	16		This Coy's personnel whose strength was 9 Officers and 330 O/Ranks have been in this area since 24 Jan 43, a period of nearly six months and during that time only four cases of Malaria have occurred. This is believed to be the lowest record of a unit of this size since the campaign began. Although this area was highly malarious and the breeding grounds very prolific, rigid discipline was enforced from the start. 5 men with two knapsack sprays were employed every day in spraying this area and the surrounds to a distance of ¼ mile. Personnel were allowed to remove their shirts only when engaged on heavy work. Sleeves had to be rolled down and gaiters worn from 1700 hrs. Mosquito nets were constantly examined for holes. Spray guns were used in tents night and day and all slit trenches were sprayed before and during occupancy. Atebrin is taken and repellent is applied on an officer's parade and all officers and N.C.Os take the greatest care to see that no malaria indiscipline is allowed. After six weeks in this area the men

MILNE BAY	16 Jul 43		began to appreciate the danger of Malaria and the wisdom of the precautions through constant lectures, and they themselves observed the orders without supervision in the most part. However our drivers have been exposed to malaria infection by having to work all through the night and have had to wait for hours in some ~~areas waiting to be unloaded. As a result they have dozed off,~~ and with nothing to protect them beyond the old type repellant have, as a result, been more exposed than if they had been in their own camp. For some six weeks now the Atebrin dosage has been reduced from 1 tablet every day for six days of the week to one tablet every Monday, Wednesday and Friday. This reduction was expected to increase the number of cases throughout the area. A slight ~~increase has been reported but no further cases from this Coy~~ with the exception of one man who transferred to this Coy and who contracted Malaria with another unit. Fly proof messes have contributed in some small degree to this Coy's immunity, but since the men preferred to read and write in their tents, the advantages of the messes being fly proof were not as great as they might have been. ~~Despite the two twelve hour shifts worked by our drivers their~~ morale and health have been and still are very good. On Sept 6, '42, there were six Officers and 27 O/Ranks A.I.F. On 28 Jun 43, 27 AUST COY.ASC, applied for classification as an A.I.F. unit, with the following percentage, ~~68% of War Establishment, and~~ 80% of posted strength. The new Coy, 154 AUST GEN TPT COY, applied for classification as an A.I.F. unit, on 10 Jul 43, with the following percentage, ~~89% of War Establishment, and~~ 90% of posted strength.

281. UNLAWFUL POSSESSION OF PARACHUTES

1. The continuous delivery of supplies and ammunition to certain forward areas is dependent on the quick return to Ordnance after use of parachutes supply dropping. The maintenance of fighting troops in the forward areas is being jeopardized by "souveniring" of parachutes.

2. Any member of the Allied Forces who has now or at any time here after has in his possession without lawful authority any parachute or part of a parachute will immediately return it to this HQ for return to salvage.

3. Disciplinary action will be taken against any member who is in possession of a parachute or part of a parachute without lawful authority.

282. ROAD DISCIPLINE.

1. Attention is directed to Div Routine Orders 463 and 599, setting out Speed Limits for MILNE BAY area. An increasing tendency to disregard these limits by drivers has been noticed.

2. The necessity for strictly observing these limits is brought to the notice of all concerned.

AUSTRALIAN WAR MEMORIAL AWM2021.62.1050

283. CONSERVATION OF RUBBER.

1. The supply situation in regard to rubber is now so serious as to make it imperative that every ounce of rubber in use by the Army should be conserved tothe utmost.
The use of vehicles is to be restricted to essential requirements.

2. When vehicles are used the following points are to be rigidly enforced:-

(i) Don't speed, avoid rapid acceleration, harsh braking and fast cornering.

(ii) Check pressures daily with guage to protect side walls and save tread wear.

(iii) Keep brakes equalized, wheels true, and watch for mis-alignment.

(iv) Interchange tyres at prescribed intervals to keep wear even.

(v) Closely inspect tyres daily, remove any stones, and repair minor cuts.

(vi) Report defects immediately.

33. CONSERVATION OF RUBBER

1. The attention of all NCOs and O/Rs is drawn to the Tyre pressures laid down by Mechanical Circular 324. Ignorance of the correct tyre pressures will not be accepted an an excuse if tyres are not inflated to the corre ct pressure whenever they are subject to inspection.

2. Attention is also drawn to Mechanical Pamphlet No 19 and M.T. Circular No 92, which deal with tyre position changes.

3. JAPAN still controls 90% of the world's supply of crude rubber, therefore all tpt personnel must do their utmost to conserve rubber by observing the instructions contained in the above mentioned Circulars and Pamphlets, and by careful driving at all times.

34. REQUEST HOUR:

1. All personnel wishing to see their Officers or the O.C. under the conditions governing the request hour may do so between the hours of 1900 and 2000 on 21 Aug 43.

53. DUTIES:

The following will mount duty on the dates shown:-

DATE	ORDERLY N.C.O.
28 Sep 43	Cpl. HERMANN H.A.

4	Sgt. KNOTT D.W.

54. POWERS OF SENTRIES AND GUARDS:

1. Regulation 8A of the National Security (General) Regulations (Statutory Rules 1942 No.374) provides that, without derogating from or restricting the existing powers or rights of sentries and guards, a military sentry or guard stationed or posted at, on, in, or in the neighbourhood or vicinity of, any prohibited place, protected area, controlled area, or any premise used by the Commonwealth, or used for defence purposes or for essential services, or any vehicle, vessel or aircraft used by the Commonwealth, or any enclosed wharf or picking-up place, or any merchant vessel lying in port, or any road, pathway or waterway, specified in an order by the Minister, which passes through or near a prohibited place or work of defence, may be armed and may -

(i) use his weapons against, or otherwise attack, any person who, in disregard of a warning given by a sentry or guard, approaches enters, leaves, or passes over or in the vicinity or neighbourhood of, that place, area, premises, vehicle, vessel, aircraft, wharf, picking-up place, road, pathway, or waterway, or who, after being arrested for so doing, escapes; and

(ii) use his weapons against, or otherwise attack, any person attacking him or who is reasonably suspected of being about to attack him.

2. There are however, certain principles which must guide all sentries and guards in the execution of their duty as such, and in the exercise of the right to resort to arms.

3. These principles are:-

(a) Sentries and guards will be ordered to take any action required to ensure the safety of their posts or to defeat the activities of enemy or suspected enemy agents.

(b) If necessary they will fire upon or otherwise attack any person threatening the safety o their post or engaging in hostile action.

AUSTRALIAN WAR MEMORIAL AWM2021.62.1050

(c) Before firing upon any person sentry or guard will, except in an urgent case of self-defence, challange that person to 'Halt'. If that person does not halt, the sentry should challange him again with 'Halt or I fire'. If he does not halt then and no other menas are available for stopping him - as for example, by calling on the rest of the guard - it is the duty of the sentry to shoot.

(d) The sentry will use his intelligence and sense of responsibility in choosing whether he will shoot or not, and he must be careful not to allow any suspected person to approach so close that he can be rushed and overpowered.

(e) Guards of enemy prisoners of war. An enemy prisoner of war attempting to escape may be fired upon, but a previous summons of surrender will be given if possible.

(f) Guards of members of the forces in custody.

(i) An escort or guard is not justified in using his weapons merely for the purpose of preventing another member from escaping from custody and if he so uses his weapons he may render himself, as well as any officer or NCO under whose orders he acted, liable to be charged with murder, manslaughter or incitement to murder.

(ii) If a member in custody attempts to escape, the escort or sentry will immediately raise the alarm and give chase. He may call upon any passer-by to assist him in apprehending the escapee.

(iii) An escort or guard may be justified in using his weapons when a member in custody resorts to violence. In such circumstances an escort or guard may meet force with force, but care must be taken to use no more force than is necessary to overcome the violence offered. Hence, even when violence is offered to an escort or guard, it will only be as a last resort that the use of weapons will be justified.

4. 27 AUST COY ASC Routine Order No 92 of 28 Dec 42 is cancelled.

55. PROFICIENCY PAY:

Preliminary.

1. Approval has been given for the payment of proficiency pay of sixpence per day to every male member of the AMF who holds either the appointment of L/Cpl. of L/Bombadier, or the rank of private or its equivalent, and who is not in receipt of pay prescribed for a qualified parachutist or tradesman or specialist, subject to the conditions set out hereunder:

Interpretation.

2. For the purpose of this order the following interpretation shall apply:-

"Six month's service"- Only continuous full time war service will be taken into account when calculating the period of six months' service. Periods of leave with pay will be accepted as service. Periods of leave without pay will not contribute towards the requisite period, but service rendered prior to such leave will not thereby be cancelled, but will be accepted as part of the period of six months.

"Good Conduct" - A soldier's conduct will be deemed good unless he commits a breach of good conduct as interpreted hereunder.

"Breach of Good Conduct" will occur -

(a) When an award has been made by a Military authority imposing upon the soldier a penalty higher in the scale set out in A.M.R. & O. 414(B) than confinement to barrack for seven days providing that no fine for less than £1 shall be deemed to be a breach of good conduct.

AUSTRALIAN WAR MEMORIAL AWM2021.62.1050

(b) When the soldier has been convicted by a civil court and fined £5 or more or sentenced to imprisonment, whether or not such sentence is suspended upon such soldier entering into a bond.

The contraction of venereal disease will not be considered a breach of good conduct.

"Prescribed Examination". The examination conducted for the purpose of enabling a soldier to demonstrate his proficiency in the arm or branch to which he belongs.

Entitlement.

3. Proficiency pay will be paid as on and from 1st July 1943 to a soldier who -

(a) At that date has completed at least six months' service;
(b) For six months immediately prior to that date had been of good conduct; and
(c) On the first occasion subsequent to that date on which he is examined, passes the prescribed examination.

Forfeiture of Proficiency Pay.

4. If a soldier who is in receipt of proficiency pay commits a breach of good conduct, he shall automatically forfeit his proficiency pay on and from the date of his conviction or award against him.

5. Proficiency Pay may at any time be withdrawn by the C.O. if he considers that there has been a falling off in the efficiency of the soldier, and such soldier will be required to again qualify by examination before proficiency pay can be restored.

Lance Corporals.

6. Proficiency pay provided for by GRO F.660, extracts from which have appeared above, is in addition to the increased rate of pay of six pence per day which will operate from the 1st of July 1943 to male members of the AMF holding the appointment of Lance Corporal or Lance Bombadier who are not in receipt of pay prescribed for a tradesman or specialist.

Prescribed Examination:

7. Details of the prescribed examination will be published separately.
