4 SECURITY. 17 Aust Inf Bn. Persistent rumours are being circulated among tps regarding Bn moves. Talk of a move to RUTHERFORD Camp on 15 Oct is prevalent. No other matters of a subversive nature have been reported to these HQ.

5 MORALE. Immediately subsequent to the Bde Exercise morale was noticed to be exceptionally high, and tps expressed satisfaction as to the manner in which the Bde Gp was welded into a complete fighting unit. However shortly after large numbers of tps were trfd to other Divs and Bdes. This action was interpreted by the majority of tps to be the first of further drafts, eventually leading to the breaking up of the present units. An atmosphere of despondency and subsequent lowering of morale was at once evident. The conditions under which the tps travelled from Central Station, and the confusion which preseded their departure reflected strongly on the morale of the tps concerned.

3. TOPOGRAPHY

No infm gathered during week. Some doubt could be registered as to the accuracy of rd reports from various sources. E.g., a thorough rd recce was made by this Bn, of the WISEMANS FERRY district, M/R St ALBANS, and rd classifications noted were different to those mentioned in 1 Aust Div "I" Summary, 29 Sep 42.

4. SECURITY

Rumours which have been current in the Bn for some period, appear to have subsided and tps seem to be more settled.

Morale

The transfer of personnel mentioned previously was received with some resentment by tps who were under the impression that this Bn with over 75 % of its personnel AIF, would remain whole as an AIF unit.
However, although some personnel were detailed, all transfers to the 2/6 Aust Inf Bn were eventually voluntary.

5. GENERAL

Message writing and abbreviations

It has been noticed that on tactical exercises, a lack of knowledge concerning message writing and use of abbreviations is evident. It is suggested that personnel be made more familiar with the above procedure to ensure greater efficiency in comms which have always been a bottleneck in military tactics.

Night training

Projected tng : Bn will begin night tng from 12 to 18 Oct 42, according to syllabus compiled.

INTELLIGENCE REPORT ON THE

BTN EXERCISE WITH 9 BDE

The Bn. desires to extend its fullest appreciation to 9 Bde., 1 Div. and Army for the invitation to participate in the above final phase. Same proved a very useful, though somewhat strenuous, addition to training syllabus and will, no doubt, be the forerunner of inter-V.D.C. Bn exercises.

EXTRACTS FROM CHIEF UMPIRE'S REPORT:

The invitation to hear the Chief Umpire's Report was gladly accepted and a verbatim report taken down. It contained the following references to the Bn:

The V.D.C. proved a very enthusiastic and energetic enemy, determined to stick it out and giving more trouble to eliminate than the usual "token enemy".

Mopping up was poor - especially on Sunday when dealing with an enemy who regarded capture as worse than death. It was not realised the large quantities of amunition that men can live through.

The V.D.C. showing was the more to their credit, owing to lack of equipment and necessity for numerous excellent improvisations. V.D.C. Fieldcraft was reported good, though later there were many casualities from bunching .

Communications and Signals were excellent - the handling of messages at H.Q. leaving nothing to be desired. All companies were kept informed and all reports were good and prompt. Special commendation was given to the way in which reserve tps. were moved to vital areas at a critical stage.

The Situation Map showed a suitable all round defence while siting of M.M.G's and Mortars was good. The idea of V.D.C. men carrying two rations on their person was specially quoted.

INTELLIGENCE COMMENT:

Specialist services functioned excellently throughout. The medical section was commended for their excellent organisation of advance parties with the companies, enabling attention to be given to casualties before return to R.A.P.

Highlights, from the Bn. point of view, were the capture of the entire petrol supply of the Bren Gun Carriers and the success of the Special Guerilla party of twelve men under Lieut. Miller who penetrated far behind the attacking lines, by an arduous detour from Brookvale. Despite a thorough search, Lieut. Miller succeeded in placing a bomb at Bde H.Q.

AUSTRALIAN WAR MEMORIAL AWM2020.71.8467

I. Section work throughout was very satisfactory. In order to obtain information as early as possible regarding movements of attacking forces, eight I. Section men were allotted the task of penetrating and establishing themselves at four important road junctions. As a result of their activities immediate reports were received at Bn. H.Q. as far west as intersection of Pitt~~er~~ Road and Pacific Highway. Hardly one D.R. moved in the rear area without his progress being observed. The first arrivals of motorised advance parties in the middle of the afternoon of 26 Sept., were noted, as was the movements of a Staff car in the Terry Hills area between 1638 and 1738 hours and also the successful "capture" of the Special Guerilla Party referred to above. First artillery forward movement commenced at 2030 hours ~~at~~ and continued until 0005 hours on 27 Sept.

Two parties reported excellent opportunities for cutting of Bde. Land lines, interception of D.R.'s and general sabotage, but were instructed to refrain from such activities on the grounds of possible under interference with Bde exercise. Additional personnel would have enabled many conversations to have been overheard and acted upon. As soon as the main lines of attack were established defending companies were notified accordingly.

Incidentally, the leader of this rear group was able to collect 75% of his personnel and to return to Bn. H.Q. in time to take an important part in the active phase.

Five men were appointed to Companies and carried out their regular duties.

Special Credit must be paid to the L/Cpl at Bde H.Q. who kept the Situation Map and Log of messages, single-handed, under difficult and unfavourable conditions. Sixty-six messages were logged, half from I. Section personnel and half from Sigs. A visiting Captain stated that more messages were received by I. Section during the night tahn by one Unit H.Q. for the whole of the exercise.

RECOMMENDATIONS:

Chief lessons learnt were as follows:

Security of Bn H.Q. from Air Observation: It is recommended that same be the general responsibility of the I.O. and T.O. and no departure from their decisions be permitted. (I.O. internally, T.O. roads and parking). A visitors" Car Park was sited at Elanora Club House - the only possible site but was hardly used either by Umpires, visitors or Bn. Moreover early arrivals at Bn. H.Q. had dug up and destroyed natural vegetation etc.

Alternative Site: An alternative site for Bn. H.Q. should be decided upon as soon as the main Bn. H.Q. is sited. Sigs to be acquainted with the new site immediately decided upon.

Coy. Runners: Coy funner from each Coy. to be despatched to Bn. H.Q. as soon as possible after zero hour to cover any intermediate period during possible change and re-establishment of Sig. communications.

AUSTRALIAN WAR MEMORIAL AWM2020.71.8467

Log of Messages Outward: It would appear that the best idea is for the logging clerk to visit Bn. Sig. H.Q. at regular intervals for the purpose of recording Outward Messages.

Recent rain has cleaned up the camp area considerably and should make the camp generally in a healthier condition.

(4) SECURITY.

Nothing of a subversive nature to report. Regarding draft of A.M.F. personnel, once they were acquainted with proposed move, information spread rapidly beyond the camp area.

The high spirits of tps. declined sharply on announcement on 11 Oct.'42 re A.M.F. draft, particularly as leave was stopped in respect of personnel affected, and the position became more acute as days passed, without any movement, since tps. considered there must have been ample time to have allowed of a short leave period to visit their homes.

Their feelings were further antagonised when A.I.F. personnel moved out on monthly leave on 16 Oct.'42.

(5) HEALTH.

Tps. are at present enjoying good health.

Security officer 1 Bn considers this message passed over RAE line as a breach of security.

"I" Section visited by CPL and L/Cpl from HQ 1 Div on 15 Oct re tps reaction to Queensland draft.

Discontent was noticeable among the tps apparently due to the division of 1 Bn personnel for the pending draft and also to the fact of not being granted leave or time to visit their homes before being moved. Owing to the prevailing wet weather clothes could not be washed and dried, the facilities in camp not being sufficiently adequate for large numbers. The dissention arising from the above conditions was not organised.

It is advised that OC 1 Aust Inf Bn returned to HQ at 1200 hrs on 13 Oct 42. He spoke to the draft personnel in coy gps and explained the difficulties of rations etc. also the reason for postponing leave. The draft personnel seemed to be in better spirits after this explanation.

CORRECTIONS: 1" to the Mile, Broken Bay Sheet - May 1942 Edition.

1. It is strongly recommended that instead of the word "Trig" for Third and Fourth Class Stations, that the official NAMES of such Trig stations be inscribed. This area is particularly lacking in Topographical names and Trig stations are an excellent method of location and direction - nothing can take their place.

2. The Trig. station shown as McGowan at 268399 and also in the Grid Reference Diagram in the bottom right hand margin should be McCowen (See Parish Map of this area).

3. There is an error in the spelling of the word "Mackerel" in Little Mackerel Beach 306487. The first "E" should be an "A".

4. In the right hand margin at the foot of the North Arrow it states that "the centre of this sheet is 0° 13" 18" East of True North". Should not this read 0° 8" 18"?

5. There is only one telephone line to Cottage Point which is the Southern one - that in the neighbourhood of Want Trig can be deleted.

6. The legend Berowra Township is about 800 yards of N.E. of its True position.
