The breaking-down of any service or enemy ammunition by unauthorised persons is prohibited.

On such roads all vehs will drop to a maximum speed of 20 MPH when approaching a veh from the other direction.

In cases of damage to any windscreen, a report will be submitted to this HQ giving full details of the occurrence, before replacements can be obtained.

(2 Aust Div R/O 24/462)

212. BREAD RECEIPTS.

Several instances have occurred recently where Army personnel and Civil Contractors have been found guilty and sentenced to terms of imprisonment for fraud in connection with the supply of bread to the Army.

Contributing causes have been carelessness on the part of units in preparation of indents, the lack of complete weighing of all bread at Supply Depots, the lack of weight records of bread received, and delays in issuing AAF F.59.

It is again emphasized that it is of the utmost importance that instructions in connection with the preparation of unit indents for rations, the weighing in total of supplies received from contractors, the maintenance of records of weights of commodities so received and the prompt issue of the order for supplies (AAF F.59) in confirmation of orders placed by telephone, should be observed most strictly. The relevant instructions appear in MBI Q/501/42. It is desired that the further attention of all concerned should be directed to those instructions by promulgation through Routine Orders.

(2 Aust Div R/O 24/465)

Several instances have been reported during the past weeks of personnel whilst travelling on the various Railway Systems riding on the steps of vehicles and stepping from one vehicle to another whilst the train is in motion. Accidents have occurred, some with fatal results.

Attention of all ranks will therefore be drawn to the following :

The OC Train is responsible for the discipline of the troops travelling and security of unit equipment and other Service stores conveyed on the train. He will ensure that the regulations of the Railway system are strictly observed by th troops. He will not, however, interfere with prescribed running of the train or the working of the Railway Service. At stations where an RTO is located, OC Train will make any requests to the Railway authorities through that Officer who is the channel of communication between the troops and the Railway Operating Staff.

Before leaving the entraining station, OC Train will warn troops against :

(b) leaning out of windows and doors, or protruding any portion of the body from the train as to be in danger of being struck by side or overhead structures;

This authority will not, however, apply to the training of L. of C. unit personnel; in such cases, the wire gauze will be removed before using the pullthrough.

The attention of all concerned is directed to S.A.T. Vol. I, Pamphlet No.3, in regard to instructions for the use of wire gauze. These instructions will be strictly observed.

220. LEAVE WITHOUT PAY.

In order to remove any misunderstanding by members concerning the effect of a grant of leave without pay, irrespective of the authority under which such leave is granted, attention is directed to the provisions of War Financial (Military Forces) Regulations, which provide, in effect, that all pay (including allotments) and pay allowances cease in respect of any period for which a member is granted leave without pay.

When leave without pay is granted, the following will not be payable during the period of such leave :-

(a) pay (including deferred pay);
(b) field allowance;
(c) command allowance;
(d) special allowance;
(e) exchange allowance;
(f) dependants allowance;
(g) travelling allowance;
(h) subsistence allowance;
(i) any allowance payable under regulation 9 of the aforementioned regulations.

Leave without pay will not be imposed on a member compulsorily and, consequently, will always be covered by written application from the member, specifying that leave is desired without pay.

227. ECONOMY IN MANPOWER, MATERIAL & MONEY

Attention is directed to the Special Order issued by the Commander-in-Chief (Aust. Military Forces) on 8 Apr 43. (Issued with GROs).

"It is a primary duty of every member of the Australian Military Forces to ensure that there is no avoidable waste in the use of material provided by the Australian Government for the armed forces.

Severe demands are, of urgent necessity, being made by the Government upon the financial resources of the nation, both by taxation and loan. The people who provide that money are entitled to be fully assured that, so far as the Australian Military Forces are concerned, it is used with the greatest possible economy commensurate with the prosecution of the war to ultimate victory.

This economy involves the most careful examination of every item of expenditure and meticulous care in the employment of available man-power.

Any idea which may exist that unlimited funds are available for any and every purpose must be rigorously suppressed. Funds are available for any project that will contribute toward victory. None are available for un-warranted extravagance.

Care must be exercised in the expenditure of small accounts as well as of the large outlays inseparable from national defence and the preparation of an offensive campaign.

Man-power must be conserved most carefully. Men should not be employed on duties for which women are suitable, if women can be made available for such duties. Two men must not be employed on any duty which can be fulfilled by one. There is no "overtime" in the AMF. Officers and other ranks in non-operational areas must be prepared to complete a task efficiently when circumstances demand it, as much as if the presence of the enemy forces it upon them in the field of active operations.

A particular responsibility devolves upon all officers to ensure that facilities provided for war purposes are not diverted to the personal comfort and convenience of individuals.

Many inconveniences have been imposed upon the nation in order that the resources shall be available to provide the fighting services with the men, material and munitions necessary to prosecute the war, not to enable members of the services to enjoy non-essential facilities denied to the civilian.

All members of the AMF must be ready, if the necessity arises, to adopt the spartan conditions of existence which circumstances have enforced upon the fighting soldier in the areas of actual battle.

It is the special and immediate duty of every officer and soldier to take whatever action is within his authority to prevent wasteful diversion of national resources, to avoid any extravagance in the expenditure of public funds, and to establish the Australian Army as a national model in wartime economy as well as in the already proven qualities of service and sacrifice."

This Special Order will be published once monthly in all Coy R/Os, commencing this month, until further notice.

Attention is drawn to the following 2 Aust Div R/Os :-

(a) 72 Fd Ord Depot - Range of Holdings. R/O 25/482

(b) Tradesmen Surplus to WE. R/O 25/494

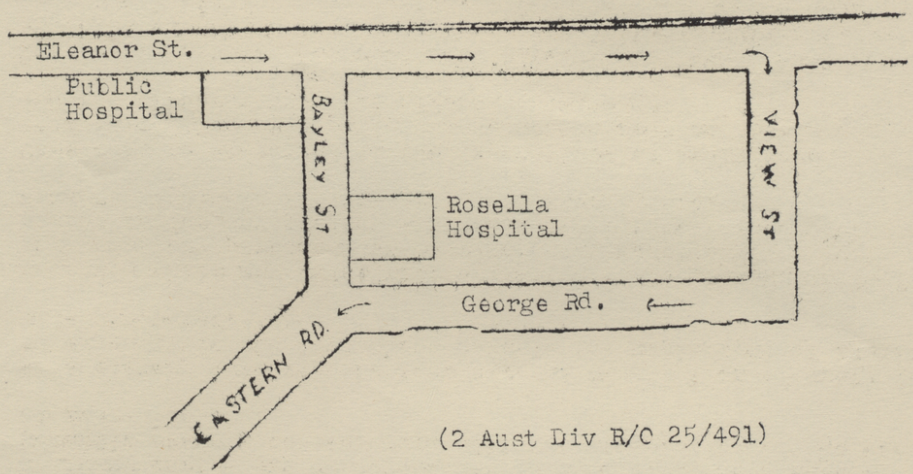

229. MILITARY TRAFFIC CIRCUIT - GERALDTON.

Due to the amount of noise at night in the vicinity of the Public and Rosella Hospitals, occasioned by military vehicles having to change down into low gear to negotiate Bayley St Hill (otherwise known as Hospital Hill), all military vehicles other than staff cars will avoid Hospital Hill and proceed on the outward circuit from GERALDTON, by using View Street and George Street, and thence left into Eastern Road.

This order will apply only after 2200 hrs nightly, and Coy Comds will promulgate this instruction to all drivers.

The necessity for quietness amongst passengers on military vehicles will also be impressed on all ranks.

A sketch of the new circuit is as under :

ROUTINE ORDERS

Part I 24 Jan -

266. SPECIAL ORDER - GENERAL SIR THOMAS BLAMEY:

Attention is drawn to the following special order by General Sir Thomas Blamey dated 8 Apr 43 -

"It is a primary duty of every member of the Australian Military Forces to ensure that there is no avoidable waste in the use of material provided by the Australian Government for the armed forces.

Severe demands are, of urgent necessity, being made by the Government upon the financial resources of the nation, by both taxation and loan. The people who provide that money are entitled to be fully assured that, so far as the Australian Military Forces are concerned, it is used with the greatest possible economy commensurate with the prosecution of the war to ultimate victory.

This economy involves the most careful examination of every item of expenditure and meticulous care in the employment of available man-power.

Any idea which may exist that unlimited funds are available for any and every purpose must be rigorously suppressed. Funds are available for any project that will contribute toward victory. None are available for unwarranted extravagance.

Care must be exercised in the expenditure of small accounts as well as of the large outlays inseparable from national defence and the preparation of an offensive campaign.

Man-power must be conserved most carefully. Men should not be employed on duties for which women are suitable, if women can be made available for such duties. Two men must not be employed on any duty which can be fulfilled by one. There is no 'over-time" in the A.M.F. Officers and other ranks in non-operational areas must be prepared to complete a task efficiently when circumstances demend it, as much as if the presence of the enemy forces it upon them in the field of active operations.

AUSTRALIAN WAR MEMORIAL AWM2021.62.325

A particular responsibility devolves upon all officers to ensure that facilities provided for war purposes are not diverted to the personal comfort and convenience of individuals.

Many inconveniences have been imposed upon the nation in order that resources shall be available to provide the fighting services with the men, material and munitions necessary to prosecute the war, not to enable members of the services to enjoy non-essential facilities denied to the civilian.

All members of the A.I.M.F. must be ready, if the necessity arises, to adopt the spartan conditions of existence which circumstances have enforced upon the fighting soldier in the areas of actual battle.

It is the special and immediate duty of every officer and soldier to take whatever action is within his authority to prevent wasteful diversion of national resources, to avoid any extravagance in the expenditure of public funds, and to establish the Australian Army as a national model in wartime economy as well as in the already proven qualities of service and sacrifice."

(To be republished in
Coy Routine Orders) (Vide Special Order dated 8 Apr 43)

267. DRESS:

The tendency has arisen for troops at Dances to leave tunic buttons undone and even remove blets and tunics in some cases.

It is emphasised that dress at such functions is equally as important as on any other occasions and strict instructions will be promulgated to troops that this practice is to cease forthwith.

Attention is also drawn to the dress of drivers M.F. It has been noted that M.T.drivers are conspicuous generally for their carelessness in dress. Coy Comds will investigate this matter, and ensure maintenance of standard of dress by these personnel.

268. SLIT TRENCHES:

In future slit trenches for protection of personnel against air attacks need not be dug in camps, bivouacs, etc., except during exercises, until ordering of the second stage of readiness.

While exercises are in progress, normal anti-aircraft defence measures will be observed as a drill.

Slit trenches already constructed unless required for training purposes may be filled in at the discretion of the commanders concerned.

Slit trenches will be filled in by the Unit concerned when a bivouac or exercise area is vacated.

HOSPITAL SUPPLIES - ISSUE & ACCOUNTING FOR

1. As provided in L.H.Q. S.M. 49072 of 27 Mar 43 and L.H.Q. 63518 of 19 Apr 43, the entitlement for Hospital Supplies is as hereunder :-

MAXIMUM SCALE OF HOSPITAL SUPPLIES.

Scale 100 patients for 28 days.

Instructions unaltered except for following amendments :-

Delete word "Veal", and substitute "Ox Tongues".

Delete paras 2, 3, 4, and 5, and substitute :-

" (a) The scale of issue to patients of above items will be determined by the Medical Officer.

(b) The above scale will operate in all areas.

(c) No variations in the above scale are permitted, but recommendations by the Senior Medical Officer of Formations for substitutes or extra issues will be submitted to L.H.Q.

(d) Medical authorities will make appropriate deletions from the normal ration scale when any of the above items are drawn.

2. Units drawing hospital supplies are not entitled to supplementary ration allowance (SRA) of 1gd for those patients for whom such supplies are drawn. The SRA does apply for those patients for whom normal ration is drawn and for Staff.

3. For accountancy purposes it is therefore necessary that a record be maintained of (a) daily strength of all patients (as basis for Hospital supplies entitlements (b) daily strength of patients for whom Hospital supplies are drawn (not entitled to SRA) (c) daily strength of staff personnel.

4. The following indents will be submitted to A.A.S.C. by Units demanding Hospital supplies :-

(a) AB55 for all members of Staff and all patients (separate indents for rations for females)

(b) AB55 for Hospital supplies.

5. In the case of (a) above, the indent will cover all "C" Scale rations required by the indenting Unit (patients on light diets are entitled to "C" Scale rations), but it is definitely the CO's responsibility to have endorsed on this AB55 the quantities of those components of the "C" Scale ration which are to be under-drawn consequent upon the drawing of Hospital supplies. As an instance when hospital supplies in the form of white meats (veal, tripe, brains) or fish are ordered, a corresponding reduction in fresh meat must be made in this indent. The reduction is on a quantity - not monetary - basis.

6. The indent for hospital supplies ((b) above) will cover those items enumerated in the above Scale of Issue, and the top line of the Form AB55 will read :-

INDENT FOR HOSPITAL SUPPLIES.

and that part of form which reads "Officers and men rationed by Unit on date of preparation of this indent"A" " will be altered to read "Total patients rationed by Unit on date etc.".

The column "Rations demanded" will not be used. Under remarks will be inserted, if total patients for whom Hospital supplies are being demanded is - say 41, "HOSPITAL SUPPLIES for 41 L.D. PATIENTS".

AUSTRALIAN WAR MEMORIAL AWM2021.62.325

The Hospital supply items and weights etc. thereof required will then be entered in columnal form in the space for REMARKS. If insufficient space available,"as per attached list" will be written in this portion of form, and a list of items required will be attached to each copy of indent.

7. In the available space under "Components of Ration Not Required" the following entry will be made :- "Appropriate underdrawals have been or will be made in ration indents for these hospital supplies".

DAILY RATION STRENGTH RETURN AF W3809

8. This form will be adapted to show :-

(a) Total Unit strength (Staff and patients).

(b) Total patient strength (full and light diets).

(c) Light diet strength (i.e. patients for whom hospital supplies are being demanded).

This will be done by entering under PERSONNEL opposite UNIT POSTED STRENGTH the total Unit strength (under Offrs and ORs) of all staff and patients. The column heading "ANIMALS" will be altered to read "PATIENTS" and "H.D." to read "TOTAL PATIENTS" and "L.D." to read "LIGHT DIETS". It is to be noted that Light Diet patients are also included in Total Patients and that total patients are included in Unit posted strength under Personnel.

9. The number of patients for whom Hospital supplies are to be demanded and particulars of items to be demanded willbe obtained from a summary of diet sheet forms I.1202 which bear the medical Officer's prescription of hospital supplies required.

COMPARISON OF DAILY RATION STRENGTH WITH RATIONS

DRAWN AF. W3810.

10. This form will show "A" side similar details as prescribed above for AF W3809. The Unit will in the remarks column of this Form make the following reconciliation :-

Total strength for week .....

Less total L.D. strength for week .....

Entitled S.R.A. .....

No additional information is required on "B" side of AF W3809.

UNIT ACCOUNTANCY FOR HOSPITAL SUPPLIES.

11. As the scale of issue of hospital supplies is based on [illegible] patients for 28 days, it is necessary that indenting units maintain a record of receipts and entitlements for 28 day periods.

12. This record will be kept on AA Form F72. The first commodity column on this form will be headed "Total Patient Strength" and the remaining columns will be used for the various items of Hospital Supplies. The columns may be subdivided once to permit all hospital supply items being entered on one side of form.

13. AB55's for hospital supplies bearing Supply Officer's certificate of issue will be the supporting voucher for the daily entry "Received this day" and AAF F72 receipted by Sgt Cook etc as issue voucher for entry "Issued this day". These supporting vouchers will be numbered consecutively throughout the period, and such numbers will be inserted in column ruled in the existing date column and headed Voucher No.

AUSTRALIAN WAR MEMORIAL AWM2021.62.325

14. The strength shown each day in Total Patient Strength column will be the total patient strength as certified by Unit Adjutant in AF W3809.

15. At conclusion of each 28 day period AA Form F72 will be closed off and a summary as follows will be prepared to show :-

"Totals of Hospital supplies commodities on hand at beginning and drawn during period" .....(28 days)
"Plus over issues of commodities during prior 28 day period" and "less stocks on hand at end of period."

The resultant figures of the above will be compared with "Total entitlements for ..... patients for 28 days per scale".

Issues of commodities in excess of entitlement will then be shown and an explanation of such over-issues signed by the Commanding Officer will be appended. This form will be checked by D.F.O.'s representative.

16. Over issues will be carried forward in the next period AAF F72 in the space normally used for first days transactions by altering "Issues this day" to read "Prior over issues". This entry will not affect the balance on hand, and the entry made opposite that line will repeat those shown immediately above as "Remains brought forward from Sheet No..".

INDENTING FOR HOSPITAL SUPPLIES.

17. As indenting units may require to have available for immediate issue to hospital kitchens items of hospital supplies, indents may be submitted for reasonable quantities of non perishable items in bulk. Daily indents will be required for perishable items and such should be submitted to the Supply Officer with the ration indent 3 days prior to date of consumption.
