ADMINISTRATION

252. ROUTINE ORDERS

The following routine orders have been issued and are forwarded for info and necessary action :

GROs 471 - 486
Second Aust Army ROs 182 - 189

253. APPOINTMENTS LIST.

The following list of appointments, promotions etc has been issued and is forwarded for info and necessary action :

Second Aust Army List No 44.

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

254. DUTY BUGLER

1/45 Aust Inf Bn will supply bugler for duty commencing 1700 hrs Fri 2 Jul 43 and continuing for one week.

255. DUTY TRUCK

1/45 Aust Inf Bn will supply one van 3 ton GS with driver to report Salvage Depot at 0900 hrs Wed 7 Jul 43 for one day. Driver to take out lunch.

256. TOBACCO AND CIGARETTES - SUPPLIES FOR LEAVE PERIOD.

1. As soldiers' clubs do not hold large stocks of cigarettes and tobacco, personnel proceeding on leave may purchase supplies from the canteen serving the unit on production of a leave pass.

2. The Scale of issue will be :

(a) Cigarettes - 10 per day, or
(b) Tobacco - 3 ozs per week.

3. Personnel will not purchase cigarettes and tobacco from canteens which do not serve their own unit or the unit to which they are attached.

257. RIFLES .303 INCH BRIGHT MUZZLES.

To comply with GRO 440/43, units will indent on Ordnance for PAINT BLACK HEAT RESISTING for rifle muzzles.

258. CONSERVATION AND RETURN OF STEEL DRUMS.

1. To meet the urgent demand of operational and training requirements action will be taken forthwith by all unit commanders to ensure the return of all available empty petrol containers - both 4-gall and 44-gall - through normal channels to established depots for cleaning, repairing, refilling and re-issue.

2. Particular care will be taken to prevent misuse or maltreatment of containers. Empty containers will be stacked on bilge 2 to 3 tiers high. Bungs and washers will be replaced securely as soon as containers are empty, thus avoiding losses of bungs and washers and reducing interior contamination and deterioration of containers.

3. All unserviceable rubber washers will be collected and passed to the Salvage organisation (vide GRO O 294.1942).

4. Attention is directed to GRO 1530/1942.

(R.N. WILLIAMS) Capt.
A/BM 9 Aust Inf Bde.

ROUTINE ORDERS

Serial No. 35
Part 1. Nos. 264 - 270

by

BRIG A.C.S.HOLLAND. HQ 9 Aust Inf Bde (AIF) Australia.
8 Jul 43

COMD 9 AUST INF BDE.

GENERAL STAFF.

264. WEARING OF RESPIRATORS.
All personnel of HQ 9 Aust Inf Bde (AIF) and Units under comd will wear respirators from 1130 hrs to 1200 hrs on Saturday 10 JUL 43.

265. CHEMICAL WARFARE.
(a) Eyeshields The authorised issue of eyeshields is 3, (vide GRO 0.11 of 1943) Units having 6 still on issue will withdraw 3. Where 3 are issued without a packet, they will be protected by sheets of cardboar
(b) Ointment Ointment will not be issued by loose tubes. One tin will be issued. All ointment, both in store and on issue, will be examined for corrosion. Damaged tubes will be written off when sentenced by C.A.M.L. (CW), and replaced by Ordnance Stores. Damaged tubes will be kept by the Unit and used for training purposes.
(c) Cloths, Disinfecting and Cotton Waste. Cloths disinfecting facepiece and ½ oz cotton waste should be on issue to every man. The cotton waste should be rolled into small balls and kept half below and half above the tin of ointment in the right hand front compartment of the respirator haversack.
(d) Gas stores, particularly ointment, capes and facepieces will be stored in the coolest part of the store to minimize deterioration.
Large and Small Size Facepieces.
Stocks of large and small facepieces are becoming available. Units will take steps to obtain requisite numbers so that provision arrangements can be made.

266. CHEMICAL WARFARE.
The use of french chalk or talc for storing gas clothing and capes will cease forthwith (Second Aust Army G Ops/1203/72).

ADMINISTRATION.

267. ROUTINE ORDERS.
The following routine orders have been issued and will be noted for information and necessary action

| | |
|---|---|
| G.R.Os | 487 - 503 |
| 1 Aust Div ROs | 341 - 349 |

ADMINISTRATION.

272. AIRGRAPH LETTERS

1. The Airgraph Service is an arrangement under which letter written by senders upon special forms are photographed in miniature in this Country and the negative thus obtained forwarded by Air to the Overseas country of address where enlarged prints are taken for delivery to the addressees.

2. The Service may be used only for letters to countries with which the necessary arrangements have been made. At present the Service from Australia is available only for communicatio

(a) To civilians in:-

| | | | |
|---|---|---|---|
| | CYPRUS | NRTHN RHODESIA | UNITED KINGDOM |
| ADEN | EGYPT | NYASALAND | Iraq |
| ANGLO-EGYPTIAN SUDAN | EIRE | PALESTINE | ZANZIBAR |
| BAHREIN | INDIA | SEYCHELLES | |
| BRITISH SOMALILAND | KENYA | SOUTH AFRICA | |
| CANADA | UGANDA | STHRN RHODESIA | |
| CEYLON | MAURITIUS | TANGANYIKA | |

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

(b) To members of the forces of the Empire serving in:-

The countries included in the list above, and

Syria
Persian Iraq Force
Ethiopia (Abyssinia)
Iran (Persia)
Madagascar
Somalia (Italian Somaliland)
Occupied Territory of Eritrea

and the charges payable are as follows:-

(i) For airgraph letters to members of the forces of the British Empire 5d.
(ii) For airgraph letters to civilians. 10d.

3. Forms upon which airgraph letters may be written by senders are available from Army Postal Orderlies serving with Units, from whom further details of the service can be secured by personnel.

4. Normal Unit censorship arrangements will apply to airgraph letters lodged by personnel. The franking officers's signature will appear in the lower left-hand corner of the form(above the direction) "This space not to be used"). Censorable matter will be obliterated and not excised. The Unit censor stamp will be affixed in the space between the address panel and the single printed line directly thereunder; it will be placed as far to the left as practicable.

5. Detailed instructions covering preparation of the letters by senders are set out on the backs of the forms, which will, however, in every case following censorship be passed through unit channels by postal orderlies for onward transmission.

6. If one form be insufficient for the whole of a letter, two or more separate forms may be used, but in such case each form will be treated as a separate letter and a separate fee must be paid for each. Writing must be plain and preferably in black ink, to secure satisfactory photographic reproduction. Use of pencil is not recommended but if used, it will be a soft black lead pencil, indelible pencil will not be used.

7. Names and addresses of addressees of airgraph letters will be written by hand in prominent block lettering(as large as practicable) and will be kept wholly within the panel provided on the form. The full address of the sender and the date of writing will be written at the top of the "letter" portion of the form and at the foot of the letter the senders full name will be written in block lettering followed by his signature.

8. The airgraph letter as delivered to the addressee overseas will be less than one quarter the size of the original lodged by the sender. The need for block lettering as above described and clear writing generally will therefore be readily understood.

( TO BE REPUBLISHED IN UNIT ROUTINE ORDERS)

73. MARKING OF GEAR.
Personnel of HQ 9 Aust Inf Bde (AIF) are again reminded of the necessity for marking all clothing andequipment with name and number.

74. NATIVE LABOUR OVERSEERS AMGAU.
Volunteers are called for from personnel of HQ 9 Aust Inf Bde (AIF) of and below the rank of Captain with the following qualifications for appointment as Native Overseers:

(a) Aged between 25 and 50 yrs
(b) Experience in Australian New Guinea or Solomons an advantage but not essential.
(c) Initiative and some organising ability.
(d) Able to handle men

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

(e) Some experience in bushwork
(f) Knowledge of first aid an advantage but not essential
(g) A desire to understand the peculiarities of the native and the manner in which he must be treated to obtain the best result.

2. Personnel selected will be required to transfer to ANGAU and undergo a period of training as specified by HQ NG Force prior to appointment.

3. Names and qualificiations of volunteers to be handed in by C90 hrs 14 Jul 43.

275. ROUTINE ORDERS.
The following Routine Orders have been published and will be noted for information and necessary action.

| | |
|---|---|
| Second Aust Army Ros | 193 - 203 |
| General Orders | 59 - 60 |

276. APPOINTMENTS AND PROMOTIONS
Second Aust Army List of Appointments and Promotions No.46 has been issued and will be noted for information and necessary action.

277. OFFICERS - MOVEMENT OF
1. Movement of officers on reposting within Second Aust Army will be effected within two days of receipt of instructions.
2. Movement of officers on reposting in a Unit not under command Second Aust Army will be effected on the earliest practicable date (not exceeding seven days) after receipt of instructions.
3. In all instances advice of movement will be forwarded through normal channels to Second Aust Army immediately the movement has been effected.

278. POL - ISSUES TO AUSTRALIAN BROADCASTING COMMISSION VEHICLES.
1. Supply Officers will note that vehicles of the Australian Broadcasting Commission have been allotted "C" numbers by the Dept. of Interior and that such vehicles are authorised to obtain POL from Army installations on a repayment basis.

2. The numbers of vehicles operated by the Broadcasting Commission are:-

| | |
|---|---|
| C.51235 | C.51238 |
| C.51236 | C.51239 |
| C.51237 | C.51240 |

3. To record issues of petrol AAF F.79 will be made out in triplicate. One copy will be given to the driver of the vehicle, one sent to DFO, and one retained by the issuing unit as a supporting voucher for issues made. The Commissioner's vehicles do not normally operate on AAF G.2.

Lieutenant
for (R.A.WILLIAMS) Capt.
A/PM 9 Aust Inf Bde.

On 5 JUL 8 members of Tk A pl moved to TIANJARA RANGE for exercise in firing at moving targets. Party returned on 8 JUL.

2. OPERATIONS. SECURITY.

(Based on infm received by HQ Second Aust Army for week ending 1800 hrs 5 JUL 43).

AUSTRALIA.

18 Enemy A/C attacked the DARWIN area on 28 JUN. On 30 JUN 27 Bombers and 21 Fighters attacked the same area. In these attacks 13 enemy A/C were destroyed and 4 probably destroyed. The second attack damaged grounded A/C, stores and installations: 6 Allied interceptors were shot down.

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

On 6 JUL another raid has been reported to be in progress at DARWIN but there are no details.

Allied A/C protected an Allied convoy when enemy A/C attacked it off the North coast of AUSTRALIA on three occasions between 2 and 3 JUL.

SOLOMONS.

Allied forces between 30 JUN and 2 JUL landed on RENDOVA IS, at VIRU HARBOUR, WICKHAM ANCHORAGE (VANGUNU IS) and at ZAGANA beach and DUME IS (near MUNDA). The stiffest opposition from land forces appears to have been at a village near WICKHAM ANCHORAGE, where 300 Japanese were killed.

Allied A/C supported the landings and subsequent operations by at least 500 attack sorties at MUNDA, VIRU, VILA and REKATA BAY. Enemy A/C attacked Allied forces at RENDOVA and VIRU: On1,2 and 3 JUL approx 140 enemy A/C were shot down in combat and 12 by AA fire. Allied A/C losses were light.

Allied naval forces assisted the operations by shelling FAISI, SHORTLAND IS, BALLALE, ALU, POPORANG, VILA, MUNDA and enemy positions in the WICKHAM Area. A small enemy naval force shelled Allied positions on RENDOVA on the night of 2/3 JUL.

NEWBRITAIN - NEW IRELAND.

Allied A/C made heavy attacks on airfields near RABAUL on 30 JUN and 2 and 3 JUL, making 47 sorties. These attacks probably interfered with enemy aerial reinforcement of the SOLOMONS. Allied A/C on 4 JUL attacked shipping in the KAVIENG area without success.

NEW GUINEA.

On 30 JUN Allied forces occupied WOODLARK and TROBRIAND IS.

In the MUBO - MISSIM Area Allied forces commenced a co-ordinated attack on enemy positions on 29 JUN. A force from MUBO after meeting opposition on 30 JUN effected a junction on 1 JUL with an American force which landed at NASSAU BAY on 30 JUN. On the afternoon of 3 JUL our forces were established South of the BITOI. Enemy losses in these operations were about 50 killed.

Concurrently with the above operations three Australian companies attacked in the BOBDUBI area and one company at ORODUBI. These forces met resistance at both places but reached positions which should enable them to cut the communications of enemy forces in the MUBO area.

Our patrols have made raids near SALAMAUA and ambushed enemy parties in the MARKHAM VALLEY.

Enemy A/C attempted to hamper Allied operations by bombing and strafing attacks in the BITOI area on 1,2 and 3 JUL.

Allied A/C supported our operations by direct attacks in the NASSAU BAY - BITOI area and by bombing enemy supply bases at SALAMAUA and LAE.

Continued enemy interest in the BENA BENA area was shown when 8 bombers attacked GAROKA airfield on 3 JUL.

NW AREA.

Allied heavy recce units attacked a number of points throughout the NW area. They attacked FAK FAK, TIMIKA and NABIRE (Dutch New Guinea) LAHA airfield (AMBON) and BOERO IS, SELARU, MOLOE and SAUMLAKI (TANIMBAR IS). In TIMOR Allied A/C attacked PENFOEI, KOEPANG, FUILORO and the new airfield at CHATER.

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

Allied heavy bombers attacked KENDARI on 3 JUL.

4. ENEMY TACTICS, METHODS AND HABITS. SECURITY.

TACTICS.

One of our patrols in the MISSIM area came across Jap booby traps set with a pair of boots and a steel helm as decoys. The explosive elements were British 36 m grenades. Detonation of the traps failed to produce any evidence of Japs in the vicinity.

(HQ Second Aust Army Int Rev No 63).

7. ENEMY AIR ACTIVITY. SECURITY.

NF AREA (excl SOLOMONS)

The number of A/C reinforcements required for the SOLOMONS has obviously reduced the number available for operations in NEW GUINEA: but the light scale of the enemy's air activity in NEW GUINEA as compared with his efforts in the SOLOMONS may also be explained in part by the fact that he relies on his ground defences and the difficult terrain to protect his position in the LAE - SALAMAUA Area.

Information from recce over RABAUL does not permit a statement on the enemy air strength in that area, but it is reasonably certain that reinforcements of A/C for the SOLOMONS were sent forward from RABAUL.

SOLOMONS.

Following upon his severe losses of A/C up to 28 JUN, the enemy again suffered in the aerial activity over the SOLOMONS on 30 JUN, 1 and 2 JUL. The number of enemy A/C involved in these actions was apparently the maximum number available and the enemy losses suffered must have been a severe strain on his strength.

These losses make necessary an immediate reinforcing by A/C drawn from other areas, either the Mandated Islands or the NW area, probably the latter, or even the introduction of carriers.

NW AREA.

Although the severe loss in the NF Area is likely to result ultimately in transference of A/C from the NW Area, the strength of enemy A/C in the NW Area remains constant, and in fact there are signs of an increase in the scale of enemy air activity in this area; evidence, the attacks on DARWIN and the Allied Convoy off the North Coast.

With the advent of the monsoonal season in BURMA, A/C from that area may be available for use in the NW Area.

(HQ Second Aust Army Int Rev No 63).

19. SECURITY.

THE FIELD SECURITY SERVICE.

The following (condensed) extract from GHQ India Monthly Int Summary (1 May 43) might well be applied to Aust Forces:-

There is steady increase in demands for Field

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

Security Sections. Those who have been allotted, or hope to be allotted, FS Sections could help by doing everything in their power to stimulate the flow of volunteers. It is impossible for the Intelligence Corps (of which the Field Security Service forms part) to provide trained men without raw material. The Field Security Service must be recruited from high quality personnel, and high physical fitness, determination and "guts" are no less necessary than intelligence and discretion. One of the lessons of the Dieppe Raid, for which eight FS parties were detailed, was that it seems likely that in any offensive operation there will be a considerable number of intelligence targets, with which FS personnel will be called on to deal in conjunction with the forward fighting troops. One example is the location and occupation of enemy HQs in order to liquidate the occupants before documents "to be destroyed in time of emergency" are disposed of. It follows, therefore, that all FS personnel employed with field formations must be drawn from first class fighting material.

(HQ Second Aust Army Int Rev No 63).

SECURITY OF INFORMATION - CCC PERSONNEL.

During the past week, CCC personnel working in camp areas, when challenged by guards, have been in some instances, without identity cards. CCC foremen should be asked to co-operate by seeing that CCC personnel working within camp areas always carry their identity cards.

In one unit where CCC personnel are employed erecting a hut, apart from a check as the men enter the camp area, a member of the unit "I" staff is detailed to check every CCC worker at 0830 hrs daily, making himself familiar with each man's face and paying particular attention to any newcomer. Troops are not permitted to talk to CCC workers except where the nature of their work makes it imperative to do so and no CCC worker is allowed to read the unit notices or loiter near military offices. This procedure is recommended to all units.

(HQ Second Aust Army Int Rev No 63).

Many cases have been reported of civilian personnel employed by the Forces wearing clothes indistinguishable from Army personnel. Such civilians have consequently had undue freedom of movement in camps, installations and prohibited areas. They have even been reported as having travelled in Army Transport planes without any other authority than their outward resemblance to military personnel. Such conditions render the free movement of enemy agents possible and simple.

Security Officers should insist that the distinguishing badge which is issued to such civilian personnel, be worn at all times.

(HQ Second Aust Army Int Rev No 63).

CENSORSHIP - ITEMS OF INTEREST.

The following extracts from USA Publication "Newsweek" dated 17 May 43 are of interest.

ITALY - "Official figures obtained secretly from ITALY, disclosed a remarkable decline in Fascist Party membership. The February report to Mussolini by the former Party Secretary, Aldo Vidussoni, shows a drop in membership (and in those affiliated with the party) from 27,376,301 to 12,367,288, in one year. The "Fasci di Combattimento" branch shrunk from 4,770,000 to 2,633,907 and the women's Fasci declined from 1,027,409 to 359,370. The only

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

Party section showing a gain was the Youth Organisation which had a little less than one million members increase."

JAPAN - "Japan is not getting any great quantity of war information out of the Argentine. While Argentine control of outgoing communications is by no means strict. none of the Japanese Embassy messages are being passed. It is known that many summaries of articles by newspaper military experts on American weapons and tactics which, while containing no actual military secrets, might be helpful to Tokio, have been held up by the Argentinians."

SOLOMONS - A writer states that Chinese in the Solomons are being enlisted in the American Army for duty behind the lines.

"We have received cabled instructions from the American authorities on Guadalcanal to enlist the Chinese at this place to work behind the lines. The wages are £10 E. for everyone, provisions to be provided by the American authorities. The work will consist of laundrying, market gardening and other essential work. Most of us are glad to work for the Americans and do not wish to be evacuated to Fiji, as the Americans are most friendly towards us and more friendly than the nationals of other countries."

(HQ Second Aust Army Int Rev No 63).

DISCLOSURE OF UNIT NAME.

It has been noticed that soldiers' numbers, names and unit have been written on the covers of some of the games in a canteen in WOLLONGONG. Although the canteen is not open to the public, it demonstrates the thoughtlessness on the part of those concerned, who have been warned of the seriousness of such breaches of security.

(c) Information re "Int" Secs.

HQ 9 Aust Inf Bde (AIF)

Composition:- On 10 JUL 43 Pte D. Walker left unit to attend Second Aust Army Map Reading and Field Sketching Course at SEYMOUR.

Training:- IO and S/Sjt Webb participated in 3 day trek with 1/45 Bn - talks on SWPA each morning from items in daily newspaper and keeping situation map on same - Dye lining and routine duties.

1/45 Aust Inf Bn.

Composition - Unchanged.

Training:- Routine duties. On Sunday 11 Jul, 43 "I" Sec carried out recce of portion of route of Bn 3 day trek, incl track from map ref KIAMA 574223 to 559186. Portions of this track are overgrown, but a well defined path runs down the escarpment from ref 590198. On Friday night "I" personnel explained to tps the proposed route for the trek and the type of country that would be encountered.

17 Aust Inf Bn (AIF)

Composition - unchanged.

Training:- IO has been released from appointment as A/Adjt to prepare exercises, lectures, etc for an Int School, in which it is hoped to train, by degrees, most of the NCOs of the unit in intelligence work. "I" Sjt keeping records and assisting IO.

(d) Infm re own tps.

1/45 Bn 3 day Trek 13 - 15 JUL 43.

On Tues 13 JUL Bn excluding tpt personnel and maintenance party, proceeded by MT to SP map ref KIAMA 789187. The route was approx SOUTH to SADDLEBACK MOUNTAINS, then approx NW to biv area ref 616256. 2ND DAY - SW and SOUTH to biv area KANGAROO RIVER ref 565126. 3RD DAY - General direction NORTH along ridge to finishing point ref 573222.

19. SECURITY.

(a) Information:- 17 Bn report that rumour of the move to DAPTO has been current for a week or so, but it has not been possible to trace the source.

(b) Personnel:- 1/45 Bn tps given instn on security matters. Questions on security included in Quiz Session.

(c) Material:- Stores and eqpt guarded.

(d) Operations:- NIL.

(e) Censorship:- No breaches reported.

(f) Suspected persons:- NIL.

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

(g) Morale:- (i) Tps are generally bright and content

(ii) No friction reported

(iii) Educational - Security posters still on display.

INTELLIGENCE REPORT FOR WEEK ENDING
17 JUL 43.

9 Aust. Inf. Bde. (AIF),
Australia.

Based on information received up to 1200 hrs. 16 Jul 43.

1. (a) Ops. - Own Tps.

Nothing to report.

(b) Location - Own Tps.

Bn.HQ. has been situated during the week at WARRAWONG Camp ( WOLLONGONG 883420 ) on 16 Jul 43 an order to move to move to DAPTO Camp ( KIAMA 782371 ) was received the move to be completed by 18 Jul 43.

(c) Training.

On 10/11 Jul tps. were on monthly leave. During the remainder of the week tps. have fired practices on the JUNGLE RANGE, firing both the rifle and BREN gun, the latter on the new "Bren Gun Trail". The tps. not actually engaged in firing have been training in moving through jungle, freezing, observation, etc. in the JUNGLE RANGE area. Training has temporarily ceased and all available tps. are engaged in packing stores and material for the move.

(d) Infm. re Int. Section.

(i) Composition : 1 Offr., 1 Sjt.
(ii) Trg. & Work : I.O. has been released from appointment as A/Adjt to prepare exercises, lectures, etc., for an Int. School, in which it is hoped to train, by degrees, most of the NCO's of the unit in intelligence work. "I" Sjt. - keeping records and assisting I.O.

16. Topography Affecting Own Tps.

Nothing to report.

17. Topography Affecting Enemy Tps.

Nothing to report.

19. Security.

(a) Information : The rumour of the move to DAPTO has been current for a week or so, but it has not been possible to trace the source.
(b) Personnel : Nothing to report.
(c) Material : Precautions seem inadequate.
(d) Operations : Nothing to report.
(e) Censorship : No breaches have been reported during the week.
(f) Suspected Personnel : Nothing to report.
(g) Morale : (i) Internal: Tps. are generally bright and content.
(ii) External: Nothing to report
(iii) Educational: No opportunity has existed during the week for security talks. Security posters are still on display.

1/45 AUST INF BN"I" REPORT for week ended 16 Jul 43.

APPENDIX A.

## 1/45 AUST INF BN 3 DAY TREK 13-15 Jul 43

### Route ref map KIAMA MS

On tues 13 Jul, 1/45 Bn excluding tpt personnel & maint party, proceeded by MT to start point at MR KIAMA 789187.

The party was divided into 3 pls, which left the start point at ten minute intervals.

The rout followed the road SSE to ref 790152, thence WEST along track over SADDLE BACK MOUNTAINS to a track up the escarpment to the BARREN GROUND A halt was made at 1230hrs at ref 746170 for lunch. The rout upto this point led up steep grades, & halts were made each half hour. At 1330hrs, the leading pl moved off following the general line of the escarpment on the NORTH edge of the BARREN GROUND, to a point at ref 737172 & from this point followed a track to its junction with a road at ref 711187, thence along road NW to road junct ref 664259. This point was reached at 1630hrs. The final 4000yds to the Biv Area at ref 620257 took longer to negotiate than was expected - there was no track to follow, & tps marched on a bearing of 266 deg. Marshy ground was encountered in the first 1000yds & the remainder of the journey to the Biv Area was through thickly timbered country with thick undergrowth. One pl had some difficulty in locating the Biv Area, but all tps had arrived by 2000hrs.

Day 2.

At 0915 on 14 Jul, tps moved from the Biv Area across a saddle to ref 581245, thence SOUTH along the road to road & track junct ref 574223, SOUTH & EAST along track & down escarpment to ref 593197 where a halt was made at 1300hrs for lunch. This track is overgrown for the greater part of its length but is well defined down the escarpment.

The march continued at 1415hrs & the track was followed to its junct with road at ref 599185. This road was followed to vic ref 565126 - Biv Area- which was reached at 1615hrs.

Day 3.

Tps moved from Biv Area at 0800, travelled NW along the WEST side of re-entrant to ref 566131 thence along spur to saddle at 558130. The rout up to this point was up steep grades, & for the last 300yds undergrowth was so thick that a path had to be cut.

From ref 558140 a cattle pad was followedto ref 563150. In the vicinity of ref 559163,562167, very heavy undergrowth was again encountered & a path had to be cut in places. A halt was made at 1300 at ref 566179 for lunch & the road at ref 570183 was reached at 1420. The trek finished at ref 573222 at 1500hrs, & the Bn moved back to camp by MT.

Three days rations & 100 rds of SAA was carried by each man.

There were13 casualties during the trek- mostly cases of blistered feet and corns, but the remainder of the party were in excellent condition at the finish.

Section cooking proved very successful.

The following routine orders have been issued and will be noted for info necessary action:-

| | |
|---|---|
| General Routine Orders | 521 - 536 |
| 1 Aust Div ROs | 350 - 360 |

290 TERNE PLATE LININGS FOR AMMUNITION PACKAGES - NOT TO BE USED AS CONTAINERS FOR FOOD OR WATER.
1. Owing to the existing shortages of pure tin, terne plate linings are now being used in increasing quantities for ammunition packages, particularly for small arms ammunition.
2. Terne plate differs from tinned plate only in that the usual rolled steel plate is coated with a material which contains from 80 to 84% of lead, whereas in the case of tinned plate the coating consists of pure tin.
3. Terne plate linings can easily be identified by the fact that they are of a leadish colour and that the coating can be scraped off very easily. The characteristic "lead feel", when touched by hand, is also present.
4. In view of the high lead content of terne plate, containers made of this material will not be used in any way in connection with the cooking, storage or transport of food or drinking water. Any disregard of this prohibition may involve extremely serious consequences.

291. PRIVATE TELEPHONE CALLS - HQ 9 AUST INF BDE (AIF)
In future private telephone calls will NOT be made through Bde HQ switch by any persons except those of HQ 9 Aust Inf Bde (AIF), "J" Sec 1 Aust Div Sigs and 254 Aust LAD (AIF).

293. SECURITY OF INFORMATION IN CORRESPONDENCE.

1. The practice of including in communications to members of the forces serving overseas reference to past or impending embarkation of individuals, arrivals and departure of troopships etc. is to cease forthwith.

2. The majority of letters travel by air and as misfortunes may easily deliver such into the hands of the enemy even before ships referred to have cleared port - destruction of such vessels, together with personnel may result to what is criminal thoughtlessness.

3. Military personnel are instructed to impress these vital points upon civilian relatives and friends in order that it may become necessary as the result of examination to delay or withhold transmission of such communicati

(TO BE PUBLISHED IN UNIT ROUTINE ORDERS)

294. SECURITY OF INFORMATION (Leakage of information by gossip)

1. Cases have recently occurred of information regarding the movement of troops and H.M.Ships becoming public property.

2. All ranks will be warned that it is their duty to ensure by their own reticence and by reporting immediately cases of indiscreet talk by others that information useful to the enemy does not reach unauthorised persons.

3. All ranks will be warned against discussing service matters, with civilians at any time or amongst themselves in Clubs, Theatres, Cafes or other public places.

| Second Aust Army ROs | 211 - 217 |
| 1 Aust Div ROs | 361 - 372 |

296. APPOINTMENTS AND PROMOTIONS.

The following appointments and promotions list has been issued for infm and necessary actions

Second Aust Army List No.48.

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

297. REQUEST HOUR
Unit returns as per 1 Aust Army RO A366 will reach these HQ by 28 Sep 43 and every three months thereafter.

298. BSA M/CYCLES - FIRE HAZARD.
Attention of all personnel responsible for the operation of WD Type BSA 500cc, side valve model M/Cycles, is drawn to Second Aust Army RO 166/42. This RO sets out the procedure to be adopted in order to minimise the risk of fire when using the abovementioned type of M/Cycle.

299. SAFETY FIRST IN MT REPAIRS AND MAINTENANCE.
1. Serious accidents have occurred recently due to sufficient care not being taken when repair or maintenance work is being carried out on vehicles, carriers, etc. This applies particularly to cases where it was necessary for personnel to work underneath a vehicle. Inspecting AEME Officers have also sighted and corrected many other instances where insufficient safety precautions were being adopted and where serious injury to personnel may have resulted.
2. The following are some of the most important points to observe in ensuring safety of personnel carrying out maintenance and repair work:-

Reliance should not be placed on jacks to support the load of vehicles under which personnel are to work but blocks of adequate proportions or Stands, Axle, Safety, should be used for the purpose.

Handbrakes are useless when either or both rear wheels are jacked up, and hence wheels must be chocked to prevent movement of the vehicle. This applies also if work is being carried out on the transmission as the disconnection of the propeller shaft for instance renders the handbrake ineffective.

Whenever repair or maintenance work is being carried out, the officer or senior NCO supervising the work must satisfy himself that all necessary safety precautions are being taken.

3. COs of all Units in the Formation will ensure personally that this matter is brought to the notice of all personnel whom it concerns

300. MEDICAL RETURN.
On and from 27 Jul 43 all Units fo 9 Aust Inf Bde and attached tps will submit a return of UNTI, Diarrhoea and clinical dysentry cases to 2/12 Aust Fd Amb by 0900 hrs daily.

301. COMPLAINTS BY MEMBERS OF THE FORCES.
Units will ensure that GRO 108/42 is complied with and the provisions of AMR & O Division 1 Part IV are explained to Units on parade as set out therein.

302. WEARING OF RANK etc BADGES.
1. It will be ensured that badges will be worn as laid down in GROs O.205 and A.245 of 1943.
2. No other badges (e.g. crossed flags, wheel, etc) will be worn.

303. TELEPHONE DIRECTORY - HQ 9 AUST INF BDE (AIF)
1. Amendments to HQ 9 Aust Inf Bde (AIF) telephone directory of 28 Apr 43 are as follows:-

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

SECRET.

1. (a) LOCATIONS (of units under comd as at 0900/28 JUL).

As from 18 JUL 43 17 Aust Inf Bn (AIF) has been located at DAPTO Camp (KIAMA 782371).

254 Aust LAD (AIF) temporarily located with 17 Bn.

(b) TRAINING (based on infm received up to 1200/23 JUL).

HQ 9 AUST INF BDE (AIF)

MT maintenance, firing at Jungle Range; otherwise routine duties.

254 AUST LAD (AIF)

Servicing of 17 Aust Inf Bn vehs.

J SEC 1 AUST DIV SIGS

MT maintenance, visual trg exercises and routine duties.

17 AUST INF BN (AIF)

Owing to the movement of ninety tps to SYDNEY for special wharf duties, trg has been temporarily suspended and the remaining tps have been engaged in general camp duties.

1/45 AUST INF BN

MT maintenance, Mine School and routine duties.

Since 20 JUL Offrs, WOs and some senior NCOs have been attending a school on MINES and BOOBY TRAPS conducted by members of 26 Aust Fd Coy RAF.

Students are receiving instruction in handling Allied and foreign mines, laying plotting and delousing of minefields (practical exercises), recording of minefields, use and counter use of booby traps, etc.

Offrs have practised the recording of operation orders.

2. OPERATIONS. (Based on infm received by HQ Second Aust Army for week ending 1800 hrs 19 JUL 43).

AUSTRALIA.

On 6 JUL 27 enemy bombers and 23 fighters attacked PENTON airfield near DARWIN, dropping bombs on the taxiways and dispersal areas and damaging some A/C on the ground. One E/A was probably damaged by AA. Enemy casualties due to interception by SPITFIRES were 10 bombers and 2 fighters destroyed and 3 bombers and 1 fighter damaged.

Several attacks were made on Allied vessels near MILLIMGIMBI and PORT ESSINGTON.

Of two enemy A/C flying over the DARWIN area on 18 JUL one was shot down by our intercepting A/C.

SOLOMONS.

On 6 JUL in a naval combat in the KULA GULF the enemy lost 6 vessels probably sunk and 4 damaged out of a force which apparently consisted of light cruisers and destroyers. Sightings since this action suggest that he has brought reinforcements of light cruisers and destroyers into the SOLOMONS. So far, however, these have been ineffective in the actions round NEW GEORGIA.

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

Enemy A/C attacking Allied shipping at RENDOVA IS on 5 JUL suffered heavy loss without causing damage.

Allied A/C have continued to make widespread and heavy attacks on enemy bases and shipping in the SOLOMONS. Bases attacked by our heavy bombers were BALLALE, POPORANG, BUIN, FAISI, BUKA, BURI, KAHILI, MUNDA, REKATA BAY and VILA. Several attacks were made on a beached destroyer on the SE coast of KOLOMBANGARA, one attacking force consisting of 11 Dauntless, 10 Avengers and 14 Wildcats. Other enemy vessels were attacked at sea. Direct attacks have also been made on enemy ground positions near MUNDA by large forces of Dauntless and Avenger A/C. In aerial combat on 5, 6 and 7 JUL our A/C engaged large formations of enemy A/C successfully.

Allied land forces have expanded their holding in the ENOGAI - BAIROKO Area and have made some progress towards MUNDA in the LAMBETI Area.

Following the heavy enemy losses in the naval action of 6 JUL, actions between surface vessels on the night 12/13 JUL, the night 17/18 JUL and on 18 JUL have resulted in the sinking of one cruiser and three destroyers and the probable sinking of three further destroyers.

Enemy A/C have made several attacks on Allied positions at ENOGAI and RENDOVA. Allied heavy bombers have attacked airfields and installations at BALLALE, BUKA and KAHILI. Allied dive-bombers and fighters have heavily attacked enemy positions in the MUNDA Area. On 17 and 18 JUE two very heavy attacks were made on enemy shipping in the BUIN-FAISI Area by Allied bombers with large fighter escorts. In these attacks enemy shipping losses were 1 light cruiser, 2 destroyers, 1 submarine chaser, 3 cargo vessels and 1 tanker. Additional ships were damaged and 62 intercepting A/C were shot down.

NEW BRITAIN - NEW IRELAND.

There has been some movement of enemy shipping apparently bound for the SOLOMONS from NEW BRITAIN and NEW IRELAND.

On 11 JUL a force of 9 Fortresses and 6 Liberators bombed VUNAKANAU causing many fires. Single Allied A/C have also bombed CAPE GLOUCESTER and RAPOPO.

Small forces of Allied bombers attacked airfields and installations at RABAUL and several ships off the coasts of NEW BRITAIN and NEW IRELAND.

NEW GUINEA.

Some 80 barges (beached) have appeared in the SALAMAUA Area. Japanese troops have moved South from SALAMAUA. The two reports together suggest either that he is bringing in reinforcements from LAE probably for the purpose of a counter attack, or that he is preparing to move troops or supplies or both down the coast from SALAMAUA by water. Enemy forces appear to have reached LUMPU, MARAWASA and ARONA (near KAINANTU).

By a series of skilfully planned and co-ordinated operations between 7 and 13 JUL Australian forces from the MUBO Area and Allied forces from NASSAU BAY cleared the enemy out of the MUBO Area. The enemy appears to be preparing a defensive position at GOODVIEW RIDGE, South of KOMIATUM and our forces in approaching this area have scored successes at MOUNT TAMBU and in the vicinity of ORODUBI.

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

On the coast Allied forces reached LAKE SALUS without major action and have captured an enemy position on the coast 3½ mls north of LAKE SALUS.

In the RAMU - UPPER MARKHAM Area patrol clashes have occurred at LIHONA, SEPU and KAINANTU.

Allied surface craft have sunk enemy barges in the HUON GULF.

Small forces of enemy A/C have attacked Allied positions in the MUBO - NASSAU BAY area. Allied A/C have attacked enemy positions at BOBDUBI and ORODUBI and have heavily attacked SALAMAUA and LAE. Several enemy A/C have been destroyed in aerial combat in the WAU - LAE Area. Enemy A/C again attacked BENA BENA and ASALOKA.

NORTH WEST AREA.

Allied air action has been widespread but on a light scale. Our A/C have attacked KEAUKWA and KAUKENAU (DUTCH NEW GUINEA) several objectives in the KAI, ARCE and TANIMBAR Islands and CHATER, KOMBANG, LAUTEM and PENFOEI in TIMOR.

OPERATIONAL PATROL ACTIVITY. SECRET.

An exceptionally hazardous patrol which has brought in a considerable amount of valuable information on the area North of the MARKHAM RIVER, was carried out during the months of May and June by an officer and a WO of the AIF accompanied by a few picked natives. On the last stage of their reconnaissance the party was betrayed by natives, and the officer was killed, but the report of the WO has given us much valuable material concerning the activities of the Japanese, and has indicated the considerable hold that they have obtained in this district. The area covered was generally -

along the North of the MARKHAM as far as KAIAPIT
across the FINISTERRE Mountains towards SAIDOR
Southeastward across the SARUWAGED Range towards MOGOM and BOANA
thence returning to the MARKHAM River near CHIVASING

The principal items of interest in the reconnaissance report are -

(i) The location of permanently occupied localities
(ii) The tracks used by Japanese patrols
(iii) Their hold on the natives. Some thousands of natives are being used by them, and apparently, little, if any, recompense is given. The natives are building roads, making gardens for them, supplying them with food and being used as spies.
(iv) The treachery of the native teachers of the Lutheran missions.
(v) The continued use of FINSCHHAFEN as a submarine landing point for reinforcements from NEW BRITAIN.

(HQ Second Aust Army Int Rev No 64).

4. ENEMY TACTICS, METHODS AND HABITS. SECURITY.

CAMOUFLAGED CLOTHING.

A report from NAMLING on 7 JUL states that the enemy were wearing camouflaged clothing similar to US pattern overalls. This is the first report of such clothing; it may possibly have been captured in other theatres.

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

JAPANESE USE OF TRANSPORT SUBMARINES. SECURITY.

Documents captured on ATTU, in conjunction with other sources reveal that the Japanese employed submarines to assist in the reinforcement and supplying of their hard - pressed troops on the island of ATTU. There is reason to believe that more than ten large submarines were unloaded in HOLT BAY each month, the vessel usually appearing late in the afternoon to avoid American bombers.

The submarines, which were described as of the "fleet type, especially designed for transport work", brought, it was stated, fifty troops and about fifteen tons of supplies. The submarines were unloaded by four or five large landing barges and unloading was accomplished within an hour after the barges tied alongside.

It is known that the Japanese have been employing the same expedient to supply and reinforce bases in the South Pacific, particularly in the LAE area. Indications are that submarines of the "I" class are used; some have been sighted with bulky cargo carried on their decks both fore and aft. Other cargo is apparently packed in special small bags permitting unloading by means of various small hatches. One enemy source indicated that the "I" Class submarine carried one barge (or possibly two), used for landing troops.

It is believed that over short distances carrying capacity can be considerably increased.

It is known that GERMANY possesses a number of tanker "U" boats from 1200 to 1600 tons each, used for refuelling "U" boats. Each is estimated to carry 700 tons of oil and enough cargo (32 tons) to provision ten "U" boats for a period of fourteen days.

In view of the probability of this type of submarine being also constructed by JAPAN, it is considered that some at least of the submarines operating between RABAUL and HUON GULF may be of this type. The displacement closely approximates that of the "I" class submarines, many of which have been sighted in RABAUL Harbour and on passage along the South coast of NEW BRITAIN.

It is estimated that, if one of these submarines discharged 700 tons of fuel per week at LAE or FINSCHHAFEN, sufficient fuel would be provided for approx one hundred barges for seven days.

(HQ Second Aust Army Int Rev No 65).

Attached as Appendix B is report on the treatment received by PsW in the hands of the Japanese.

7. AIR ACTIVITY. SECURITY.

NE AREA.

Enemy air attacks in NEW GUINEA have not been heavy considering the large amount of air traffic reported in the LAE-SALAMAUA Area. In addition to the light attacks directed against Allied land forces in the MUBO - NASSAU BAY - SALAMAUA Area, there has been a resumption of enemy reconnaissance in the SOLOMON SEA Area, particularly over the TROBRIAND - WOODLARK Is and even as far South as MILNE BAY.

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

The decrease of 50 A/C in the estimated land based enemy A/C strength in the NF Area is probably accounted for by transfers to the SOLOMONS.

NW AREA.

There have been no attacks in the NW Area, but enemy reconnaissance activity has continued, particularly towards MILLIMGIMBI and a late report states that recce A/C were over the DARWIN Area on 18 JUL. There is a reduction of 28 A/C in the estimated strength in the NW Area due possibly to Allied attacks on the TIMOR airfields and transfers of A/C to the NF and/or SOLOMONS Area. Again this week there has been no reported detailed visual or photographic reconnaissance of the enemy airfields in the NF Area.

SOLOMONS.

The largest reported concentration of A/C sighted on any airfield in the SOLOMONS was 82 A/C at KAHILI on 10 JUL.

Enemy air activity in the SOLOMONS has been confined to light attacks against Allied land forces in the MUNDA and ENOGAI Inlet areas, against Allied installations on RENDOVA Is and to interception of the heavy Allied Air attacks against enemy shipping and airfields at BUIN FAISI and KAHILI. Allied A/C destroyed at least 130 enemy A/C during the week ended 18 JUL.

The use of floatplanes as interceptors against Allied fighters is a possible indication of the strain being placed upon the enemy A/C resources following the severe losses he has sustained during recent weeks.

(HQ Second Aust Army Int Revs 64 & 65).

5. GENERAL. SECURITY.

JAPANESE AIRCRAFT ENCOUNTERED IN SWPA.

Type O Mk 1 SSF "ZEKE" is still the most frequently encountered Japanese fighter in this theatre. Type 1 SSF "OSCAR" is next; but in general ZEKE is still the more dangerous opponent of the two. Type O Mk 2 SSF HAP (more formidable than either ZEKE or OSCAR) is still encountered, but not so often as the others mentioned.

Increased use is being made of the twin-engined fighter not yet identified but thought to be the type 2 2F SSF. This A/C appears to be very fast and the armament is assumed to be at least 2 x 20 mm cannon and 2 or 4 x 7.7 mm machine guns. No further infn is available at present. Previous infn on this fighter appeared in 9 Aust Inf Bde Int Summary No 16.

In addition to the twin-engined SSF, an A/C, still unidentified, has been reported consistently. This A/C appears to be very similar to the type FW190 SSF FRED and may be either a Japanese version of FRED or the type O MK 3 of which very little is known at present.

Type O MK 1 SSF F/P RUFE has also been operating frequently; types O RF/P JAKE, 100 R/P DINAH, O OF/P PETE and 99 D/B VAL have been encountered from time to time.

Type 99 L/B LILY has been used fairly often in low level and medium attacks, sometimes in conjunction with type 97 M/B SALLY which operates at higher levels. It is thought that the SALLY MK 2 version is being used in this theatre. It was identified in the DARWIN raid on 20 JUN.

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

Type 1 M/B BETTY is still the most widely used medium bomber and recent combats with this A/C indicate that the top speed estimated at 300 mph, is conservative and that it may be capable of speeds up to 315 mph.

(HQ Second Aust Army Int Rev No 64).

JAPANESE TWIN ENGINED RECONNAISSANCE PLANE.

A crashed Japanese twin-engine A/C has been located in NEW GUINEA. This believed to be the A/C previously regarded as an enemy fighter.

No armament was located in the wreckage, which confirms the original report that no fire was encountered.

Infm obtained as a result of a superficial field examination of the crashed A/C is given herewith, but as portions of the A/C were strewn over a large area the infm given is necessarily limited and preliminary.

The A/C is a twin-engine low wing monoplane. It is thought to have been powered by NAKAJIMA SAKAE 21 type, twin row, 14 cylinder, radial aircooled engines.

A crew of two is carried, each in a single cockpit, one fore and aft.

The fuel tanks are located in the wing, outboard of the fuselage and inboard of the engine nacelles.

An oxygen bottle is located in the rear cockpit.

The A/C carried no armour or armament, but two cameras were thrown clear of the wreckage.

(HQ Second Aust Army Int Rev No 64).

10. SECURITY.

SECURITY OF INFORMATION.

(i) Maps and Charts.

There is apparently a widespread belief among Allied pilots that Japanese maps and charts are superior to those used by Allied Forces. In part, this belief is based upon knowledge of the excellence of Japanese intelligence in the PHILLIPINES, MALAYA and the NEI where the enemy forces all had maps of the areas and good ground intelligence, prior to operations.

Neither the Japanese nor the Allies, however, had maps of much of NEW GUINEA prior to operations. The maps which have since been prepared by the Japanese have been captured in sufficient numbers for a careful comparison to be made with similar Allied productions.

On the basis of this comparison, it may be stated that, without exception, the captured maps and charts are markedly inferior to the charts and maps now available to Allied forces. The Japanese maps are so poor that any new Allied map, which falls into enemy hands, is reproduced and issued without change, including even the English spelling of names. Many of these reproductions of Allied maps and aeronautical charts have been captured far from the area, in which they could be used, wadded down behind seats and panels in A/C and included in field dispatch cases.

Information of considerable value, can in turn, be obtained from these reproductions and they should therefore be turned in promptly through intelligence channels, regardless of their souvenir value, or apparent similarity to existing maps.

It is stressed once again that Unit Security Officers should see that all troops realise the need for proper security measures in regard to our Maps and Charts to prevent any likelihood of their falling into enemy hands.

(HQ Second Aust Army Int Rev No 65).

(ii) Undesirable Pamphlet.

Information has been received that an undesirable pamphlet has been circulated in the Middle East, and may possibly also be found in the SWPA.

A brief description of the pamphlet is as follows :-

Title: "What every Soldier, Sailor and Civilian should know".

Aim: Urges unorthodox medical treatment for members of the Armed Forces.

Author: Dr Charles Henry DUNCAN - not listed as a member of any medical association of national repute.

Foreword: By Dr Carl S FRISHKORN, reported to be a Nazi sympathiser, actively engaged in German activities.

The distribution of this pamphlet to tps should be reported to HQ 9 Aust Inf Bde (AIF).

(HQ Second Aust Army Int Rev No 65).

SECURITY TESTS DURING MANOEUVRES.

Following the lines of the Security Test described previously in 1 Aust Div Summaries Nos 64 & 65, a test was carried out during a Signal Unit's exercise. The following incidents provide valuable security lessons :-

(a) Misdirecting Convoy. Intelligence personnel procured road signs from the Roads Board and replaced them incorrectly at a road junction. Result - the advance party read their map, ignored the signboards and took the correct route; the rear party ignored their map, followed the signboards and were officially counted as casualties. They learned their security lesson at the expense of additional miles of travel.

(b) Cutting Communications. Personnel dressed in civilian clothes were through laxity on the part of the sentries, permitted to enter a camp area and succeeded in cutting the signal wires leading to the P.O.

(c) Destruction of documents. The following documents were found along the road :-

A message form with message intact;
A route card, partly torn, showing the next destination of a detachment;
A message from OC Sig Coy reading :-

"Sgt .....
Have a DR posted at DONYBROOK PO from 2200 tonight to guide Sig .. into area. Let Major .. know of this instn. Signed ....."

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

Ironically on the other side of the paper used as a message form above was a roneo-typed screed on Discipline Morale and Security.

(d) Loose Talk. Loose talk in a hotel by two Sig personnel revealed the name of the OC and four other officers, the number of troops, the type of training, morale, etc.

After the exercise, Security lectures were given to the Signal Units concerned.

Sentries.

A party of officers (not ARMY) were recently invited to the Officers' mess at one of the local camps. They duly arrived and at the gate the sentry, eyeing them with dark suspicion, demanded their passes. Having none they endeavoured to fill the breach with fair words, each, apparently being willing to guarantee the other's integrity.

During the ensuing discussion there arrived a very drunken soldier, reluctantly returning to the fold. He nestled on the running board of the car proclaiming a theory that it was better to ride than walk. He was rapidly disillusioned and the visitors erected him and set him on his course. Judicious tacking took him through the gate and ignoring the sentry, he weaved his way to bed.

The sentry's Sphinx-like reaction to the visitors' efforts at persuasion had created something of an impasse, but, eventually rapidly mounting thirst supplied an inspiration. Somebody suggested calling the corporal of the guard. He arrived, and recognising the party, allowed them to enter.

Before driving off, one of the visitors, somewhat puzzled, asked the sentry why he had not asked the drunk for his pass. "Oh" replied the sentry, "HE's in the Army. We havent any control over him."

Burning of Papers.

CO of a unit vacating an area allocated sections of the camp site to Officers holding them responsible for the burning of all papers in their sections. On completion a certificate certifying that they had personally checked their respective sections was handed to the CO.

(1 Aust Div Int Summary No 82).

CENSORSHIP.

Disclosure of Information.

Troops continue to disclose military information of value in their letters and the necessity to intensify security lectures is still apparent.

A typical extract taken from a letter written by a member of a training centre reads :-

"We have some seventy odd tanks here now, there are light tanks, medium tanks, Matilda tanks and Australian cruiser tanks; there are also some tanks back from the Solomon Islands. Besides tanks, we have some mobile workshops and several enormous breakdown or retrieved wagons, all are American and are very fine machines."

.....(HQ Second Aust Army Int Rev No 65).

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

The following letter written by an airman to his mother is an excellent example of a serviceman appreciating the necessity of security:- "You seemed quite het up because I didnt send news before I left Australia and because you were hearing it from others. I wish that next time you hear such things you will bear this fact in mind - because of information received by Jap Intelligence, we very nearly went to the bottom and it was only due to prompt action on the part of protecting powers that your son and the boys who talked before they left are not fish food. To us, that is no joke, and we willingly take to anyone whom we knew to have "gassed". People at home just don't realise that - I know I didn't once, but if a little counter-propaganda is put over it might stop some of it."

In contrast to the above another writer discloses that he has a very small appreciation of security by writing the following -

"No we are no longer attached to 3 Aust Arm'd Div but are training on our own for some job which we will probably enact in the not too distant future. Don't mention this to Mum as it will only upset her and besides it may be only rumours. Anyhow this is strictly confidential and on next leave which I hope is not far off I can give you the low down."

(HQ Second Aust Army Int Rev No 64).

FRANKING OF CORRESPONDENCE.

An American Army Officer who had been appointed as his company censor called a conference of the men and spoke to them in this wise:

"Men, I have just been ordered to take over the job of censoring your mail. That means you will turn over to me every letter you write, every package you wish to send. I will read all the letters and examine the contents of all the packages, to see that nothing gets out of here which might furnish information of value to the enemy.

That is the sole purpose of this censorship. You realize, I am sure, that your folks back home like nothing better than telling the neighbours and friends what their boy is doing, and I don't criticize them one bit for it. They don't know, however, what is and what is not information that the enemy could use if he got hold of it. So, although we don't question their loyalty, we simply have to keep them from hearing about things that might innocently pass on until they got to the wrong person.

In the process of doing my duty I will have to read a lot of things I'd prefer not to. Things you would rather not have anyone read except her. I understand that and I promise you that I will observe the strictest confidence about any of your personal affairs that come to my attention in the line of duty. I intend to go through your letters by the stack, and I don't mean to attempt to associate the signatures with the faces on the envelopes. I'll forget what I read as fast as I read it.

Here's how you can help. Keep away from military comments in all your letters. I know you'd like to say what you are doing and where you are, but its not a good idea. Tell your folk how your health is, what your new buddy is like, how hard we are working you, whether you are getting their letters or not, and how much you'd like to see them. They'll be satisfied with that, and your letter will reach them all in one piece without being all botched up.

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

"You must not use any code, cipher, shorthand, picturegrams, pig latin, or anything else that is not plain English and easily understood. If you want to write in a foreign language, write the name of the language at the top of the envelope, and it will be sent to a translation bureau for censorship."

This is the true spirit of Unit Censorship, and a sure approach to its problems. That this officer acted with wisdom is amply evidenced by the fact that of the first 200 letters passed by him only two were held up, and those for nothing serious. Other officers, who only issued instructions as to addressing envelopes and the other points required by orders, edited three letters out of four, and completely destroyed one in fifty.

(HQ Second Aust Army Int Rev No 64).

Franking.

Criticism of Unit Franking arrangements continues to be the subject of many letters sighted from troops. The importance of avoiding any delay of franking of troops mail is again stressed.

A typical extract reads :-

"I am sure some of the letters I write must take a long time to reach you for they are often left in the box in the Orderly Room for days before they are censored and then seem to be posted. I took a letter one day and I noticed the officer censoring a letter which I had written to Flo three days before, so I have a look each time I put a letter in the box and often see letters that have been written two or three days before."

(HQ Second Aust Army Int Rev No 65)

20. GENERAL.

JAPANESE LANGUAGE COURSE.

In the past it has been rather difficult to obtain information regarding the Japanese Language. However it is now possible to take a course in Elementary Japanese through the A.E.S.

Further details can be obtained by applying direct to the Education Officer or his representative.

(1 Aust Div Int Summary No 82.)

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

SECRET.

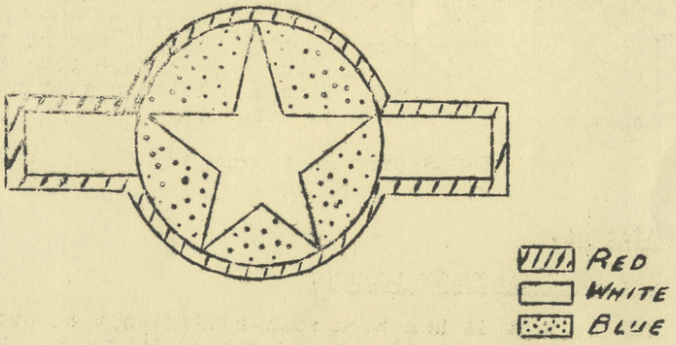

APPENDIX 4.

NATIONAL INSIGNIA FOR UNITED STATES MILITARY AIRCRAFT.

1. The following changes in design of national insignia for United States Military Aircraft, are effective as from 8 Jul 43.

The straight line formed by the top edges of the two star points parallel with the leading edge or top of the fuselage, is continued for a distance of one radius of the blue circle out from each side thereof. Two rectangles, each one radius long and one half radius wide, the inner ends of which remain concave to conform to the circle, are blocked in on each side of the blue circle in solid white, using the extension line as the top edge of the rectangle. The entire design is then outlined with a red border, one eighth radius wide. Gray is to be substituted for white on the top side of the wings of naval aircraft.

2. A scale drawing of the revised insignia appears below :-

(Second Aust Army General Staff Instruction No 38).

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

APPENDIX B.

THE JAPANESE IS A SAVAGE - MORE EVIDENCE
(Ref Second Aust Army Int Review No 25 - 10 Oct 42)

The following extracts dealing with the Japanese treatment of both BRITISH and INDIAN PW in BURMA have been taken from a GHQ INDIA Summary. Ample evidence of Japanese barbarity in the field in the SWPA has been reported since fighting in this theatre began, but as yet we have had little or no opportunity to appreciate their treatment of our PW.

All reports from escaped PW abound in instances of inhumane treatment and utter cruelty on the part of the Japanese towards helpless men.

YENANGYAUNG Cage was the scene of many cold blooded murders of our PW. One party of about 300 British and Indian prisoners of war was collected at this place on 18 and 19 Mar 42. The prisoners were stripped down to their vests and pants and, their hands having been tied behind their backs, they were beaten, kicked and finally driven, still bound, into small rooms in which they were hopelessly overcrowded. They were then left there for three days without food or water. Several died of thirst. A British officer and two Sikh IORs who begged for water were allowed to drink from the nearby river and then shot. During one night it rained and a little water came through the roof. The Japanese however came and shot those who were trying to drink from these leaks. 30 men who collapsed from exhaustion, were kicked and then bayonetted by the Japanese.

At KYAITO an eye witness saw wounded PW being loaded into damaged lorries which were then set on fire by the Japanese. Almost invariably, prisoners on first capture were stripped of their personal belongings and of the great majority of their clothing. Their hands were tied and they were generally denied food, and often water, for anything up to three days. Prisoners were frequently bound to trees.

Cases have been reported of cow's meat being offered to Hindus during this period of starvation and of pork being forced into the mouths of bound and starving Muslims. Beating slapping and kicking were the invariable lot of prisoners of first capture. There are well-authenticated accounts of the bayonetting to death of bound prisoners of war, both British and Indian. Escaped PW have returned to INDIA with scars of wounds received from Japanese bayonets after capture.

In Moulmein Jail, the general ill-treatment of prisoners continued throughout their stay there. They had to dispose of their own night soil and rubbish. The majority had only singlets and pants and were without any form of footwear. Bedding consisted of a torn sack. The prisoners were made to work on the aerodrome and were constantly kicked and beaten.

Towards the middle of 1942, the prisoners were transferred by sea to RANGOON. A havildar, who had dysentry, was thrown overboard alive by the Japs and it is believed that others shared the same fate.

RANGOON Jail became the main PW camp in BURMA until labour camps were opened on the BURMA ROAD. After a period of some weeks when the Japanese calculated that the resistance of the prisoners must have been greatly lowered, the propaganda talks began in earnest.

AUSTRALIAN WAR MEMORIAL AWM2020.71.8480

Their general theme was that the Indian prisoners of war in HONGKONG and MALAYA had unhesitatingly joined the so-called Indian National Army whose task it was, with Japanese assistance, to secure the independence of INDIA. The prisoners of war in RANGOON jail were urged to join this traitor Army and carry out any tasks ordered by their Japanese masters. Some were even told they would be shot if they did not join. The Japanese had, however, miscalculated the loyalty of the great majority of the prisoners who refused to fall in with the Japanese and who, having seen Japanese behaviour in BURMA, could not tolerate the thought of the Japanese being helped in any way to commit similar barbarities in INDIA on their fellow-countrymen, against their own families and against their own religion.

Two British officers were flogged to unconsciousness for refusing to broadcast anti-British messages over the radio.

314. PAYMENT OF PERSONNEL PROCEEDING ON LEAVE.

1. Units will pay all personnel prior to proceeding on leave (other than leave without pay) up to the date of expiration of such leave.

2. If also entitled to subsistence allowance, they will be paid the amount thereof in advance and the leave pass legibly endorsed "Subsistence Paid."

3. Any adjustments necessitated by the difficulty of ascertaining in advance the period of travelling time will be made on the return of personnel to their Units.

4. Except in cases of emergency, personnel will not make applications for payment from Cash Offices other than the ones directly servicing their Units.

for (R.N.WILLIAMS) Capt
A/BM 9 AUST INF BDE.

HQD

## NOTICES.
