to ensure by their own reticence and by reporting immediately cases of indiscreet talk by others, that information useful to an enemy does not reach unauthorised persons.

(f) The C.O.C. wishes all Commanders and C.O.'s to giv this matter their personal attention, and directs that all ranks be regularly and adequately instructed in thei duties and responsibilities in this respect.

(g) Attention is directed to S. Comd.R.O.'s (Pt. I), 1941, No. 5 (I).

PETROL, OIL & ACCOUNT. 3. Extract from S.Cond. R.O. (Pt. I) No.881 dated 20/8/41.
Amendment to Instructions for Supply and Transport Services.

The following amendments will be published in a Military Board instruction and will also be incorporated in the reprint of Instructions for Supply and Transport Services now in the printers hands. The amendments set out below may be anticipated and effect will be given to them immediately.

Paragraph 65 (a).
Instructions to Units operating M.T.Vehicles or using Petrol oils and Greases:-
Explanations as to use of Forms-
(i) A.A.B. 55(a).

Delete all these paragraphs under this heading and insert the following two new paragraphs.

"This form has been designed for use as an indent on the A.A.S.C. for bulk supplies of petrol, oils, and greases, and should not be used for any other purpose.Future issues of A.A.B. 55(a) will be machine numbered in triplicate.A.A.B. 55(A) will be made out in triplicate by the indenting Unit. The original and duplicate will be sent to the Supply officer who will on completion of the indent, sign the Duplicate as having issued the supplies demanded and return it to the indenting Unit; the receiving officer will receipt the original for the Supply officer; the triplicate copy will remain in the book. The duplicate copy signed by the Supply officer acts as a receipt voucher to the petrol, oil and grease account (A.A.F. F.115) of the indenting Unit.
Form A.A.B. 55(a) will not be used by single vehicles for demanding supplies of petrol etc. It is essential that A.A.B.55a should be correctly made out and signed by the officer demanding supplies above the certificate at the foot of the form. In the next reprinting of the form, provision will be made for the demanding officers signature. Books not in use should be kept in safe custody.
(ii) A.A.F. F.78.

Insert the following new paragraph.-
"In the case of vehicles operating away from sources of supply from their own Units, the production of a properly authorised Work Ticket (A.A.F.,62) will constitute sufficient authority for the driver to obtain petrol from a Unit other than his own but particulars of supplies received must be entered on the Work Ticket, which will be signed by the issuer as indicated on the form. As an example, a driver requiring petrol etc from a unit will present his work ticket (A.A.F.62) to the unit issuer. who will fill in the quantity of petrol, etc. issued

AUSTRALIAN WAR MEMORIAL AWM2020.71.7894

COMPANY ORDERS CONTINUED.

ETC, received. On return to Unit lines the petrol etc, thus obtained will be "taken up" on the unit petrol, oil and Grease account(A.A.F.,F.115) and the number of the A.A.F.G2, from which the entry is made will be quoted as the supporting voucher for the receipt entry and issue entry. The A.A.F. G2, will not be attached to the A.A.F. F.115, for forwarding to Formation Headquarters at the end of the Month.

(iii) A.A.F. F115.

After the third paragraph insert the following new paragraph:-

"It is not intended that a Unit should record in its monthly Petrol Oil and Grease Account (A.A.F. F 115) issues to vehicles other than those on charge to it or operated by it (see second par, under "Preliminary"). If an issue is made to a vehicle of another Unit and is not recorded on A.A.F,.F115. the quantity of petrol etc, shown on hand at the end of the Month, will be over-stated by the amount of the issue to the other Unit. In order to ove come this difficulty and pending the re-printing of A.A.F,.F115. with the provision of an additional column to record issues to other Units, it is provided that the Headings of A.A.F. F115, should be altered for use in the following Manner.

"Receipt Voucher No." should be struck out and "Received should be inserted .

"Received should be struck out and "Issued to other Units" inserted.

Totals of daily issues to other Units as per separate A.A.F. F.78). kept fot the purpose of recotding such issues, will be entered in the Column headed "Issues to other Units" in the same way as issues for the Unit's own vehicles are entered on A.A.F,.F115.

Receipt voucher numbers may be recorded under the heading "No. of F.78," but the form type should also be shown.e,g,F/59/101 to distinguish it from numbers of F.78.

This alteration to the Headings of A.A.F,.F115.will ensure that the balance shown as on hand at the end of the Month agrees with the actual quantity of petrol etc, on hand. A cross check of totals at the end of the Month will be made to ensure accuracy o od additions.

GAS 5. ELEMENTARY RULES FOR IMMEDIATE INSTRUCTION. To be read out on 3 successive Parades.

If, in the event of Gas being used, the elementary rules of protection against gas are not universally known, the casualties, in the initial stages of operations, will be unduly high. To avoid this, it is essential that all personnel in the Australian Military Forces have the following knowledge imparted to them;-

(i) The respirator will protect only the lungs, respiratory passages, and eyes against Gas. The Blister gasses can penetrate clothing and will attack all parts of the body.

(ii) If you hear a rattle, or smell an odd smellsmell, HOLD YOUR BREATH- PUT ON YOUR RESPIRATOR- BREATHE OUT HARD. Keep it on, regardless of discomfort until gas is clear.

(iii) Liquid blister gas may be sprayed from aircraft or dropped in bombs.

If contaminated with liquid gas, the sequence for personal decontamination is;-

C - Cotton Waste	To remove liquid from skin.
O - Ointment	Rub anti-gas ointment well into ALL exposed skin for one minute.
E - Eyeshields	If contaminated, prepare fresh one- THEN exchange for old one.
C - Clothing	If very wet, remove altogether or cut away contaminated pieces. If only a few small drops no action is necessary.
D - Detectors	Change detectors for a clean pair or ring spots with pencil.

Over.

AUSTRALIAN WAR MEMORIAL AWM2020.71.7894

Elementary rules for Immediate Instructions

O - Ointment. Rub ointment into hands to finish off.

NEVER PUT ON YOUR RESPIRATOR IF BLISTER GAS IS ABOUT UNTIL YOU HAVE MADE CERTAIN THAT YOUR FACE IS NOT CONTAMINATED.

While the "turnout" of many members is very creditable, some individual members are untidy in their dress, and appear to take little pride in their appearance. This tends to bring discredit on the Army. All junior leaders should foster a pride in this regard among members under their command.
