WIRE GUAZE - USE ON .303 IN RIFLE BARRELS

All pullthroughs at present being supplied are fitted with wire guaze, the general use of which is approved on active service.

Summary of ASC

Situation for

JULY

AUSTRALIAN WAR MEMORIAL AWM2021.62.341

APPENDIX "A"

HQ COMD,
3 AUST DIV AASC (AIF)

SUMMARY OF ASC SITUATION-
PERIOD 1/7/43 to 31/7/43

SUPPLIES-

The Supply situation in the WAU-BULOLO area for the month of JULY was in the main satisfactory. Two lean periods were experienced - 30 JUN - 6 JUL, 17 JUL - 24 JUL, but there were sufficient stocks to maintain a moderately balanced ration.

On the 3 JUL, 2380 lbs of fresh meat was slaughtered for general issue to conserve stocks of Pres Meat and again on the 12 JUL, 610 lbs was slaughtered to supply Hospitals and Con Camp.

MUBO L OF C.

Jeephead was established at SUMMIT on the 9 JUL and supply depots augmented to cope with supplies at this Jeep Head.

Forward troops were entirely maintained by dropping. Troops at Jeephead and SKINDEWAI being maintained from WAU Depots.

MARKHAM L OF C.

New Jeephead was established at DEUCHATELS. This L of C was maintained both by dropping at ZENAG and supplies from BULOLO Depots.

MISSIM AND FORWARD

As from the 19 JUL the route from UPPER POWERHOUSE to PILIMUNG was discontinued as an L of C. Movement from the valley of stores etc was routed through SUMMIT. Forward troops being maintained by dropping.

AMMUNITION & PETROL

AMMUNITION

First droppings made at NUNNS POST 3 JUL was very successful with excellent recoveries.

Units moving forward at fast rate has made it unnecessary to lay down reserves on MISSIM L of C as originally intended.

Discrepancies apparent in Bdes holding figures causing re-arrangement of droppings required, which became only possible means of keeping up Amn Supply.

PETROL

Petrol received durin the month was 12,426 gls and 13,209 gls issued. Range fuel was repeatedly used in lieu inorder that communications could be maintained with NGF.

GENERAL

Lenghtening lines of communications in all areas and consequent necessity to staff additional supply installations made it necessary for CASC and Capt Supplies on HQ to be in forward areas for most of this period. It also became necessary to move further Supply Depot Coys Officers to forward areas and it was found necessary to detach Capt SYKES, Adjt, to Adm Comd of 1 AUST SUP DEP COY. During this period only Offrs remaining at HQ were S.SUPO. and AMN. O. RSM & 14 ORS, previously detached to 1 AUST SUP DEP COY and used on MUBO L of C, still remainded detached in that capacity.

SUMMARY OF ASC SITUATION - PERIOD 1/8/43 - 31/8/43

SUPPLIES -

With the movement of ADV DIV HQ to GUADA GASAL, control of supplies passed from the VALLEY to GUADAGASAL. The change over was effected in r eturns submitted on 10 AUG.

During the month, 1 AUST SUP DEP COY was moved forward to GUADAGASAL and later to TAMBU BAY. Elements of this COY were left to control dep ots on the MARKHAM L of C. 2/34 AUST SUP DEP PL was reorganised to staff both WAU and BULOLO FSDs and DIDs, and care of ASC ammunition in both areas.

The movement of troops out of the VALLEY by air brought many p lanes to the area loaded with supplies, and the supply situation during the period under review generally was good. Towards the end of the month maintenance by air was suspended, and the valley was to be maintained via the BULLDOG-EDIE CK road.

MUBO L OF C -

Jeep head SUMMIT. Supply situation satisfactory, forward troops being entirely maintained by dropping.

MISSIM L OF C and FORWARD -

Troops entirely maintained by droppings. PILIMUNG, and MISSIM being mainta ined by back loading from NUNNS POST.. Shortage of native carriers caused some acute ration situations at these posts but generally the supply to forward troops was adequate. Large quantities of food dropped was unable to be recovered for several days at NUNNS POST due to lack of native labor, and similarly the return of parachutes presented a problem. A consider able number of parachutes remained in depots at the end of the month.

MARKHAM L OF C -

Jeep head w as established at BLAKES, but in the main, troops on this L of C were maintained by droppings at ZENAG, the supplies being loaded by 3 AUST DIV PACK TPT and moved to PARTEP II dep ot. The supply situation generally was satisfactory.

AMMUNITION -

From 1 to 9 AUG, normal dropping of ammunition was carried out in forward areas. Instructions were received to returns stocks at VALLEY APs and JEEPHEAD to 82 and 83 FADs. This could not be commenced until 10 AUG, and was not completed on departure of this HQ from the valley, due to lack of petrol supplies.

The APs between FAD and jeephead were found to be of no value and only a drain on already short numbers of ASC personnel. It is suggested that, in any future operations of a similar nature where roads extend to approximately onl y 20 miles maximum from FADs, the APs for forward transfer be eliminated.

ADV HQ was established at GUADAGASAL on 10 AUG, when control of all forward area ammunition returns operated from this point. Normal situation then existed until ADV HQ moved to TAMBU when, due to faulty communication, supply and ammunition staffs moved forward to NASSAU, thus throwing the whole detail on to CASC who used 'Q' clerks for this work for a period of five days.

Prior to ADV HQ move from GUADAGASAL, ammunition holdings at SUMMIT and SKINDEWAI were handed over to staging personnel, as the L of C was at this time closing down.

AUSTRALIAN WAR MEMORIAL AWM2021.62.341

AMMUNITION (contd) -

As from 24 AUG, new dropping grounds were opening almost daily due to the rapid movement, which meant that only a very small proportion of ammunition in then rearward dumps, could be moved.

Due to this situation, supplies of 303 BELT, HAND GRENADES and MORTARS were forwarded on a new L of C, TAMBU-KOMIATUM, to supplement forward troops holdings of ammunition on 28 AUG.

PETROL -

Receip ts and issues of petrol in the valley were 5060 gls and 2304 gls respectively.

From 7 AUG onwards, REAR HQ AASC handed over control of POL to REA R HQ 3 AUST DIV, a[illegible] it was on short notice to move.

The suggestion re not laying down of APs inside jeepheads where FADs exist would have assisted greatly in the conservation of fuel, which w as in short supply due to air transport difficulties.

GENERAL -

During early portion of this period, ADV HQ comprising CASC, AMN O and 3 ORs moved to and were located at GUADAGASAL. All forward supply and ammunition duties were controlled from this area.

S SUP O, with remainder of HQ, controlled WAU-BULOLO VALLEY area.

On 15 AUG, S SUP O and 3 ORs, with unit stores, moved to WAU for movement to NASSAU BAY via MORESBY. This move by plane, ship and barge, was not completed until 28 AUG.

On 16 AUG, Capt SYKES and 12 ORs comprising remainder of HQ COMD AASC moved by jeep to SUMMIT en route to NASSAY BAY, staging as follows - 17 AUG, SKINDEWAI, 18 AUG, HOUSE MANGO, 19 AUG, NAPIER, and arrived at NASSAU BAY at 1400 hrs 20 AUG. Tracks for most of journey were excellent, but it was found that full p acks and equipment plus the compulsory carrying of 4 days field operation rations imposed too severe strain over some portions of journey, especially HOUSE MANGO-LABABIA RIDGE-NAPIER stage. Journey was comp leted without incident, and apart from minor foot troubles, health of troops on arrival was quite good.
