AUSTRALIAN WAR MEMORIAL AWM2021.62.848

Report of the Officer Commanding, 129 Aust Gen Tpt Coy(AIF)-

For the month of Sep 44

Organiszation-

The War Establishment of this Coy is comprised as follows:- Coy HQ, Five Transport Pls, Three RDI's, Coy WS and Four WS Sections. All Pls are now located at Map Reference Lae, 1:25000 716431.

General Transport Duties -

During the month of Sep 44 "D" Pl task vehicles were used for transport duties in Lae Base Sub Area, which comprised, mostly gravel cartage, general camp duties for units without vehicles and the carriage of natives and Aust working parties to and from their places of duty. An average of 27 vehicles were used daily, including one vehicle which was detached to 6 Aust Farm Coy. The following figures show the amount of work carried out by "D" Pl from 1 - 19 Sep inc.;

15,981	miles covered
5085	tons carried
5220	natives carried
3340	working party personnel carried.

On the 20 Sep 44 a complete transfer of all 3 ton vehicles(40) and six (6) technical vehicles was effected. All these vehicles were transferred to 131 Aust Gen Tpt Coy. During the last few days of the month these vehicles were replaced by vehicles previously held by 131 Aust Gen Tpt Coy. These vehicles were received ex shipping and were "ferried" to 129 Aust Gen Tpt Coy Workshops for inspection and later distributed to Pls. Further, during the last few days of the month B and C Pls vehicles were unloaded ex shipping and ferried into this area. The vehicle strength of this Coy at 30 Sep 44 was as follows:-

Trucks ¼ Ton	7
Trucks 15 cwt GS	12
Trucks 3 ton GS 4 x 4	173
Trucks 7 ton, semi trailer	6
Trucks 3 ton water	7

General Information -

The past month has seen both the Milne Bay and Buna Detachments join the Coy and with the exception of 1 Officer and 10 Other Ranks who are attached to 126 Aust Gen Tpt Coy(AIF) at Madang the whole Coy is now rogether. The Milne Bay detachment embarked per "Gorgon" on 10 Sep 44 and disembarked at Lae on 14 Sep 44 The Buna detachment embarked on Seaman A Knapp at Buna on 24 Sep 44 and disembarked at Lae on 27 Sep 44.

AUSTRALIAN WAR MEMORIAL AWM2021.62.848

Health-

The health of the Coy remains at a high level and stringent measures have been instituted to wipe out malaria. The incidence of skin diseases remains and it appears a very long and slow job to cure them. Two personnel were admitted to 2/7 A G H with appendicitis and one, Dvr Cronan, who is at present in the Field Punishment Centre Lae, was admitted from there, suffering from Malaria. He was the only case of malaria for the month and with a strength of 500 personnel this is quite a good record.

General Welfare--

Mail is arriving regularly especially now that the Coy is together and personnel are well pleased with the service.

No further leave drafts proceeded during the month and the leave figure remains as it was last month, ie approximately 150 personnel have been on leave out of a total of 500 during the Coy's 14 months in New Guinea.

A Salvation Army Hut with a wireless set and reading and writing facilities is situated nearby and full use is made of this by personnel.

381 P.O.L. - 4 GALLON DRUMS - DAMAGE IN TRANSIT -

1. Experience in the transport of 4-gal drums on the LABU/WAU road indicates the necessity for using great care in proper loading of these containers, to prevent movement of the load during the journey. Many drums have been damaged in transit and the contents lost.

2. With a normal 3-ton vehicle, it is possible to pack the drums in two solid layers, each of 91 drums which prevents the drums moving about on hilly and rough roads. 182 drums is approximately a 3-ton load.

3. When it is necessary to reduce the weight of the load carried, one complete layer of drums only will be loaded and no loose drums loaded on top. (LBSA S&T Services - ST/44/1265/60 dated 29 Aug 44).

3. Action is therefore being instituted to establish "A Professional and Technical Educational Section" under control of DAD Education, NGF.

5. It is desired to obtain information in respect of members of the Forces with qualifications as above who wish to obtain facilities to study recent developments in their professions, and to organise them into appropriate groups and, by liaison with the respective Institutes or Associations, to arrange that instructions, (including meetings, lectures, circulation of information, technical magazines and the like) be given to help members to be abreast of the developments before the war ends.

6. Action has already been taken on these lines in respect of Engineering in the Force in association with the Institution of Engineering Australia, which will be conducted by DAD Education as "Technical Education Section A - Engineering".

7. Members with special qualifications as above who desire to avail themselves of these facilities are requested to forward their names with full particulars of their qualifications through normal channels to HQ NGF with a view to the extension of these facilities to them. (NGF Order A191/44).

Personnel	:	30,740. -

The personnel figures comprise US Troops, Aust Troops Aust and native labour.

Of the abovementioned Transport Duties, 20,500 miles and 9,300 tons of stores were handled for the US.

During the month, some difficulty was experienced in manning vehicles, owing to the fact that, on different occasions, this Coy was instructed to carry out emergency Transport duties. This, however, was satisfactorily overcome.

AUSTRALIAN WAR MEMORIAL AWM2021.62.848

The present system of transport for the Docks Area, which is on a priority basis, for the first 24 hours of its operation, was encumbered, to a slight extent, owing to the fact that it was necessary to change over from the original system at short notice. However, since its inception, it has proved to be quite satisfactory.

The Maintenance of Coy vehicles, having been carried out as laid down in DME Instn. C19-22, under the supervision of Sgt Lawson, has shown a marked improvement, as will be seen by the Coy availability, and taking into consideration the mileage and work carried out by a high percentage of 1941 vehicles held.

General Information -

During the month the 78 vehicles and escort party(comprising 1 Officer (Lt B F Burke) and 10 Other Ranks arrived per "Capt Alexander" from Madang. This means that the whole of the unit is now located in this area.

AUSTRALIAN WAR MEMORIAL AWM2021.62.848

483. DISCIPLINE - SALUTING.

1. The attention of unit commanders is drawn to the following extract from the pamphlet "The Officer and Fighting Efficiency" published in Feb. 1941:

"1. Saluting is reputed to date from the days of armour, the salute representing the motions of a knight raising the visor of his helmet with the open hand in front, showing that, though raised, it contained no missle. The practice of giving "eyes right" originated from medieval days when it was the privilege of men at arms to look their superiors in the face, while others must pass with downcast eyes. The salute, therefore is no sign of subservience; it is a recognition of a comradeship and mutual trust between men at arms. It is, at the same time, an acknowledgement of discipline, and a visible indication of the common obedience that all ranks owe to the Crown and its service. Saluting is thus another indication of the esprit de corps and discipline of a unit.

2. The officer saluted must understand that it is his duty not only to acknowledge the salute but to return it in a proper manner. He does so by saluting in the same way as the soldier, and not with a flick of a finger or the wave of his stick; nor will he return a salute with a cigarette in his mouth. When returning a salute he should look the man in the face so that the man gains the impression that his quality as a soldier is being appraised. He should also take a deliberate note of the badge the man is wearing.

3. It is the duty of every officer not only to return salutes but also to see that he is properly saluted by those who should do so. Failure to salute is often due to shyness or a man may think that he has not been noticed. An officer who salutes others, who is confident of being saluted himself, and who intends to return salutes properly will rarely find it necessary to check a man."

2. The object of republishing this extract is to improve the discipline of all ranks within this command.

3. The mutilation of coins in order to manufacture souvenirs is a criminal offence.

486. NOTIFICATION OF CHANGES IN RESPECT OF NEXT OF KIN.

1. A member of the AIF may nominate any person as his next of kin for army purposes, although that person is not his legal next of kin.

2. Failure by a member to report promptly particulars of a change of next of kin or a change of address of next of kin, in order that the appropriate 2nd Echelon component may be advised, causes considerable administrative work to the Army and may delay or prevent notifications of a casualty being given to the proper person, thereby causing distress to the member's relatives.

3. Each member will, therefore, be instructed that, on the occurrence of any event (such as marriage or the death of his next of kin) which renders a change of the record of his next of kin desirable or necessary, he will promptly notify his unit of the change he desires to make. Similar prompt notification should be given of any change of address of his next of kin.

4. Each member will be warned that a change of his allottee or an entry in his AAB 83 of a change in the particulars of his next of kin will not be sufficient to notify the 2nd Echelon organization of a change in respect of his next of kin.

5. (a) Each member will be advised that, on his marriage, any will or codicil previously made by him, save in exceptional circumstances, becomes of no effect and, under Australian Military Regulations, he is bound, upon marriage, to make a new will.

(b) On marriage, a member will make another will immediately, either on an AAF A130 or by a separate document, and will submit the AAF A130 in an envelope (AAF A131), duly completed, to his unit HQ for transmission to the appropriate 2nd Echelon component.

(c) A member may obtain the assistance of an officer of the AALC in the preparation of a will.

1. 129 Aust. Gen. Tpt. Coy.(AIF) Routine Order 376 of 30 Aug. 44 is repeated hereunder.
2. The critical rubber situation and the necessity for obtaining the maximum service from tyres has been stressed from time to time. The further deterioration of the situation, necessitating the introduction of tyres of synthetic construction, renders it imperative that greater care than ever be exercised in the use and maintenace of all tyres, whether of synthetic or natural rubber construction.
3. Synthetic tyres are far more susceptible to failure through abuse than tyres constructed from natural rubber. All concerned, will therefore:-

(a) Exercise the utmost care to avoid:-

Overloading,
Underinflation,
Hard braking and fierce acceleration.
High Speeds,
Bumps and other causes of severe impact.

(b) Check wheel alignment frequently and correct irregularities promptly.
(c) Rotate tyres regularly.
(d) Remove stones and flint from tyres during unit maintenance.
(e) Submit tyres for replacement at the correct stages for recapping; and
(f) Submit damaged tyres for repair without delay.

4. It will be ensured that prompt disciplinary action is taken where breaches of this order occur.

(vii) Each Customs declaration represents a permissable value of £2 within the parcel to which it is attached.

(viii) Where the value of the contents in any one parcel exceeds £2, a further declaration for each additional £2 (or fraction thereof), up to the maximum of £8 must be attached, e.g. a parcel containing goods to the value declared value of £6 would require three labels attached.

It is stressed that full duty will be levied in the Unit Kingdom (for collection from the addressees) in respect of any contents of parcels which infringe the restrictions contained in para 1 (ii) above. In addition to these duty charges, the contents of any parcel not bearing a Customs declaration, received into the United Kingdom, are subject to purchase tax amounting in many cases to 100 per cent of the value of such contents. This tax is chargeable on most manufactured articles, but tobacco and foodstuffs are excluded.
