2. LEAKAGE OF MILITARY INFORMATION IN PROCEEDINGS BEFORE CIVIL COURTS.

1. When giving evidence in a civil court, a soldier will merely give his number, rank and name and state that he is a member of the AMF, without mentioning the name of his unit.

2. In no circumstances will a soldier divulge in open court the location of his unit, unless the bench rules that a full answer is essential to the case, in which event he will offer to write the information on a slip of paper to be handed to the bench.

2. POWERS OF SENTRIES & GUARDS GRO A648

1. Regulation 8A of the National Security (General) Regulations (Statutory Rules 1942, No 374) provides that, without derogating from or restricting the existing powers or rights of sentries and guards, a military sentry or guard stationed or posted at, on, in, or in the neighbourhood or vicinity of, any prohibited place, protected area, controlled area, or any premises used by the Commonwealth, or used for defence purposes or for essential services, or any vehicle, vessel or aircraft used by the Commonwealth, or any enclosed wharf or picking up place, or any merchant vessel lying in port, or any road, pathway or waterway, specified in an order by the Minister which passes through or near a prohibited place or work of defence, may be armed, and may -

(i) use his weapons against, or otherwise attack, any person who, in disregard of a warning given by a sentry or guard, approaches, enters, leaves, or passes over or in the vicinity or neighbourhood of, or attempts to approach, enter, leave or pass over in the vicinity or neighbourhood of, that place, area, premises, vehicle, vessel, aircraft wharf, picking up place, road, pathway, or waterway, or who after being arrested for so doing, escapes; and

(ii) use his weapons against, or otherwise attack, any person attacking him or who is reasonable suspected of being about to attack him.

2. Thereare, however, certain principles which must guide all sentries and guards in the execution of their duty as such, and in the exercise of the right to resort to arms.

3. These principles are :-

(a) Sentries and guards will be ordered to take action required to ensure the safety of their posts or to defeat the activities of enemy, or suspected enemy, agents.

(b) If necessary, they will fire upon or otherwise attack any persons threatening the safety of their posts or engaging in hostile actions.

(c) Before firing upon any person, the sentry or guard will, except in an urgent case od self-defence, challenge that person to "HALT". If that person does not "HALT", the sentry should challenge him again with "Halt or I Fire". If he does not halt, and no other means are available for stopping him - as for example, by calling on the rest of the guard - it is the duty of the sentry to shoot.

AUSTRALIAN WAR MEMORIAL AWM2022.5.1360

(d) The sentry will use his intelligence and sense of responsibility in choosing whether he will shoot or not and he must be careful not to allow any suspected person to approach so close that he can be rushed and overpowered.

(e) Guards of enemy prisoners of war. An enemy prisoner of war attempting to escape may be fired upon, but a previous summons to surrender will be given if possible.

(f) Guards of members of the forces in custody

(i) An escort or guard is not justified in using his weapon merely for the purpose of preventing another member from escaping from custody and if he so uses his weapons he may render himself, as well as any officer or NCO under whose orders he acted, liable to be charged with murder, manslaughter or incitement to murder.

(ii) If a member in custody attempts to escape, the escort or sentry will immediately raise the alarm and give chase. He may call any passer-by to assist him in apprehending the escapee.

(iii) An escort or guard may be justified in using his weapons when a member in custody resorts to violence. In such circumstances an escort or guard may meet force with force, but care must be taken to use no more force than is necessary to overcome the violence offered. Hence, even when violence is offered to an escort or guard, it will only be as a last resort that the use of weapons will be justified.

4. Orders for guards and sentries will be framed in conformity with the above and guards and sentries will be suitably instructed as to their powers and duties.

2. A.B.C. COMPETITION - NATIONAL AUSTRALIAN SONG

The Australian Broadcasting Commission is conducting a competition in the hope of discovering a song with the qualities that will cause it to become eventually "national".

Prizes totalling £105 will be awarded for the best songs written by Australian composers : First Prize is £60; Second Prize £30, third £15. The merits and appropriateness of the lyrics will be taken into consideration.

There will also be special prizes of £20, £10 and £5 for the lyrics of the winning songs, if written especially for the competition. The verses, new or old, must be written by an Australian Author.

The closing date of the competition is 31 Dec 43 and if the adjudication can be completed in time it is hoped to broadcast a performance of the winning songs on the National relay of the Australia Day programme on 26 Jan 4

The competition is open to Australian born citizens and to British subjects and Naturalised Australians domiciled in Australia. There are no entry fees.

It is desired that units bring this competition to the notice of all members. Units desiring entry forms and copies of the rules of the competition should communicate direct with the Manager, A.B.C., Brisbane.

1. The necessity of immediately reporting to the R.A.P. upon the first symptoms of diarrhoea cannot be too strongly emphasised. Common diarrhoea if attended to immediately it manifests itself, can be cured with a minimum of inconvenience to the sufferer, If allowed to persist it invariably infect the intestines to such an extent that dysentry follows.
2. Dysentry in the last war accounted for more casualities than bullets.
3. Both common diarrhoea and dysentry are infectious. One sufferer, through neglect to obtain early treatment, can infect a whole unit.

3. CONSERVATION OF PETROL

The strictest economy is to be exercised in the use of petrol. On no account will petrol be used for the cleaning on Motor or Motor Cycle engines or for lighting fires.
